Ayer's Cathartic Pills

ARE the most perfect purgative which we are able to produce or, which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and spread disease, rouse into vigorous health the sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immense y to the relief of our afflicted, suffering fellow men.

The Agent below named is pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an excellent medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o23—2m

PERRY DAVIS' PAIN KILLER

Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant! Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and molasses, and a gill of hot water. Stir well together and drink hot. Repeat the dose every hour until relieved. If the pains be severe, bathe the bowels and back with the medicine, clear.

Fishermen, and others exposed to hurts by having their skin pierced with hooks and fins of fish, can be much relieved by bathing with a little Pain Killer as soon as the injury occurs. In this way the anguish is soon abated; bathe as often as once in five minutes, say three or four times, and you will seldom have any trouble. n1 dawlm

CONTAGIOUS DISEASES.—Water must be adapted to the nature of the fish, or there will be no increase; the soil must be adapted to the seed, or there will be small returns; and the human body must contain impurities, or there will be no sickness. The man whose bowels and blood have been cleansed by a few

BRANDRETH'S PILLS

may walk through infected districts without fear. "The life of the flesh is in the blood." To secure health we must USE BRANDRETH'S PILLS, because we cannot be sick but from unhealthy accumulations in the bowels or the blood, which Brandreth's Pills remove; this method is following nature, and is safe, and has stood the test of time. See the Brandreth in white letters on the Government stamp. Sold by all Druggists. o29—1mdaw

DR. P. MEREDITH, Dentist, office No. 132 West Sixth Street, states as follows:

CINCINNATI, October 1, 1863.

MESSRS. J. N HARRIS & CO.—Gents: About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of phlegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A distinct rattling in my throat indicated that I was in the last stage of Consumption, and could not possibly get well. I was recommended to try

ALLEN'S LUNG BALSAM

The formula was shown to me, which induced me to give it a trial, and I will only add that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully, P. MEREDITH.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, they act more direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared only by JOHN L. LYON, 106 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

"BOSTON, Mass.

"ORRIN SKINNER & Co.—*Sirs:*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Croup, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated sore throat, used some of his and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."

Local.

☞ The new Congress Block is nearly complete externally, and towers majestically above the surrounding buildings. This fine structure, and Col. Peirce's new brick block corner of Chestnut street, with their lofty fronts and showy French roofs, are very great improvements to Congress street. And by the way, is it not a little singular, that there is but a single *wooden* building in the city, with such a roof? We think that the erection of such buildings as the blocks named, and the residences of Mr. Parrott and Mr. A. L. Jones, evince some enterprise among us, at any rate—for probably there were never four such costly structures put up in the city before.

Messrs. Shores and Preston are fitting up their old locations handsomely, to re occupy as formerly; and Mr. Batchelder will remove his newspaper and variety business to the other store in Congress Block.

We learn that Messrs. Frye & Ferguson have bought of J. P. Morse, esq. the old newspaper stand, now occupied by Mr. Batchelder, and will remove their grocery business thither directly; and that Mr. Aaron Akerman will resume business again in his old store, now occupied by Fry & Ferguson. There is some talk,—as there has been for years,—of a new block next spring, in place of that old rookery, which disgraces the fine site of the old Belle Tavern—ignorantly corrupted to Bell Tavern, finally.

S. J COURT, Nov. 23.—*Doe. J*—The case Patrick Barry v. Timothy Murphy and Michael Carroll was tried. This was a suit to recover damages which the defendants had occasioned by an assault upon the plaintiff on the 24th of April, 1865, tearing and destroying his clothing. Verdict for plaintiff, $27.50 Hackett for plff., Goodall for defts.

The next case on trial was that of Thom as Odion v. Charles W. Stimpson—assumpsit for note of $80, given in 1850.—Hatch for plff., W. H. Hackett for deft The defence in this case was the statute of limitations. Verdict for the plaintiff.

The case Wm. H. Dennett v. Joseph O. Ham, an action of trespass for cutting and carrying away from the land of Dennett several tons of hay, was next on trial. Webster for plf., Goodall for deft.

☞ Hon. Geo. S. Boutwell delivers the second lecture before the Citizens Lyceum, on Monday evening next, in connection with which there will be a concert by the Portsmouth Cornet Band. A few course tickets remain unsold, to be had at the usual places at the very low price of $1.50.

The Mendelsohn Quintet Club of Boston, with Miss Addie Ryan, are to give one of their beautiful concerts during the course, and Gen. Howard is also to lecture. The course would be cheap at double the money. Evening tickets $50 cts.

☞ This evening will be the closing exhibition of the beautiful panorama of "The Streets of New York" and "The Central Park," being a series of tableaux showing the most noteworthy objects of interest and beauty in the city and park, full particulars of which are given in the bills of the day. As an additional inducement, the proprietor gives each lady, who has acted as an advertiser, a sheet of popular music which retails for the full admission fee.

To accommodate children and ladies unable to attend in the evening, there will be an afternoon exhibition, when admission to all parts of the house will be afforded at half price.

☞ Auctioneer Wendell has an extensive sale of furniture, stoves, stone china ware, &c., at 10 o'clock this morning. At half-past 12 he will dispose of the valuable property known as Badger's Ship Yard.—In the evening he offers woolen goods, &c. No Postponement on account of weather. See auction column.

Betton & Co. will sell furniture and miscellaneous goods at 10 A. M. and 7 P. M.

COUNTERFEITING.—The operatives of the Secret Service Division of the Treasury Department have captured within a few days a printing press, steel plates, paper, and other apparatus for printing fifty cent fractional currency notes, and also a large number of notes of the counterfeit issue. The notes are exceedingly well executed, the imitation of the lathe work, which is considered to be the best protection against successful imitation, being engraved with great skill. The vignette of General Spinner is accurate, and the green color used is said to be the best ever seen upon a counterfeit. These notes may be best detected by observing the letters of the words "Receivable for all United States Stamps," at the bottom of the note, the outlines being quite imperfect, especially in the words "States Stamps."

☞ The Annual Meeting of the Rockingham County Agricultural Society, to be held at Hampton, Dec. 1st, for election of officers, &c., should be attended by every member who is interested in the welfare of Society.

☞ Attention is called to a large lot of new advertisements on the fourth page of this issue, and especially to that of Geo. P. Rowell & Co., desiring a solicitor of advertisements in every city and town. We know them to be wide-awake business men, and the inducements they offer are liberal.

☞ We understand the new ship recently launched by Messrs. Tobey & Littlefield, is being rigged by a gang of riggers from Kennebunk. Isn't that bringing coals rather near to Newcastle?

SCHENCK'S MANDRAKE PILL.
A certain Cure for Diseased Liver and the many Dangerous Maladies which are caused by a morbid condition of that organ.

To give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce those wonderful effects which are attested by thousands of reliable witnesses, we present a brief

DESCRIPTION OF THE HUMAN LIVER

and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.

The liver is supplied with blood vessels, nerves and absorbants. One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from all impurities. How indispensably necessary to health is the proper performance of this function! If the liver is diseased, it cannot purify the blood, and if that is sent back through the lungs, brain and other parts in a morbid condition, it must cause Jaundice, biliousness, obstruction of the kidneys, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to make a man sick and uncomfortable, and unfit for the performance of any of the duties of life. This healthy state of the system very often ends in pulmonary consumption

The circulation of the blood is conducted in this manner:—The heart sends the vital current down through the arteries; it passes through the limbs, taking up all impurities in its progress; then the stream of blood flows backward through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of ulceration while that important organ, the liver, is diseased. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the use of some cough medicine, the basis of which is morphine or opium in some shape, which locks up the liver instead of relaxing the secretions, giving a tone to the stomach, and producing a healthy flow of bile. Dr. Schenck's

Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills,

will strengthen the system, purify the blood, and rigorously clear out the lungs.

A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz: Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills—all of which are accompanied by full directions for the use of them.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1 50 per bottle, or $7 50 the half dozen. Mandrake Pills 25 cents per box.

HARPER'S
NEW MONTHLY MAGAZINE.
Critical Notices of the Press.

It is the foremost Magazine of the day. The freshest—never had a more delightful companion; nor the million a more enterprising friend, than Harper's Magazine.—*Methodist Protestant* (Baltimore)

The most popular Monthly in the world.—*New York Observer.*

We must refer in terms of eulogy to the high tone and varied excellence of HARPER'S MAGAZINE—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the culture of the American People; and the popularity it has acquired is merited. Each number contains fully 144 pages of reading-matter, appropriately illustrated with good woodcuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—TAUBNER'S *Guide to American Literature, London.*

The volumes bound constitute of themselves a library of miscellaneous reading, such as cannot be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

SUBSCRIPTIONS.
1867.

The Publishers have perfected a system of mailing by which they can supply the MAGAZINE and WEEKLY *promptly* to those who prefer to receive their periodicals directly from the Office of Publication.

The postage on HARPER'S MAGAZINE is 24 cents a year, which must be paid at the *subscriber's* post-office.

Terms:

HARPER'S MAGAZINE, one year.....$4 00.

An Extra Copy of either the MAGAZINE *or* WEEKLY *will be supplied gratis for every Club of* FIVE SUBSCRIBERS at $4 00 *each, in one remittance; or Six Copies for* $20 00.

Back Numbers can be supplied at any time.

A Complete Set, now comprising Thirty-three Volumes, in neat cloth binding, will be sent by express, freight at expense of purchaser, for $2.25 per volume. *Single volumes*, by mail, *postpaid*, $3.00. Cloth cases, for binding, 58 cents by mail, postpaid.

☞ Subscriptions sent from British North American Provinces must be accompanied with 6 cents additional, to prepay United States postage. Address

GEORGIA.—There are now in Georgia 48 schools for freedmen, with 63 teachers and 2755 pupils. Of these teachers 23 are colored and 40 are white, and of the scholars 1109 are males and 1646 females. The Freedmen themselves are sustaining 34 of these schools, with an equal number of teachers and 1060 scholars, and they partly sustain 14 other schools. During the month of October they paid about $1000 for the purpose of education, which shows that they are willing to pay for their education when they have the ability. The number of schools and of scholars is rapidly increasing in Georgia, and will continue to increase as the freedmen realize more fully the benefits to be conferred upon them by the schools. There is still considerable antagonism between the whites and blacks in Georgia, and murders of the freedmen are of frequent occurrence in many of the counties.

— To treasure up the memories of injuries received, is to store the casket of your heart with ofal instead of jewels.

— A lazy young dandy of our acquaintance says that he is a model of "one's duty to one's neighbor," because he loves both case and shoe.

— The fishing banks pay to Massachusetts men better dividends than moneyed institutions—the annual profits exceed the amount of capital invested.

— "Sambo, you's larned in the law; can you say, if the devil was to lose his tail, what would he go to find another one?" "Why, to de grocery, ob course, you ignorant nigger—dat's de only place I knows on what dey re-tail bad spirits."

— A systematic effort on the part of some speculating scoundrels to swindle the freedmen out of their cotton by buying it with counterfeit greenbacks, has just been brought to light on the Sea Islands. Gen. Scott, of the Freedmen's Bureau, is doing his best to ferret out the perpetrators of this piece of heartless knavery.

AMERICAN AND FOREIGN PATENTS
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U.S. Patent Office, Washington, under the Act of 1857.
78 State Street, opposite Kilby Street, BOSTON.
After an extensive experience of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers connected with Patents, executed on liberal terms, and with dispatch. Research can be made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by any other agency, if not by any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the undersigned; and as SUCCESS IS THE BEST KIND OF ADVERTISING AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice which this office has enjoyed during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents, &c.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to prepare their patents, as they may be sure of being in the safest faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART
During eight months, the subscriber, in the course of his large practice, made upwards of twenty-seven SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the examiners-in-chief. R. H. EDDY.

NEW ADVERTISEMENTS.

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Books Published.
We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other company.
Our Books do not pass through the hands of General Agents (as nearly all other subscription works do), therefore we are enabled to give our canvassers the extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.
Our series embraces the most popular works on all subjects of importance, and is selling rapidly, both North and South.
Old agents, and all others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our works with those of other publishers.
Address, NATIONAL PUBLISHING CO., 148 Water St., Boston, Mass.

Book Agents Wanted.
Now ready for delivery, a great National work—not political or sectional, but patriotic in it, it is standard; will never lose its interest; has no competition; eight distinguished literary men were employed in writing it; time from commencement to close, over four years; is endorsed and highly commended by the most celebrated literary and scientific men in the country, including twenty-seven Presidents of Colleges; is equally interesting and useful to all classes; is worth more than its weight in gold to every family or young person. We have sold more books than any one subscription Publisher, yet more subscribers are taken for this work, per Agents sent out, than any book we ever sold. It is sold direct to the large list commission, we pay freights, leaving nothing but personal expenses; also a bonus to Agents of fifty dollars every twenty hundred books we sell; we sell one hundred copies. Experienced and successful Agents wanted, others need not apply. For full description and terms address
L. STEBBINS, Hartford, Ct.

STOVES! STOVES!
ALL READY FOR THE FALL TRADE
The Best Cook Stove Out!
URIAH BLAISDELL,
No. 43 Market Street,
Offers to his friends and the public the celebrated
KEARSARGE
COOK STOVE,
Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made of the best of stock, and, what is more, works equally well with coal or wood.
In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.
A few names, in different localities, of the many purchasers of this stove, are subjoined, for convenient reference:

Daily Morning Chronicle

VOL. XXIX. PORTSMOUTH, N. H. MONDAY, NOVEMBER 26, 1866 No. 125.

The Chronicle.

☞ Burleigh sends from New York to the Boston Journal, the following spicy item on Politicians in Alarm:

All the vile and defaming elements in the city united to elevate the Democracy again into power in the State. With success the Excise Law was to be repealed; the Commissioners of the city to be broken up; the Police, the Board of Health, the Water Board, the Central Park, all to be put back into the hands of the Ring. The defeat of Hoffman put the hand-writing on the wall. The Governor is determined to have an investigation into all the departments of the city. A knowledge of this fact has carried consternation among the robbers.—The Street Commissioner, who has but four weeks to serve, has resigned. Brennan, the Comptroller, refuses to be again a candidate. The rulers of New York city are at their wits' end. They threaten to "head off" the Radicals by negro suffrage. They have oppressed the colored man when it was profitable to do so; and if they can use the negro and through him obtain office, they won't object to helping him a bit.

YANKEE NOTIONS IN PALESTINE.—The Philadelphia Inquirer, noticing the arrival of the American colony at Jaffa, says:

"This emigration to the Holy City will be but a begining of the hegira which will populate Jerusalem with a dreadfully smart people. They will introduce to the benighted Asiatics subsoil plows, mowing machines, steam engines and the electric telegraph. The will transform the appearance of the Holy City. They may put up a cotton factory on famed Mount Moriah, and run a saw-mill with the water of the Brook Kedron. They will plant Indian corn on the Mount of Olives, and perhaps pumpkins in the Valley of Hinnom. Beanpoles will support their leguminous treasures in the Valley of Jehoshaphat. The establishment of a Congregational Church on Mount Zion, and the erection of gas works opposite the Hebron Gate, may be reckoned among the possibilities of this strange emigration, which recompenses the world for the migration always hitherto from the East to the West, by sending a few pioneers back again."

THE "SOLID MEN."—The Boston Commercial Bulletin says:

"It is because many of the 'solid men of Boston' are so solid that they block up the highways of enterprise. Enterprise to them is only another expression for reckless adventure; they live only in the region of dividends and rents; and, dying, bequeath rich legacies to Harvard College, to perpetuate wisdom in coming generations. This is no caricature—it is a truth that stares us in the face; it is the wealth of Boston, thus consolidated, that is the incubus deadening all our energies."

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capottes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all disease incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
In all cases, or No Charges Made.
Among the physicians in Boston, none standhigher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call
P. S.—Dr Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Morning Chronicle.

Portsmouth N. H.

MONDAY, NOVEMBER 26, 1866.

FUNERALS.—The clergymen of Norwich, Ct., issued a circular expressing their determination to attend no more funerals on the Sabbath, except in cases of absolute necessity. They object to the practice as being a clear violation of the fourth commandment, both from the amount of work it involves, and because it keeps many people from attending the church services.

If it is really a matter of conscience, no blame should be cast on these clergymen—yet the wisdom of their decision is questionable. If the funeral services they perform are religious services, (as they should be,) they are fit for the Lord's Day. And as to the work,—if they would advise to dispense with needless parade and burdensome expense, they might prevent improper labor on that account.

There are, on the other hand, some things in favor of Sunday funerals. Mechanics and laborers are not dressed on week days, and are so employed as to make it inconvenient for them to attend at funerals, but on Sundays they can attend. Solomon said, It is better to go to the house of mourning (than to that of feasting) for that is the end of all men, and the living will lay it to his heart. If Solomon was wise in this matter, we may borrow a little of his wisdom, and at a funeral make the most valuable impressions on the assembly. And this may be done in a church, or a dwelling, or at the grave. U. T.

Correspondence of Chronicle.

NEWBURYPORT, Nov. 24.

Dear Chronicle:—There was a very large gathering of men interested in naval architecture in this city to-day to witness the launch of the monster steamship Ontario, the pioneer of the new Boston and Liverpool line. The day was cold, and the raw biting wind from the river gave much discomfort to the crowd that so anxiously awaited that feat known in chemistry as "the passage of a body from a solid to a fluid."

Towering high in the air, until vessels of moderate size near her seemed but puny craft, the noble steamer revealed her beauties to all, and many feared her great weight and the nature of the land on which she was built might prove drawbacks to a successful launch. But the constructors had made their calculations with two much accuracy to admit of failure, and at full tide the great mass began to move—almost imperceptibly, at first; then with a headway which it seemed could hardly be checked. Great planks and timbers flew up in the air, as the chaff scattered by a whirlwind; large trees were torn up by the roots and dragged into the river by the hawsers fastened to them; a kedge anchor was dropped, but getting foul of an immense hawser was tossed up several times as though it were a mere fish hook; the great hawser parted, and the Ontario ran hard ashore in the soft mud on the eastern side of the Merrimac. The tug present was unable to haul her leviathan sister off before the tide ebbed, but additional power was expected before the next flood. The launch was most beautiful and the vessel undoubtedly has no superior afloat.

One of the strongest built vessels I have ever inspected, her length is 325 feet from the main or inner stem post to the stern, which is said to be about a hundred feet longer than the frigate Pennsylvania, and only about fifty feet less than the Great Republic, launched in New York, which was the largest vessel ever built in an American ship yard, as the Ontario is the largest ever built in New England. Her extreme depth is 42 feet, and depth of hold 29 feet—divided into lower hold 13 feet, lower between decks 8 feet, and upper between decks 8 feet. She is about 3000 tons burden, and will have capacity for upward of 1500 tons of freight. The cabins, which are below the upper deck, will furnish luxurious and spacious accommodations for fifty first class passengers and seventy-five second class passengers. She will be bark rigged, and goes to Boston to take in her machinery. Ready for sea she will have cost about $500,000.

Ex-Mayor George W. Jackman, Jr., of Newburyport was the Contractor, and the work was carried out under the direct supervision of Messrs. Pierce, (formerly of your city) and Mcmichael, who contracted with Mr. Jackman for the greater portion of it. The manner in which it was performed under their direction is spoken of in terms of the highest praise.

The frame of the Ena, a sister steamer of the same dimensions is nearly all up.

JON.

☞ On Friday, at Washington, the Secretary of the Treasury, in a conversation with a friend, said the disturbed condition the New York money market was not in consequence of anything that had been done in relation to the finances.

☞ It is said the French Emperor declines to take his soldiers away from Mexico, just now, but promises to do it in the spring. His word is about as good as Pres. Johnson's.

Correspondence of the Chronicle.

A Canard—New Buildings—Some Squirrel—Schools—Violins, &c.

RYE, Nov. 24, 1866.

Mr. Editor:—That I have been very remiss as a "regular" correspondent, is evident from my prolonged silence. A growing indifference to duties of a "regular," and the lack of material for a first-class "sensation" must constitute a suitable apology.

The recent paragraph in the papers concerning hotel charges—and broadly hinting on the "Ocean House" has of course brought out a card from the Proprietors. (See Daily Chronicle of Saturday.) This absurd *canard* was spread abroad in this vicinity months and months ago, and was long ago branded with its proper character, the lie exploded, and the circumstance nearly forgotten. The only wonder is that it did not appear in print a year ago, considering the malice of the individual referred to, and his persistent attempts to injure the reputation of the House. Mr. Jenness took no notice of his silly yarns until they assumed the offensive form of newspaper paragraph—when he was of course bound to defend himself. The regular prices at the "Ocean House" for single first-class rooms are $4.00 per day—which is, as everybody knows, under the prices of the "crack" hotels at Newport, Saratoga, and other *fashionable* resorts.

The affair took place one year ago last July—at a time when the Ocean House was filled to overflowing, and in one hour after the dissatisfied party had left the house, the same rooms were again let to another party for $25 per week more, than was charged the departing individuals.

The story has had a great circulation, was magnified almost ten-fold, and in reality amounts to just nothing. The Ocean House is an established institution—widely known to the travelling public, always has first-class company and is in every respect a success. It has outlived a good foolish story—and impotent attempt to injure it. Nobody around here anticipates anything very alarming in consequence of this decidly windy affair.

Ex-President Pierce is to have a summer residence on his farm at Little Boar's Head. Work is already considerably advanced, and the buildings will be finished in the Spring. It is rumored that several other gentlemen have purchased lots of the General, and will immediately erect thereon summer residences for themselves or friends. It is said that a Hotel in that vicinity is also contemplated. How much of this talk really means *business*—time will shortly and surely tell.

In Rye the new house of Wm. F. Weld of Boston is rapidly approaching completion. It will be a large and quite expensive house.

Extensive preparations are being made for reception of company another year. New buildings will be erected and old one's repaired and enlarged. That they will all be filled to repletion during the summer months is evident from the "sings of the times."

Mr. Edward H. Balch recently killed a grey squirrel whose extreme length from nose to tail was two feet and ten inches.

Mr. J. C. Philbrick is building a cupola on his new hotel.

Dancing School at the "Atlantic House."

Singing School at the new saloon.

SOUTHERN RAILROAD INDEBTEDNESS TO THE GOVERNMENT.—At the close of the war, large sales of locomotives, cars and other railroad rolling stock were made to Southern railroad companies, on credit. But a small portion of the notes given have been paid, and the indebtedness now exceeds seven millions of dollars. The Nashville and Chattanooga road alone owes over a million and a half of dollars. Why should these chivalric people be required to give any guarantee for the future?

IN MISSOURI, Gov. Fletcher, Hon. B. Gratz Brown, Hon. H. F. Blow and other prominent Radicals, have inaugurated a movement for the rejection by the Legislature of the Constitutional Amendment and the amendments to the State Constitution, so as to abrogate the disfranchisement of the rebels and substitute therefor negro suffrage.

ARKANSAS LEGISLATURE.—A special dispatch from Little Rock, says a resolution has been introduced in the Arkansas Legislature, calling on the Governor for information in regard to the attempt to overthrow the present State Government. The resolution was called forth by a call signed by a few obscure individuals at Fort Smith for the purpose of inaugurating a new State Government. The Legislature is still unable to elect a United States Senator.

EXODUS FROM NORTH CAROLINA.—The Greensboro' (N. C.) Patriot says that "another train, under superintendence of Mr. Coffin, left this place on Monday night last. There were about three hundred, from various counties in middle Carolina, all seeking homes in the West and Northwest."

JOHN H. SURRATT.—The Boston Journal's Washington correspondence says:

The arrrest of John H. Surratt confirms the statement concerning him made not long since by Governor Boutwell. Could he have been brought to this country he might have substantiated the evidence on record, that he visited Jeff Davis at Richmond, and there planned the assassination of Mr. Lincoln and his Cabinet. As it is very evident that Surratt received the protection of the Catholic Church, it is doubtful whether he can be brought to justice.

Isaac N. Surratt, a brother of John, who was formerly Captain in the Texas rebel cavalry, was in Baltimore not long since. He went from there to Canada, and is loud in his denunciation of President Johnson as the murderer of his mother.

A GOOD WOMAN GONE.—The Concord Monitor says Mrs. Lucinda A., wife of Weare Tappan, Esq., died last Wednesday morning, at the residence of her son, Col. Mason W. Tappan, Bradford, N. H., in the seventy-fifth year of her age. The deceased was a fine specimen of the old school of ladies, who maintained a lively interest in the present, added to great intelligence: rare conversational powers, keen insight of persons, a strong, moral nature, and a catholic spirit, bounded by no creed or color, made her presence a benediction, and her life a pleasant recollection. Had she lived until Christmas, it would have been the fiftieth anniversary of her marriage.

WASHINGTON FASHIONS—Small hoops, scant clothes and short skirts.—Perley says, "The ladies of the Diplomatic corps, who have their bonnets and their dresses made abroad, and are thus able to exhibit the latest fashions on Pennsylvania avenue, are out these pleasant afternoons with the slightest apologies for hoops, and with short skirts. All have heard of the little old man who, while on her way to market, fell asleep on the king's highway, where she warrantable liberties were taken with her skirts by a naughty linker named Stout. When the old dame woke up, and found how her garments had been abbreviated, she could hardly believe that it was herself, and some of our lady promenaders, who used to sweep with duplex hoops and trailing skirts, appear almost ashamed of themselves in their closely fitting short dresses." They need not be ashamed at all,—for the trailing skirt in the streets soon became a filthy rag.

LONDON ITEMS. Friday, by cable.—A large quantity of arms designed for the use of the Fenians, has been seized on board a Liverpool bound steamer at Cork; and a schooner, supposed to have Fenian arms.

The Paris correspondent of the London Post says the relations between England and the United States will soon be critical.

La France editorially admits that the departure of Maximilian from Mexico is likely to take place at any moment, if it has not already been accomplished.

☞ A Washington letter to the Boston Herald says, the Conservative Soldier's Club there held a meeting and passed resolutions in favor of impartial suffrage and requesting the conservative journals to support it. A committee was appointed to present the resolution to the President, coupled with one requesting him to appoint soldiers to the local offices of this District.

The Southern men who have been urging on the President the policy of issuing a proclamation of amnesty are not so confident now as they were last week, that one will be issued. The President has already commenced the writing of his annual message and finds no time to listen to the views of the parties who have been urging this step on him.

☞ The corner-stone of the old Masonic temple in Baltimore was removed the other day to be incorporated into the new one. It was laid in 1814, and when it was opened notwithstanding the care taken to transmit to posterity the history of the building, two coins of gold, a half eagle of 1795, and an eagle of 1811, with the inscription on the marble, were alone found to be unimpaired. The silver was blackened and defaced, the figures on the copper had disappeared, and some remnants of decayed binding were all that testified to the printed volumes that had been placed within the stone.

AT ST. LOUIS, Nov. 23, the Stephens wing of the Fenian Brotherhood, in mass meeting at their headquarters adopted resolutions re-affirming their confidence in Stephens and condemning another movement against Canada as waste of blood and war material.

— The herring fisheries of eastern Maine have proved highly profitable the present season, and the demand for labor is so great as to cause agriculture in the vicinity to be much neglected. Eastport, Lubec, Cutler, and the neighboring islands reap a heavy harvest from the fisheries.

☞ At Nashville, Tenn., a large meteor was seen on Tuesday morning, which exploded with great violence, shaking the buildings for miles around.

FROM CALIFORNIA.—Three thousand mineral specimens have been collected for the Paris Exposition next year.

The following message, signed by Governor Low, the State Comptroller, the Auditor, Attorney General McCullough and Adjutant General Evans, was transmitted by telegraph to the California delegation in Congress:

"The appointment of John Bigler as Assessor of Internal Revenue at Sacramento is exceedingly distasteful to all Union men. Cannot the President be induced to rescind it? If he will not, prevail upon the Secretary of the Treasury to delay the organization of affairs under Bigler. Any other course will throw the district into confusion, as none but rebels will serve under Bigler."

MEXICAN AFFAIRS.—Mexican matters just now occupy the attention of our public men. I am able to state, says Perley, on high authority, that General Sheridan did not arrest General Ortega in obedience to orders from Washington, but on his individual responsibility, as he felt confident that Ortega was violating the neutrality laws. General Sheridan informs the President that he is convinced that Juarez is the chosen ruler of a large majority of the Mexican people, but that a few French and English merchants, who desire to monopolize the trade of Northern Mexico, to the exclusion of Americans, prefer Ortega. The United States Government fully approve of General Sheridan's action and will sustain Juarez.

DR. P. MEREDITH, Dentist, office No. 132 West Sixth Street, states as follows:

CINCINNATI, October 1, 1863.

Messrs. J. N. HARRI & CO.—Gents: About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of phlegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhœa set in. My friends thought I was in the last stage of Consumption, and could not possibly get well. I was recommended to try

ALLEN'S LUNG BALSAM.

The formula was shown to me, which induced me to give it a trial, and I will only add that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully, P. MEREDITH.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that 50,000 bottles are annually used and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of it in great merit. They are rapidly taking the place of every other female Remedy, and are considered by all who know aught of them, as the surest, safest and most reliable Regulator in the world for the cure of all female complaints, the removal of all obstructions of nature and the promotion of regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, accompany each bottle, without producing effects contrary to nature's chosen laws will be found carefully folded around each bottle, with the written signature of John J. Lyon, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally or by mail, (enclosing remittance) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

PERRY DAVIS' PAIN KILLER

Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and molasses, and a gill of hot water. Stir well together and drink hot. Repeat the dose every hour until relieved, if the pain be severe, bathe the bowels and back with the medicine. clear.

Fishermen, so often exposed to hurts by having their sails jibed with the boom, and fishermen of fish, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs. In this way the anguish is soon abated; bathe so often as once in five minutes, say three or four times, and you will seldom have any trouble. al dawlm

AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

BOSTON, MASS.

"ORRIN SKINNER & Co — *Sirs:*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate ease, and is the best medicine he ever used. A family near him, suffering from Colds and Ulcerated sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is much astonished to acknowledge that they are valuable. Truly yours A. B. ELDER."

The Life Drops are carefully prepared by

CHARLESTOWN, MASS., Nov. 23, 1865.

Messrs. BURRIDGE & ROGERS, Boston, Mass.:

I feel it a duty I owe to you, and to such of the community as are suffering as I have suffered, to make known through the medium of your advertisements the cure that, through the blessing of God, your medicine has wrought in me by using SMOLANDER'S BUCHU. I had *suffered over one year* with *Kidney Disease* so bad I *could hardly walk*. I took four bottles of Smolander's Buchu, and it *cured me!* WILLIAM H. MCCLEN,

Local.

☞ We regret to learn of the sudden death of Capt. Charles E. Blunt, which occurred on Saturday. Mr. Blunt was engaged about his boat, near the foot of Gardiner street, and, informed a friend, intended to haul the boat up at high tide. About an hour later, a boy driving past, saw from his elevated position in the team a man lying in a boat, and asked a gentleman whom he saw, what the man was doing there.—This caused a visit to the boat, when Mr. Blunt was found, apparently dead, with his neck resting upon the gunwale of the boat, his cap having fallen into the water. It was found that life was not yet extinct, and he was borne to his residence, where he expired in a few moments. It is uncertain whether his feet slipped upon the ice and snow in the bottom of the boat, throwing him backward and injuring his neck, or whether he was visited with a paralytic shock. He had been in feeble health for some time.

BUFFALO THIEVES.—Stephen Martin, who resides at the "Plains", was in the city on Friday with his horse and wagon—in the latter he had a valuable Buffalo robe, which was stolen about eight o'clock the same evening. City Marshal Johnson got scent of the robes and thieves. The robe was found in Thomas E. Call's lumber yard at the "North End," and the persons who stole it escaped to the State of Maine. They are known and had better remain over there where they belong. They were so closely pursued by the Officer that they were obliged to throw the robe away.

☞ Mr. Boutwell's lecture before the Lyceum to night, will of course be an able and interesting oration, whatever the subject. We think he has never spoken here, but he is well known as a most effective and entertaining speaker. The entertainment will be opened with a grand Concert by the full Portsmouth Cornet Band.

The succeeding entertainments will all be of a high order, and besides a variety of vocal or instrumental music with each lecture, there will be a grand instrumental concert by the Boston Mendelssohn Quintet Club, with Miss Ryan as vocalist, in January. This alone would cost 75 cents, and we need not say the Quintet have no superiors in the country. Gen. Howard is also to appear, and Mr. Curtis, and the others announced. See advertisements for details.

☞ We learn that there is to be a grand Shooting and Bowling Match at G. H. Jenness' Saloon, Rye Beach, on Thanksgiving Day. The proprietor offers for the best shot made during the day, a splendid Silver Pitcher valued at $12 00. Smooth bore shot guns to be used. No. two shot—distance 65 yards.

Another prize consisting of an elegant silver drinking Goblet, is offered to the person bowling the largest "string."

Bowling Match to commence at 9 o'clock A. M. Shooting at 1 o'clock P. M.

☞ Mr. Frank Ackerman, the young Express Messenger whose marriage we chronicled a few days ago, has received as a Wedding present a mammoth trunk, sufficiently capacious to hold the clothing of a larger household than is usual when newly married young couples begin housekeeping.

☞ Philharmonic Society Rehearsal, Tuesday evening—roll call at half past 7 o'clock. The prompt and punctual attendance of all members is necessary to the welfare of any such institution.

☞ Mr. Ellis' Union Concert, Thanksgiving night, has an attractive programme, and talented performers.

☞ A boy named Harvey, residing at the North End, was severely scalded on Saturday.

CITY ELECTION, to-morrow, Tuesday, at 10 o'clock.

☞ Capt. Wm. W. Walker, U. S. N., after an illness of two months, died on Monday night, of heart disease, at the Brooklyn Naval Hospital. During the war he commanded the United States steamer De Soto, which rendered good service in the East Gulf Squadron by the capture of a number of fine prizes. He was assistant to the lamented Admiral Gregory in superintending contract vessels. He has written a number of clever pamphlets on engineering.

☞ A Washington dispatch (published in Philadelphia, and perhaps made there,) states that the President, after mature deliberation, has decided to abandon his opposition to Congress. He will set forth very fully in his message the reasons which have induced him to take this step. Letters have been addressed to leading Republican Senators and Representatives in regard to the matter. [Very doubtful.]

☞ The Washington Republican offers to prove, in a court of justice, that Fernando Wood, when last in Washington, declared that he was in favor of the Constitutional Amendment.

☞ Stephen R. Mallory, "Secretary of the Navy of the Confederate States," is now at Pensacola, Florida, his place of residence before the war. He is represented as quietly engaged in repairing his property, which was greatly damaged during the war.

☞ There are new rumors of a prospective outbreak in Spain, and of the Queen's purpose to abdicate for fear of it.

GOLD, Saturday, 138 1-2.

— Mrs. Elizabeth Lochman, aged over 100 years, resides all alone in an old house in the woods near Lebanon, Pa.

— Mr. Clark Lane of Hamilton, Ohio, has erected a free library building for the young men of that city, at an expense of $10,000.

— According to the South Carolina and Georgia newspapers, the crop of Sea Island cotton is estimated for this year at from 15,000 to 20,000 bales. The largest crop ever raised was about 50,000 bales.

— The Executive Board of the Colored Men's Equal Rights League of Indiana have issued a somewhat lengthy appeal to the colored men and friends of impartial suffrage in that State, urging concentration of effort, and asking material aid.

— The shock of an earthquake was felt over a large section of Eastern Canada, last Monday. At Lorette, near Quebec, it lasted two minutes, shaking everything violently, and accompanied by a heavy rumbling sound under ground, like heavy artillery.

— General John A. Sutter, the California pioneer, is now in Washington, endeavoring to get a claim against the government allowed. It will be remembered that it was upon the General's farm that gold was first discovered in California.

— It is understood, says the Raleigh Sentinel, that the rice crop of the Cape Fear is almost an entire failure. Before the war the rice crop of that region was annually about 213,000 bushels. The present year it will not go beyond 20,000 bushels.

— The official account in Illinois makes Logan's majority 56,107. Lincoln's majority in 1864 30,736. Republican gain, 25,371. Logan's vote exceeds Lincoln's 13,769, while Dickey's falls below Mc. Clellan's 11,572. The total vote of the State is 350,423. This is 2137 in excess of the vote of 1864. Nearly all the northern counties fell short of a full vote.

SURPRISING.—It is actually surprising how soon our people have learned to prize that invaluable article known as Coe's Dyspepsia Cure. It certainly acts like magic, for it will cure the very worst cases of dyspepsia, and enable the patient, who has long suffered from dyspepsia, to eat bread and the plainest food, to eat anything he chooses without fear of distress. It is considered the most valuable remedy known for all cases of the stomach and bowels. n12—1w

SCHENCK'S MANDRAKE PILL.

A Certain Cure for Diseased Liver and the many dangerous Maladies which are caused by a morbid condition of that organ.

To give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce those wonderful effects which are attested by thousands of reliable witnesses, we present a brief

DESCRIPTION OF THE HUMAN LIVER

and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.

The liver is supplied with blood vessels, nerves and absorbents. One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from all impurities. How many dangerous maladies result from the proper performance of this function! If the liver is diseased, it cannot purify the blood, and if that is not kept clean by the liver, the lungs, brain and other parts in a morbid condition, it must cause jaundice, biliousness, obstruction of the kidneys, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to make a man sick and uncomfortable, and unfit for the performance of any of the duties of life. Take a healthy state of the system very often ends in pulmonary consumption.

The circulation of the blood is conducted in the manner:—The heart sends the vital current down through the arteries; it passes through the flesh, taking up all impurities in its progress; then the stream of blood flows back down through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other disease without rousing that important organ, the liver, if diseased. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the use of some compound medicine, the basis of which is morphia or opium in some shape, which locks up the liver instead of relaxing the secretions given a tone to the stomach, and producing a healthy flow of bile. Dr. Schenck's

Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills,

will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.

A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz: Pulmonic syrup, Seaweed Tonic, and Mandrake Pills—all of which are accompanied by full directions for the use of them.

DR. SCHENCK will be professionally at his rooms every Wednesday, Boston, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. Also a full supply at the office of the Dr. Schenck's Pulmonic Syrup and Seaweed Tonic, each $1 50 per bottle, or $9 00 per half dozen. Mandrake Pills 25 cents per box.

HARPER'S NEW MONTHLY MAGAZINE.

Critical Notices of the Press.

It is the foremost Magazine of the day. The Republic never had a more delightful companion, nor the American more enterprising friend, than Harper's Magazine.—*Methodist Protestant* (Baltimore).

It is the most popular Monthly in the world.—*New York Observer.*

We must refer in terms of eulogy to the high tone and varied excellence of Harper's Magazine.—A Journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the culture of the American People, and the popularity it has acquired is merited. Each number contains fully 144 pages of reading matter appropriately illustrated with good woodcuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—*THURBER'S Guide to American Literature, London.*

The volumes bound constitute of themselves a library of miscellaneous reading, such as cannot be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

[SUBSCRIPTIONS.]
1867.

The Publishers have perfected a system of mailing by which they can supply the MAGAZINE and WEEKLY *promptly* to those who prefer to receive their periodicals directly from the Office of Publication.

The postage on HARPER'S MAGAZINE is 24 cents a year, which must be paid at the *subscriber's* post-office.

Terms:

HARPER'S MAGAZINE, one year.....$4 00.

Ayer's Cathartic Pills

ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their sending have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children, because sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agent below named is pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S, and take no others. The sick want the best, and there is for them, and they should have it.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o29—2m

HOWARD BENEVOLENT SOCIETY.

At the late annual meeting the following officers were chosen:

Ichabod Goodwin, *President.*
Charles W. Brewster, *Secretary.*
John Stavers, *Treasurer.*

Horton D. Walker, Samuel S. Green, John W. Fernald, Joseph D. Pillow, Benjamin Cheever, John H. Bailey, William C. Hatch, William Bodge, N. Medbury, L. D. Spalding, Wm. Day, *Directors.*
Stephen H. Sines, Joseph H. Foster, *Auditors.*

In consequence of the high price of the necessaries of life, and the calls of the poor in our city the past year, the Society has expended 900 dollars in relief orders, which is about $200 more than its receipts in the year; and they enter upon the winter months, when aid is more needed, with only $35 funds on hand.

Numerous cases might be mentioned, but it is not the object of the society to publish the distressing circumstances they discover, but to relieve them. There is one case, however, which it will do no injury to name. For about thirty years the society has given aid every fortnight to an old lady, who, during the whole of that time has been confined to her bed unable to help herself. A devoted daughter has, during all that time given her mother her undivided attention—and the regular aid of the Society, together with the charities from other sources, has enabled her to make her mother as comfortable as her case will admit. The woman is Mrs. Radcliffe, living South street—now eighty years of age.

As this is a charity extended to the poor of all sects and parties, and no where bestowed unless it is known to be needed, we trust there are many among us who will readily come forward and aid in sustaining the operations of the Society. By its aid in times past, many families have been kept from the almshouse, and thus saved expense to the city. There are many aged females in the town who are able to work also, without income, who by the regular aid of the Society, are enabled to support themselves.

LYCEUM.

Hon. George S. Boutwell, member of Congress from Massachusetts, will deliver the second lecture before the Citizens' Lyceum on Monday Evening next, instead of Wednesday as before announced. His arrangements with reference to the meeting of Congress render it necessary for him to leave home as early as the 28th, for Washington.

We are enable to announce his theme with certainty, but it will probably be his popular lecture on "*America, precious to its discovery by Columbus.*"

From his well known ability to treat with grace and eloquence any subject he essays, we may safely predict, a satisfactory entertainment, and instruction for those who attend.

In Connection with the lecture will be a Concert by the Portsmouth Cornet Band, with a choice programme, making it one of the best Concerts they have ever given.

Congress Block.—This building, now rapidly approaching its completion, is one of the most prominent buildings in the city. Its proportions, however, are not so pleasant to the eyes the old structure. The removal of the staging, and the laying of a new sidewalk is a matter of interest to all travellers on Congress street. We hope to see our friends Shores and Preston soon reinstated in their old localities, from which we trust they will have no occasion to depart until they have laid by enough for a rainy day. Mr. Batchelder is to occupy the west store, with his periodical and other business. He is deserving of good success.

OLD MILL PRISON.

A correspondent inquires the locality of Mill Prison, so noted in the Revolutionary war. Was it in the Provinces, or in England?

Mill Prison was in England—situated on a promontory, projecting into the sound between Plymouth and Plymouth Dock, two considerable towns. One of the old prisoners says: it lies on the right hand, as you go from the Dock to Plymouth, and about an equal distance from either. Formerly there stood wind mills on this eminence, which circumstance gave it the name of "Mill Hill;" hence the prison was called "Mill Prison." There were three buildings, one of which had been built in Queen Ann's time, as tradition informs us. The largest building was a hundred feet long, and about twenty feet wide; situated at the north end of the yard. It was two stories high, built with stone and lime, having no windows on the north front. There was a space of about twenty feet between this building and the commissary office, which stood to the west, but had no windows in the east end. A wall on the north as high as the eaves of the prison, extended from the prison to the office; a similar wall on the South, joined the two buildings. In this wall was a gate leading into the main yard.

The commissary office and the cook room made the sides of the outer yard, and it was separated from the large prison yard, by a strong wooden grate. In this yard a sentinel stood continually, and "old aunt Anna" was here constantly with her hand cart, (drawn by a boy) to supply the prisoners with bread, butter, tobacco, needles, thread and every other article for which they might call. Several milk men had their stations here occasionally.

In January 1782, there were about a thousand American prisoners of war confined in this prison. Among them were John B. Seaward, Andrew Toombs, Robert Neall, Daniel Huntress, John Bodge, Michael Hooker, Richard S. Tibbetts, Nathaniel Kennard, John Briard and Andrew Sherburne from Portsmouth, N. H. Mark Fernald, James Hooper, Richmond Perry, and some others whose names are forgotten, from Kittery, Maine. Mr. Bodge of Portsmouth, was an artist in making punch ladles of apple tree wood, some of which he sold for nearly half a guinea, wooden spoons, tasks, and knitting sheaths, were very curiously wrought. James Brown of Kittery, taught navigation, and employed his leisure hours in manufacturing oats for drying glue.

A tenement house in Fall River, thirty by twenty feet, sheltered forty-eight occupants all last summer, twenty-four of whom occupied the cellar tenement, under which was a cesspool. The rent paid for this miserable huddling-place of wretchedness and fever was $400 per annum.

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Books Published!

We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other company. Our Books do not pass through the hands of General Agents (as nearly all other subscription works do), therefore we are enabled to give our canvassers the extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.

Our series includes the most popular works on all subjects of importance, and is selling rapidly, both North and South.

Old Agents, and others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our works with those of other publishers. Address, NATIONAL PUBLISHING CO., 118 Water St., Boston, Mass.

Book Agents Wanted.

Now ready for delivery, a great National work—not political or sectional, (no rebellion in it,)—its standard, will never lose its interest; has no competition; eight distinguished literary men were employed in writing it; time from commencement to close, over four years; is endorsed and highly commended by the most celebrated literary and scientific men in the country, including two ex-Presidents; is not a dull book, but is interesting and useful to all classes; is worth more than its weight in gold to every family or young man. We have sold book agents over one thousand Dollars' worth, yet more subscribers are taken for this work, per Agents sent out, than any book we ever sold. In addition to the large commission, we pay our agents, (not by nothing but personal expenses; also a bonus to Agents of fifty dollars for every Canvasser they start who sells one hundred copies. Experienced and successful Agents wanted; others need not apply. For full description and terms, address

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,
No. 43 Market Street,
Offers to his friends and the public the celebrated

KEARSARGE
COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Stools, Covers, Sheet Music, Flutinas, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.

PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.

PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.

Having made arrangements with Prof W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the former have too long been established to need any comments. Of the latter suffice it to say that the sale of over fifty of them within the last year, by Mr. Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.

Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof. Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman. D. H. MONTGOMERY.

The Chronicle.

A SECESH GIRL RECONSTRUCTED.—A Charleston letter says a young woman, possessed of a fine person and property, a member of one of the oldest and most fashionable families in South Carolina, became engaged to a young man in her own grade in life, who was a major in the rebel service, and was to marry him at the termination of the war if he survived. If he did not, she was to remain ever true to her vows, and, being a Catholic, had promised to enter a convent and become only the bride of heaven. They were a model pair of lovers, and all who knew them believed they were the embodiments of poetry, and tenderness and devotion to each other; that they lived what bards had sung and romance had described. They were like two blossoms on one stem—a planet and its ray. As usually happens, fate frowned on their felicity, and jealous of their love, cut the material cloud of the sentimental major's being at Fort Wagner. Eloisa was mad with grief, and inconsolable evermore. Her parents believed she would not and could not live; and that if she did, she must be reft of reason.

Months passed. Charleston fell. Columbia was threatened. Eloisa remained. She was anxious to be slain by the barbarians who had murdered her lover. The Union forces arrived but had something else to do than kill women, and Eloisa survived in spite of herself. She heard the regiment was in town that had charged upon the battalion led by her best beloved, and she resolved to see the Colonel and denounce him as the slayer of her prince and peace.

Eloisa saw him, and had a tremendous scene. The colonel was handsome and gallant; and when the fair girl thundered, as all her sex do at first, and then rained, he was touched and interested in the unknown woman. He comforted and consoled her, realizing the truth of the idea that the heart is never so susceptible to a new attachment as when it is recovering from an old one. In four week s she had learned to love the Yankee savage, and express her willingness to be his; while he was resigned, as most men are, to be worshipped by her, if she were bent on any such folly. They were married in spite of her relatives and friends, and are now in Europe.

— An Irish woman applied to the Relief Committee in Portland, a few days since, to be supplied with rations, stating that she had nine in her family and no husband. A member of the committee took her name and residence and subsequently called at her house, where, to his great astonishment, he discovered that she had told the truth; but her family consisted of nine stalwart men, who were boarders!

The Old Established Hospital,
No. 5 Beaver Street, Albany, N.Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually.

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and the facilities are such during his correspondence with the most eminent Physicians of the old World, of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsole and a Physician who has cured thousands. In addition to every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody—Startling disclosures. Dr. TELLER's great work 'or the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which he treats.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichol's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice his, address all letters to

The Mechanic Association's
Reading Room and Exchange.
In Carr's Block, corner Pleasant and State sts., is now in its second year, and is regarded as permanently established in that favorable and convenient location; and the managers desire to invite public notice to it and the Association, and to the advantages here offered to mechanics, and business men generally.
The Reading Room is well supplied with the Newspapers of the day, and is open from 7 o'clk A. M. to half past 9 in the evening. Terms $3 per year. Free to all members of the Association and their apprentices—and strangers visiting the city are invited to visit it at any time.
The Association is open to membership of Mechanics and Manufacturers, of good character; and the advantages are great, at a very small expense.

Morning Chronicle.

Portsmouth N. H.

TUESDAY, NOVEMBER 27, 1866.

WASHINGTON AND NEW HAMPSHIRE. Perley writes to the Boston Journal from Washington, Nov. 25, as follows. "In view of the unabated pressure for the removal of Hon. E. A. Rollins, Commissioner of Internal Revenue, and the appointment of a Western man to that place, New Hampshire men in W. and at home are urging Mr. Rollins to resign and become a candidate for the Republican Congressional nomination in the First District of this State. It is asserted that the nomination would best unite the Republican party and promote its interest in the District; and it now seems certain that Mr. Rollins will allow his name to be used in the coming convention and will accept the nomination if tendered."

[Mr. Rollins, no doubt would serve the country well in Congress, if he were elected, as no doubt he would be if nominated. It is said his services in the place he now fills, are almost invaluable—and thus far his holding on to his post has been approved by all except those who wish to fill the vacancy with an incompetent policy partisan. The first District we think, is in no great danger of sending an incompetent or unfaithful man to Congress, whether Mr. Rollins should or should not suffer his name to be used.]

Col. J. F. Marsh has been appointed Pension Agent at Concord, N. H., in place of David Cross.

Dr. George W. Kittredge of Newmarket, N. H., is in Washington and had an interview with the President on Saturday.

SCHOOL TABLETS AND KEY. — Any readers who don't care to know any thing about School Books, on School-keeping, or teaching, or learning, may skip over this article, and read something which they like better. But we shall please ourselves and perhaps interest others, by the statement that the American Tablet Company of Boston make very fine tablets for school use, which are manufactured from the best imported Bristol Board, and in every respect equal and in come respects superior to ivory plates. All their tablets are coated with a transparent water proof composition, Patent. A lead pencil could be used and, the marks erased with a piece of damp woolen cloth. For use in the school room they are considered by teachers, who are using them indispensable.

Mr. John P. Payson, well known as a former teacher here, and now widely known as the Principal of the great "Williams School" in Chelsea, Mass., has furnished us with specimens as follows:

The Erasable Leal Tablet, is a leaf of the size of the size of a commercial note sheet, and designed for the school-room. By using it in place of the slate all the noise caused by the latter will be avoided. Scholars will find them invaluable for noting down such things as are desirable in the preparation of "home lessons;" and being about the size of a common school book can be readily placed between the leaves and carried home.

Payson's Erasable Spelling Tablet is designed for pupils who write their spelling lessons. It is ruled in double columns, one for spelling, the other for correcting the mis spelled words. Those who use blank books for writing their spelling exercises, will find the spelling tablet much more economical.

Payson's Erasable Arithmetical Tablet. This we regard as one of the most valuable aids to the teacher than has ever been presented to the public. With it the teacher can accomplish in ten minutes more than he can in an hour by the ordinary method, by the use of the slate. He can assign a separate example to each pupil in his class in less time than he can dictate a single example for slate practices, and can detect every error by a glance at the KEY. This last is a book of 65 pages, containing the answers to nearly three thousand examples in the four fundamental rules of arithmetic.

— *Why is life the riddle of riddles?* Because we must give it up.

— James Shattuck was found in dead in a pond at Brattleboro', on Tuesday. He was about 50 years of age, of confirmed intemperate habits, and is supposed to have been drowned while intoxicated.

— 2183 clerks and messengers, and 312 females—2495 in all—are employed in the eighteen bureaus of the Treasury Department at Washington, at a cost of about three and a half millions a year.

— The Woonsocket Patriot says that one quarter of the population of the manufacturing villages in the valley of the Blackstone will soon be composed of French Canadians, if the increase continues as it has for the past year.

— Ex-Postmaster General Dennison writes to an official in Washington counseling moderation and dignity on the part of Congress, and declaring that two-thirds of President Johnson's Cabinet do not agree with the Executive.

— Mrs. Everheart, a soldier's widow, residing near Terre Haute, has, during the present season, with the aid of her little daughter, chopped fifty cords of wood on a contract for the purchase of a small house and lot.

NEW HAMPSHIRE ITEMS.

—— Rev. G. I. Baird was installed pastor of the Congregational Society in Dunbarton, Nov. 21.

—— Rev. A. K. Moulton has resigned the pastorate of the Court Street Free Baptist church in Auburn, Me., and goes to Concord, where he has charge of another society.

—— Brevet commissions for the following officers from this State are ready for issue, and they can obtain them by sending their address to the Adjutant General at Washington:

Brevet Colonel—C. J. Wright, late Lieutenant Colonel 39th colored troops.

Brevet Captains—Charles H. Stickney and Wm. F. Adams, late first lieutenants 54th colored troops.

—— It appears that when the Dover City Hall was burned, a ball was being held in it under the auspices of the U. B. Hibernian Society, and while it was in progress the fire broke out in the attic, which was used for an armory by the Strafford Guards. There were 800 pounds of ball cartridges in the armory, which the fire soon reached, and the explosion that followed destroyed the roof, and scattered the fire in every direction.

MEXICAN AFFAIRS.—Advices from Vera Cruz declare positively that Maximilian had placed his letters of abdication in the hands of Marshal Bazaine. It is believed at New Orleans is well informed circles that Maximilian has already left Vera Cruz on his way to Europe. If this is the case Gen. Sherman will have to treat directly with Marshal Bazaine, and as the two officers cannot understand each other their interviews must be very formal.

Mexican correspondence received at New York, shows that the Mexican muddle is still more complicated. Maximilian was still at Orizaba, and in French circles is reported to be insane. The adherents of Maximilian deny this statement, saying that he attended to business at Orizaba as usual. The Conservative party is anxious for his return to the Capital and his throne, pledging a large fund for his purposes, but he has stubbornly refused to comply. Fears are entertained by the Imperalists that Maximilian is intriguing with Juarez, and will abdicate in his favor. Don Miguel Miramon and Don Leonardo Marquez, who left Vera Cruz for Mexico city, were obliged to return by guerillas.

An editorial article in the London Times of last Saturday morning, believes that the Emperor Maximilian has actually abdicated, and looks out for the intervention of the United States Government as the next step as a matter of course, but hopes that good results will follow. It is reported that twenty transports will sail from Brest to bring home the French troops immediately after the arrival of the next mail from Mexico.

The following official Mexican news has been received by Minister Romero at Washington.

"Col. Rafael J. Garcia, appointed Military Governor of the State of Puebla, has established his government at the city of Zacapocota, and issued a proclamation to the people of that State, calling upon them to take up arms against the invaders. He reports that the French have lost the whole State of Puebla, keeping only the line of the main road from Vera Cruz to the city of Mexico. Gen. Diaz's victories in the State of Oaxaco will cause the French to lose the left side of the road, which can be cut off now at any moment."

A New Orleans dispatch of Saturday, says Maximilian has taken the decisive step of abdication, the rupture between himself and the French being complete. He has left Mexico in the hands of Gens. Bazaine and Castelman. The latter is understood to have full authority from Napoleon to supersede the Marshal himself if necessary.

The late Emperor left Vera Cruz on Thursday and may be expected at Havana on his way to Europe on Monday or Tuesday next. The consternation of the Mexicans on finding the question of their future remitted absolutely to negotiations between France and the United States is general and confined to no party. I have the best authority for stating that all preparations for the embarking of the French troops have been summarily suspended.

— Fourteen vessels and twenty-six lives have been lost in the prosecution of the fishing business of Gloucester, during the past year. The loss of life is more than double than of last year. Value of vessel property lost, $104,000.

— At Provincetown, Mass., the last season, 80 vessels were fitted out, and sailed for the Banks and Chalour Bay, carrying 849 men, and bringing into port 74,000 quintals of codfish. Next year will witness an increase of the fishing, coasting and whaling fleet, at a cost of not less than $300,000.

— Among the junk brought to a dealer in Fredericksburg last week, was a leaden star, formed by two bullets, moving with the same velocity and momentum, but from directly opposite points, impinging against each other. This relic was found on the battle field of Chancellorsville.

TRAITORS IN THE FENIAN CAMP.—The Dublin correspondent of the New York World says he knows that every plan and every action of the Fenian organization is made known to England; and not only that but that if she liked she could at this moment lay her finger on every Fenian in Ireland. The writer asserts that about five weeks ago a man named Sutton or Dutton, arrived in Ireland, said to be the accredited agent of Stephens, and vested by him with all the secrets of the organation. This man has been bought, and is at this moment doing the work, not for which he may have been sent by James Stephens to do, but that for which he is paid by the British government.

THE DAY.—It is generally believed in Ireland that the Fenian rising will take place on Christmas eve., and that the day celebrated as the natal day of the world's Saviour will witness a last struggle for Ireland's liberty.

ANOTHER SIDE TO THE "CHEAP COAL" SHIPMENT.—The Norwich Bulletin says that the coal recently sold there from a schooner, at a rate of $7.50 per ton, was delivered not screened, which makes a difference of hundreds of pounds in weight, nor delivered nor stored, which necessary expenses would make the price about the same at which the regular dealers deliver it in people's cellars.

GOT A "BLACK EYE."—A heavy New York wholesale dealer in coal, recently offered to deliver a cargo of Lehigh nut in New Haven, for $5.75, and the best Lehigh egg for $6.50.

WOMEN OF THE WAR.—This is the title of a new book by Frank Moore, recently issued from the publishing house of Messrs. S. S. Scranton & Co., of Hartford, Conn. It is a volume of 596 pages, printed in the best style of the art, embellished with finely executed steel engravings, and handsomely bound. It contains numerous records of woman's heroism on the battle-field during the late war, and of her self-denying, patient and more heroic labors in the hospital and camp. The stories are graphically and touchingly narrated, and appeal at once to the heart. They are varied by interesting incidents of hospital and camp life, and snatches of poetry. We owe a debt to Mr. Moore for presenting, in a durable form, the stories of these heroines, whose names will go down to posterity with the history of the last five years. Kady Brownell, Pauline Cushman, Mrs. Reynolds, Georgianna Willets, Mother Bickerdyke, "Irish Biddy," and the many other brave women of whom Mr. Moore treats, have won for themselves an imperishable renown. This work should find a place in every family.

JEFFERSON DAVIS.—This arch rebel, who, with his aids and abettors plunged the country into a civil war, and starved to death the thousands of our brave "boys in blue," at Belle Isle, Salisbury and Andersonville, now keeps "open house," at Fortress Monroe, where he daily holds levees for Southern rebels, who are allowed to come and go as they please. His health has very much improved and he speaks very confidently of being released. The Adams Express Company are in constant receipt of packages and presents for Davis, forwarded by his sympathizers.

THE VOTE OF MASSACHUSETTS.—Returns from all the towns show that the following vote was cast for Governor at the last State election: Alexander H. Bullock, 91,980; Theodore H. Sweetser of Lowell, 26,671; scattering 100; Gov. Bullock's majority over all others, 65,209. For Lieutenant Governor, William Claflin received 91,851 votes; Horace C. Lee of Springfield, 26,664; all others 48; Mr. Claflin's majority over all others, 65,239.

FIRE AND LOSS OF LIFE IN KANSAS.—The large four story warehouse and grocery commission house of Chick & Co., and Scott, Cutler & Co., in Lee, Kansas, was destroyed by fire early Sunday morning, Nov. 25. Loss $100,000; about two-thirds covered by insurance. Two clerks of Chick & Co., named Guest and Ricketts, in attempting to escape from the building, were suffocated and their bodies consumed. A man named Hughes jumped from the third story window and was seriously injured. The fire was the work of an incendiary.

— Good sleighing week before last, in Aroostook county, Me.

— Avery Morgan, a prominent citizen of Waterford, Conn., has been arrested for whipping his wife. She provoked him to it by spitting in his face. He went to jail in his own carriage, his daughter accompanying him to the door.

— The cattle disease is raging with great fatality in all those counties of Kentucky where the Texas cattle have been imported during the summer. Thousands of cattle have died, and the citizens are petioning the Legislature to pass a law preventing the importation of Texas cattle into the State.

DEATH CAUSED BY FRIGHT. — On Monday night last week, Mrs. Hattie B. Hurd, wife of P. H. Hurd of Haverhill, Mass., residing on Mount Washington, was so seriously frightened by the falling of a window curtain, that she was thrown into spasms which resulted in death.

SOLON ROBINSON'S NOVEL. — Solon Robinson, the veteran Agricultural Editor, has written a novel for *The New York Weekly Tribune.* The publication will commence on the fifth of December.

☞ From D. Van Nostrand, publisher, New York, we have part 59, of that valuable work, "The Rebellion Record," illustrated by portraits of Gens. Reynolds and Newton. As a work of reference its authority has long since been acknowledged by the courts.

☞ "The new novel of Mrs. Bella Z. Spencer, "Tried and True," is selling with unexpected rapidity, and the printers can hardly keep pace with the demand."

☞ The Eclectic Magazine for December, has a portrait of Rev. Rufus Anderson, D. D., for forty years Secretary A. B. C. F. M., and the usual choice selections from current foreign literature. W. H. Bidwell, publisher, New York. $5 a year.

DR. P. MEREDITH, Dentist, office No. 132 West Sixth Street, states as follows:

CINCINNATI, October 1, 1862.

MESSRS. J. N. HARRIS & CO.—Gents: About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of phlegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhœa set in. My friends thought I was in the last stage of Consumption, and could not possibly get well. I was recommended to try

HALLEN'S LUNG BALSAM

The formula was shown to me, which induced me to give it a trial, and I will only add that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully, F. MEREDITH.

PERRY DAVIS' PAIN KILLER

Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and molasses, and a gill of hot water. Stir well together and drink hot. Repeat the dose every hour until relieved. If the pains be severe, bathe the bowels and back with the medicine, clear.

Fishermen, so often exposed to hurts by having their skin pierced with hooks and fins of fish, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs; in this way the anguish is soon abated; bathe as often as once in five minutes, for three or four times, and you will seldom have any trouble. n1 dawlm

AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF

Diphtheria,

Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the government of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

BOSTON, Mass.

"ORRIN SKINNER & Co.—*Sirs:*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, Master, years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable and truly potent. A. B. ELDER."

S. J. COURT, Nov. 24.—*Doe, J.*—A jury was drawn for the case Charles Hayes v. Eastern Railroad, a case wherein damages were claimed for burning of plaintiff's barn, alleged to have been set on fire by a passing train. The jury were sent out to view the premises.

Monday, Nov. 26.—The Court came in at 11 o'clock, and the case as above was put on trial. This will be the last jury trial of this term. The barn was burned August 17, 1865. Hatch and Webster for plaintiff; W. H. Y. & W. H. Hackett for defendants.

In the case of Dennett v. Ham, which was put on trial last week, the jury returned a verdict for defendant.

The docket was called on Monday afternoon and most of the cases upon it were disposed of.

The Court is in session at the United States Court Room, as the County Court Room is needed by the sovereign people in the election to-day.

☞ The following correspondence explains itself, Mr. Jones having returned to the city only last evening:

PORTSMOUTH, Nov. 26, 1866.

Frank Jones, Esq.:

Dear Sir—At a very large convention of the Democrats and Conservatives of this city, holden on the 22d inst., you were unanimously nominated a candidate for Mayor, to be supported at the coming election, and we were appointed a committee to notify you of the nomination and request your acceptance of the same. Earnestly hoping that you will accede to this request, we are,

Very respectfully, your ob't serv'ts,
J. L. FOSTER,
A. R. HATCH,
DANIEL MARCY,
Committee.

PORTSMOUTH, Nov. 26, 1866.

To J. L. Foster, Albert R. Hatch and Daniel Marcy—Committee:

Gentlemen—Your letter of this date, informing me of my nomination as a candidate for Mayor, was duly received. While I wish that my fellow citizens had selected some other from among them for this position, yet I accept the nomination, and, if elected, my most vigilant and untiring efforts shall be exercised for the best interests of all the people.

Very respectfully,
FRAND JONES.

☞ The Gloucester Telegraph, of Nov. 17th, said:

"The mild weather of the present month has started the shrubs in many of the gardens about town, and most remarkable of all a rosebush in the garden of Mrs. George Davis, on High Street, has this week bloomed for the second time for this season, bearing three full blown roses, one of which is in our possession. This is indeed a singular circumstance, and we doubt if a similar instance of the kind can be produced."

On the 10th, Mr. A. T. Goodrich of this city plucked two full blown roses from a Boursalt Rosebuse in his garden, while Mr. LaFayette Leighton had strawberry vines in blossom just before the snow storm on the 22d, also Chinese pinks, marigolds and larkspur.

LOOKOUT FOR THANKSGIVING.—Everybody is anxious to know what pleasure there is in store for that night, and, as it is our business to post the people, we would announce as one of the best things, the coming of the Union Troupe, who will appear at the Temple on Thursday evening in one of their "grand galas." The troupe will be assisted by eminent vocalists from Boston, and will give one of the best entertainments ever offered to the citizens of Portsmouth. Miss Adelia the youngest vocalist will be present and perform her part as usual, which will be well worth the admission fee. All in favor of the Union will be there of course. X.

BROKE OUT.—Charles Willey and Gorham Lawrence, arrested on Monday, broke out of the Station House that evening and escaped.

☞ Philharmonic Society Rehearsal, Tuesday evening—roll call at half past 7 o'clock. The prompt and punctual attendance of all members is necessary to the welfare of any such institution.

SHIPWRECK AND LOSS OF LIFE.—The steamer Liberty, arrived at Baltimore, from Havana, brings Capt. Harris, the officers and three passengers of the steamship Kingfisher, of Mordecai & Co.'s Baltimore and Charleston line, which left on the 10th inst., and foundered in a severe gale 60 miles southeast of Cape Hatteras. The officers, crew and passengers took to the small boats, and after being exposed for some hours to the mercy of the storm, were picked up by the U. S. frigate Susquehanna, which was conveying Gen. Sherman and Minister Campbell to Mexico. All were rescued except four colored men.

☞ Miss Mary E. Rice, a teacher of one of the Charlestown schools, recently resigned her place, and was to be married on Monday, Nov. 26, agreeably to an engagement of four years standing:—but she was taken suddenly ill on Saturday, and died on Sunday:—her intended husband arriving in Charlestown from the West just in time to receive her farewell.

FIRE AT MOBILE.—On Sunday morning, at Mobile, two squares between Lawrence and Warren streets, containing from 30 to 40 buildings, were burned. The loss is $100,000; partially covered by insurance.

ANECDOTE OF GEN. ROBERT E. LEE. Perley says Virginia is not united in defense of the rebellion now that her Union citizens dare to speak their minds. At the annual meeting of the Central Railroad Company, held at Richmond on Thursday, a Mr. John R. Woods of Albemarle county, expressed himself very freely on political matters. He had always been a Whig, he said, and he was opposed to war and to secession, as was originally that great Captain, Robert E. Lee. He saw Gen. Lee at Gordonsville at the beginning of the war, just after that officer had resigned his commission in the United States Army. There was a great crowd present and one of them remarked: "Gen. Lee, is not this a glorious uprising of the people?" There was no smile on the General's face as he replied calmly but sadly: "Gentlemen, I beg you to remember that there's a tremendous uprising elsewhere by this time." Mr. Woods went on to say: "We have all found out that it was so."

Holloway's Pills.—Fever and Ague.—The preparations of Quinine and Cafonei prescribed by the faculty for this disease, are more destructive in their ravages on the human body than the complaint itself, verifying the old adage—"a remedy worse than the disease." Holloway's Pills possess no mineral poison, and are more speedy and efficacious in promoting a permanent cure. Sold by all druggists. n24—1w

THE PEOPLE'S CHOICE.—There is probably no one medicine that has cured more people of hard colds, coughs, influenza and throat difficulties, than Coe's Cough Balsam, whilst in cases of croup and whooping cough, it is remarkable for its speedy cures.

COE'S DYSPEPSIA CURE.—There is no need of any one's having the dyspepsia, for it is demonstrated beyond fear of contradiction that Coe's Dyspepsia Cure will certainly cure it. Constipation, the most prolific cause of ill health, is certainly cured by the Cure. Sick headache, cramps, pains, or cold in either stomach or bowels, instantly yield to its power. n27—1w

SCHENCK'S MANDRAKE PILL.

A Certain Cure for Diseased Liver and the many Dangerous Maladies which are caused by a morbid condition of that organ.

To give the public a clear understanding of the means in which SCHENCK'S Mandrake Pills produce those wonderful effects which are attested by thousands of reliable witnesses, we present a brief

DESCRIPTION OF THE HUMAN LIVER

and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.

The liver is supplied with blood vessels, nerves and absorbants. One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from all impurities, the presence of which is indispensably necessary to health is the proper performance of this function! If the liver is diseased, it cannot purify the blood, and if that is sent back through the lungs, brain and other parts in a morbid condition, it must cause jaundice, biliousness, obstruction of the kidneys, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to make a man sick and uncomfortable, and unfit for the performance of any of the duties of life. But a healthy state of the system very often ends in pulmonary consumption.

The circulation of the blood is conducted in this manner:—The heart sends the vital current down through the arteries; it passes through the flesh, taking up all impurities in its progress; then the stream of blood flows back and through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scurvy, or any other kind of ulceration while that important organ, the liver, is diseased. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the use of some cough medicine, the basis of which is morphia or opium in some shape, which locks up the liver instead of relaxing the secretions, giving a tone to the stomach, and producing a healthy flow of bile. Dr. Schenck's

Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills,

will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.

A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz: Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills—all of which are accompanied by full directions for the use of them.

DR. SCHENCK will be professionally at his room, every Tuesday, Boston street, New York, and 37 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents per box.

HARPER'S NEW MONTHLY MAGAZINE.

Critical Notices of the Press.

It is the foremost Magazine of the day. The fireside never had a more delectable companion, nor the million a more enterprising friend, than Harper's Magazine.—*Methodist Protestant* (Baltimore).

The most popular Monthly in the world.—*New York Observer.*

We must refer in terms of eulogy to the high tone and varied excellence of HARPER'S MAGAZINE—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the culture of the American People; and the popularity it has acquired is merited. Each number contains full 144 pages of miscellaneous matter, appropriately illustrated with good woodcuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—THURBER'S *Guide to American Literature, London.*

The volumes bound constitute of themselves a library of miscellaneous reading, such as cannot be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

SUBSCRIPTIONS,

Ayer's Cathartic Pills

are the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow dismpent, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immense y to the relief of our afflicted fellow men.

The Agent below named is pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o29—2m

Morning Chronicle.

☞ The Washington correspondent of the Cincinnati Gazette relates the following:

"Three days before the murder of Mr. Lincoln, he had made arrangements for an afternoon ride with certain members of his family, and the hour of 2 o'clock was fixed upon. At that time, the President not appearing, word was sent to him that the party was waiting for him. He returned an answer that the Vice President had called upon him, and that he should not be able to go. Mr. Johnson remained about two hours, when the President joined his family, and in conversation regarding the delayed ride remarked, with much apparent concern: 'That miserable man! I cannot anticipate the troubles he will cause me during my second term of office.'"

☞ Take care of your health and take plenty of sleep. Let no one work in pain or weariness. When a man is tired he should lie down until he is fully rested, when, with renovated strength the work will be better done, done sooner, and with self-sustained alacrity. The time taken from seven or eight hours out of each twenty-four is time not gained, but time much more than lost; we can cheat ourselves, but we cannot cheat nature. A certain amount of food is necessary for a healthy body, but if less than the amount be furnished decay commences that very hour. It is the same with sleep; any one who persists in allowing himself less than nature requires will only hasten his arrival to the mad-house or the grave.

— The Supreme Court of Vermont has decided that the omission to affix a proper internal revenue stamp to a writ or other instrument does not render it invalid, unless the omission is shown to be with the intent to evade the provision of the laws, and under such circumstances as would make the party whose duty it was to affix the stamp liable to the penalty or forfeiture imposed for the omission or neglect to affix the stamp.

STOVES! STOVES!
ALL READY FOR THE FALL TRADE
The Best Cook Stove Out!
URIAH BLAISDELL,
No. 43 Market Street,
Offers to his friends and the public the celebrated
KEARSARGE
COOK STOVE,
Which he WARRANTS to have no superior in the market, in such and all of the qualities of a dressing Stove. It is a cook Stove, of neat and symmetrical pattern, very heavy castings, well mounted, of the best of stock, and, what is rare, works equally well with coal or wood.
In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shovelling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.
A few names, in different localities, of the many purchasers of this stove, are subjoined, for convenient reference:

A DOG STORY.—A Paris Journal prints the following curious story:

Lately, a traveler passed in a carriage along the Avenue de Neuilly; the night was dark; all at once the horses stopped, and the traveler saw that the animal had met an obstacle. At the same moment a man raised himself from before the horse, uttering a cry. "Why don't you take care," said the traveler. "Ah," cried the man, "you would do better, instead of hallooing, to lend me your lantern" "What for?" "I had three hundred francs in gold on my person; my pocket has broken, and all is fallen on the street. It is a commission with which my master has entrusted me. If I do not find the money I am a ruined man." "It is not easy to find the pieces on such a night; have you none left?" "Yes, I have one." "Give it to me." The man hesitated. "Give it to me; it is a means of recovering the others."

The poor devil gave him his last coin. The traveler whistled; a magnificent Danish dog began to leap around him. "Here," said the traveler, putting the coin to the nose of the dog, "look." The intelligent creature sniffed a moment at the money, and then began to run about the road. Every minute he returned leaping, and deposited at the hands of his master a Napoleon. In about twenty minutes the whole sum was recovered. The poor fellow who had got his money back turned, full of thanks, toward the traveler, who had now got into his carriage. "Ah, you are my preserver," said he; "tell me at least your name." "I have done nothing," said the traveler.—"Your preserver is my dog; his name is Rabat Joie." And then whipping his horses, he disappeared in the darkness.

— A few Sabbaths ago, in the midst of some remarks on the authenticity of the Bible narrative of the creation, Lawyer S. of New Haven was interrupted by a skeptical listener, who propound ed the question, "Who was Cain's wife?" Mr. S. instantly replied: "If you were going to write the history of United States on your thumb nail, there would be a great many things you would have to leave out!"

AMERICAN AND FOREIGN PATENTS
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1861.
78 Main Street, opposite Kilby Street,
BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Drawings, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Research made in the American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the claims, validity of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, which, from the superior ability of inventions unsurpassed by, it not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL. AT THE PATENT OFFICE (from the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that of the other of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a great deal of valuable specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here avoided to inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official business."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability, on his part leads me to recommend my friends to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made *twenty* received applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Examiners-in-Chief of Patents.
R. H. EDDY.

Morning Chronicle.

Portsmouth N. H.

WEDNESDAY, NOV. 28, 1866.

WASHINGTON ITEMS, Nov. 26.—Gen. Grant is said to have advised the President to favor the Constitutional Amendment—but found A. J. very stiff.

The War Department are much embarrassed by men who were wounded during the war who come to W. demanding admission into the Veteran Reserve Corps.—There are no vacancies in that corps, and invalids coming there hoping to enlist are dependent upon charity for means to return to their homes. There is also a large surplus of mechanics and laborers at Washington of all kinds, out of work, and the prices of labor are not half what they were last year at this time.

Postmaster General Randall, disregarding copperhead remonstrances, forwarded to Henry L. Merrill his commission as Postmaster at Haverhill, Mass.

A statement has been published that the President has given to Mrs. Thompson, permission for her husband, Jacob Thompson, to return home. This is untrue. He positively refused to give any such permission, but said Thompson must take the consequences of returning like other prominent rebels still abroad.

During the past three days about seventy Postmasters have been displaced, nearly all of the smaller class of offices.

☞ The Tribune says "a dispatch from Washington to a Philadelphia paper states that President Johnson has concluded to withdraw his opposition to Congress, and will give his reasons therefor in his Annual Message. We might hesitate to accept this report as entirely true; but it is nothing strange or too sudden that a President, popularly elected, should bow to the expressed will of the people, re-enforced since the elections by the voice of his own partisans in favor of Impartial Suffrage. We shall not hesitate to say, that any step of his toward a reconciliation, comprehending justice as well as magnanimity in its plan, cannot be otherwise than advantageous to himself, to Congress, and to the peace of the country."

☞ Perley writes from Washington, "The Republicans here do not appear to believe that there are any grounds for an impeachment, but there are indications that Congress will by law change the day of its annual meeting next year to the fourth of March, and otherwise deprive the President of the power to make removals.

The officials at the Freedmen's Bureau are well pleased at the acquittal of Major Mann, who was tried by Court Martial on a charge, preferred by the President's roving Commissioners, that he was pecuniarily interested in a plantation near Washington, N. C., on which he employed forty-five freedmen for his own profit."

TENNESSEE.—A dispatch from Nashville, says half a dozen franchise bills have passed a first reading in the House. All of them embrace in their provisions colored suffrage and two of them a universal amnesty feature. It is now generally thought that a bill guaranteeing qualified negro suffrage will become a law, but present indications suggest strong doubts as to the success of the amnesty doctrine.

ANNEXATION IN CANADA.—A dispatch from Toronto, says Rev. J. A. Allyn preached Sunday evening in the Episcopal Cathedral at Kingston to a large audience in favor of annexation to the United States; also that a meeting has been called to meet in Montreal to discuss the beautiful to be derived from annexation, which the people of the lower counties greatly desire. [Query—whether Mr. A. was not preaching politics?]

☞ In New York city, Barleigh says, a committee of Congress is probing matters connected with the Federal offices. Notwithstanding the public denial it is found that the employees of the Custom House and Revenue Departments have been assessed four dollars each to carry on the late election. It is also found that the Collector draws a revenue of $40,000 a year commission on the bonded warehouses. Some rich revelations will be made when this committee report.

☞ In South Carolina, the Governor's message opposes the Constitutional Amendment, and recommends the passage of a Homestead Law and the adoption of means to discourage the emigration of negroes and provide for the subsistence of indigent blacks. He thinks the experiment of free labor will not be a failure. He says the grain crop is unusually short, and not enough cotton has been raised in many districts to buy the needed bread.

☞ On Monday night, about 7 o'clock, the ferryboat Idaho, plying between New York and Williamsburg, took fire in the stream and burst to the water's edge.—About thirty passengers were on board, all of whom were saved. Some of the ladies with children in their arms jumped overboard, but were rescued. James O'Neil had his head and hands badly burned.

NEW HAMPSHIRE ITEMS.

—— The News Letter learns that Rev. Mr. Barrows of North Hampton, has accepted a call from the First Congregational Society of Exeter.

—— The Congregational Society in Raymond has extended a call to Rev. Mr. Chapman of western New York, to settle as pastor. Call accepted. Installation December 6.

—— The following persons were carried on Monday to the State Prison in Concord, having been sentenced by the Court at Plymouth: James Parker, Lisbon, two years; Henry C, Stevens, Dalton, three years; David Parker, Lisbon, one year; Sumner Hardy, Haverhill, two years; Thomas H. Daly, Hanover, three years; all for stealing: and George Warner, Franconia, three years, for forgery.

—— Six tons of poultry for Boston market passed through Concord, Monday. It was bought on commission by Nathan White & Son of Newport. The prices per pound delivered at the railroad station in Bradford, N. H., including agent's commission, were as follows: turkeys 21 cents; chickens 18; geese 13, and ducks 21.—The prices of turkeys and chickens in New Hampshire are about the same as last year, geese and ducks being lower than at any time during the past five years.

☞ The Second Annual Convention of the Rockingham Musical Association was a very successful and pleasant occasion. The chorus numbered about 125 voices. A portion of Mendelssohn's Hymn of Praise was given at the concert on Thursday evening, under the direction of Mr. F. S. Davenport. Miss Houston of Boston sang "What would you do love," and "Robin Adair." Mr. Cogswell of Lawrence, sang "The Nightingale's trill." Miss Murray of Exeter, sang "Song of Home." Mr. Wilder sang an aria from "Lucrezia" and with Mr. Davenport the duett "Excelsior"

The Concert on Friday evening gave the following programme under the direction of Mr. John Wilder. Part First, selections from "The Messiah," the songs "Come unto Him" and "I know that my Redeemer liveth," by Miss Houston. The song "The people that walk in darkness," by Mr. Wilder. Part Second, "Caratina from Lucia" by Mrs. Cogswell of Lawrence. Songs, "Impatience" and "Birdie looking out for me" by Miss Houston. Duett, "Beware" by Mr. and Mrs. Davenport. Trio "Madre dell sommo amore," by Mrs. Cogswell, Mr. Davenport and Mr. Wilder. Song "Belshazzar is King" by Mrs. Packard of Exeter. "Solo Bofugo," by Mr. Davenport.—"Rocked in the cradle of the deep," by Mr. Wilder.

☞ The Crosby Art Association has secured the plate of a new Engraving, to be issued with one certificate: Beard's "Westward Ho," prints of which will be ready in a few days. More than two thirds of the tickets having been sold, the drawing is announced for the latter part of January.

☞ The Great Lake Tunnel, at Chicago, to furnish the city with water, is nearly completed, at a cost of over $3,000,000.

☞ There is a renewed Fenian excitement in New York city, and an outbreak in Ireland seems imminent.

☞ Several cases of garroting and robbery have occurred in the vicinity of Boston within a few days.

☞ Three robbers were taken from jail in Lebanon, Ky., Sunday night, and hung by a mob.

HEAVY FAILURE.—One of the largest of the New York provision houses failed Monday. Its liabilities are stated at over five hundred thousand dollars.

☞ The great New York provision firm that failed on Monday, was that of Delon, Clark & Bridger. Four other houses of the same sort have recently suspended.

ALABAMA LEGISLATION.—Nov. 26, in the Senate a bill was introduced repealing the laws prohibiting aliens from owning real estate. The House passed the bill granting aid to an air line railroad and prohibiting railroads and steamboats running on Sunday.

— Pekin, China, has not been blessed with snow or rain for eleven months

— Wm. Wales, publisher of the Baltimore Commercial, has been appointed Surveyor of the port of Baltimore, vice Edington Fulton, one of the editors of the Baltimore American.

— John F. Hilton, expressman between Boston and Lynn, was garroted in Newhall street, in the latter city, Saturday evening, and robbed of $40 in money and a valuable gold watch and chain.

— It has been ascertained that Maximilian's tenacity in holding on to Mexico has been due to the expectation, encouraged by his late agent in the United States, who has just returned to Mexico, that a new civil war was on the eve of breaking out in the United States, and that this would certainly be the case if the Radicals carried the fall elections. All these visions are now disappearing.

For the Chronicle.

HYMN FOR THANKSGIVING.

BY EDWARD P. NOWELL.

For golden fruits in plenteous store;
For wheat and corn that lade the land;
For wealth of crops from shore to shore,
Dispensed from the Great Giver's hand;

For health that in our borders dwells;
For pestilential foes that flee;
With fervent thanks each glad heart swells,
Our Gracious God, in praise to Thee!

For art and science prosperous;
For hands that work and never tire;
For hearts that hope—solicitous
Of only worthy laborers' hire;

For the sweet reign of sacred peace;
For justice, faith, and freedom grand;
For error's fall and truth's increase,
We bless the Saviour of our land!

DEATH BY ACCIDENTAL POISONING.—The Boston Journal states that on last Saturday evening Mrs. Drew purchased a quantity of thoroughwort at a shop kept by Mr. Dow, of which she made some tea for her daughter Harriet, twenty years of age, who was suffering with a cold. Mrs. Drew also swallowed a very little of the same decoction, and very soon became speechless and wholly unable to walk. Upon recovering, during the night, she went to her daughter's room and found her speechless and nearly insensible. Dr. Swan was called and ascertained that apple-pern leaves were mixed with the thoroughwort, rendering the tea made therefrom deadly poisonous. Mrs. Drew recovered, but the daughter died on Sunday evening.

— May flowers were abundant in the woods near Lewiston, Me., on Wednesday. Pear trees were in blossom in the same locality.

— The Portland Price Current puts the number of first-class stores and warehouses now going up in that city at 112; and says 47 more of the same kind, will complete the number lost in the fire.

— The North Berwick Co. are manufacturing flannels about 1-3 cotton and 2-3 wool. They are running full time and half, turning out 2600 yards per day. This Co. are to build a fine block of six tenement houses, three stories, with French roof, the block will be 140 feet long. They will also build a stone dam and relay their canal.

— Sylvanus Hartshorne, one of the oldest citizens of Norfolk, died suddenly of apoplexy the other day, and his wife, overcome by the event, was taken ill and died within two hours after her husband, the victim of a nervous shock. They had celebrated their golden wedding a few months before.

— Advertising is to the trader what ploughing is to the farmer. There would be some natural production if the sod of the earth was never broken, and it would hold about the same relation to the production of a well cultivated garden, that the profits of unadvertised trade does to the advertised.

— A large number of illicit distilleries were seized on Saturday and Sunday night in Brooklyn for violations of the Internal Revenue laws; also large lots of whiskey marked with spurious inspection marks.—Many arrests have been made. Collector Wood has a large number of complaints against illicit distilleries at present, and his time will be entirely absorbed in investigating cases for some months.

OBITUARY.—Sir William Parker, senior officer of the navy of Great Britain, died on November 12, at London. He entered the navy in 1793, as captain's servant; served under Nelson, exciting his admiration and securing his friendship by his spirited conduct in chasing a French Frigate into Toulon, and was in the war with Spain. He was first principal aid-de-camp to the Queen.

— On Friday a number of persons enjoyed the rare spectacle of six water-spouts at the mouth of the St. Charles river, at its junction with the St. Lawrence. The rain fell heavily, at the time, conditions peculiar to this phenomenon.

DR. P. MEREDITH, Dentist, office No. 132 West Sixth Street, states as follows:
CINCINNATI, OHIO, October 1, 1866.
MESSRS. J. N. HARRIS & CO.—Gents.: About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of phlegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhœa set in. My friends thought I was in the last stage of Consumption, and could not possibly get well. I was recommended to try
ALLEN'S LUNG BALSAM.
The formula was shown to me, which induced me to give it a trial, and I will only add that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully, P. MEREDITH.

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES.
These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their efficacious merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the safest and most infallible preparation in the world. for the cure of all female complaints, the removal of all obstructions of nature and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, accompany each bottle. As producing effects contrary to nature, they have will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. Price $1.00.
Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing remittance,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

PERRY DAVIS' PAIN KILLER
Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and molasses, and a gill of hot water. Stir well together and drink hot. Repeat the dose every hour until relieved. If the pains be severe, bathe the bowels and back with the medicine, clear.
Fishermen, so often exposed to hurts by having their skin pierced with hooks and fish bones, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs; in this way the anguish is soon subdued; bathe as often as once in five minutes, say three or four times, and you will seldom have any trouble. nl dawlm

AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

"BOSTON, Mass.
"ORRIN SKINNER & Co.—*Sirs:*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles, and he says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours. A. B. ELDER."

The Life Drops are carefully prepared by

Smolander's Extract of BUCHU!

Is sold by all Apothecaries, everywhere, for only ONE DOLLAR. It is a *certain cure* for

Diseases of the Kidneys, Gravel, Rheumatism, Gout, Dropsy, Female Disorders, and General Debility, arising from excesses of any kind. Read the following TESTIMONY OF A CITY MISSIONARY:

CHARLESTOWN, MASS., Nov. 23, 1865.
Messrs. BURLEIGH & ROGERS, Boston, Mass:
I feel it a duty I owe to you, and to such of the community as are suffering as I have suffered, to make known through the medium of your advertisements the CURE that, through the blessing of God, you have wrought upon me by using SMOLANDER'S BUCHU. I had *suffered over one year with Kidney Disease*, so bad I *could hardly walk*. I took four bottles of *Smolander's Buchu*, and it *cured me*. WILLIAM M. MELLEN,
City Missionary.

All Apothecaries sell this valuable Preparation, and ask only One Dollar for it. Try it.

MARCHING ON!

Constantly advancing in public favor, throughout the United States, the British Colonies and Spanish America, and needing no

Flourish of Trumpets

to proclaim its success, that standard article,

CRISTADORO'S HAIR DYE,

is now far ahead of any preparation of its class. People of Fashion at length thoroughly understand the terrible consequences entailed by the use of metallic and caustic preparations, and admit the superiority of this famous vegetable Dye.

Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. o30dawlm

The Guide to Health and Beauty,
JUST PUBLISHED.

It teaches how to remove Tan, Freckles, Pimples, Blotches, Moth Patches, Sallowness, Eruptions, and all impurities of the skin; how to enamel the skin, leaving it white and clear as alabaster; how to produce the fullest development of the female form (as practised by the French,) causing the bust to grow round and full, and if the form has been lost by pudding, luling, or maternity, restoring it to more than its original fullness, firmness and beauty. It teaches how to reduce in size the hands and feet; produce corpulency or the reverse; remove superfluous hair; cure Corns, Bunions, Warts, and Moles; renew your age; cure Rheumatism, Catarrh, Dyspepsia, Nervous Debility, &c., how to fascinate and gain the love and affection of any person you may choose, together with other useful and valuable information. No young Lady or Gentleman should fail to send their address to the undersigned and receive by return mail a copy of this valuable work in sealed envelope free of charge. Address

CITY ELECTIONS.

The municipal election on Tuesday, has resulted, as we judge by the returns before us, in no choice of Mayor—in the success of the Democratic ticket by a large majority in Ward 3—and in the Republicans holding Wards 1 and 2 by greatly reduced majorities, Ward 1 being barely held. The New School Law is accepted by a vote of 746 yeas to 695 nays. Vote in 1865—1163: this year—1684.

S. J. COURT, *Thursday, Nov.* 27.—Chas. Hayes v. Eastern Railroad. The evidence in this case was concluded on Tuesday. The defendants contending that sparks from coal will not last long enough to be cast by the wind to such a distance as was the barn from the track, but cease to have power to communicate fire. Given to the jury on Tuesday evening, after a brief charge from Judge Doe.

☞ The public are invited to attend service on Thanksgiving morning at the Court street Christian Church. Sermon by the pastor, Rev. Cooke Finney.

☞ The present City Government, and the members elect of the new, with others, are invited to visit the Alms-House, on Thanksgiving Day, between the hours of 12 and 1.

BENEFITS OF LIFE INSURANCE.—Mr. John C. French of Manchester, General Agent of the Connecticut Mutual Life Insurance Company, was in town Tuesday, and paid the widow of the late Phineas Drake one thousand dollars for insurance on her husband. This company claim that their dividends will cancel one-half of the premium, and when it is paid by half note, as in the case of Mr. Drake, no note or part of note is deducted from the policy. This is true of no other company.

☞ We are indebted to Mr. W. A. Nowell, formerly of this city for Milwaukee papers, and to a friend for the catalogue of Pinkerton Academy, Derry, N. H. This institution has been in successful operation more than half a century.

☞ Mr. Nowell, whose Thanksgiving Hymn graces our columns to-day, was the author of the National Thanksgiving Hymn for last year, which was sung in hundreds of churches in various parts of the country.

Business Notices.

Holloway's Pills.—Fever and Ague.—The preparations of Quinine and Calomel prescribed by the faculty for this disease, are more destructive in their ravages on the human body than the complaint itself, verifying the old adage—"a remedy worse than the disease." Holloway's Pills possess no mineral poison, and are more speedy and efficacious in promoting a permanent cure. Sold by all druggists. n24—1w

THE PEOPLE'S CHOICE.—There is probably no one medicine that has cured more people of hard colds, coughs, influenza and throat difficulties, than Coe's Cough Balsam, whilst in cases of croup and whooping cough, it is remarkable for its speedy cures.

COE'S DYSPEPSIA CURE.—There is no need of any one's having the dyspepsia, for it is demonstrated beyond fear of contradiction that Coe's Dyspepsia Cure will certainly cure it. Constipation, the most prolific cause of ill health, is certainly cured by the Cure. Sick-headache, cramps, pains, or cold in either stomach or bowels, instantly yield to its power. n27—1w

Special Notices.

Dr. Schenck, the Lung Doctor.

☞ The Proprietor of SCHENK'S PULMONICSYRUP, the inventor of SCHENK'S RESPIROMETER, the only instrument that can to a certainty detect the slightest murmur of the respiratory organs.

This is of great importance to Dr. SCHENCK, to know the exact condition of the lungs, whether it is Tuberculous, Pulmonary, Bronchial, Hectic, or Dyspeptic Consumption, and whether it is both lungs or only one that are diseased.

He requires constant and long practice to become familiar with every sound or rattling of a diseased bronchial tube. Patients come to Dr. SCHENCK to get examined that have been examined by their family physician, who told them that their lungs were almost gone; when by a close examination with the Respirometer, it is often found that it is an affection of the bronchial tube; and by getting a healthy action of the liver and tone of the stomach, the sufferer is soon restored to health. Sometimes medicine that will stop a cough is certain death to the patient. It locks up the liver, stops the circulation of the blood—hemorrhage follows, and, in fact, stopping the action of the very organs that cause the cough.

Dr. Schenck will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is $5. His medicines are for sale by all druggists and dealers, also a good supply at all times at his rooms. The action of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills 25 cents per box.—GEO. C. GOODWIN & CO., 38 Hanover street, Agents for Boston. HARPER'S
NEW MONTHLY MAGAZINE.
Critical Notices of the Press.

It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the million a more enterprising friend, than Harper's Magazine.—*Methodist Protestant* (Baltimore).

The most popular Monthly in the world.—*New York Observer.*

We must refer in terms of eulogy to the high tone and varied excellence of Harper's MAGAZINE—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the culture of the American People; their popularity it has acquired is merited. Each number contains fully 144 pages of the reading matter, appropriately illustrated with good woodcuts; and it combines in itself the very monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—LEUNEBER'S *Guide to American Literature, London.*

The volumes bound constitute of themselves a library of miscellaneous reading, such as cannot be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

SUBSCRIPTIONS.
1867.

The Publishers have perfected a system of mailing by which they can supply the MAGAZINE and WEEKLY *promptly* to those who prefer to receive their periodicals directly from the Office of Publication.

The postage on HARPER'S MAGAZINE is 24 cents a year, which must be paid at the *subscriber's* post-office.

Terms:

HARPER'S MAGAZINE, one year.....$4 00.

An Extra Copy of either the MAGAZINE *or* WEEKLY *will be supplied gratis for every Club of* FIVE SUBSCRIBERS *at* $4 00 *each, in one remittance; or Six Copies for* $20.00.

Back Numbers can be supplied at any time.

A Complete Set, now comprising Thirty-three Volumes, in neat cloth binding, will be sent by express, freight at expense of purchaser, for $2.25 per volume. *Single volumes*, by mail, *postpaid*, $3.00. Cloth cases, for binding, 58 cents by mail, postpaid.

Ayer's Cathartic Pills.

ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agent below named is pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and *sold by all Druggists and Dealers in medicine everywhere.* o29—2m

AN AUCTIONEER'S STORY.—The Boston Commercial Bulletin tells a story of Leonard, the book auctioneer. Some twenty years after his schoolboy days in England, he was selling a lot of second-hand books in Boston at his salesroom, by auction. Among others was a little old-fashioned grandmam, that caught his eye, which seemed to wear a familiar aspect. He opened it, and lo! inside the cover was his own youthful autograph and other hieroglyphics, inscribed by himself nearly a quarter of a century before. By some curious coincidence the little book, lost in boyhood's day, had during that length of time, like its owner, crossed the Atlantic, and, in the course of events, came back to his very hand. It is almost unnecessary to add that the little volume, of only waste-paper worth to the public, was a book of greater value to the auctioneer than many more costly works; and that it was bid in by him as a relic and rescued from the paper mill.

☞ It is stated in a newspaper item that "at a recent wedding in Troy church, Mrs. John Morrissey appeared so richly attired that the jewels she wore could have purchased all the dresses worn in the church and buy the edifice and its entire furniture. Her dress was a pearl-colored silk with black thread lace flounces. Upon her head was a silver crown, studded with diamond stars. Upon her neck a coral and diamond necklace. Diamond bracelets encircled her wrists, and her hair fairly glittered with diamonds."

— Ninety eight thousand gross of pens, consuming ten tons of steel, are made in Birmingham, England, every week.

They occupy little space, are elegant as furniture, not liable to get out of order. Fully equal to a full orchestral band, one to twelve stops. Prices—$55 to $600, according to size.

Five Prize Gold and Silver Medals and Highest Premiums have been awarded these instruments, for their important improvements and superiority to all others. They have the following patent improvements which cannot be employed by other makers of Reed Instruments:

Aeolian, Diffusing Tone, Improved Self-Adjusting Valves, Wood's Orchis Couplet, Noiseless Safety Valve, Improved Combination Register.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Dow's and 9 Bulfinch Street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience (or unlimited extent, Dr. Dow may be justly styled the Master Physician of the unfortunate with remedies that have never, since he first introduced them, failed to cure the most virulent cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Persons who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and all medicine for home treatment. Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, acknowledged the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females.

IN DOUBT, AVOID BLUNDERING.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay, in the family, while under his treatment. Dr. Dow, since 1845, having combined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Among the many diseases in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the services of an experienced physician, and wish good advice, should give him a call.

P. S.—Dr. Dow imparts and has for sale a specific, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Books Published!

We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other company. Our books do not pass through the hands of General Agents (as nearly all other subscription works do), therefore we can pay more to the canvassers the extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.

Our series embraces the most popular works on all subjects of importance, and is selling rapidly, both North and South.

Old agents, and all others, who want the best selling agencies, will please send for circulars and see our terms, and compare them and the character of our works with those of other publishers. Address, NATIONAL PUBLISHING CO., 116 Water St., Boston, Mass.

Book Agents Wanted.

Now ready for delivery, a great National work—not political or sectional, but rebellion is high, is standard; will never lose its interest; has no competitor; eight distinguished literary men were employed in writing it, time from commencement to close, over four years; is endorsed and highly commended by the most celebrated literary and scientific men in the country, including ever twenty Presidents of Colleges; is vitally interesting and useful to all classes; is worth more than a hundred times the money; family or young man. We have sold books faster than any Subscription Publisher, yet more subscribers are taken for this work, per Agents sent out, than any book we ever published. In addition to the largest commission, we pay freights, leaving nothing but personal expenses; also a bonus to Agents of fifty cents per copy, payable in cash, for the first sale one hundred copies. Experienced and successful Agents wanted; others need not apply. For full description and terms, address

L. STEBBINS, Hartford, Ct.

Choice Imported Books.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE
COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

The Subscriber, formerly with S. F. Cobb, would inform his friends and former patrons of Mr Cobb, that he has opened a store of a similar kind, on the first floor, Pianos, Organs, Melodeons, Stools, Covers, Sheet Music, Flutinas, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.

PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.

PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.

Having made arrangements with Prof W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons and Geo. Steck & Sons; the superior merits of the former have too long been established to need any comments. Of the latter suffice it to say that the sale of over fifty of them within the last five years by Mr Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.

Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof. Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a careful consideration by the same gentleman. D. H. MONTGOMERY.

The Chronicle.

WIVES AND HUSBANDS.—With a wife comes a certain loss of freedom, which is irksome to willful natures. This a man (who is a very short-sighted creature) never thinks of until after the object of his love is his. Waking thoroughly to the conciousness that he is a married man, he finds in his house a person who has an absolute claim on his attention, his time, his affection and his service. He is surrounded by new conditions. All his movements must start from a new center. Mr. Jones before marriage, could harness his pony and drive wherever impulse might direct; but Mr. Jones after marriage, is obliged to remember that Mrs. Jones is in the house and would like to accompany him—a fact, considering the way towards which the pony's head is turned, and the old companions who live on the way, that is not wholly agreeable to Mr. Jones. A new item comes into all his calculations. Mr. Jones is double instead of single. Mr. Jones' life which once was a skein of silk has become a stick of twist, and the strand which he contributed can not be separated from its fellow without a snarl. Mr Jones finds himself tied to Mrs. Jones for life, and also finds that a certain freedom of movement on which he enjoyed before marriage was not, with propriety, be enjoyed after marriage. This galles Mr. Jones a little. He has half a mind to rebel. What business has a woman to interfere with him? Perhaps he rebels with a whole mind. Thousands do, and by the failure to adapt themselves rationally to their new conditions inaugurate a life discord or indifference.

Absorption in business and professional pursuits is, perhaps, the grand cause of estrangement between married lives. In France there is a saying that "tobacco is the tomb of love"—French love, probably. In America, business is the tomb of love.—It is hard, if not impossible, for two great passions to live in the heart at the same time. It is as difficult to love woman and mammon, as it is to serve God and mammon. The love of a man for his wife must be the grand, enduring, all-absorbing passion of his life, or woman is defrauded of her right. The man, who, when his wife is won, turns the whole interest and energy of his life into business, making that an end which should only be a means, is married only in name. There is no attraction of affection like the strong love and ceaseless pursuit of money. Turning gradually away from the quiet society of their wives, and the enjoyments of their homes, most men yield themselves to the pursuit of wealth, and in the fierce excitements of their enterprise, lose a taste for the calm delights of domestic life. At the close of a day's labor, they bring home weary bodies and worn minds. Nothing is saved for their homes or their wives. Their evenings are stupid and fretful, and the pillow and forgetfulness are welcomed as a release from *ennui.—Hours at Home.*

— What sea is like a certain portion of a house in good repair? A-dri-atic.

— Wendell Phillips' new idea is, that if the President remains in office on the 4th of March 1867, it will be the duty of the present Congress to provide that the 40th Congress shall assemble on the 5th of March.

The Old Established Hospital,
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually.
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures which no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians in the old World) that he obtains the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubloe, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system; are particularly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and advise, who has benefited thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The render of course will see that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. Teller's great Work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which he treats.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unsurpassed, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
Caution.—Females of a delicate or certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. If you inclose $1, (the price per box,) these Pills will be sent by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No Students or boys employed. Notice his address attentively

Morning Chronicle.

Portsmouth N. H.

THURSDAY, NOVEMBER 29, 1866.

EDWARD N. FULLER, Esq., formerly editor of the N. H. Gazette, has, for a year past, published a very able political paper in Newark, called the New Jersey Review, which paper has been intensely copperhead in its tendency. The publication is now to cease, and in his closing address, after a gloomy view of the situation, the editor says:

Certain it is, that until the Democratic party again raises its banner emblazoned with vital PRINCIPLES, no hope can be cherished of help from this quarter. Elections are a farce unless they embrace an idea. Democratic Shoddyism is worse if anything than its opponent, and no man can serve the GRIM DEVIL who now REIGNS supreme over the government, and keep a clear political conscience. He must either be an enemy of the whole system of wrong, injustice and oppression under which our people now suffer, or a facile tool of the Jacobins. It was a sad day for the Democracy when they sought to ally the party to the powers that be for the sake of reaching the FILTHY SPOILS OF OFFICE so lavishly distributed by a weak Executive to sustain a republican sentiment, which he attempted to engraft upon a principle antagonistic to all republican ideas. The attempt has proved a signal failure, and the President has now no apparent alternative but to fall back upon the party which elected him, acknowledging his error, and as far as possible retrieving it by submission to the Congressional dictates, while the Democratic people must organize upon a basis independent of government influences, with a platform of positive principles adapted to the present exigencies of the country."

[It is proper here to say, that the democratic PEOPLE, (NOT the mis-called Democratic PARTY,) have organized, and are organized "on a basis independent of government influences, with positive principles (of justice, equality and liberty secured by law) adapted to the present exigencies of the country."]

PRESIDENT'S MESSAGE.—The Washington correspondent of the Boston Journal says that the President has nearly finished his Message, and its leading features are known. He discusses the Alabama differences with Great Britain, and the condition of Mexican affairs, at length, reflecting on France for not having recalled the first installment of her troops according to agreement.

The President has not adopted the idea of universal suffrage and universal amnesty so persistently urged upon him, as he regards the power of declaring pardon and amnesty as belonging to the Executive, to be exercised as he may deem proper. He however offers an inducement to the Southern States to grant the right of suffrage to their freedmen, by proposing to have the President of the United States elected by the votes of all the voters of the country, dispensing with the electoral college.

Mr. Johnson will also recommend that Senators be elected by the popular vote of their respective States, instead of by the State Legislature; and he will suggest a change in the manner of appointing the Judges of the Supreme Court, limiting the Judges' terms of service to twelve years instead of for life.

[Dr. Johnson is a political quack;—and his prescriptions are likely to be lightly esteemed, as he has not the confidence of any party, nor of many individuals.]

CABLE ITEMS, Nov. 27.—In London the Fenian alarm is on the increase. Several ships of war have been ordered to Ireland. The excitement in London is intense, and approaches nearly in magnitude to the scene on the occasion of the news of the outbreak in India.

At Paris, it is the settled conviction in government circles that the Empire of Mexico is ended, and that Maximilian will soon arrive there. The Government has sent a proclamation to Gen. Bazaine for publication in Mexico when Maximilian leaves that country.

NEW FOREIGN POSTAL TREATY.—A Washington dispatch says the Postmaster General has agreed upon a treaty with Great Britain, whereby postages to and from are to be reduced to 12 cents, to be prepaid. The postage is to be collected and kept by the Government where the letter is mailed, and each side to keep what it gets.

☞ A short time since the head porter of Trinity College, Cambridge, England, died, and it has since turned out that he had amassed between £15,000 and £20,000 during the period in which he had held office. According to the regulations in force he was entitled to make a charge of one halfpenny for every letter which was delivered through the Post Office to him for the undergraduates, and the receipts from this source must have amounted to no inconsiderable sum in a society which musters about 600 resident students.

Correspondence of Chronicle.

NEW YORK, Nov. 26.

Dear F.—"Time was made for slaves," you know, and perhaps 'tis a result of the Emancipation Proclamation that we don't get enough of it now a-days. It is because of this, that my side of the correspondence hasn't exceeded our pleasant little personal scribblings. (Don't imagine that last word is a sarcasm on any one's handwriting!) If a column of theatrical gossip will interest you—here it is.

Perhaps New York never offered a more complete array of evening entertainments than at present. We dropped in to see Griffith Gaunt dramatized at the N. Y. Theatre, the other night.

Everybody whose goodness is of such a greatness as to permit of being tarnished, or of such a littleness as not to be affected, has read or going to read Mr. Reade's story, and so heresbouts it draws well on the stage. The play was arranged by Daly—who did Miss Bateman's "Leah," from the German.

Rose Eytinge as Kate Peyton, Mrs. Gomersal as Mercy Vint, Mr. Gomersal as Paul Carrick, Baker as Tom Locrister, Morbinier as Griffith Gaunt, and Mark Smith as the Judge, fill the leading parts. Rose Eytinge is just beautiful enough to impersonate the beautiful impetuous Kate, and does her part to perfection. The Mercy Vint and Mrs. Ryder, are also true to the plot.

The striking episodes of the story are all brought in and generally with good effect. The appearance of Kate at the duel, the scene in the Grove, the "Packhorse," making the shroud, the pedlar's recognition of Griffith's picture, the night of the supposed murder, with its cries for help, Griffith's return to the Inn, and Mercy's query of "who is Kate?" the court scene, and Mrs. Gaunt's defence, all appear in the drama. Mr. Gomersal of course makes many laugh as the country bumpkin Paul, and the jealousy of Griffith, the impetuosity of his wife, the innocent trustfulness of Mercy Vint and the conspiracies of Ryder, are all given with sufficient merit to make the play a decided success.

Edwin Booth and the Maretzeck Opera Troupe with Miss Kellogg, are to alternate at Winter Garden, which is a feast indeed. Mr. Lester Wallack's return to the stage this winter is rumored, and also Miss Henriques' marriage, which latter event will probably withdraw her from the stage, to the comedy and tragedy of domestic life. Our theatre going public will part with her with regret, for a prettier woman, a more winsome actress, or general favorite never graced the stage.

The "Black Crook" at Niblo's—a spectacular play, noticeable for gorgeous scenery, absence of clothing and display of contour, from being roundly abused, of course wins immense success, from that well known characteristic, the perversity of human nature; and every seat in the house is sold ten days in advance. It makes a big sensation, and more money, for Wheatley, Palmer & Jarrett, and is likely to "run" all winter.

Ristori closes her second season on Saturday at the French Theatre, with the most gratifying success. Her reception in both New York and Boston has been attended with a demonstration never before equalled in this country, and pecuniarily has made her a fortune.

Besides all these attractions we've had Parepa at "Steinway Hall," (a recent and fine addition to our places of amusement,) Dillon in tragedy at the "Broadway," Tom Jefferson at the Olympic, and all the minor places as usual—together with our very excellent troupes of Opera D'Afrique,—and by the by, this reminds us of the Morris Bros. in Boston, and the very ordinary performances, they have been giving lately which are so much at variance with those of other days. They show a big room for improvement, and we hope as Artemus Ward says, they'll "have it swept at once." We also beg leave to comment on the noticeable absence of 'dress' at the Opera in Boston, and upon the peculiarly awkward and up-country habit of gentlemen with their hands thrust in the pockets of well-worn business suits, moving to standing positions in every part of the house, for a three minute conversation with this or that acquaintance, and then scattering back to their seats after the next act has commenced, with the noise of a whole troupe of cavalry. We also beg leave to suggest, that if a longer interval was made between each act, the going out to drink movement at the Boston Theatre could be done a good deal better. We never saw its unanimity equalled anywhere. It always reminds us of the "You don't say!" exclamation of the countryman, who in answer to his inquiry of "where all those people were going," was told that there "was a big funeral outside and they'd come back with the bier in a few minutes!"

It is surprising that the refined and cultivated community of Boston, do not secure an increase and improvement of their amusements, and the houses devoted thereto. There is not a single, elegant, not even a cheerful, cosy and comfortable place of entertainment in the whole village. Despite its arrangements, the Music Hall always seems to us the most pleasant, for the Boston Theatre is surely cheerless, unsocial and inconvenient, enough to disatisfy almost any one, except such as have been systematically educated to sit in the "stocks" for a whole evening, with a strong breeze blowing against the back of their heads and enjoy it. New York has twelve first class Theatres, five good Opera Houses, and six Halls for parlor entertainments, concerts, &c. Boston needs several good-sized, modern, bright, cheerful, cosy Opera Houses, such as Wallack's, which pleases everybody and "everybody's friend." Such houses would be comfortably supplied, and crowded with intelligent and appreciative audiences,—audiences of unquestionably greater merit and more refined tastes than can be collected in any other City.

In closing this, our first letter in several months, we must add our late but hearty congratulations on the success of your personal experiment at Lincoln Hill, and the pleasant location and equipment of your cottage by the C. (C. of course meaning Cemetery.) We have never seen in any part of the country, a view comprehending a greater diversity of beauty, than that which your cupola affords. The enterprise and perseverance which has wrought out a scheme of no inconsiderable magnitude, and utilized a tract of such rugged roughness, as the pasture was formerly, certainly should win you, beside your pleasant residence and its advantages, the commendation of every one who wishes the improvement and prosperity of our native City.

N.

☞ Several prominent members of Congress are of the opinion that when three-fourths of the loyal States shall have ratified the proposed constitutional amendment it will be valid as a part of the Constitution of the United States, and the Supreme Court will so declare it. If the Supreme Court should thus declare, it will be the duty of the general government to reorganize the rebellious States in accordance with this new section of the Constitution.

☞ There have been received at the office of the Third Auditor, since the commencement of the war, 13,382 claims for horses lost in battle belonging to the officers and soldiers of the army, 6,455 of which remain undisposed of, the balance having been allowed or rejected. Payment in no case exceeds $200, that being the maximum established by Congress.—The business of the office is about five months in arrears.

☞ A San Fransisco dispatch says, the iron ship Cayer, of Liverpool, went ashore near Pesseodero, half a mile from the wreck of the Sir John Franklin, on the night of the 24th Nov. during a fog. The vessel and cargo are a total loss. The crew and passengers, numbering twenty-nine, were washed overboard and drowned, excepting George Barnes, Thomas Bannister and Walter Cooper.

☞ It is stated that every Republican in the State of Delaware has been turned out of office, and not a Republican newspaper in the State receives a dollar's worth of advertising or printing from the Government. Everything has passed into the hands of the Saulsbury Copperheads. The editor of the Wilmington Gazette, whose office was mobbed for treasonable utterances, is now the United States Marshal.

☞ The Edinburgh Review contains: Keye's History of the Sepoy War, Varieties of History and Art, International Coinage, Napoleon's Julius Cæser, Felix Holt; Strauss; Renan, and "Ecce Homo;" Froude's Reign of Elizabeth, Antique Gems. The Military Growth of Prussia.—Reprinted by the L. Scott Publishing Co., New York, at $4 a year.

JAMES BREWSTER OF NEW HAVEN.—The famous carriage manufacturer of New Haven, James Brewster, died in that city, on the 22d instant. He may be said to have built the Hartford and New Haven Railroad. Besides, he gave New Haven an orphan asylum, her first respectable building, largely endowed Yale College, and was engaged at the time of his death in building the New Haven and Derby Railroad.

STATISTICS OF COLORED TROOPS.—It has been ascertained at the War Department that there have been 169,624 colored men enlisted in the United States service. Of these 20,236 have been discharged, principally on account of physical disability; 31,866 died while in the service; 14,-887 deserted; 1514 have been killed in action, and 1344 were reported after engagements as missing.

KENTUCKY.—William T. Bailey, editor of the Free South, an anti-slavery paper, published at Newport, Ky., before the war, and destroyed by a mob, has recovered a verdict of $2500 against the city for the destruction of his property.

☞ The Irish in New York city and Brooklyn, are highly excited by rumors that Stephens the Fenian has landed in Ireland.

NEW HAMPSHIRE ITEMS.

—— Messrs. Parker of Goffstown, lumber dealers, have paid $21,000 for the wood and timber on the Stimson lot in Dunbarton.

—— Jack A. Sumner was arrested in Concord, on Monday, for stealing a pair of reins from a team, fined $27 and costs, and in default sent to jail. He drew a revolver on the officers making the arrest.

—— The Exeter News Letter says the new bridge built in Raymond, just below the village, on the Concord and Portsmouth Railroad, is substantial, and for architectural finish is not exceeded by any bridge on the road.

—— The tavern, store and stable of Saml. M. Worthley, at New Boston, were destroyed by fire on Monday evening, supposed to be kindled by an incendiary. Animals and goods saved. Loss $3000; partially insured.

SUIT AGAINST GEN. BUTLER.—General B. F. Butler was on Saturday served with notices of suits which have commenced against him in the Supreme Court at New York by John H. Lester. They charge him with false imprisonment, claiming for this $100,000 damages, and a fraudulent conversion of property, for which $50,000 is demanded. Lester was given a pass by Secretary Stanton during the war to come North from rebeldom, but Butler disregarded it and imprisoned Lester.

MESSRS. ALLCOCK & CO.: Please send me a dollar's worth of your plasters. They have cured me of a crick in my back, which has troubled me for some time, and now my father is going to try them for difficulty about his heart,

L. H. SHERWOOD.

Dr. Green, No. 863 Broadway, New York, informs us he sold, on Monday, June 22d, 1862, two plasters to a young woman suffering very severely from lumbago. On Thursday she called to get two more for a friend, and then stated that the two she had purchased on Monday had relieved her immediately after putting them on, and CURED HER IN TWO DAYS of a most distressing pain in her back and loins.

Sold by all Druggists. n29—dawlm

DR. P. MEREDITH, Dentist, office No. 182 West Sixth Street, states as follows:

CINCINNATI, October 1, 1868.

MESSRS. J. N. HARRIS & CO.—Gents.: About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of phlegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhœa set in. My friends thought I was in the last stage of Consumption, and could not possibly get well. I was recommended to try

ALLEN'S LUNG BALSAM

The formula was shown to me, which induced me to give it a trial, and I will only add that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully, P. MEREDITH.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,-000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world. For the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions, stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.** Prepared by Dr. JOHN L. LYON, 186 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (inclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

Sold by Druggists everywhere.

PERRY DAVIS' PAIN KILLER

Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and molasses, and a gill of hot water. Stir well together and drink hot. Repeat the dose every hour until relieved. If the pains be severe, bathe the bowels and back with the medicine, clear.

Fishermen, so often exposed to hurts by having their skin pierced with hooks and fins of fish, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs; in this way the anguish is soon abated; bathe as often as once in five minutes, say three or four times, and you will seldom have any trouble. n1 dawlm

AMERICAN LIFE DROPS!
FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all Kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

"BOSTON, Mass.
"ORRIN SKINNER & Co.—*Sirs*:—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of your American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Cough, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I get a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever saw. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cared a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours. A. B. ELDER."

The Life Drops are carefully prepared by

S. J. COURT, Nov. 28 —*Doe, J*,—Chas. Hayes v. Eastern Railroad. This was a suit brought by the plaintiff to recover damages for the loss of a barn and the contents, on the 17th of August, 1865. The plaintiff's barn was 84 feet by 40, and contained about 100 tons of hay, tools, &c. The plaintiff claimed that the barn was burned by sparks from the engine of the 3 o'clock train. The barn stood 230 feet from the track of the railroad.

The defendants positions were: 1. That sparks from Cumberland coal, the fuel used by the engine of that train, could not live and communicate fire to wood 230 from the smoke pipe. 2. That Mr. Hayes' barn was on fire inside when the 3 o'clock train passed his premises. 3. That the wind, when the train passed, was southeast and blew from the barn burned, across the track of the Eastern Railroad.

The case was commenced on Saturday. About forty witnesses were examined. The case was argued Tuesday afternoon by Mr. Hatch for the plaintiff, and Mr. Hackett for the defendants. The jury retired at a little before 7 o'clock, and on Wednesday morning returned a verdict for the defendant. Hatch and Webster for plaintiff, W. H. Y. and W. H. Hackett for defendants.

The court adjourned sine die Wednesday afternoon.

BUSINESS SCHOOL—*Special Notice.*—All persons desirous to avail themselves of the advantages of Mr. E. A. Joy's Commercial School, should commence the course of instruction next Tuesday, Dec. 4. We are glad to learn that the Business School is likely to be well patronized. ☞ All members of the Rockingham County Agricultural Society should attend the annual meeting at Hampton, on Saturday. Cars leave the Eastern depot at 9 o'clock, and return at 3 o'clock. Fare one way.

☞ The present City Government, and the members elect of the new, with others, are invited to visit the Alms-House, today (Thanksgiving Day), between the hours of 12 and 1.

☞ Rev. Mr. Ambler of Milford, Mass., having received a unanimous call from the Universalist Society in this city, has accepted the same, and will shortly commence his labors here, probably about New Years.

☞ The concert at the Temple this evening must not be forgotten. The list of performers is a good one, and they will doubtless furnish a fine entertainment.

☞ A little boy aged three or four years, son of Mr. John Harvey of this city, an Irishman living on Noble's Island, was scalded to death last week, by pulling a kettle of water over himself, from the stove.

☞ To-day being Thanksgiving, we shall of course print no Chronicle on Friday.

MEXICO.—A Galveston dispatch says that Gen. Sedgwick crossed the RioGrande, on Thursday, with a brigade of U. S. troops, and occupied Matamoras:—and it is said at Washington the news has been confirmed to the President. But *per contra*, the Boston Herald has a Washington special of Wednesday, which says Gen. Sheridan prohibited Gen. Sedgwick from crossing,—and that the U. S. troops have NOT crossed.

JOHN MORRISSEY AND HIS SISTER.—A few days ago a man named John Morrissey was charged before the Police Court in Chicago with being drunk, and for abusing his wife, a blind woman. The name, taken in connection with that of a member of Congress elect, gave rise to some amusement which in turn resulted in the discovery that the miserable looking and badly abused woman was a sister of John Morrissey, one of the members lately chosen to Congress from New York city. Mr. Morrissey was telegraphed to and informed of the statement made by the woman. He returned answer that he had a sister, but had not seen or heard of her for seventeen years; but if her statement was true Mr. Morrissey's correspondent was to pay her $250 and draw for the amount. The necessary investigation was made, the poor woman's story found reliable, and the money was paid over to her. The Chicago Post, after narrating the above story at length, says Morrissey "may be a bruiser, a burglar, a gambler, and even the faithful Democratic Representative of of the Fifth Congressional District of New York, and yet possess some of the traits which distinguish a man from a demon."

Dr. Schenck, the Lung Doctor.

☞ The Proprietor of SCHENK'S PULMONIC SYRUP, the inventor of SCHENK'S RESPIROMETER, the only instrument that can to a certainty detect the slightest murmur of the respiratory organs.

This is of great importance to Dr. SCHENCK, to know the exact condition of the lungs, whether it is Tuberculous, Pulmonary, Bronchial, Pleuritic, or Dyspeptic Consuption, and whether it is both lungs or only one that are diseased.

It requires constant and long practice to become familiar with every sound or rattling of a diseased bronchial tube. Patients come to Dr. SCHENCK to get examined that have been examined by their family physician, who told them that their lungs were almost gone; when by a close examination with the Respirometer, it is often found that it is an affection of the bronchial tube; and by getting a healthy action of the liver and tone of the stomach, the sufferer is soon restored to health. Sometimes medicine that will stop a cough is certain death to the patient. It locks up the liver, stops the circulation of the blood—hemorrhage follows, and, in fact, stopping the action of the very organs that cause the cough.

Dr. Schenck will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is $5. His medicines are for sale by all druggists and dealers, also a good supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills 25 cents per box.—GEO. C. GOODWIN & CO., 38 Hanover street, Agents for Boston. It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the million a more enterprising friend, than Harper's Magazine.—*Methodist Protestant* (Baltimore).

The most popular Monthly in the world.—*New York Observer.*

We must refer in terms of eulogy to the high tone and varied excellence of HARPER'S MAGAZINE—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the culture of the American People; and the popularity it has acquired is merited. Each number contains fully 144 pages of reading-matter, appropriately illustrated with good woodcuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the determination of a love of pure literature.—TRUBNER'S *Guide to American Literature, London.*

The volumes bound constitute of themselves a library of miscellaneous reading, such as cannot be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

C. DWIGHT HANSCOM.

To the Hon. Judge of Probate for the County of Rockingham,

IN THE STATE OF NEW HAMPSHIRE.

Respectfully shows JULIA A. WIGGIN, of Greenland, in the County of Rockingham, that she is Guardian of HENRY B. WIGGIN and ELEANOR WIGGIN, minor children of JOHN H. WIGGIN, late of said Greenland, deceased, by the appointment of the Judge of Probate for the said County of Rockingham; that her said Wards are seized of a certain tract of land situate in Greenland aforesaid,—bounded northerly by the highway leading from Portsmouth to Exeter, easterly and southerly by land of George Odell, and westerly by land of Ruth W. Weeks,—containing about dixteen acres, with a Barn and Shed thereon, the same being subject to the right of dower of the widow of said deceased thereon, and that it is necessary for the support of her said Wards, and will be conducive to their interest to have the premises sold; wherefore she prays that she may be licensed and authorized to sell the same at public auction, according to the statute in such case made and provided.

JULIA A. WIGGIN, Guardian.

State of New Hampshire—Rockingham ss. Probate Court at Portsmouth in said County, Nov. Term, A. D. 1866.

Upon the foregoing Petition, it is *Ordered*, that a hearing be had thereon at the Court of Probate to be holden at Portsmouth in said County, second TUESDAY of January next; and that the Petitioner notify all persons concerned to appear at said Court, and show cause, if any they have, why the prayer of said petition should not be granted, by causing said petition and this order to be published three weeks successively in the Daily Morning Chronicle, a newspaper printed at Portsmouth in said County, the last publication whereof to be at least thirty days prior to said Court.

By order of the Judge
THOMAS LEAVITT,

Morning Chronicle.

☞ The Cincinnati Gazette says that one of the keepers of the Hammond street station house found recently a curiosity in the shape of a dying rat that had been choked to death by a very peculiar collar. The collar consisted of a section of a ham or veal bone, from which the marrow had been taken, and his ratship had evidently got it upon his neck while feeding voraciously, in his juvenile days, and there it had remained weeks and months, growing smooth and polished with wear day after day, while its doomed wearer's œsophagus was gradually growing and filling it up to the choking point.

A Prosperous Association.—Three years ago the Young Men's Christian Association of Brooklyn, N. Y. could not get trusted for a ton of coal. It has now (says Burleigh) a membership of 3100 and is going ahead at the rate of 600 a month. It is giving a course of popular concerts at the Academy of Music, free to all members, and six gentlemen of Brooklyn pay the expense. It is about canvassing the city. It will not only relieve religious and moral destitution, but will give coal, food and employment to the destitute. It will be the model institution of the land.

—A Catholic revival is going on at Taunton, Mass., which has resulted in the conversion of six or seven young men and women of the Protestant faith, who are now receiving instructions preparatory to being confirmed into the Catholic church.

— Judge Alexander Walker of New Orleans has gained a verdict against Mrs. Ackling for $25,000, for services performed in saving her a million dollars' worth of cotton during the war. General Polk ordered the cotton burned. Judge Walker, acting for Mrs Ackling, persuaded General Polk to revoke the order, which he did and the widow sold 2800 bales at the highest figures. She offered only $500 for the service.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, No. 7 and 9 BINDOOFF STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of nineteen years, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to save the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate. Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three or 27 and 1 red stamp.

Highly Important to Females.

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private and Delicate Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and tailor sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1866. eod&wly

NEW ADVERTISEMENTS.

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Books Published:

We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other company.

Our Books do not pass through the hands of General Agents (as nearly all other subscription works do), therefore we are enabled to give our canvassers the extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantage of dealing directly with the publishers.

Our series embraces the most popular works on all subjects of importance, and is selling rapidly, both North and South.

Old agents, and all others, who want the best paying agencies, will please send for circulars and account sales, and contrast the liberal character of our works with those of other publishers. Address, NATIONAL PUBLISHING CO., 718 Water St., Boston, Mass.

Book Agents Wanted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he warrants to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick, requires no shoveling and unless no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.

PICTURE FRAMES on hand and made to order.

CARTES DE VISITE.

Having made arrangements with Prof. W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering, Hallet & Davis, Steinway, Gilbert & Co. The superior merits of the former have too long been established to need any comments. Of the latter suffice it to say that they are in use by many of them within the last five years by Mr. Cobb, proves a sufficient guaranty of their excellence. Also, the celebrated Estey Cottage Organs for sale on reasonable terms.

Every instrument carefully selected and fully warranted, under the inspection and approval of Prof. Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman.

VOL. XXIX. PORTSMOUTH, N. H. SATURDAY, DECEMBER 1, 1866 No. 129.

The Chronicle.

— When is a sailor most like a thief?—When he takes a messmate's watch.

— The N. Y. Tribune estimates the expenses of both sexes who attend the 1200 balls of the season in that city at $6,125,000.

— The kerosene dealers of Middlebury, Vt., have published an agreement to draw no more kerosene for customers except by daylight, on account of the danger of explosion.

— Hon. W. A. Woolford of Georgia, has applied to the Boston Tract Society for one hundred libraries for white and black schools.

— Andrew McCullum, a sugar planter of Louisiana, who went to Brazil with a view to emigration, has returned, and pronounces against it as unsuitable and less favorable to the Southerner than his own country.

— A new island is forming in the Missouri river opposite St. Joseph, and two citizens have built a shanty on it, in order to secure the first claim to entry when Government places it in the market. It is two miles long.

— Although in England only about 3,000 cripples are born as such in the year, so many infants become so disabled through neglect and penury, that it is estimated that the floating population of cripples in England is 100,000, of whom 30,000 are girls.

— An ingenious person in New Orleans, says the Boston Commercial Bulletin, has been engaged in making thread from the stalks of the cotton plant. It is very fine and strong, and looks very much like flax, being nearly as soft and pliable. He proposes to make this thread into cloth, which he says will be strong and durable as that made from cotton itself.

Morning Chronicle.

Portsmouth N. H.

SATURDAY, DECEMBER 1, 1866.

☞ President Johnson's proposed *concessions* to Congress and the People, are now said to be no more nor less than three of his old proposed Amendments to the U. S. Constitution, which he offered in Congress in 1866, to quiet the country by giving the Slave Power all it ever asked. This old stuff is rather unsaleable now. And it offers besides, a curious comment on the cry, "The Constitution as it is, and the Union as it was!"

☞ Henry Ward Beecher is to write a *story* for the New York Ledger, commencing early in the new year, and to extend through several months. Mr. Beecher also has a characteristic and amusing article in the Ledger of Dec. 8th, on burglars breaking into his house. The Ledger always has something extra nice for its readers, and Mr. Bonner has proved that he cannot and will not be beat as a caterer for the public taste.

☞ At Troy, N. Y., Nov. 28, the steam tug C. H. Hoarlt, engaged in local towing purposes, blew up in the Hudson river, just opposite the city, at 12 o'clock. The Captain and pilot, Thomas Clasey, and engineer Henry Phelps, were blown a distance of nearly 30 feet, and so badly mutilated that neither can recover. The engine of the tug was 14 horse power. The boat was built in Buffalo by the same parties who built the tug C. H. Hayner, which exploded in the same waters last April.

THE REBEL FLAG.—The choir of St. Peter's (Episcopal) church at Rome, Ga., gave a concert on last Tuesday night, on which occasion a young lady sang with the Confederate battle flag unfurled over her, amidst intense enthusiasm. The Commercial says:

"In response to an invitation from the managers, Miss Anna Ford of Cave Spring sang that deservedly popular ballad, 'Furl that Banner, for 'tis Weary.'

In mentioning this piece, the incidents connected with it demand our attention.—The performer appeared upon the stage dressed in deep and emblematic mourning, with the Confederate battle flag in the hands of one of its brave defenders floating over her. In the conclusion of the ballad she kneeled and sadly kissed its silken folds, now forever furled. The storm of applause that followed plainly indicated that the glories which once clustered around that 'conquered banner' are still retained in undying memory."

STATIONERY CONTRACT AWARDED.—The large contract for supplying the Revenue Bureau of the Treasury department with stationery was awarded to Dempsey & O'Toole of Washington city. Their bid is much lower than that of the others, and is but about one-third as large as the bid of a Boston house.

☞ A prominent New Orleans merchant telegraphs to Washington that a memorial, quite largely signed by leading men, is on its way there asking Congress to inaugurate a new State government for Louisiana.

☞ In Washington it is understood that legislation will be framed to limit the President's power of removals, and to require him to send his appointments made during the recess to the Senate for confirmation at once.

☞ A new paper, said to be the organ of a new party, is about to appear in Missouri, to be conducted, oddly enough, by a combination of Radicals and Conservatives, on the basis of "Negro Suffrage."

☞ Hall's Journal of Health for December, contains a sensible essay on Winter Diseases.

— Nearly nine thousand pupils of the public schools in Cincinnati are studying German.

— The authorities in Kentucky are compelled, in many places throughout the State, to invoke the aid of the military to enforce the law.

— Postmaster General Randall recently informed an applicant for appointment as postmaster, that there would be no more changes made in postmasters until after the meeting of Congress.

— Major Hines, formerly of the guerilla Morgan's staff, has been arrested in Nashville on a charge of complicity in the recent robbery of a paymaster's train on the Louisville and Nashville Railroad.

— It is intimated that Congress will so act that no person will be allowed to draw his salary whose appointment was rejected by the Senate, and who was re-appointed by the President.

— Gen. Halleck says that the action of the California Legislature, in refusing to countenance the adoption of the national currency, has cost that State fifty millions in money and five hundred thousand inhabitants.

— An Irish washerwoman in Calaveras county, Cal., who was obliged to take a share in a newly discovered mine in payment for services, her employer being unable to pay in money, now derives an income of $10,000 a year from it.

NEW HAMPSHIRE ITEMS.

—— Fred. Pillsbury, of Warren, a boy nine years of age recently picked up one hundred bushels of potatoes in a day.

—— In Dover, Hon. Joshua G. Hall is re-elected Mayor, by 439 votes to 6 scattering: no democratic candidate was presented.

—— Several days ago, Col. John Hill, a venerable and well known citizen of Conway, was struck on the head with a timber which brought him senseless to the ground. He remained unconscious for fifteen hours. His recovery is considered as very doubtful.

—— In the item of the City Hall building in Dover, recently burnt in part, a correspondent of the Boston Herald stated stated that 800 rounds of catridges were stored and exploded. We made an item of it,—and in setting it up, the compositor made it read 800 pounds. The Dover Enquirer corrects this, saying, the statement that there were "800 *pounds* of ball cartridges in the armory," is incorrect. There was a box containing perhaps 800 *rounds*—a slight difference—but its contents fortunately were not reached by the fire and did not explode. It fell from the ruins of the attic upon the hall floor and was picked up the next day intact. The explosion proceeded doubtless from half a keg of powder (12 lbs.) which it is ascertained, was left in the armory.

SMART OLD LADY.—A Sandwich correspondent says: "Having seen several articles in the newspapers lately, telling of smart old ladies, I will just inform you of one with whom I am well acquainted.—She has, during the past fifteen months, spun 550 skeins of yarn, knit 10 pairs men's footings, 4 pairs gent's gloves, 4 pairs ladies' hose, 2 pairs ladies' socks, and 5 pairs mittens. She is in her 74th year, and has not seen the sun nor the 'human face divine' for the last twenty-five years. She exemplifies the truth of the saying, 'where there's a will there's a way.'" This lady is now a resident of Wolfeborough.—*News.*

HOW TO SELECT YOUR CHRISTMAS POULTRY.—A young turkey has a smooth leg and a soft bill, and if fresh, the eyes will be bright and the feet moist. Old turkeys have scaly stiff feet. Young fowls have a tender skin, smooth legs, and the breastbone yields readily to the pressure of the fingers. The best are those that have yellow legs. The feet and legs of the old fowl look as if they had seen hard service in the world. Young ducks feel tender under the wing, and the web of the foot is transparent. The best are thick and hard on the breast. Young geese have yellow bills, and the feet are yellow and supple; the skin may be easily broken by the head of a pin; the breast *is* plump, and the fat white. An old goose is unfit for the human stomach.

GAMBLING CARRIED TO THE EXTREME. The Brenham (Texas) Inquirer says, a man nicely dressed in broadcloth, who bore much the appearance of a gentleman, went into one of the fancy places a few nights since, and was skinned in the following style: He commenced gambling and lost all his money. He then bet his hat—that went the same way. His coat went next, and then his boots and socks; and so on, one thing after another went, until his last article of wearing apparel disappeared, and finally he left the house in a perfect state of nudity. Will anybody believe this? It is a fact.

BUFFALO HUNTING MADE EASY.—A Western exchange says that about a month ago a party of young men hired a sleeping car in Philadelphia, which they stored with all the luxuries and necessaries desired for a buffalo hunt, and travelled in it all the way to Fort Riley. Two miles from Fort Riley the pary hired ambulances, which conveyed them between two and three hundred miles distant, where herds of buffalo were grazing. Having killed five or six of the huge animals, and enjoyed themselves to their hearts' content, the party returned, having been gone about three weeks, and having travelled the whole distance, nearly fifteen hundred miles, from Philadelphia to Fort Riley in a single sleeping car.

ELECTION OF A SECESH SENATOR. — At Raleigh, N. C., Nov. 28, the Legislature after four ballotings, elected for United States Senator M. E. Manly, formerly Judge of the Supreme Court under the Southern Confederacy, an original secessionist and still a State rights advocate. John Pool, the present incumbent, received 41 votes on the last ballot, and Wm. N. H. Smith received 27 votes.

NEW ORLEANS MASSACRE, &c.—A joint committee will be appointed at an early day to visit New Orleans and to investigate the riots there; and the report of the Committee on Retrenchment and Reform in government offices will be promptly acted upon.

THE TARIFF BILL ASSIGNED. — Monday, December 10, is the day assigned for the consideration by the Senate, of the tariff bill passed by the House last Spring.

GOVERNMENT FINANCE. — Secretary McCulloch has in the vaults of the Treasury $80,000,000 in gold, and $32,000,000 in gold certificates.

THE SECRET SERVICE DIVISION OF THE U. S. TREASURY DEPARTMENT.—The following article furnishes a deal of information in regard to a department which does the public an infinite amount of service, in a manner so noiseless as to escape general notice except when great cases are "worked up" and the offenders brought to punishment.

Since the commencement of the issue of government bonds, notes, fractional currency, &c., a fine field has been opened to counterfeiters to pursue their nefarious calling; the many different issues, and inability of a majority of the people to distinguish genuine from spurious notes, affording them superior advantages. The peculiar green color of the ink used and the intricate latheework of the plates it was supposed would effectually baffle all attemps at successful imitation, but these difficulties have been nearly overcome, as, for instance, in counterfeits of $100 notes of one of the national banks, in which even competent judges have sometimes been unable to detect any difference, and in a late spurious issue of the fifty-cent fractional currency notes which fortunately for the community were captured, together with the plates, &c., before the parties engaged in their manufacture had been able to throw them upon the market. Many who read of the arrest of counterfeiters, and the capture of their presses, &c., suppose that it is the work of detectives specially employed to "work up" the particular case, and are quite unaware that there exists, under the direction of the Solicitor of the Treasury, a thoroughly organized body of men whose duty is to watch for all counterfeits issued, and to trace up the guilty parties, and effect a stoppage of their operations to the detriment of the public interest. Such is the secret service division of the Treasury, whose lynx eyed agents are ever on the track of evil doers, frequently commingling with parties in crime, and when a favorable opportunity is perceived calling in their co-workers, and effecting captures, and the suspension of counterfeiting operations which, if permitted to be carried on, would entail heavy losses upon the people at large and occasion no little distrust as to the value of our national issues as a circulating medium.

The headquarters of a gang of counterfeiters is generally fixed in one of our larger cities, of which New York ranks among the foremost, and the work is either conducted in hidden places in the cities or in small towns in the adjoining country, where the absence of officers of the law and the prevailing quiet would afford a safe retreat. But the thorough acquaintance of the officers with the habits and general whereabouts of suspected parties render such precautions of little avail, as when a person upon whom suspicion rests is observed to mingle with other characters of the same class, or to do anything tending to arouse the suspicions of the officer, he is watched until something definite in the matter is ascertained, and then the trap is laid to be sprung at the proper time. The greater part of the counterfeit money printed is shipped to the South, where it is more readily passed, as the people are unaccustomed to its use and therefore less able to detect it than in the Northern States. This is clearly proven by the fact that in many packages of currency received at the Treasury from parties in the South for redemption because of mutilation, &c., a large part, frequently one-half is found to be spurious.

Those who will contrast the number of counterfeits now met with, with their general circulation two or three years ago, when the fifty, twenty-five, ten, and even five-cent notes were counterfeited and successfully passed, will not fail to appreciate the valuable services of the operatives of the division and the rapid decline of successful counterfeiting operations.

GOV. SMYTH AND THE NATIONAL ASYLUM.—Gov. Smyth, of New Hampshire, one of the commissioners of the national asylum, arrived in Milwaukee, Nov. 24. It is understood among us that he is on a tour through the west and northwest for the purpose of examining the advantages presented by the several cities as locations for the proposed asylum. He was met that evening at the parlors of the Newball House by a number of the ladies connected with the Soldiers' Home and several prominent gentlemen interested in the asylum. The result was a very pleasant interview, and an agreeable interchange of views upon the subject in which they were all interested. Nothing definite or official was reached, but the opinion seems to prevail that the prospect of the selection of Milwaukee as the proposed asylum is excellent.—*Milwaukee News, Nov. 25.*

☞ Maximilian is daily expected at Havana, his withdrawal having been final and complete, and no obstacle remaining in the way of his embarkation. Marshal Bazaine has expressed himself as anxious for the arrival of General Sherman, to whom he intends surrendering his trust.

AUTHOR OF "ECCE HOMO."—This gentleman, so long a puzzle to the literary world, is said by the London Spectator to be Mr. Seeley, a Professor of Latin in the London University, a graduate of Cambridge, and only about thirty years old. "Ecce Homo" was his first book.

☞ The second annual re-union of New Hampshire Officers will be held at Concord, January 1, 1867. Order of exercises: Business meeting for completing organization of "Veterans' Union of New Hampshire," in Eagle Hall at 11 o'clock A. M. At 2 o'clock in Eagle Hall, Oration by Gen. Aaron F. Stevens; Poem by Lieut. George A. Marden. Grand Levee and Ball, at Phœnix Hall, in the evening. Gilmore's Band, Boston, will be in attendance day and evening. Free return passes over the railroads will be furnished to all persons attending the reunion. Officers desiring to secure Hotel accommodation or tickets, prior to the Levee, can do so by addressing any of the committee at Concord. It is earnestly desired that every New Hampshire officer will attend this re-union, and use every effort to make the occasion worthy of the object for which it is to be observed. The committee of arrangements are Gen. Natt Head, Gen. M. T. Donohoe, Col. Phin P. Bixby, Col. F. W. Parker, Col. J. E. Larkin.

— At a wooden wedding in Detroit, Tuesday evening last, a good joke was perpetrated by a would-be-guest, who was unable to be present. He sent his regrets, *written on a shingle*, to the lady of the house. His appropriate hit caused much merriment.

— Rev. Sylvester Holmes, one of the oldest clergymen in the State, died at New Bedford, Mass., on Tuesday, aged seventy-eight years. He was for many years a leading man in the Orthodox Congregational denomination in the southeastern part of the State.

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES.
These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, accompany each bottle. Being free from injurious ingredients, they will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**
Prepared by Dr. JOHN L. LYON, 106 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**
Sold by Druggists everywhere.

DIRECTIONS FOR
MAKING YOUR OWN SOAP
WITH YOUR WASTE GREASE!
Penn'a Salt M'f'g Co.'s Renowned
SAPONIFIER:
(Patents of 1st and 8th Feb., 1859,) OR
CONCENTRATED LYE!
Two Cents only for every pound of Soap.
DIRECTIONS.—Dissolve one box of Lye in 2½ pounds (pints) of hot water, in an iron pot. Melt in another pot or pan 5 lbs. of clean fat or grease. Take off the fire, and into *this* stir slowly the dissolved lye, and keep stirring until the whole becomes well mixed and like molasses. Now cover up, and set in a warm place over night. Next day cut up into small pieces, add 6 lbs. (or pints) of water, and melt with a gentle heat until the soap is *all dissolved*, then pour into a tub to cool. When cold cut into bars, which will be fit to use in about ten days.
Beware of Counterfeits.—*Be particular in asking for PENN'A SALT M'F'G CO'S SAPONIFIER.* dl—cowdawly

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the host of diseases, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and and extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it its healing influences more potent than those of the spices of "Araby the blest." We are informed by our principal druggists, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.* dl—daw 1m

ALLCOCK'S POROUS PLASTERS.
LAME BACK.
New York, Nov. 23, 1859.
T. ALLCOCK & CO.—Gentlemen: I lately suffered severely from a weakness in my back.—Having heard your plasters much recommended for cases of this kind, I procured one, and the result was all I could desire. A single plaster cured me in a week. Yours respectfully,
J. G. BRIGGS, Proprietor of Brandreth House.
CURE OF CRICK IN THE BACK AND LUMBAGO.
Lyons, N. Y., July 4, 1862.
Messrs. ALLCOCK & Co.: Please send me a dollar's worth of your plasters. They have cured me of a crick in my back, which has troubled me for some time, and now my father is going to try them for difficulty about his heart,
L. H. SHERWOOD.
Dr. Green, No. 863 Broadway, New York, informs us he sold, on Monday, June 22d, 1863, two plasters to a young woman suffering very severely from lumbago. On Thursday she called to get two more for a friend, and then stated that the two she had purchased on Monday had relieved her immediately after putting them on, and CURED HER IN TWO DAYS of a most distressing pain in her back and loins.
Sold by all Druggists. n29—dawlm

DR. F. MEREDITH, Dentist, office No. 132 West Sixth Street, states as follows:
CINCINNATI, October 1, 1863.
MESSRS. J. N. HARRIS & CO.—Gents.: About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of phlegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhœa set in. My friends thought I was in the last stages of Consumption, and could not possibly get well. I was recommended to try
ALLEN'S LUNG BALSAM.
The formula was shown to me, which induced me to give it trial, and I will only add that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully, F. MEREDITH.

AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

"BOSTON, Mass.

"ORRIN SKINNER & Co.—*Sirs*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."

The Life Drops are carefully prepared by

Diseases of the Kidneys, Gravel, Rheumatism, Gout, Dropsy, Female Disorders, and General Debility, arising from excess, or any other kind. Read the following TESTIMONY OF A CITY MISSIONARY:

CHARLESTOWN, MASS., Nov. 23, 1865.

Messrs. BUSHROD W. ROGERS, Boston, Mass:

I feel it a duty I owe to you, and to such of the community as are suffering as I have suffered, to make known through the medium of your advertisement the great blessing, through the blessing of God, you have wrought upon me by using SMOLANDER'S BUCHU. I had *suffered over one year* with *Kidney Disease* so bad I *could hardly walk*. I took four bottles of *Smolander's Buchu*, and it *cured me*. WILLIAM M. MELLEN,

Local.

☞ The vote in Ward 3, on the New School Law, was 140 Yes, 239 No.—This correction reduces the majority, for accepting the Law, 27 votes,—but it is accepted by a small majority, and thus goes into effect.—The present School Committees hold their places till next November, when in the city election, the new Committee is to be chosen.

☞ All members of the Rockingham County Agricultural Society should attend the annual meeting, at Hampton, held this day. Cars leave the Eastern depot at 9 o'clock, and return at 3 o'clock. Fare one way.

POLICE COURT, Nov. 28.—Patrick Adams, charged with illegal voting in Ward Two at our recent municipal election, was bound over in $100 to appear at the April term of S. J. Court, at Exeter. He plead guilty to the charge of voting in two wards. Five witnesses were bound in the sum of $50 each for their appearance.

☞ An exciting race, not down in the bills, came off Thanksgiving day. A boy broke a window in a saloon on Bridge street, pursuit was made, and the supposed culprit was overtaken on Warren street, near Fleet. Parties near the Post Office, seeing the crowd running, raised the cry of fire, and for a few moments our local really supposed he was about to secure material for an item.

ECONOMY.—The aphorisms in relation to this trait would make a chapter of themselves, but there are scarcely two persons who would draw the dividing line between economy and parsimony in the same place.

Some years since, near a flourishing school on Camp street, New Orleans, there was a shop devoted to the renovation of soiled garments, having the words placarded in the window: "Economy—Old clothes made new." At the school was a pupil, not over-studious, but one of those boys who depend upon the promptings of their schoolmates when at a loss in their recitations. During a recitation in spelling and defining our dull friend was given the word economy. Having mastered its orthography he turned to the next boy, (a waggish fellow,) with: "Wheeler, what's economy?" "Old clothes made new," suggested John, and the preceptor was astonished to hear his pupil enunciate triumphantly: "Economy—old clothes made new."

Some persons sacrifice a great deal to economy. We hear of one young man who went to the beach on Thanksgiving day, and who on his return remarked: "There, I've left my toothpick at Longee's." That nothing might be lost, he hired another team and drove sixteen miles, through the mud, to recover his property.

☞ Mr. Wendell offers a desirable lot of furniture, crockery, &c., at auction, to day at 11 o'clock.

Betton & Co. will sell a horse, cart, harnesses, &c.

☞ Our funny editor has "*laid* himself out" to produce the following conundrum. What song do the hens sing, after one has dropped an egg? Why, a round-de-lay, of course.

☞ Mr. Jenness, who holds exclusive territory for this city, Dover and Great Falls, is now canvassing this city for the sale of two very fine engravings: "Washington and his family," from Schussele's renowned painting, and "Lincoln and his Family," from the great painting by Waugh. Both are engraved by Sartain, whose skill and taste need no praise. These pictures can not fail to be popular, and no other opportunity will be offered to procure them after Mr. Jenness' departure. They may be purchased by the pair or singly. Price $7.25 for the two.

☞ Among our new advertisements the special notices of the Penn. Salt Mant'g Co. will attract attention. To consumers of soap, their Saponifier offers great advantages, while to the afflicted their Strumatic Salts for mineral baths are recommended in many cases.

DEAD MARE.—A horse, said to have belonged to Mr. Hooper, was found dead in Middle street on Friday morning.

GOLD, Friday, 140 1-2.

— Among the tradespeople fined in London this month, for having unjust scales, &c., in their possession, was a widow with the singular name of Virtue Innocent.

— The total number of enlisted men in the United States Navy at the present time, as given by official returns to the Navy Department on the 1st ult., is thirteen thousand seven hundred and fifty.

— The report of the Comptroller of the Currency is in type, and will be ready for delivery to-day. The Acting Comptroller, Mr. H. R. Hulburd, makes several recommendations, the principal of which is the redemption of the National Bank currency at New York. He will also recommend an increase of twenty-five million dollars of National Bank capital, to meet the necessities of the Southern States.

☞ The President, in conversation with a Western Congressman on Monday, stated that he intended no quarrel with Congress in what may be called a personal light, such as declaring it to be an illegal body, or incompetent to pass laws or to propose amendments to the Constitution. To the Congressional plan of reconstruction he said he had not yielded one iota. He had done, he added, all in his power to secure Southern representation in Congress.

☞ From Mexico, it now appears that the reason why the French Emperor does not take away a third part of his troops, is that he fears the Liberals would make prisoners of war of the remainder. He keeps them together, for safety, till he can get a fleet there to take the whole. The Liberals have captured Jalapa. The Mexican Imperial troops joined the Liberals,—and the French garrison are prisoners of war.

☞ The Californian Bulletin states that the catch of confish on the banks on the northwest coast this season "has not only demonstrated that we can supply our own market, but that we can become exporters of the article to less favored localities."—The amount already received was equal to 644 tons or 1,288,000 of dried fish, while half a dozen vessels were still to come in.

☞ London dates to Thursday noon, speak of more troops sent to Ireland.

CONGRESS is to assemble on Monday: and their welcome to Washington will then be given in good style, if the weather should be favorable.

— Not long since, an Amsterdam merchant, after lavishing a fortune on furniture and printings, caused the floor of one of his apartments to be laid with Spanish dollars set on edge.

— New Orleans papers are delighted to see large quantities of flour and other Western produce coming down the Mississippi once more, en route for the Atlantic States.

Dr. Schenck, the Lung Doctor.

☞ The Proprietor of SCHENK'S PULMONIC SYRUP, the inventor of SCHENK'S RESPIROMETER, the only instrument that can to a certainty detect the slightest murmur of the respiratory organs.

This is of great importance to Dr. SCHENCK, to know the exact condition of the lungs, whether it is Tuberculous, Pulmonary, Bronchial, Pleuritic, or Dyspeptic Consuption, and whether it is both lungs or only one that is diseased.

It requires constant and long practice to become familiar with every sound or rattling of a diseased bronchial tube. Patients come to Dr. SCHENCK to get examined that have been examined by their family physician, who told them that their lungs were almost gone; when by a close examination with the Respirometer, it is often found that it is an affection of the bronchial tube; and by getting a healthy action of the liver and tone of the stomach, the sufferer is soon restored to health. Sometimes medicine that will stop a cough is certain death to the patient. It locks up the liver, stops the circulation of the blood—hemorrhage follows, and, in fact, stopping the action of the very organs that cause the cough.

Dr. Schenck will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is $5. His medicines are for sale by all druggists and dealers, and also a good supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills 25 cents per box.—GEO. C. GOODWIN & CO., 38 Hanover street, Agents for Boston. HARPER'S
NEW MONTHLY MAGAZINE.

Critical Notices of the Press.

It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the million a more enterprising friend, than Harper's Magazine.—*Methodist Protestant* (Baltimore).

The most popular Monthly in the world.—*New York Observer.*

We must render in terms of eulogy to the high tone and varied excellence of HARPER'S MAGAZINE—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the culture of the American People; and the popularity it has acquired is merited. Each number contains fully 144 pages of reading-matter, appropriately illustrated with good woodcuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—TRUBNER'S *Guide to American Literature, London.*

The volumes bound constitute of themselves a library of miscellaneous reading, such as cannot be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

SUBSCRIPTIONS,
1867.

The Publishers have perfected a system of mailing by which they can supply the MAGAZINE and WEEKLY *promptly* to those who prefer to receive their periodicals directly from the Office of Publication.

The postage on HARPER'S MAGAZINE is 24 cents a year, which must be paid at the *subscriber's* post-office.

Terms:

HARPER'S MAGAZINE, one year.....$4 00.

An Extra Copy of either the MAGAZINE *or* WEEKLY *will be supplied gratis for every Club of* FIVE SUBSCRIBERS *at* $4 00 *each, in one remittance; or Six Copies for* $20.00.

Back Numbers can be supplied at any time.

A Complete Set, now comprising Thirty-three Volumes, in neat cloth binding, will be sent by express, freight at expense of purchaser, for $2.25 per volume. *Single volumes*, by mail, *postpaid*, $3.00. Cloth cases, for binding, 58 cents by mail, postpaid.

*** Subscriptions sent from British North American Provinces must be accompanied with 24 cents additional, to prepay United States postage. Address

Morning Chronicle.

SECESSION AMONG GOOD TEMPLARS.—In Jefferson City, Mo., a division has occurred in the Order of Good Templars, which has resulted in the formation of two lodges—one styled Union and the other Rebel. The rupture arose from the persistance of the members of the order with rebel proclivities in tearing out the blue colors in the insignia of their order—which is red, white and blue—and preserving the colors of red and white, to which they were partial. This proceding was denounced by the Union members, and stoutly defended by the rebellious.

— One skate factory in Worcester, Mass., has consumed during the present year 5,000 gross of screws, two tons of brass, 1000 pounds of German silver, nearly six tons of rosewood, and ten tons of steel, which have been worked up by thirty-five men and women into 25,000 pairs of skates.

— A coarse, ill-natured fellow died one day, and his friends assembled at his funeral, but no one had a good word to say about the deceased. Even at the grave all were silent. At length a good-hearted German, as he turned to go home, said: "Well, he was a good schmoker."

— Mr. Brady of New York, once said to a celebrated Rhode Island lawyer: "Why do you vegetate in a little country village? Why don't you go to New York, where you could find a proper sphere for your talents, and would certainly rise to fortune and distinction?" "Little country village!" replied the lawyer; take the thieves, pickpockets and gamblers out of New York, and it is not so much bigger place than Wickford as you think it is."

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Books Published!

We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell our books cheaper and pay again a more liberal commission than any other company.

Our Books do not pass through the hands of General Agents, but we sell to all other book works do), therefore we are enabled to give our canvassers the extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.

Our series embraces the most popular works on all subjects of importance, and is selling rapidly, both North and South.

Old agents, and all others, who want the best paying agencies, will please send circulars and see our terms, and compare them and the character of our works with those of other publishers. Address, NATIONAL PUBLISHING CO., 116 Water St., Boston, Mass.

Book Agents Wanted.

Now ready for delivery, a great National work—not political or sectional, (no rebellion in it,)—its standard; will never lose its interest; has no competition; eight distinguished literary men were employed in writing it; time from commencement to close, over four years; is endorsed and highly recommended by the most celebrated literary and scientific men in the country, including twenty Presidents of Colleges; is equally interesting and valuable to all classes; is worth more than its weight in gold to every farmer or young man. We have sold books faster than any one Subscription Publisher, yet more subscribers are taken for this work by our Agents on an average than any book we ever sold. In addition to the largest commission, we pay freights, leaving nothing but pure profit to agents. Some agents have sold fifty dollars for every Canvasser they start who sells one hundred copies. Experienced and successful Agents will find this a business not apply. For full description and terms, address

L. STEBBINS, Hartford, Ct.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It has a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

NOW OPEN!
MONTGOMERY'S
MUSIC, PICTURE FRAME, AND VARIETY STORE,
10 1-2 Daniel Street,
(Over Miss Beal's Dry Goods Store.)

The Subscriber, formerly with S. F. COB would inform his friends and former patrons o Mr. Cobb, that he has opened a store of a similar kind, for the trade in Pianos, Melodeons, Organs, Melodeons, Stools, Covers, Sheet Music, Violins, Accordeons, Stringed Instruments, Pictures, Frames, &c., &c.

PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.

PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.

Having made arrangements with Prof W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the former have too long been established to need any comments. Of the latter suffice it to say that the sale of over fifty of them within the last five years by Mr. Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.

Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof. Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman.

CONFESSION IN THE CHURCH OF ENGLAND.—The fact that the Roman Catholic custom of confession has been of late years gaining ground among the High Church party in England, has often been asserted. At length Dr. Pusey himself, in a letter to the London Times, acknowledges it and evidently rejoices over it. He says:

"The use of confession among us all—priests and people—*is* very large. It pervades every rank, from the peer to the artisan or the peasant. It the course of this quarter of a century (to instance my own experience, which I must know), I have been applied to to receive confession from, persons in every profession, even those which you would think least accessible to it—army, navy, medicine, law."

CONNUBIAL FELICITY.—We find the following advertisements in a New Orleans paper of Nov. 20:

My wife, Lizzie Norman, formerly a teacher in Algiers, having left my bed and board without just cause, I hereby give notice that I will not be responsible for any debts of her contraction, from this date.
PETER D'AMICO.

Mr. Peter d'Amico having published a notice in the Times that his wife had left his bed and board, she desires to say that his bed was bought with her earnings, and that his board was empty unless when supplied from the same source. She has left a more than worthless husband, and advises none to trust him on her account.
LIZZIE J. NORMAN wife of Peter d'Amico.

He issues stringent regulations that each pupil shall bring a note book to take down the recipts, and a "tea" spoon, if any, to taste the dishes with. It is said that this last regulation was forced upon him in consequence of the cunning of the Cincinnati women with spoons of portentous calibre to sit at his feet, and their endeavors to realize what is there chastely called a "square meal" from the trophies of his art.

AMERICAN AND FOREIGN PATENTS
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, and under the Act of 1857,
78 State Street, opposite Kilby Street,
BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through its connections have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
"During eight months, the subscriber, in course of his large practice, made *no twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents."
R. H. EDDY.

MONDAY, DECEMBER 3, 1866.

MATTERS IN WASHINGTON.—The Boston Advertiser's Washington special of Friday, says the whole course of the President and Secretary of State relating to the Mexican question has convinced all foreign representatives there that both these officials are bent upon forcing a difficulty with Napoleon. These ambassadors have, on the other hand, no doubt of Napoleon's sincerity in the withdrawal of his troops. It has come to light that more than a year ago the plan of creating trouble with France was urged upon Mr. Johnson and Seward by prominent rebels, they giving the opinion that it was the only way of forcing the President's policy upon Congress. Mr. Johnson refrained at the time from taking such a step, though Mr. Seward urged it, but both have gone actively to work in the matter since the elections. A letter just received in semi-official circles from the city of Mexico, written after the departure of Campbell and Sherman was known there, says that Marshal Bazaine stated freely that there was no cause to anticipate trouble with the French authorities from the presence of General Sherman, so convinced were all that the Emperor was acting in good faith. The principal officers of the French army were speaking very highly of General Sherman's record and seem pleased at the idea of entertaining him. The same letter, speaking authoritatively and from the personal observation of the writer, states, as a further evidence of the good faith of the Emperor, that in accordance with orders from Marshal Bazaine the destruction of quantities of partially worn military material had begun and the serviceable material was about ready to be shipped.

General Grant has of late been more outspoken than usual on political subjects, and has given pretty full expressions to his views on reconstruction. In recent conversation with ex-rebels, he has plainly told them that they mistook their position; that they had openly made war upon the government and had been defeated in their appeal to arms, and that they were now on parole; that the rights they talked about had been forfeited by their treason, and their return to their former position in the government lay in the hands of Congress; but if they persisted in rejecting the amendment to the Constitution, they would only have to go farther and fare worse.

The members of Congress who have arrived there seem generally disposed to give a reasonable time to the rebel States to accept the terms that have been offered them, and if they fail to do this, to go on and regulate for them as territories, subject to the general government.

TEXAS.—The Lone Star State is making good progress of late. Paper currency, which was formerly illegal, (although the State used many millions of New Orleans bank bills,) is coming in use through the system of National banks. The First National Bank of San Antonio, Tex., has started its operations with a capital of $120,000.

A correspondent of the Galveston Civilian says: "I was particularly struck with the enterprise displayed by the citizens of New Braunfels, who are full of life and industry. They are engaged in building good, substantial houses, and going into manufacturing with the fine water power at their command. They are destined to be the most independent people of our great State." It is predicted by many that this beautiful little place will yet become the largest manufacturing city in the South.

On the frontier the Indian depredations have become so troublesome that some of the largest stock raisers in Cooke county have offered to sell their stock at one dollar a head.

The railroad from Lavaca to Victoria is running, and the iron secured for a road from Indianola to the former town.

☞ A Washington special of Saturday says, the universal suffrage party of Louisiana has sent a delegation here with a series of resolutions addressed to Congress. In one of these resolutions they ask the impeachment and removal from office of Andrew Johnson as a traitor and as a sympathizer with rebels. Another resolution reads thus:

Resolved, That, in the opinion of this committee, the Thirty-ninth Congress should abolish the present State Government of Louisiana and establish a loyal Territorial Government, with a Military or Provisional Governor therein, in harmony with the verdict of the American people as expressed at the late elections, and also provide for a State Government therein on the basis of universal suffrage, and by appropriate Congressional action establish universal suffrage throughout the United States.

☞ In New York city, Friday evening, the North River Kerosene Storage building on 12th avenue, was totally destroyed by fire; 7000 barrels of crude petroleum and four cars partially loaded with oil were burned. The adjoining lumber yard was also destroyed. Whole loss $100,000.

NEW HAMPSHIRE ITEMS.

—— The railroad up Mount Washington is completed one mile—one-third of the distance. It will be finished next season.

—— Rev. J. Fisher, recently pastor of the Universalist Society in Alstead, N. H., has accepted a call from the new Unitarian Society in Lebanon, N. H.

—— Hon. E. Ashton Rollins arrived in Great Falls on Friday last, and will leave for Washington this morning, with his family.

—— On the 14th of last month, Rev. Amos W. Burnham, of Rindge, completed the 45th year of pastoral service over the Congregational Church and Society in that town.

—— Mr. Baruk Smith of Grafton, living a few miles from Canaan, was seriously injured on Monday of last week, by falling from his hay mow. In his descent he struck upon a pitchfork, which penetrated his bowels, inflicting a severe, and it is feared mortal wound.

—— The town of Marlborough has been the recipient of a handsome present from a generous native of that place, Hon. Rufus S. Frost, of Boston, in the shape of valuable library of some 3000 volumes, together with a fire proof library building of brick and stone, being erected under the supervision of the donor for the accomodation of the same. He also gives the income of $5000 to recruit its shelves from time to time.

INCENDIARY FIRES.—We learn from the Lowell Courier that on Thursday morning, the barn of David Whitney, at Middlesex Village, was set fire to by an incendiary and burned down, together with its contents, which included a horse, two cows and some poultry. Loss $1000; insurance $400. Soon afterward the barn of Samuel P. Hardy, about seventy rods distant, was found on fire and was also destroyed, together with the house and out-buildings. A large hog in the barn was burned up. This fire was also incendiary, as the wind blew the flames from Mr. Whitney's barn in a contrary direction. Mr. Hardy's loss is $4000; insured for $1450.

☞ Among other plans for carrying out the will of the loyal people of the loyal States as expressed at the recent elections, it is proposed that Congress first pass a law recognizing the ratification of the amendment to the Constitution by three-fourths of the Legislatures of the States now presented in Congress; and secondly, to provide for the ratifications already made being handed over to the President of the Senate, and all future ones to take the same course, and the duties heretofore imposed on the Secretary of State in regard to promulgation of Constitutional amendments to be transferred to the President of the Senate.

DEATH FROM SUFFOCATION.—On Tuesday afternoon, at Roxbury, Mass., a man named Murray, employed at Burkhardt's brewery, on Parker street, in descending into a still from which the contents had just been pumped, and before sufficient time had elapsed to cleanse it, was overcome by the foul gas, and suffocated to death before assistance could be rendered. He resided in Tremont place, and leaves a widow and one child.

☞ A Nashville dispatch of the 28th ult. says:

"Col. Isaac R. Hawkins, Congressman from the Seventh District of Tennessee, on invitation, addressed the Legislature. He discussed the questions of rebel and negro enfranchisement, and while emphatically opposed to extending amnesty to rebels, urged on the Legislature the propriety and justice of giving the ballot to the freedmen.

Indications all point in the direction that these suggestions will be acted upon in the House especially."

☞ On Thanksgiving Day at the Five Points in New York City, there were great dinners for poor people and children in three charitable institutions, viz: the Methodist Mission, the Congregational House of Industry, and the Methodist Mission, Mr. Geo. Peabody, on that day, sent $25,000 as a donation to the House of Industry.

PERSONAL.—G. W. S. Benson, who hails from New Hampshire, and who has recently been appointed a Lieutenant in the army, has been arrested at Washington, for obtaining money on false pretenses.

☞ A disastrous fire occurred at Eufala, Alabama, on the night of the 27th, destroying from ten to twelve stores and the News office. Loss from $100,000 to $150,000.

GOLD, Saturday, 141.

— Secretary M'Culloch's report will show a reduction of the national debt in the last twelve months, of one hundred and ninety-two millions. The excess of receipts over expenditures for that time is forty millions.

— The last number of the Wilmington (Del.) Gazette, which paper has recently been appointed by Mr. Seward to publish the laws of the United States, and whose editor has been made a United States Marshal by Andrew Johnson, contains some original verses in praise of the tune "Dixie" and the rebel cause.

A MECHANICAL TRIUMPH.

No invention of a similar labor-saving character ever r[illegible] to the same practical benefits to the people, or has come into such general use as that wonderfully simple piece of mechanism—the Sewing Machine. What could we do without it? Where would we now find hands enough to accomplish the labor which these busy little workers are doing? These are questions which determine the usefulness of an invention, and by them we may gauge the importance of Sewing Machines. The history of this discovery is full of interest. As early as 1836, an ingenious and prolific inventor, named Walter Hunt of New York, invented the first machine that was of any practical value for sewing. Being of a rather indolent disposition, and disinclined to undertake the labor of introducing so novel an invention into general use, he neglected to patent his discovery, and sold the right to manufacture such machines to a Mr. Arrowsmith, who, however, neglected to test the practical value of his purchase or to secure it by a patent.

Six years elapsed before any further action was taken toward the introduction of Sewing Machines, and then, on the 12th of February, 1842, the first American patent was granted to John J. Greenough of Washington.

The next recorded attempt at an application of the idea was made and patented by Benjamin W. Bean of New York. In the same year (1843) a Sewing Machine was patented by George R. Corliss of Greenwich, N. Y., but no one seems to know much about it, an evidence that its practical value was small. These abortive attempts had the effect, however, of calling the attention of inventors to the subject of Sewing Machines, and on the 10th of September, 1846, Elias Howe, Jr., of Cambridge, Mass., patented the first Sewing Machine capable of being improved so as to be adapted to general use.

Although the machine patented by Mr. Howe would now be considered worthless, if compared with the more recent inventions of others, yet he stands at the door of the Sewing Machine business, as it were, and levies a tax of one dollar on each finished machine in which the principles he invented are used. A fortune closely approaching two million dollars has thus been accumulated by Mr. Howe—a very fair return, considering the fact the Howe Machine has been left far behind by those whose subsequent inventions have effected a revolution in the manufacture of clothing, shirts, caps, boots, shoes, embroidery and house-furnishing goods.

The utility of a Sewing Machine for family use depends upon its adaptability to the greatest variety of work; and this article would be incomplete, if, after tracing the rise and progress of the idea, we should fail to point out from among the many varieties, the one that comes nearest to perfection and combines the greatest number of useful qualities. For certain kinds of work there may be machines more peculiarly adapted than others; but for all the numberless requirements of a family, we unhesitatingly pronounce the smoothly silently and swiftly running Grover & Baker Machine the best.

One great advantage is, that the thread is drawn direct from the spools, and requires no previous winding on shuttles; and the simplicity of all its parts and the easy adjustment of needle, thread and work, makes it more readily comprehensible to the learner than any we have yet seen. Another important fact is that they perform, without any alteration of the adjustment, a much greater variety of work than is possible on others. We might thus enumerate quality after quality in our own way, but we think we do the inventors and makers full justice, and at the same time relate our experience in terms which there is mistaking, when we say that the Grover & Baker Machine may be chosen as the best, simplest, and most reliable Sewing Machine in the market.

The trade in these necessities, which have now become so indispensable, is assuming gigantic proportions. Grover & Baker alone send many thousands to foreign markets, and this popularity abroad is an evidence of their merit and superiority. American Sewing Machines are used all over the world, and, like American pianos, have furnished the principles which have been adopted by a great majority of foreign manufacturers.—*New York Citizen.*

— A bookseller in Paris being asked for a copy of the French Constitution, replied, "Sir, I keep no periodicals.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being in liquid form, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and containing full and why they should not, are could not be used without producing effects contrary to nature's chosen laws will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by DR. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the bowel complaints, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and and extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it its healing influence more potent than thou those of the spear of "Araby the blest." We are informed by our principal druggists, that they sell more of this article for exportation than any of all others, and that the demand is constantly increasing.—*Salem Observer.* d1—dww 1m

CINCINNATI, October 1, 1863.

Messrs. J. N. HARRIS & CO.—Gents: About one year ago I took a cold which settled on my lungs. A violent cough was the consequence which increased with severity. I expectorated large quantities of phlegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhœa set in. My friends thought I was in the last stage of Consumption, and could not possibly get well. I was recommended to try

AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from ever quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

"BOSTON, Mass.

"ORRIN SKINNER & Co.—Sirs—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to directions, he was soon relieved and the disease entirely broken up. I let my friend suffering with Rheumatism have one of the bottles, and he says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Diphtheria, and Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he says he cured a case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."

FACTS AND FIGURES.—Just before our late election, somebody telegraphed to Boston, that Mr. Frank Jones, the democratic nominee for mayor, was "personally very popular." And one Boston paper, we believe the Transcript, since the election, says, "Personal popularity came very near electing a democratic mayor in Portsmouth on Tuesday." This puts Uncle Toby in mind of a little story. An old farmer who used to live at what were called the Fresh Marshes, many years ago, raised quite a quantity of Meadow hay;—and a neighbor, in rather a slighting way said to him, Meadow hay is not good for any thing. O yes it is, replied the old man; Meadow hay *and a little corn*, will winter out a yearling. So of the election, personal popularity and a *little of a half dozen other things*, came very near electing the candidate alluded to.—But that personal popularity alone, would have left the Republican ticket with a two-thirds vote throughout.

Look at the vote of last year; Bailey had 901; and Webster 262: and the whole tickets had about the same numbers of votes. Surely Mr. Webster was not, personally, so very unpopular, as to keep down the vote so low;—but it was a *political contest*. The Rebellion had been put down, and those who had favored the rebellion were powerless. President Lincoln had been assassinated, and the papers and partisans that had urged his assassination, were looked upon with contempt. Mr. Johnson had not developed all his policy nor completed his bargain with copperheads and traitors.

But this year the Johnsonian policy is fully developed; his confederacy of copperheads and traitors has become an institution; and lastly but not least, the crushing machine at the Navy Yard has been *reversed*, so as to run mother end first. The operation of this machine may best be seen in Ward 3. In 1858, the machine was run under Mr. Buchanan's patronage,—the highest vote for a Republican Common Councilman was 73, and the highest for a Democrat was 219. In 1865, the Machine was run Republican, and the Rep. C. C. vote was 207, while the Democratic was 93.—This year, 1866, the machine runs Copperhead again, and now the C. C. vote is 145 Rep. and 235 Dem. This makes it appear that in this single ward, 40 or 50 voters *came over* for Bread-and-Butter,—and about as many *went back* for the same. The other wards were not so much affected by the crushing machine this year,—though they were affected to some degree.

Indeed in Wards 1 and 2 the Republican votes compare almost equally with last year, on the general ticket. The highest Rep. on the Common Council in Ward 1, had 359 last year, and this year 346: a fall off of only 13. In Ward 2, last year the highest Rep. C. C. had 354; this year the highest had 386;—a gain of 32; so that these two wards together made a *positive* gain of about 19. But the great difference in those wards is, that last year the democratic party did not come out, while this year it did. In Ward 1, last year they had 99 votes; this year 318. In Ward 2, last year 73, this year 256 an increase of 402 in the two.

The real amount of personal popularity and of special favor for the Malt Liquor interest, in the vote for Mayor, is that Mr. Jones ran above his ticket 7 votes in Ward 1; 20 votes in Ward 2; and 5 votes in Ward 3: amounting in all to 32.

Mr. Dearborn, in the vote for Mayor, fell short of the highest votes on the ticket, 9 votes in Ward 1; 27 in Ward 2, and 16 in Ward 3; total 52. This discrepancy is the effect of a squabble abou tcandidates in the party, beginning a year ago or so, when there there was a larger margin for such luxuries than there is now, or than there will be next March. The actual republican majority in the City Vote this year is only 85. It is said that many republicans staid away from the polls; and that in Ward 2 they number 120,—and this is probably true; for at the State election, last March in Ward 1, the highest Rep. vote was 423, dem. 237: in Ward 2, Rep. 475, dem. 247.

These figures, if carefully examined, show that the full strength of the Democratic party, (with its allies, including Johnson,) was up and doing at the late election—but that a quarter part of the republicans in two wards did not act:—and if any wisdom is to be gathered from experience, it may be wise for every man claiming to be a Republican to come out and vote, ever hereafter, as the Democrats did this year.

And it might also be wise to disregard the stupid rule or usage of rotation every two years, or every year,—and when a Governor, or Mayor, or other officer, does his duty, and is able and faithful, keep him in his place for a good long series of years.

☞ The election for Mayor in Portsmouth, on Tuesday, resulted in a tie vote, so that a new election will have to be ordered.—*Exchange.*

No new election is in order—but the new City Council in Convention, elect one of the two highest candidates.

REAL ESTATE IN PORTSMOUTH—*Conveyances for November.*—[Compiled from County Records for the Chronicle.]—Samuel H. Goodall to Andrew Wilson for $309. Land on South Street, bounded west by Johnson's lane.

Josheph P. Morse to Samuel S. Frye for $4500. Land and buildings on Congress Street,—part of Belle Tavern Estate.

Charles Amory to Joshua D. Berry for $5500. Land and buildings bounded south by North Street, west by Cutts Street.

Hanson M. Hart to Henry B. Hart for $10. Land and buildings on east side of Bridge Street.

Wm. P. Jones and others to Maria L. Jones for $6000. Land and buildings bounded north by State Street, south by Court Street: also Land and buildings bounded east by Penhallow Street, west by Market Street.

Charles L. Abbott to John A. Peterson for $1200 Land and buildings on northerly side of Franklin Street.

ROCKINGHAM CO. AGRICULTURAL SOCIETY.—The Annual Meeting was held at Hampton Town Hall, Saturday, and was largely attended. The Treasurer's report show that the expenses the past year have exceeded the receipts by four hundred dollars or more—leaving the funds of the Society about $600. After considerable free discussion, the following officers were elected for the coming year:

President, John M. Weare of Seabrook, *Vice Presidents*, Wm. Simes of Greenland, Frank W. Miller of Portsmouth, Darius Frink of Newington, Jedediah Rand of Rye.

Secretary—Andrew J. Hoyt of Exeter.

Treasurer—John H. Bailey of Portsmouth.

Trustees—William Hoyt of Danville, Gardner D. Durgin of Epping, George B Wiggin of Stratham, John F. French of North Hampton, William H. Robinson of Exeter.

☞ Mr. Hayes, the owner of the barn which was burnt over a year ago, and recently brought into a trial before the S. J. Court,—assures us that no one knows or can show that the barn was on fire before the passing of the train,—as some persons have inferred from our report of the case. The possibility and probability of such a thing was a part of the argument for the defence—but not capable of clear proof—for if so, no suit would have been entertained.

NEW NOTICE.—Read the new advertisement of Messrs. Hill & Carr. For eight years their old one had never received a change—having been drawn up to the purpose, and (as the Journal well remarks) making its return in a most successful business. This is the oldest firm in the city, and deservedly one of the most popular.

POLICE COURT, Dec. 1.—Charles C. Jones, charged with fraudulently voting in Ward One at the late municipal election, (not being then a resident of that ward,) was bound over in the sum of $100 to appear at the April term of S. J. Court, at Exeter. Seven witnesses were bound in the sum of $50 each, for their appearance.

☞ Mr. John Kelley's advertisement of Boots and Shoes cheap, will interest many readers.

—"I say, John, where did you get that rogue's hat?" "Please, yer honor," said John, "it's an ould one o' your'n that the misses gave me yesterday."

☞ The Proprietor of SCHENK'S PULMONIC SYRUP, the inventor of SCHENK'S RESPIROMETER, the only instrument that can be relied upon to detect the slightest murmur of the respiratory organs.

This is of great importance to Dr. SCHENCK, to know the exact condition of the lungs, whether it is tuberculous, Pulmonary, Bronchial, Pleuritic, or Dyspeptic Consumption, and whether it is both lungs or only one that are diseased.

It requires constant and long practice to become familiar with every sound or rattling of a diseased bronchial tube. Patients come to Dr. SCHENCK to get examined that have been examined by their family physician, who told them that their lungs were almost gone; when by a close examination with the Respirometer, it is often found that it is no affection of the bronchial tubes; and by getting a healthy action of the liver and tone of the stomach, the sufferer is soon restored to health. Sometimes medicine that will stop a cough is certain death to the patient. It locks up the liver, stops the circulation of the blood—lung mortage follows, and, in fact, stops the action of the very organs that cause the cough.

Dr. Schenck will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is $5. His medicines are for sale by all druggists and dealers, also a good supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1 50 per bottle, or $7.50 the half dozen; Mandrake Pills 25 cents per box.—GEO. C. GOODWIN & CO., 38 Hanover street, Agents for Boston. For sale by all druggists.

Ayer's Cathartic Pills

ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating power reaches the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow disturbed, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immense y to the relief of our afflicted, suffering fellow men. The Agents below named are prepared to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Paralysis, Scrofula, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstructed or irregular functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o29—2m

Of all Music Books for the Young,
"MERRY CHIMES"
Is universally admitted to be the Best.

This new book of Mr. L. O. Emerson's has already met with a sale altogether unprecedented—and though his previous works, "The Golden Wreath," reached its *three-hundredth edition of one thousand copies each*, present appearances indicate that the "Merry Chimes" will go beyond it.

The Elementary Department contains just those pieces that attract and retain the attention of Children. The Songs are not old and time-worn—sung through a dozen books—but, New and Sparkling, adapted to all occasions and alive with the spirit of the times. Price 50 cents—$5 a dozen. From the Portsmouth Journal

TOPOGRAPHICAL SURVEY OF THE COAST OF NEW HAMPSHIRE.

The encampment of a few tents, which many of the readers of the Journal may have seen last summer near the shore beyond Rye, contained a party of the U. S. Coast Survey, who were employed in surveys to complete that part of the Coast of New Hampshire. We are indebted to the courtesy of Mr. Hall Adams, Chief of the party, an experienced assistant of the U.S. C. S. for a view of the map which exhibits the chief result of the operations of the season. It is as yet only in pencil, but it represents a belt extending from Great Boar's-Head as far as Rye Centre, and running back a mile or more from the shore. Every feature, as houses, orchards, meadows, &c. and the relative height of hills especially, is put down with great minuteness.

Rye Beach in its exact extent will appear to great advantage, and the precise limits appear where the clear sand changes to rock and boulders. The marine part of the map will be duly joined representing water to fathoms and feet, the course of all entrances where a vessel can come in &c. &c. The unusual wetness of the summer often forced a suspension of operations, but by seizing every favorable moment the task was completed. We may add that besides the general value of the map it will be, when engraved and distributed, of much interest and value to the numerous property holders in that district.

CITY FARM.—The present number of inmates is about 70. On Thanksgiving day a sumptuous dinner was provided for the inmates. On the tables we saw a dozen large turkies, as many chickens, eight geese, plumb puddings, pies, pickles, and all the vegetable accompaniments. Every thing about the house presents a neat and cleanly appearance, highly commendatory of the good system of the Superintendent.

The products of the Farm have been large in hay, grain and potatoes. In the latter article, however, the rot has been severely felt, and although a thousand bushels were raised, there is not more than a month's supply for the house on hand. The new stone wall on the South side of the farm has been nearly completed this year. The farm gives evidence that Mayor Bailey has not neglected his duty the past year.

HOW TO SECURE A VOTER.—We give, upon the authority of a "reliable gentleman" who was an eye witness, an incident which occurred at our city election last Tuesday, illustrative of "zeal without knowledge." One of the prominent corperhead politicians, whose dry goods are better than his politics, hearing of a Democratic voter at the North End, lost no time in hunting him up, and finally found him at one of the wharves, loading shingles upon a vessel. His employer would not let the man go until the job was finished. The end fully justifying the means, the dry goods dealer at once threw off his coat and making good use of the bone and muscle with which he is well supplied, tugged and labored at the heavy cedar bundles until the last was deposited on board, the job all done, and the man relieved from duty. Wiping the perspiration from his forehead, the gentleman then affably signified his readiness to accompany his co-laborer to the polls, in the carriage all this time waiting on the wharf. Thus far the zeal of the politician commends itself to republican workers who are laboring in a better cause. But the sequel was as unexpected and astounding. The voter proved to be a true Republican, who, as he said, would not for fifty dollars carry the other ticket. Like a sensible man he had accepted the proffered help, and was doubtless thankful, but, true to principle, he went on his way and added one more to the votes for Mr. Dearborn. With sad and sorrowing steps the laborer in the cause of "the States and the Union" turned and left the spot, and Mr. Jones was not elected.

A Washington letter says, western members of Congress arriving talk loudly of *Impeachment*. Gen. Logan of Illinois is one of the decided ones. There is to be a great demonstration of the "boys in blue," on the first day of the session, (not Monday) in the way of welcoming the members of Congress. The late Vice President Hamlin is to be the orator on the occasion.

The President's friends say, the explanations of our foreign relations in his message, will create a sensation in the country.

A *hint* to the Southern opposition to the Freedmen's Bureau department, is found in an order of Maj. Walker commanding in the S. Carolina Department, viz: that in all cases where the property of colored persons has been wantonly destroyed, such as barns, stables, &c., the residents in the vicinity rebuild; and in case of their refusal, the commander shall do so, and levy a tax sufficient to defray the expense.

Bright days it is now surmised are coming to the South, from the indications in various quarters, of a determination to *help themselves!* To save the tax on Cotton, they propose to manufacture for themselves—Virginia goes for State Agricultural societies. At New Orleans they are organizing a Mechanics fair; arranging to make their own chairs, tureens and *clothes pins*—cutting up their plantations into small farms, &c. &c. Some of their Legislatures are also making provision for instructing the ignorant. Says the Tribune, in ecstacy, "Give us your hand!"

Two unusual events.—The clergy in Norwich, Conn., have agreed to attend no more *funerals* on the Sabbath, unless in case of absolute necessity—and large numbers of people of N. Carolina people are moving to the Northwest.—"Another train left Greensboro' on the 17th." People in Norwich mustn't *die* near the close of the week, if they can help it; and States which feel the sad consequences, mustn't *rebel*, if they desire to retain their population.

Jefferson Davis is represented to be in fine spirits; and Washington has a large accession of Southerners unpardoned, with *gold headed canes*, all in favor of an universal amnesty—of course.

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Books Published!

We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other house. Our Books do not pass through the hands of General Agents (as nearly all other subscription works do), therefore we are enabled to give more canvassers the extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.

Our series embraces the most popular works on all subjects of importance, and is selling rapidly, both North and South.

Old agents, and all others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our works with those of other publishers. Address, NATIONAL PUBLISHING CO., 118 Water St., Boston, Mass.

Book Agents Wanted.

Now ready for delivery, a great National work—not political or sectional, (no rebellion in it,)—is standard; will never lose its interest; has no competition; eight distinguished literary men were employed in writing it; time from commencement to close, over four years; is endorsed and highly commended by the most celebrated literary and scientific men in the country, including over twenty Presidents of Colleges; is equally interesting and useful to all classes; is worth more than its weight in gold to every family or young man. On this, old book agents, and no one Subscription Publisher, yet more subscribers are taken for this work, per Agents sent out, than any book ever sold. In addition to the large est commission, we pay freights, leaving nothing but personal expenses; also a bonus to Agents of fifty Dollars Premium to the agent who sells one hundred copies. Experienced and successful Agents wanted; others need not apply. For full description and terms, address

L. STEBBINS, Hartford, Ct.

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

(Over Miss Beal's Dry Goods Store.)

The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr. Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Stools, Covers, Sheet Music, Flutines, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.

PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.

PICTURE FRAMES on hand and made to order.

LADIES' FANCY WORK.

Having made arrangements with Prof W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the former have too long been established to need any comments. Of the latter, suffice it to say that the sale of over fifty of them within the last five years by Mr. Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.

Every instrument carefully selected and fully warranted, under the inspection and approval of Prof. Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman. D. H. MONTGOMERY.

☞ Capt Wm B Barker of Limerick, aged 28 years, died in Portland, Nov. 22, of congestion of the lungs, after an illness of only a few days. Capt. B. was a member of Co. C. in York county (27th) regiment, and afterwards he went out with Col. Wentworth in the 32d regiment, and was promoted to a captaincy. He was admitted to the bar two years ago, and had practised a short time in New York city. He was on a visit to Portland when taken down with the disease which terminated so speedily and fatally. He was a young man of fine natural abilities and prepossessing personal appearance, which would doubtless have secured to him a successful and honorable career, had his life been spared.

MILITARY LAW IN FLORIDA. — Gov. Walker of Florida, in his message to the Legislature, complains that the military authorities have interfered with the civil courts, contrary to the policy of the President, and set up special judicical tribunals, in contempt of the Constitution of the United States, but says an order has been issued by Gen. Grant directing Gen. Foster not to interfere to prevent the execution of the civil laws in the State.

☞ One of the young ladies who graduated at the Newburyport High School last week, was not absent or tardy during her whole term of four years. She is the third scholar from the same family whose record of attendance at the High School has been the same, making twelve years without one absence or tardiness. A fourth of the same family is just commencing the same course.

A CONTRAST.—In the fourteenth century a copy of the English translation of the New Testament, which could be obtained only in manuscript, was worth fifty pounds ($242). In 1866 a printed copy can be obtained in England for two pence (four cents.)

TUESDAY, DECEMBER 4, 1866.

UNEMPLOYED LABOR.—It is reported that the labor market in New York is overstocked, and yet there are large numbers flocking to that city in search of employment. The Superintendent of the Five Points House of Industry, issues a card upon the subject, which we copy:—

"Men from the country, and even from distant cities and towns, are flocking here in considerable numbers for work. Every day men come to us foot-sore, destitute and hungry, having searched the city over for work without success. Will you let me say—as a friend of and worker among the poor—to those who are unemployed anywhere, do not come to New York! There are thousands of men and women here out of employment, many of them in a suffering condition. There are scarcely any branches of work that have not an overstock of workmen, and hundreds of men could be hired here for little more than their board. Let unemployed men go anywhere in the country and work for their board rather than come to New York.—Editors everywhere would be doing a real kindness to state the fact that this city is no place now to look for work. Unless we misunderstand the indications, this is to be a hard winter for the poor here."

WASHINGTON NEWS will be looked for now, with renewed interest. Under date of Monday, Perley says, none of the Republican members of what President Johnson contemptuously calls "the Rump Congress" have as yet called to pay their respects at the White House. The Democrats have, of course, been to condole with their victim—all of them declaring that, had more offices been placed at their disposition prior to the recent elections, the "policy" would have been successful. Whether they are cordially received or not I cannot say; but one of their leaders, who occupies a high position in the National Councils, has been going the grand rounds of the hotels to night in such an intoxicated condition as to excite the astonishment of strangers.

Secretary Seward is elated to-night over a cable dispatch from Charles Hale, Consul General at Alexandria, Egypt, announcing the arrest of John H. Surratt. If Surratt can be sent to this country for trial, and induced to testify, the real organization of the assassination plot will be known.

It is purposed to return to the plan of governing the District of Columbia inaugurated by President Washington, which was the appointment of Commissioners by Congress, which, by the Constitution, possesses "exclusive legislation." The present city charter of Washington will expire by limitation in May, 1868.

The members of the French Legation here are anxious to make it appear that Napoleon had intended to withdraw the French troops from Mexico, and that he entertains the most friendly feelings toward the United States. Meanwhile agents are here suggesting a modification of the tariff on French merchandise.

Gen. Grant's report, which occupies sixty-nine pages, gives Gen. Sheridan's version of the New Orleans massacre, with interesting facts on Mexican matters, and the condition of public sentiment at the South.

The hotel keepers here are at last reducing their prices, and are letting their rooms at *ante-bellum* house rents, and provisions are also coming down.

A PERTINENT INQUIRY.—In some gossipping article from Washington, of years agone, it is said:

"It was proposed to have the walls of the capitol decorated with an allegorical representation of the different sections of the Union. In one sketch, New England was represented by symbols of education and manufactures; the West by prairies, plows and steamers; the South by an Arcadian scene, with a negro in the midst, sleeping on a bale of cotton. Mr. Davis, who was one of the commission, made a single comment on the picture: What becomes of the South, when the negro wakes up?"

Wonder if Davis has obtained any light on the subject?

DESTITUTION IN GEORGIA.—A correspondent of the Philadelphia Press, writing from Dalton, Ga., says that of all the thousands who live within a circuit of fifty miles around Dalton, not one-half but will become beggars of alms within two months, and a large number of them are even now in a state of absolute destitution. In Walker county, on the side of Lookout Mountain, a family named Goodsell has lost four children by actual starvation. Even within the limits of towns and villages men and women are dying of starvation. Dalton is full of starving people calling for help. [Sad fruits of foolish and wicked rebellion.]

☞ The census returns show one bad feature—the rush of the people of the rural districts to the cities. The overgrown and the overrun towns are every day becoming bigger, while the country, which must feed and support all, is becoming more sparsely populated. In the old States the rural districts are absolutely losing; and even where the cities in five years have gained 30 per cent., the farming communities have increased but 8 per cent.

NEW HAMPSHIRE ITEMS.

—— The State Treasurer paid $175,000 on State notes, on Friday.

—— First Lieut. Geo. A. Price, of the 13th Regiment, has been confirmed brevet Captain, for gallant and meritorious services during the war, to date from March 13, 1865.

—— We are in receipt of the catalogue of Dartmouth College for the current year. The summary classifies the students as follows: Medical department 64, Academical department 184, Scientific department 50.

—— The directors of the newly chartered Coos Railroad met at Littleton recently, and decided to make surveys and estimates for the contemplated railroad from Littleton via Lancaster to the Grand Trunk Railroad at Northumberland.

☞ The following is the bill passed by the House of Representatives on the 10th of January last, by a vote of 121 to 42, and then sent to the Senate where it was never acted on:

A bill extending the Rights of Suffrage in the District of Columbia.

Be it enacted, etc., That from all laws and parts of laws prescribing the qualifications of electors for any officer in the District of Columbia, the word 'white' be and the same is hereby stricken out, and that from and after the passage of this act no person shall be disqualified from voting at any election held in the said District on account of color.

SEC. 2. That all acts of Congress, and all laws of the State of Maryland, in force in said District, and all ordinances of the duties of Washington and Georgetown, inconsistent with the provisions of this act, are hereby repealed and annulled."

RIOTOUS CONDUCT—*A Man Shot.*—*On Thanksgiving night* certain disorderly residents at the North End, Providence, gave it out that they were going to the Hollow to clean out the "nagura," and had commenced the work when policeman Stone came along and was met by a volley of stones, some of which hit him and hurt him considerably. He pulled out a pistol and fired into the ground, when the cry got up that he was only using blank cartridges, and another volley of stones followed.—The officer then fired into the crowd, and the ball from his pistol went through a man's shoulder, but he was carried off by his comrades.

THE COTTON CROP.—The New York Times editorially says that after all the dolorous speculations concerning an extensive failure of the cotton crop of the South, good authority shows that it has been a very partial one after all. The actual result of the crop has been about 2,300,000 bales. This result is considered as favorable as we had any right to expect so soon after emancipation; and when taken in connection with the undoubtedly unfavorable season, it may well be pronounced a victory for the cause of free labor, for the freedmen in demonstrating their industry, and for the planters of the South in demonstrating their energy and adaptability to circumstances.

THE FREEDMEN IN SOUTH CAROLINA. Gen. R. K. Scott, Assistant Freedmen's Commissioner in South Carolina, in his report for October, represents that in the district of Anderson, including Abbeville, Edgeville, Barnwell and Anderson districts, the freedmen are generally treated with kindness, labor is plentiful, and no destitution is known to exist. No schools are now open, and though they might be in operation without interference of any kind, lack of funds compels them to remain closed. In Barnwell district the magistrates are generally disposed to treat cases of injustice promptly, and to compel the citizens to act justly. At Aiken there is a school attented by one hundred and twenty-three pupils. The respectable whites treat the freedmen kindly, but the poor whites are malicious and ill-treat them. In Edgefield district a majority of the white citizens have no respect whatever for the law of the land, and live in perfect indifference to the civil or military law. The condition of the freed people in the immediate vicinity of Edgeville Court House is favorable. Away from the village, bushwhackers kill and beat negroes, and burn their dwellings with impunity. Some destitution is reported in Colleton district, and unless aid is extended to the indigent persons, both white and black, much suffering will ensue.

LUMBERING. — The Aroostook Times says:

Business is good this fall. Numerous parties have fitted out and more are fitting out for operating in the woods. Men are scarce and labor commands good wages. We are inclined to think that lumbering on the whole will not be so remunerative a business as it was last year; much however depends upon the winter, whether we have deep snows or not.

☞ Our good friend S. M. Pettingill, of the New York and Boston advertising houses of Pettingill & Co., was married on the 8th ult., to Miss Georgiana Holt, of Brooklyn. The newspaper fraternity will take pleasure in announcing the marriage and congratulating him. In this, as in all the relations of life, he will bear with him the hearty good wishes of the *press*.

Correspondence of Chronicle.

SAN FRANCISCO, Nov. 10.

Dear F.—With us nature is about to don her mantle of verdure and gladden our hearts with her bright smiles and enliven our senses with the odor of a thousand flowers. The trade winds have ceased and we can roam at will, not caring whither it bloweth. How different it is with you, away down the eastern slope, with a colder and denser climate, where the gentle showers concrete and become delicate snowy flakes, and the drapery of nature is changed and she then wears her mantle of purest white.

And then too, the frost-welded ground forbids all from touching her for fear of being alike frozen; while here, the earth opens her porous mouthed surface and drinks in the copious showers, that come from the lightning rifted clouds. We have ice and snow alternating, with the seasons on the Sierra Mountains, but I believe they are not attended with so much severity as in your immediate vicinity. With us the pulsating heart welcomes this change of season, but I think you shrink instinctively at the sound that winter's coming, and shudder while you gather around the oaken fire, or the cheery grate full of burning coals. Our even-tempered clime, enables us to ply with bee like activity all the year round, and thus we push enterprising projects to an earlier conclusion, and it is not unlike accruing interest, compounding as time rolls on.

Our City is moving on with steady strides, homes for an increasing population are spreading out as the human tide moves on. Schools of all grades are rising up, as well as asylums and hospitals for the use of the afflicted; and temples where erring humanity can go and learn the simple story of the cross, which leads to eternal life. In fact we have everything here to raise humanity higher; and for earthly comforts a land flowing with milk and honey, and minerals enough to brace the whole world and tip it off with gold and silver.

A walk through a section of Montgomery and California streets will exhibit to you about 50 banks and insurance houses, all in palatial buildings, showing plainly that immense incomes from invested securities are pouring into their vaults. Mortgages on real estate securities bring to the holders from one to one and a quarter per cent. a month, and the compound interest resulting from monthly payments is the secret of the flourishing condition of our monied institutions.

Manufactures are on the increase, the demand for woolen goods is so great that a new woolen factory is now going up at the Mission, as also a large shoe factory. The lead works, with its tall shot-towers, the founderies, machine shops and mills for wood-work, all attest through their busy hum, that onward is the word, and the echo is onward. C.

FATAL SHOOTING ACCIDENT.—At Dedham, Massachusetts, on Thanksgiving Day while four young men, named Robert L. White, Eugene K. McGregor, Irving A. Smith, and John W. Martin, were engaged in a hunting excursion, they got talking about how easy it would be for a person to shoot himself. McGregor pressed the muzzle of his gun to his breast, and said, that was the way he would do it, if he were going to try, at the same time touching the hammer with his foot, when the gun was discharged and the contents passed through his heart. He exclaimed, "I am dead; God have mercy on my soul!" fell to the ground, and instantly expired. His companions think he must have lost his balance and pressed against the hammer harder than he meant to. He was sixteen years of age, the only son of Wm. W. McGregor, and an intelligent and promising youth.

TROUBLE IN KANSAS.—On Monday the Court was opened in Platte city by the new Judges as elected on the Radical ticket. The Court progressed all day without interruption and adjourned to the next morning. Judge Allen, the old Judge, early on Tuesday morning opened the Court upon his own book before the hour. The Clerk refused to recognize his authority and put the docket and Court records under lock and key. Judge Allen issued an order removing the Clerk. Mr. Moore refused to obey the order, when a squad of between thirty and forty bushwhackers threatened to kill him him if he did not deliver up the records. Moore refused and escaped. The old Judges adjourned the Court a week, and a company of armed bushwhackers are guarding the Court House, refusing to allow the Court to be held by the new Judges elected.

TROUBLE WITH TURKEY.—A serious embroglio in our relations with the Divan has arisen, as follows: Sarkis Minasian, who has for many years acted as the resident agent in Turkey, for the sale of Dr. J. C. Ayer & Co.'s medicines, driven by the increase of his business to a necessity for more room, built his warehouse in Constantinople several stories higher, after having obtained the necessary permit from the authorities. The Imans of a neighboring mosque, which overlooked the premises demand a large present of money, which was refused. They then applied to the Grand Vizier, for the enforcement of an obsolete law, which had been disregarded two hundred years, requiring him to take down the building to eighteen feet, which was granted, and they commenced the work of demolition. Minasian then applied to the American Minister, who notified the Sublime Porte that American property could not be thus trifled with, and that the demolition must cease. Then commenced the usual course of Mussulman prevarication and promises, but no real redress. Finally Minister Morris informed them that if their depredations continued, he should order the U. S. ships of war to enter the Bosphorus, and Messrs. Ayers' medical warehouse would not be alone roofless. A stroke of his pen could have laid the whole city under the sweep of American cannon, backed by men who are not schooled in the lessons of fear. This brought them to their senses and speedy redress. Minasian has now arrived in this country, to present the case to our State Department for indemnity. At length it is something to say among the peoples of the earth—"I am an American citizen.—*Columbia Republican.*

EXTRAORDINARY DEVELOPMENTS RESPECTING THE MANUFACTURE OF WHISKEY.—Some developments as to how "whisky" is made in New York are coming out in the course of the investigation of certain establishments charged with evading the government tax. One house has been turning out hundreds of barrels "for consumption," composed of the following delectable ingredients: "To 40 gallons of common whisky add 30 gallons water, 5 gallons tincture of Guinea pepper, 1 quart tincture of pellitory, 2 ounces acetic ether, 1 1-2 gallons of strong tea, 3 ounces pulverized charcoal."

WHY NOT?—The London Times insisted during our late war that we ought to "let the South go." We wonder it does not now demand that England shall let Ireland go.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and vastly superior to Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions accompany them, they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's decrees. Each bottle will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by Letter (enclosing stamp), concerning all private diseases and female weaknesses. **Price $1.00 per bottle.**

CURE OF CRICK IN THE BACK AND LUMBAGO.

Lyons, N. Y., July 4, 1862.

Messrs. ALLCOCK & CO.: Please send me a dollar's worth of your plasters. They have cured me of a crick in my back, which has troubled me for some time, and now my father is going to try them for difficulty about his heart.

L. H. SHERWOOD.

Dr. Green, No. 863 Broadway, New York, informs us he sold, on Monday, June 22d, 1863, two plasters to a young woman suffering very severely from lumbago. The plasters she called to get one more for a friend, and then stated that the two she had purchased on Monday had relieved her immediately after putting them on, and CURED HER IN TWO DAYS of a most distressing pain in her back and loins.

Sold by all Druggists. n29—dawlm

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the host of illnesses referred to, and many others, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it its healing influence more potent than those of the spices of "Arabby the blest." We are informed by our principal druggists, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.* dl—daw 1m

CINCINNATI, October 1, 1863.

MESSRS. J. N. HARRIS & CO.—Gents: About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of phlegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhœa set in. My friends thought I was in the last stage of Consumption, and could not possibly get well. I was recommended to try

ALLEN'S LUNG BALSAM.

The formula was shown to me, which induced me to give it a trial, and I will only add that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully, P. MEREDITH.

AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we have daily receiving:

"BOSTON, Mass.

"ORRIN SKINNER & Co.—*Sirs*:—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria, and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles, and he says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Coldness and Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."

PRESIDENT JOHNSON'S MESSAGE.—In discussing the Restoration Policy, he sticks to his old folly, in this fashion:

"I deem it a subject of profound regret that Congress has thus far failed to admit to seats the loyal Representatives from the ten Southern States. The seats of fifty members of the House and twenty of the Senate are yet vacant,—not by the nonconsent, not by the failure of the people to elect, but by the refusal of Congress to accept their credentials. Their admission, it is believed, would have accomplished much towards the renewal and strengthening of our relations as one people and removed a serious cause for discontent on the part of the people of these States. It would have accorded with the great principles of the Declaration of Independence, that no people ought to bear the burdens of taxation and yet be denied representation."

[What about the darkies then? They are taxed, but who represents them?]

"In the admission of Senators and Representatives from all of the States there can be no just ground of apprehension that persons who are disloyal will be clothed with the power of legislation, for this could not happen when the laws and constitution are enforced by a vigilant and faithful Congress. Each house is the judge of the returns and qualifications of its own members."

[Our Congress we trust will be so vigilant and faithful, as to keep unrepent rebels, and unwashed rebel States in their proper place, i. e. in the back seat.]

The President says:

"Upon this question, so vitally affecting the restoration of the Union and the permanency of our form of Government, my convictions heretofore expressed have undergone, no change; but, on the contrary, have been confirmed by time and reflection."

It has been said of the Bourbons, in Europe, that they never learn anything—and our poor President, in this matter, seems to be an American Bourbon. The people are going forward—he looks backward, like Lot's wife, and is likely to be a monumental pillar of folly, as she was of salt. In the message no allusion is made to the questions of amnesty, suffrage or Constitutional amendments.

☞ "Every Saturday" for December 15, will contain "Mugby Junction," the Christmas story for 1866, by Charles Dickens.

GOLD, Monday, 141 1-2.

— The Portland, Saco & Portsmouth Railroad pays its 46th semi-annual dividend Dec. 10th—3 per cent.

— The Congregational church in Pittsburg, Pa., of which Rev. H. D. Moore is pastor, is preparing to build a house of worship.

— Yarmouth Port is suffering from want of rain. The springs are lower, say the oldest inhabitants, than they have been for half a century, and half the wells are dry.

— James Hayes, a young man who fell between the cars while attempting to get on the train at Lynn Common, last Friday evening, and had his right leg crushed, died at his home in Salem on Saturday.

— A man named Michael Kelley had an an altercation with three negroes in Newtown, Ct., on Sunday evening, in the course of which Kelley was struck on the head by a large stone, breaking his skull, from the effects of which he died on Monday.

— A Washington dispatch says it is now ascertained without a doubt that the object of the Administration is not to exercise a protectorate over Mexico, but simply to make an alliance offensive and defensive with Juarez. Certain well-informed parties there assert that the grant of Lower California to American parties is the motive power of the whole affair.

THANKSGIVING AT THE STATE PRISON. In Concord at the State Prison, there were very interesting exercises and many spectators were in attendance at various times during the day. In the forenoon there were the usual religious observances. At one o'clock the prisoners were furnished with a very nice dinner, consisting of roast turkey, potatoes, gravy, onions wheat bread, plum pudding and apples. It was a meal which would have graced any festal board in the city, and the poor convicts were delighted with their kind treatment. Later in the afternoon the inmates were marched into the court yard and formed into a hollow square. They were then very appropriately and feelingly addressed by Warden Mayo, Rev. Mr. Connor of the Universalist church and Col. Peter Sanborn.

TUMBLE IN BUTTER.—Butter sold in the St. Albans market last Tuesday for from thirty to thirty-five cents per pound. The Messenger says: "We judge that a good quantity was brought in, from the number of loads which we saw. The fall, which, for reasons which we gave, we considered sure to come, has caught many farmers waiting, with large lots for higher prices.

THE FRENCH SPOLIATION CLAIMS.—Those having charge of the French spoliation claims have about determined not to present them to Congress during the coming session, as there will not be sufficient time for the consideration of so important a question.

Special Notices.

Dr. Schenck, the Lung Doctor.

☞ The Proprietor of SCHENK'S PULMONIC SYRUP, the inventor of SCHENK'S RESPIROMETER, the only instrument that can be or is certainty detect the slightest murmur of the respiratory organs.

This is of great importance to Dr. SCHENCK, to know the exact condition of the lungs, whether it is Tuberculous, Pulmonary, Bronchial, Pleuritic, or Dyspeptic Consumption, and whether it is both lungs or only one that are diseased.

It requires constant and long practice to become familiar with every sound or rattling of a diseased bronchial tube. Patients come to Dr. SCHENCK to get examined that have been examined by their family physician, who told them that their lungs were almost gone; where by a close examination with the Respirometer, it is often found that it is an affection of the bronchial tube; and by getting a healthy action of the liver and tone of the stomach, the sufferer is soon restored to health. Sometimes medicine that will stop a cough is certain death to the patient. It looks up the liver, stops the circulation of the blood—hemorrhage follows, and, in fact, stopping the action of the very organs that cause the cough.

Dr. Schenck will be professionally at his rooms every week, 34 Bond street, New York, and 25 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is $5. His medicines are for sale by all Druggists and dealers, also a good supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills 25 cents per box.—GEO. C. GOODWIN & CO., 38 Hanover street, Agents for Boston. Ayer's Cathartic Pills
ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distempers, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the everyday complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best aperient that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to defend them from the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agent below named is prepared to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid action of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach; such as Deafness, Partial blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER's, and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o29—2m

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually.

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private disease, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the rarest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Boils, Ulcers, Abscesses, and all other diseases of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their health, and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a safe counselor and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the cure of those diseases upon which he treats.

TO THE LADIES.

Dr. TELLER still remains the chief Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and for in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid using them. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 9 A. M. to 8 P. M., and on Sundays from 9 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice his address all letters to

NEW ADVERTISEMENTS.

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Book Published!

We are the most extensive publishers in the United States, having six houses, and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other company.

Our Books do not pass through the hands of General Agents (as nearly all other subscription works do), therefore we are enabled to give our canvassers the extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.

Our agents find others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our works with those of other publishers. Address, NATIONAL PUBLISHING CO., 118 Water St., Boston, Mass.

Book Agents Wanted.

Now ready for delivery, a great National work—not political or sectional, (no rebellion in it,)—is standard in its character, without a rival or competition; eight distinguished literary men were employed in writing it; time from commencement to completion four years; is entirely and highly commended by the most celebrated literary and scientific men in the country, included over twenty Presidents of Colleges; is equally interesting and useful to all classes; is worth more than its weight in gold to every family or young man. We have sold hundreds of thousands of this publication, yet more subscribers are taken for this work, per Agents sent out, than any book we ever sold. In addition to the large commissions, we pay freights, insure against hot personal expenses; also a bonus to Agents of fifty dollars for every Canvasser they start who sells one hundred copies. Experienced and successful Agents wanted; others need not apply. For full description and terms, address

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, at the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

(Over Miss Beall's Dry Goods Store.)

The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Sheet Music, Covers, Sheet Music, Flutinas, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.

PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.

PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.

Having made arrangements with Prof W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering, Sons, and Chas. H. Child & Co. The superior merits of the former have too long been established to need any comments. Of the latter it is enough to say that the sale of fifty of them within the last five years by Mr Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.

Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof. Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman. D. H. MONTGOMERY.

MADAME ZADOC PORTER'S
Curative Cough Balsam

PRICE, 25 AND 50 CENTS PER BOTTLE.

The Best, Cheapest, and Most effectual Remedy for Coughs, Colds, &c. the world has ever produced. Purely Vegetable, contains no MINERALS, or other DELETERIOUS DRUGS.

The CURATIVE BALSAM is Warranted, if used according to directions, to CURE in all cases, Coughs, Colds, Croup, Whooping Cough, Asthma, and affections of the Throat and Lungs.

Madame Zadoc Porter's Balsam is a PURELY VEGETABLE EXPECTORANT, prepared with great care and scientific skill, from a combination of the best medicinal and vegetable kingdoms affords.

Its remedial qualities are based on its power to assist the healthy and vigorous circulation of the Blood through the Lungs.

It enlivens the muscles and assists the skin to perform the duties of regulating the heat of the system, and in gently throwing off the waste substances from the surface of the body.

It loosens the phlegm, and leaves free spitting, and is found very agreeable to the taste. It is not a cathartic remedy, but equally warming, searching and effective; can be taken by the oldest person or youngest child.

If you have a Cold, if ever so slight, do not fail to give the Balsam a trial, as the low price at which it is sold brings it in the reach of every one, that they may always keep it convenient for use.

The timely use of a 25 cent bottle will often prove to be worth one hundred times its cost.

Sold by all Druggists.

CHILDREN'S SLEEPING ROOMS.—We clip the following judicious observations from the Family Herald:—"Most parents, before retiring to rest, make it a duty to visit the sleeping-room of their children.—They do so in order to be satisfied that the lights are extinguished, and that no danger is threatening their little ones. But if they leave the room with closed windows and doors, they shut in as great an enemy as fire, although his ravages may not be so readily detected. Poison is there, slow but deadly. Morning after morning do many little children wake weary, fretful, and oppressed. 'What can it mean?' 'What can it be?' the mother cries. It despair she has recourse to medicine. The constitution becomes enfeebled, and the child gets worse. The cause, perhaps, is never traced to over crowded sleeping-rooms, without air: but is, nevertheless, the right one. An intelligent mother, having acquainted herself with the principles of ventilation, will not retire to her own room for the night without having provided sufficiency of air for her children, in the same manner that she provides and regulates their night covering, or any other requisite for refreshing slumber. Sometimes, by judiciously lowering a window, and at other times by leaving a door wide open, this end may be attained."

☞ The editor of the West Baton Rouge Sugar Planter lately received a two dollar greenback in pay for six months subscription to his paper. After giving vent to his excited feelings, he winds up with the following rather sober reflection: "We feel almost like the man who won the elephant in a raffle. We don't know what to do with so much money. Its care weighs like lead upon our palpitating bosom. It's an era in the country life editorial. We can neither eat, sleep or drink—except something very much diluted."

— An editor in Alabama having read an article in Hall's Journal of Health, advising that husband and wife should sleep in separate rooms, says that Dr. Hall can sleep how, when and where he chooses, but for himself, he intends to sleep where he can defend his wife against the rats and all other nocturnal foes, as long as he has got one to defend.

— M. Blot at Cincinnati, spoke of a Spanish proverb about salad making, which runs thus: "To make a good salad requires four men; a spendthrift for oil, a miser for vinegar, a sage for salt or pepper, and a madman to stir it all up."

HARPER'S
NEW MONTHLY MAGAZINE.
Critical Notices of the Press.
It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the million a more enterprising friend, than Harper's Magazine.—*Methodist Protestant* (Baltimore).
The most popular Monthly in the world.—*New York Observer.*
We must refer in terms of eulogy to the high tone and varied excellence of HARPER'S MAGAZINE—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the culture of the American People; and the popularity it has acquired is merited. Each number contains fully 144 pages of reading-matter, appropriately illustrated with good wood-cuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—TRUBNER'S *Guide to American Literature, London.*
The volumes bound constitute of themselves a library of miscellaneous reading, such as cannot be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

SUBSCRIPTIONS.
1867.
The Publishers have perfected a system of mailing by which they can supply the MAGAZINE and WEEKLY *promptly* to those who prefer to receive their periodicals directly from the Office of Publication.
The postage on HARPER'S MAGAZINE is 24 cents a year, which must be paid at the *subscriber's* post-office.

Terms:
HARPER'S MAGAZINE, one year....$4 00.
An Extra Copy of either the MAGAZINE *or* WEEKLY *will be supplied gratis for every Club of Five* Subscribers *at $3 00 each, in one remittance; or Six Copies for $20.00.*
Back Numbers can be supplied at any time.
A Complete Set, now comprising Thirty-three Volumes, in neat cloth binding, will be sent by express, freight at expense of purchaser, for $2.25 per volume. *Single volumes*, by mail *postpaid*, $3.00. Cloth cases, for binding, 68 cents by mail, postpaid.
*** Subscriptions sent from British North American Provinces must be accompanied with 24 cents additional, to prepay United States postage. Address

Morning Chronicle.

Portsmouth N. H.

WEDNESDAY, DECEMBER 5, 1866.

☞ On Monday, at noon, in Washington city, assembled what Andrew Johnson was pleased to term "A body hanging upon the verge of the Government and assuming to be a Congress." Perhaps before the close of the week he will ascertain that it is a Congress able to make wholesome laws for the government of the country and for the punishment of treason; and resist any attempts on his part to force his internal policy upon the loyal land by the pressure of a foreign war. In his Message this same Andrew Johnson says:

The Constitution makes it the duty of the President to recommend to the consideration of Congress such measures as he shall deem expedient.

He then goes on to recommend his own suicidal policy:—but he does not appear to see that he contradicts himself, when at one time he says it is Congress, and at another that it ASSUMES TO BE A CONGRESS. Sober men can see it very clearly.

CONGRESS commenced its work, promptly, on Monday. In the *Senate*, several new members were sworn in; among them Mr. Fogg, the Senator appointed from New Hampshire, came forward and took the oath.

Mr. Sumner said if there was no business before the Senate he would move to call up the Senate bill number one—an act to regulate the elective franchise in the District of Columbia. It was laid over for six days.

Mr. Lane offered a resolution instructing the Committee on Printing to inquire into the expediency of making the office of Superintendent of Public Printing elective by concurrent vote of both Houses.

The chair said it would not go to the committee, as no committee had yet been formed, and so ordered it to lie on the table for the present.

Senator Sherman presented a bill to prevent the illegal appointment of officers of the United States. The above was ordered to lie on the table until the committee was appointed.

In the *House*, Mr. Elliot asked leave to introduce a bill to repeal the 13th section of the Act of July 17, 1862, which section authorizes the President to grant pardon and amnesty to persons who took part in the rebellion.

Mr. Finch objected, but the rules were suspended, the bill put on its passage and passed by a vote of 111 to 29.

A resolution was adopted calling for information as to the arrest and escape of John H. Surratt.

A bill was introduced and referred directing the sale of $2,000,000 of gold by the Secretary of the Treasury every Monday.

President's Message received and read.

Mr. Stevens introduced a bill to regulate removals from office, made the special order of the day for Friday.

Mr. Schenck introduced a bill to equalize the bounties of soldiers, sailors and marines; referred to the Committee on Military Affairs.

Also a bill to fix the time for the regular meeting of Congress, made the special order for December 11.

Mr. Kelly introduced a bill to organize a department, to be called the Department of the Internal Revenue. Read twice and referred to the Judiciary Committee.

On motion of Mr. Warner, the Post Office Committee was instructed to inquire whether any appointment of Postmasters had been made, or whether any Postmasters, acting as such, held their commissions or performed their duties in violation of the 25th section of the Post Office act of July 2, 1866.

Mr. Garfield introduced a bill providing for the meeting of Congress at its next session on the first Monday of March. Read twice and referred to the Judiciary Committee.

On motion of Mr. Lawrence of Ohio, the Judiciary Committee was instructed to inquire into the expediency of providing a mode of proceedings for the trial of all cases of impeachment before the Senate, and to report by bill or otherwise.

[These beginnings indicate an active session, of great interest.]

☞ The welcome to Congress, at Washington, on Monday, was hearty; but the procession was not very numerous. A large majority of the people composing it, were black. A large assembly listened to the speeches. The banquet, in the evening, was a decided success. Hiram Walbridge of New York presided.

☞ The Governor of Virginia, in his Message to the Legislature, talks about the Constitutional Amendment, much more like a man in his sober senses, than does Pres. Johnson. He thinks if the rebel States refuse this offer, they may go further and fare worse.

GEN. GRANT TO BE AT CONCORD, JAN. 1st.—Gen. Grant, it is stated, has accepted an invitation to be present at the annual reunion of the officers of New Hampshire, to be held at Concord, Jan. 1st.

Correspondence of the Chronicle.

THE VALLEY OF SANTA CLARA.

SAN FRANCISCO, Cal., Nov. 10.

The San Jose Railroad traverses through the fertile vale of Santa Clara County. On the first stretch after leaving the Mission Dolores the road winds round the western shore of the Bay of San Francisco. There the land is low on the Bay side and is more hilly on the north, towards the ocean, believes of which you can see as the cars glide along; but these water views are soon shut out by rising hills, which form a barrier along the sky, and are called the Coast Range. On the left, the Bay stretches away and is lost in the hills coming from the Mont Diablo range.

We pass the Shell and Bay View Parks, where fast horses and fast people gather for an occasional amusement. Here we enter San Mateo County, and pass by vegetable ranches in San Bruno and Belmont. Mexicanoes, Italians, Frenchmen or Chinamen, are seen moving among the cabbages or picking fresh beans, celery, radishes, &c., for market. The landscape now bears a more fertile appearance. Mayfield is announced at the car door, and we gaze out upon the late harvestings; and field after field, as far as the eye can well discern, from whence the crops of barley, wheat and oats have been taken. At intervals we see large piles of hay, all bundled and ready for market. This place, except its level, reminds us of our New England home in July and August. Its dusty road, its well fenced ranches, the neat and tasty cottages, wayside Inns, and steepled churches, all show the civilization of those whose houses dot this part of the valley.

As we leave Mayfield we notice a change, for the section of county we have passed is comparatively treeless; but now the scrub oak appears, and hills as well as the plains become more densely covered, and the conductor proclaims in deep tones "*Redwood*." Here the distant uplands are covered with a fine growth of red-wood, their shaggy branches,—something like the hemlock tree in appearance, and rearing their spear like forms a bulwark of defence along the mountain range, and making this a lovely retreat for the sight seeing traveler, or a place where the sportsman may beguile a day in the chase. Red wood is a charming little town, filled with handsome homesteads, with here and there the index-spires pointing us up to God as the author of all good. How cheering are the drives to and from the depot! One feels at home here at first sight.

But on we go, threading through the wild wood. How charming to the senses is the change of verdure and foliage, all commingling in native luxuriousness to enrich the visual type photographed on memory's album. Still we smoothly glide adown the inclining plain; the green willows appear, and the usher announces "Santa Clara." Peering through the open car window we see the little quiet village lifting itself up through the over-hanging willows. Conspicuous above all is noticed the turreted dome-like towers of the Mission church, established here by the Jesuits, long years ago. Near this is seen a more modern structure, elaborately adorned; it is a Catholic College, which gives to this place a literary air. This is the locality chosen for the "Ladies Centenary College," on the grounds of the Female Institute in charge of Dr. Bannister. Our car is literally depopulated by the camp meeting goers, so we will join in with them and visit the tented grove.

A short drive through the village exhibits to us the Santa Clara flouring mills. Cottages in green and white, with a profusion of shade trees embowering them in rich and varied drapery. Adjoining the Catholic grounds we see some old adobe huts, rude and uncouth as are all such emanations of unburnt clay architecture. Now the driver turns his horses into a roadway covered with an Alameda of willows, rising thirty and forty feet, overarching in a canopy of interlacing branches of about 75 years growth, and extending from Santa Clara to San Jose; planted by Jesuits for a shade walk from one Mission to the other. The native Indians were the handmaids of the Holy Fathers, and these relics are indicative of willing hands in rearing this tell-tale grove. May it long wave its willowy tresses over the brow of the weary traveller. Here we turn from the Alameda into the tented grove, consisting of red wood board shanties, with a few canvass tents in older style, pitched in ample profusion, from the cone-like tent of the army to the emigrant wagon. It is lunch time, and while the dear ones are attending to this needful thing, we will stroll around to see the inner-circle of the tabernacle and look upon the consecrated area.

A most lovely audience room is formed, 150 by 75 feet, flanked on all sides by red-wood compartments, forming a complete enclosure except entrance passages. The vaulted archway of willows is supported by graceful columns in tree-form, rising in majestic proportions, embracing Gothic arches, with all their delicate tracery. Rude board seats are made for 1500 persons, and an altar 20 feet square just before the preachers' stand. Over the rostrum is a cluster of branches so arranged as to make it a sunless spot, cool and inviting to those who there stand up for the cause of christianity. The altar, centre and side aisles are formed without removing a tree. Surely, such a place is well-worthy of its dedication to God for the use of Methodists in all time to come. This camp ground is an area of about 5 acres, formed at one end of the University grounds. The University plat is 35 acres, runs from the south (or camp,) to the west, and is there bounded by the Guadaloupe creek. Near the centre the San Jose railroad passes across the grounds, and near which the University buildings will rise and form an imposing picture to those who pass in the cars. There are several blocks divided into building lots, thus offering home-sites for those who love a quiet country residence, within a few hours ride of San Francisco.

NEW HAMPSHIRE ITEMS.

—— Peter Voorhees, of Prospect Plains, N. J., was indicted in Hillsboro' county last January, for swindling, by means of a land and oil company—and after eleven months struggle against the law by him and his lawyers, he was brought to Nashua last Saturday evening. He deposited $2000 with the Clerk of the Court, on his bond to appear in January,—and went home. He may appear—but then again, he may not.

—— Mr. James Parker, who recently died at Litchfield, left a will bequeathing about $20,000, to the Presbyterian Church in that town, the interest to be used in maintaining the preached gospel. Hon. James A. Parker of Manchester is appointed Executor of the will, and Dr. Harrison Eaton of Merrimac, Dea. Moses Chase and Simeon Leach, Esq, of Litchfield, Trustees of the fund. This is the only church in Litchfield, and at present without a pastor. By the generosity of Mr. Parker it will be able to secure one.

NARROW ESCAPE — At Charlestown, Mass., on Sunday night, about 11 o'clock, as officer Brennan of the Bunker Hill district was passing over his beat, his attention was attracted by evidence of a fire in a barn on Cook street owned by Hugh Kelly. He entered and found a kerosene lamp broken and its contents taken fire, and the destruction of the building was imminent. By strenuous exertions he succeeded in quenching the fire without alarm. Having done this he searched the premises, and found two intoxicated men inside, one sound asleep and the other helpless. There were also a dozen horses in the stable, and a large quantity of hay and grain. The result of the fire, if it had not been discovered and extinguished by officer Brennan, may well be imagined.

A WHOLE FAMILY DESTROYED.—One evening last week, the inmates of the family of Mr. Wm. R. Boutwell, residing in Portsmouth, Va., partook of supper, the principal dishes of which consisted of hashed beef and sweet potatoes. The same night, Mr. Boutwell, his wife, Sallie Boutwell, and an old lady, Mrs. Ann Crittenden, were all attacked with the most violent purgings and fits of vomiting, dreadful cramps, and all the most positive and unmistakable symptoms of cholera. Medical aid was called in, but all three of the sufferers continued to grow rapidly worse, and all died within a few hours of each other and were all laid out in the same room. The deceased composed the entire household.

STATE MUSICAL FESTIVAL.—The fourth annual session of the New Hampshire State Musical Festival will commence in Eagle Hall, Concord, on Monday evening, Jan. 7, 1867, and continue four days. Mr. Carl Zerrahn of Boston, will conduct the oratorio department, and Mr. L. H. Southard of Boston, the church music and glee department.

☞ Rev. John Otis Burrows, lately dismissed from the Congregational Church in North Hampton, is to be installed this day, as pastor of the First Congregational Church in Exeter. Sermon by Rev. Mr. Adams, of this city.

— The Congressional Committee to investigate custom and sugar frauds in New York and other Custom Houses, will ask leave to remove the seal of secrecy from their proceedings. It is rumored their report will involve a number of high officials.

MAX SHINBORN, the bank robber, escaped from the State Prison, in Concord, on Monday afternoon, at 10 minutes past 5. He was in the regular column of convicts, marching from work to their cells,—and when at a convenient spot rushed for the gate, broke a hole through the plank with his hands, jumped through, went over a shed and another fence, and was taken into a carriage and driven off. He had confederates outside, who found means to correspond with him; and they had bored the plank gate in such a way that nothing appeared wrong on either side, but also so thoroughly that it broke like a pipe stem. The sentinel on guard fired at him, but missed him. He is 25 years old, 5 feet 9 inches high, light complexion and light hair. $1000 reward is offered for his arrest and return.

☞ In the Alabama House of Representatives, Mr. Brookes of Lowndes county presented a bill to alter the Constitution of that State so as to admit of conditional negro suffrage, that a voter shall possess property to the amount of $200, be able to read the Constitution of the State and of the United States, and write with a legal hand—these conditions holding good also in the case of white men. Mr. Brookes was closely identified with the Confederate cause, having expended his last dollar in its support, and in presenting the bill said that he did so as a measure of policy and public good. After an exciting debate the bill was tabled.

Notice.

All persons having bills against the City of Portsmouth are requested to present them to the proper Committees or to the City Clerk, on or before December 15th. No bills will be considered for payment the present year unless presented by that time.

By order of the Mayor and Board of Aldermen.

CURE OF CRICK IN THE BACK AND LUMBAGO.

Lyons, N. Y., July 4, 1862.

Messrs. ALLCOCK & CO.: Please send me a dollar's worth of your plasters. They have cured me of a crick in my back, which has troubled me for some time, and now my father is going to try them for difficulty about his heart,
L. H. SHERWOOD.

Dr. Green, No. 868 Broadway, New York, informs us he sold, on Monday, June 2d, 1862, two plasters to a young woman suffering very severely from lumbago. On Thursday she called to get two more for a friend, and then stated that the two she had purchased on Monday had relieved her immediately after putting them on, and CURED HER IN TWO DAYS of a most distressing pain in her back and loins.

Sold by all Druggists. n29—dawlm

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the host of illnesses, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and and extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it its healing influences more potent than than those of the spices of "Araby the blest." We are informed by our principal druggists, that they sell more of this article for expectoration than any of all others, and that the demand is constantly increasing.—*Salem Observer.* dl—dawlm

CINCINNATI, OHIO, October 1, 1862.

Messrs. J. N. HARRIS & CO.—Gents: About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of phlegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhœa set in. My friends thought I was in the last stage of Consumption, and could not possibly get well. I was recommended to try

AMERICAN LIFE DROPS!
FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

BOSTON, Mass.

"ORRIN SKINNER & Co—*Sirs*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend call upon me, who has always have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. My family near him, suffering from Colds and Ulcerated sore throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."

The Life Drops are carefully prepared by

Is sold by all Apothecaries, everywhere, for only ONE DOLLAR. It is a *certain cure* for *Diseases of the Kidneys, Gravel, Rheumatism, Gout, Dropsy, Female Disorders, and General Debility*, arising from excesses of any kind. Read the following TESTIMONY of a CITY MISSIONARY:

CHARLESTOWN, MASS., Nov. 23, 1865.

Messrs. HERLEIGH & ROGERS, Boston, Mass:

I feel it a duty I owe to you, and to such of the community as are suffering as I have suffered, to make known through the medium of your advertisements the CURE that, through the blessing of God, you have wrought upon me by using SMOLANDER'S BUCHU. I had *suffered over one year* with *Kidney Disease* so bad I could hardly walk. I took four bottles of *Smolander's Buchu*, and it *cured me*.

POLICE COURT, Dec. 4.—John W. Sullivan, habitual truant, was sentenced to the House of Reformation until of age, fined $10, and ordered to pay costs, $5.74.

Joseph Herren and Thomas Conner, for throwing stones in the street, fined $2 50 and costs, $2.40.

Frank Norton, for disorderly conduct, in throwing mud against the door of a house on State street, in malicious mischief, was fined $1 and costs $4.03.

☞ Mr. Barnabee's concert this evening will not be forgotten—few that have ever enjoyed his rendering of musical comicalities, ever *do* forget him. The list of artists for this evening embraces several that stand very high in the scale with lover of good music elsewhere. Tickets for this evening may be purchased at the door.

☞ Auctioneer Wendell advertises a sale of good furniture, &c., at his store today, (Wednesday,) and a large lot of furniture at the City Hotel on Thursday.

GOLD, Tuesday, 141.

— Jeff. and Joseph Davis' plantations have been leased to an association of colored men.

— A sub-agent of the Freedmen's Bureau was recently murdered at Bayou Sara, La.

— The Mississippi Commissioners have visited Jeff Davis, notified him of their failure to effect his release, and left for home.

— On Monday morning, at 4 o'clock, the Brooklyn Gas Works were almost entirely consumed by fire. Loss upwards of half a million.

— Senator Dixon, of Connecticut, who last session supported the Administration, announces that hereafter he will be found in opposition to its head and its policy.

— The Dutch brig Duodecimo was lost in Van Dieman's Strait. Of 70 persons on board, only three Japanese and no Europeans were saved.

— J. B. Auld, who has acted for many years as the Mayor's Secretary in New York, died on Wednesday. He was connected with the editorial department of the Daily News.

—The Hon. F. C. Beeman, of Michigan, called on Gen. Spinner, U. S. Treasurer, Saturday, and paid back into the Treasury over five hundred dollars received during the last three years for mileage as a member of Congress, in excess of what he believes to be just.

"OLD HICKORY'S" RESIDENCE.—Tennessee has given the Hermitage property and 200 acres adjoining, to Gen. Grant, to be used as a branch of West Point Military Academy.

LEFT THE STAGE.—Julia Dean has left the stage, and will henceforth reside in New York. She is now the wife of Mr. J. E. Cooper of that city.

☞ D'Arcy McGee, in a recent speech, referring to the convicted Fenians, said: "These men deserve death, but the spirit of the times is opposed to capital punishment where any other punishment can reach the case, and in these cases, I hope it may be found possible to temper justice with mercy."

— The United States Court has decided that to photograph a copyrighted engraving is an infringement of such copyright.

— The New York News, Ben Wood's paper, has again changed hands, and will be known hereafter as "The People."

Dr. Schenck on Dyspepsia.

SYMPTOMS, CAUSES AND REMEDY.

Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belching of wind, water brash and vomiting, and a great deal of what a person calls an indigestion feeling at the pit of the stomach; frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with a mucus or slime. The rough fibrous portions of the stomach, similar to what we see in tripe, is what throws out the gastric juice, and when the stomach gets a thick coat of slime on it, it prevents the gastric juice from flowing, and digestion ceases. Schenck's seaweed tonic dissolves this mucus or slime, and restores the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this morbid matter. Two thirds of the cases of Consumption are caused from this diseased state of the stomach; the liver becoming torpid, it ceases to throw out bile, and in a short time the whole system is deranged. The mucous membrane of the bronchial tubes sympathizes with the other organs, and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely through the blood, when the system is in this locked up condition, without the aid of the Sea Weed Tonic and Mandrake Pills. The Liver has all the venous blood to strain, and when it gets in a morbid condition, blood and bile run through the system mixed, and the whole body becomes so low and the blood so thick it can hardly run through the veins. In a majority of cases hemorrhages occur from this thick condition of the blood. The Mandrake Pills act on the Liver similar to calomel, or they do what that does—it unlocks the gall bladders, starts the bile, and the liquor in circulating naturally through the veins, and the hemorrhages cease. If, when persons are attacked with hemorrhage, they would drink a good purgative, something that would act on the liver, they would soon be relieved from bleeding from the lungs, and it is the only way, for astringents are only temporary, and irritate the bronchia tubes, and they the groundwork for consumption.

Dr. Schenck's Pills will be professionally at his room every week, 32 Hood street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is $5.

His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms.

Price of the Pulmonic Syrup and Seaweed Tonic each $1 50 per bottle, or $15 00 the half dozen. Mandrake Pills 25 cents per box.

Ayer's Cathartic Pills

ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children, being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures so much more than any other medicine, they must not substantiate by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The demand made which surpasses belief, when they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted, suffering fellow men.

Costiveness, Bilious complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand Ayer's, and take no others. The sick want the best aid there is for them, and they should have it.

Morning Chronicle.

☞ The Mobile Tribune, is tired of the Democratic party, and at the close of a long article it says of it:

"Let it go its way. We owe nothing to it, except a vast amount of radical unkindness, which is stimulated and made active and unreasonable.

Let us say another word. We are not entirely certain that we are right in saying it. It is that to-day we should throw ourselves on that radical party—we do not mean the extremes of it—rather than rely on the Democratic party, which seems to us to be trimming its sails to any breeze which may help to carry it to some port where its cargo of avidity for the spoils may be made saleable and profitable. We are sorry to say the; but one must tell what there is of truth within him, when he feels obliged to speak."

☞ The following is a specimen of the reconstructed sentiments of the Petersburg (Va.) Expres:

We do not know, nor do we care, into what dangers we plunge when we declare that as the result of all the reflections we have made, we have arrived at the conclusion that the United States Government is the most stupend ous and unprincipled humbug on the globe. Had the Confederate Government lived, there would have been one respectable government on the Western Hemisphere."

A Wife's Clothing Belongs to Herself.—So decides a Virginia court. The case was that of theft of clothing from a married lady. The defence set up that the stolen clothing belonged to the husband and not to the wife, and, therefore, that there was no theft of the plaintiff's clothes as charged. The court took the matter into consideration and finally decided that a wife owns her own clothing, and not the husband, and the thief was sent to the penitentiary.

— The Bridgeport Standard tells a story of a keeper of a toll bridge, who refused a silver quarter in payment for toll, and insisted on having good money.

Fifty-Two Gold and Silver Medals and highest Premiums have been awarded these instruments, for their important improvements and superiority to all others. They have the following patent improvements which cannot be employed by other makers of Reed Instruments:

Automatic Bellows Swell, Improved Self-Adjusting Valves, Wood's Octave Coupler, Noiseless Safety Valves, Improved Combination Register.

AMERICAN AND FOREIGN PATENTS

R. H. EDDY,

Solicitor of Patents,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,

78 State Street, opposite Kilby Street

BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in form to secure for them an early and favorable consideration of the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN Applications, on all but one of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend my friends to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made successful applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Examiners-in-Chief of Patents. R. H. EDDY.

Agents Wanted
FOR THE MOST POPULAR
And best selling subscription Books Published!

We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other company.

Our Books do not pass through the hands of General Agents (as nearly all other subscription works do), therefore we are enabled to give our canvassers the extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.

Our series comprise the most popular works on all subjects of importance, and is selling rapidly, both North and South.

Old agents, and all others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our works with those of other publishers. Address, NATIONAL PUBLISHING CO., 118 Water St., Boston, Mass.

Book Agents Wanted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shovelling, makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

SUFFRAGE AT THE SOUTH.—A writer in the Charleston Courier urges upon the South Carolina legislature to call a constitutional convention, for the purpose of voluntarily extending the ballot to every citizen of the State who can read and write and possesses a certain amount of property. This course is advocated as an alternative for universal suffrage. The Washington and New York correspondents of the same paper are filling its columns with abuse of Northern men and misrepresentations of Northern sentiment, which can only injure those whom such reading is intended to interest or amuse, by misleading them as to the true condition of public affairs. The Southern people were greatly deceived by their orators and presses prior to the great rebellion, and the process is now being repeated. The results are likely to be equally distasteful to the South.

The Mobile Register remarks in regard to suffrage—"There are some things in the chapters of our possible future harder to bear than self-imposed impartial suffrage—compulsory universal suffrage, for instance." The Southern press is beginning to read the handwriting upon the wall.

— Woman is said to be a mere delusion but it is sometimes pleasant to hug delusions.

— The new town of Vineland in New Jersey, which had no name or place in 1860, has now a population of 9000.

— George Daman, of Chicago, is a bright and smart lad of only 12 years, and is already the Chief Engineer of a large steam mill in that city.

— The Colorado and Nebraska Senators have been assured that Congress will admit both Territories into the Union as States at the present session.

— Henry Ward Beecher declines to lecture this winter, and has returned the money advanced to him by committees and associations.

— Boston dog thieves have been operating quite extensively in Bangor. Many a household pet has mysteriously disappeared and a few have been recovered while in transito for the "hub."

— The expenditures for national cemeteries, interments and removals of bodies thus far has been about $1,150,000, and appropriations to finish the patriotic work of $1,600,000 will be asked of Congress.

— The Chicago Tribune urges the importance of enlarging the Illinois and Michigan canal. It says that the railroad combinations in the State are now complete, and that monopoly has assumed its worst form.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N.Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually.
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can do, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest and the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense success.
YOUNG AND MIDDLE AGED MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, that unfits them for the duties of the pleasures of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK
A book for everybody—Startling disclosures—Dr TELLER's great work on the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which he treats.
TO THE LADIES
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vicholi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package. For the guidance of patients (in the receipt of $1, the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice. N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

Portsmouth N. H.

THURSDAY, DECEMBER 6, 1866.

IN THE U. S. SENATE, Dec. 4.—Mr. Sumner gave notice of his intention to introduce a series of resolutions declaring the entire control of Congress over the subject of reconstruction and the right to exclude the late rebellious States from representation in Congress and from voting on amendments.

In the HOUSE, the bill to repeal the tax of $100 on grocers who grind their own coffee or spices, was read twice and referred.

Mr. Ingersoll offered the following resolution: That the President of the United States is hereby respectfully requested to inform the House, if not incompatible with the public interest, how near the verge of the Government the present body, called a Congress, is at present; and if it is not nearer the centre than he formerly supposed. (Laughter.)

Mr. Eldredge demanded the yeas and nays, which was refused, and the resolution was rejected.

On motion of Mr. Stevens, a committee of five were appointed to inquire what the Government had done for the Southern people since the war, the amount of money expended on them and their present condition.

Resolutions of inquiry as to removal of postmasters, &c., were introduced, and laid over for one day under the rule.

On motion of Mr. Darling, a committee of investigation of the Internal Revenue frauds, especially in regard to to distilled spirits, cigars and tobacco, was appointed.

A bill providing for the election of a delegate from the District of Columbia, and for impartial suffrage therein, was referred to the Committee on the District.

VIRGINIA.—The Governor, in his message to the Legislature talks very sensibly. He says, to make Freedmen useful members of society they should be educated. He was gratified to see that sums of money had been raised in the North for this purpose, and that the schools were in successful operation.

The colored man labored under great disadvantages now; but when he had as many inducements to work as a white man, doubtless he would work, and he was pleased to find that many of the best men seemed disposed to give him a fair chance. It was very desirable, however to induce foreign immigration.

The Secretary of State of the U. S. had forwarded a joint resolution of Congress proposing an amendment to the Constitution of the United States. The President disapproved of it and insisted on the immediate admission of loyal Representatives, duly elected. Some controversy had taken place as to what was meant by loyal.

The elections had, however, resulted in a decisive majority in favor of the Congressional view. An effort was making to induce the Legislature in some of the States to reject the Constitutional amendment, hoping to be more successful in a future contest, but he thought it very unlikely that such would be the result. The people of the South should not again be beguiled by *professed friends* at the North.

The late elections showed that Congress was supported by a large majority of the people. He thought there were no hopes of better terms. No political status had yet been given to those who had been in arms against the Government. Congress had denied the assumed right of the President to settle that status. No disgrace could be incurred by accepting the proposed terms. They were not nearly so hard as might be anticipated. Persons and property were sacred, and the right of suffrage was left to them. Should they not accept the amendment the result was uncertain. He left the whole subject with them.

THE CURRENCY.—The Comptroller of the Currency states that the increase of capital, bonds and circulation of the National Banks for the year ending Oct. 1, 1866, was $101,824,698, but during this time nearly fifty millions of State circulation have been retired, so that the actual increase is only about $50,000,000. The Comptroller discusses at length the matter of the redemption of National bank bills, the proper distribution of the circulation authorized by law, and proposes several important amendments to the law as it now stands.

IMPEACHMENT.—The Worcester Spy says that a petition, numerously signed by citizens of Worcester, has been forwarded to Washington, urging the House of Representatives to immediately inquir whether the conduct of Andrew Johnson as Vice President and President of the United States has been such as to demand impeachment.

☞ Ellen Graham, aged 19 years, died suddenly in the waiting room of the New Haven Railroad depot, in New York Monday night. She belonged in Westchester county.

NEW HAMPSHIRE ITEMS.

—— Gov. Smyth delivered an address to the N. H. Teacher's Association, at Manchester, on Monday evening.

—— Deer are reported to be making their appearance quite boldly in the northern portion of the State.

—— J. M. Spooner & Co.'s starch factory, at Sugar Hill, was destroyed by fire on Monday week, with ten or fifteen tons of starch and 3000 bushels of potatoes.

—— On Tuesday, 27th ult., Mark Mack of Tamworth, a young man about nineteen years of age, was shot and seriously wounded by the accidental discharge of a gun in the hands of a boy with whom he was gunning. The charge of heavy shot struck young Mack in the face, entirely shattering his left under jaw, while other scattering shot entered his head in other places. He was speechless at last account.

MAXIMILIAN OUT OF HUMOR WITH NAPOLEON.—The following significant paragraph occurs in the Paris correspondence of the Independence Belge, Nov. 13:

The late news from Mexico makes mention of Maximilian's ill-humor on account of the way in which he has been forsaken by the French Government. It is even announced that on his return to Europe (which is expected soon to take place) he will publish the correspondence with our Government (France), together with all the documents bearing on the Mexican question which he has in his possession. It is easy to imagine what must be the feeling of irritation that sways Maximilian now that he is about to be dispossessed. Nevertheless, there is no disguising the fact that the French Government is not free to act differently from the way it is acting in this affair.

"THE HERALD OF HEALTH" presents an agreeable and instructive miscellany of popular reading, in addition to the lucid exposition of Hygiene, to which it is specially devoted. Without maintaining any ultra system of abstinence, it makes war on alcohol, tobacco and unclean social habits which arise from their use, and earnestly sets forth the importance of purity of mind. Terms—$2 per year, 20 cents per number. Address Miller, Wood & Co., 15 Laight Street, New York.

☞ At Zanesville, Ohio, Tuesday morning, a railway train broke through a bridge over the Muskingum river, and two engines, two express cars, one baggage and one passenger car went down 60 feet to the rocky bottom. No person was killed outright; but a number were hurt.

ROWING.—We learn from the Portland papers that Walter Brown, having failed in making his proposed match with Hammill of Pittsburg, has about decided to cross the "big pond" in search of an antagonist, who will probably be Chambers, the champion of the Clyde, (and of the Tyne as well, we believe, he being a native of Newcastle,) or Kelly, the English champion who beat Hammill, has retired to rest on his laurels. Brown will probably be the guest of Kelly while in England.

— A returned Californian was robbed of $2,500 in gold at Chester, Mass., on Thanksgiving Day, while intoxicated. Name not given.

— Steamer Baltimore, from Portland for Halifax with an assorted cargo of merchandise. She sprung a leak on Friday night off Cape Sable, was beached, and was broken up by the action of the sea.

— The first proclamation for a thanksgiving in Connecticut was issued in 1644, and was a model of brevity, as follows: "Its Ordered, there shallbe a publike day of thanksgiving through this Jurisdiction vppon Wensday com fortnight."

— At Mill Creek Hundred, Del, Sunday evening, 25th ult., Mrs. Whiteman was filling a lighted coal-oil lamp, when it exploded, set her on fire, and burned her and a little son, two years old, so that they both died soon after.

— A phrenologist has been examining Queen Victoria's head. He found the bump of adhesiveness sadly deficient, if it existed at all. In justice, however, to this gentleman, we will state that the Queen's head under examination was on a postage stamp.

— The jewels of St. John's Lodge of Masons, Newark, N. J., were stolen from their safe last week. They were 104 years old, were used by Washington in the Army Lodge at Morristown, and were also used on the occasion of the initiation of Lafayette with the brotherhood of masons.

— It is said that a detective from the Internal Revenue is investigating the books of the Lynn shoe manufacturers, and that two of them have already been called upon to answer for non-compliance with the law in returns of sales. They are found to be some thousands of dollars behind.

— A Spanish painter having received an order for a picture representing the eleven thousand virgins, charged so much per virgin. It was objected that only a score or so of the eleven thousand were clearly represented, and that a shadowy, undulating line was all there was to show for the rest. "Ah, yes," said the painter, "but the other virgins are coming out of church." "Very well," rejoined the Maecenas, "when they all come out I will pay for them all."

N. H. STATE MUSICAL CONVENTION.—The fourth annual session of the New Hampshire State Musical Festival will be held in Eagle Hall, Concord, and continue four days, commencing Monday evening, Jan. 7, 1867. Conductors: in the Oratorio Department, Mr. Carl Zerrahn; in the Church Music and Glee Departments, Mr. L. H. Southard. Soloists: Mrs. H. M. Smith, Soprano; Miss Addie S. Ryan, Contralto; Mr. James Whitney, Tenore; Mr. M. W. Whitney, Basso. Orchestra, the Mendelssohn Quintette Club, with the addition of a double bass. Pianists; Mrs. Martha Dana Shepard, Mr W. W. Graves.

Half fare on the Railroads, as heretofore. Return checks will be accepted only on Friday and Saturday, the 11th and 12th. The same liberal deduction in the Hotel rates, as in previous years, will be made; and accommodations, both there and in private families, should be secured in advance.

Tickets; members, $1.00; concerts, each, 50 cts; rehearsal tickets, 20 cts; season tickets, admitting visitors to all exercises, including three concerts, $2.00.

The study of Oratorio Music will be made a specialty. A large and beautiful variety of music, never before attempted by this festival, will be given from the works of Handel, Mendelssohn and Rossini. There is, evidently, an earnest and growing desire among our people, to become familiar with the standard works in this department. The study of the magnificent compositions selected for the use of this Festival cannot fail to afford to its members genuine satisfaction and delight, as well as to inspire a deeper feeling of appreciation of the grand and beautiful in the world of music. Let the remembrances of the glorious Festival of 1866, numbering upwards of one thousand voices, stimulate to efforts worthy the occasion. The Church Music department will receive its full share of attention. In this connection, Mr. Southard will introduce his "Offering," a new work of acknowledged merit.

The Glee Department will be rich, full and varied. The customary allotment of time for social musical exercise, will be made each afternoon. The exercises will, as heretofore be conducted with a view to the improvement of all, rather than the glorification of a few. In other words, this Festival will, as in times past, be a gathering "of, by, and for the people." The attainment of the object thereof, involves certain obligations on the part of its members, viz: an early, prompt and continued attendance upon the rehearsals. Let this week be one of arduous labor as well as of the highest and purest enjoyment.

Three Grand Concerts will be given on Wednesday, Thursday and Friday evenings, January 9th, 10th and 11th. Wednesday Evening Concert, Miscellaneous. Thursday Evening Concert, Miscellaneous. Friday Evening will be given the larger portion of the "Messiah;" selections from Rossini's "Stabet Mater," with selections from Mendelssohn's "Elijah." B. B. Davis, John Jackman and J. H. Morey are the managers. For further information, address J. H. Morey, Teacher of Music, Concord, N. H.

AN ABUSED TRUST.—Judge Bryan Mullanphy of St. Louis, Missouri, died about fifteen years ago. His will contained the following clause: "One equal, undivided third of all my property, real, personal and mixed, I leave to the city of St. Louis, State of Missouri, in trust, to be and constitute a fund to furnish relief to all poor emigrants and travellers coming to St. Louis, on their way, *bona fide* to settle in the West." By this clause the city came into the possession of a property valued at something more than $500,000. In the last report of the commissioners of this fund, it is estimated at $750,000, of which about $400,000 is in real estate. But unless the St. Louis papers are in error, the "poor emigrants and travelers" have not received a pennyworth of benefit as yet from this generous benefaction.

THE NIAGARA SHIP CANAL.—A conference of Western Boards of Trade and Chambers of Commerce, will be held at Chicago on the 11th inst., for the purpose of deciding upon such concerted action as will secure the passage, during the present session of Congress, of the bill for securing the immediate construction of the projected canal around the Falls of Niagara. The producers and the business men of the West feel that their interests have been most seriously affected by the delay which has already taken place in reference to this great measure; and they feel that they cannot afford to put off any longer. So far as New England is concerned, says the Boston Journal, we can assure our Western friends that they have its fullest sympathy, and that they shall have in the future, as they have had in the past, its hearty co-operation. Our people regard this canal as being essential to the attainment of cheap and adequate transportation facilities between New England and the Northwest; and our public men, and especially our Members of Congress, have on every proper occasion given their unqualified approbation to the undertaking. We are glad to believe the effort shortly to be renewed at Washington will be successful.

— Fort Rawlings, just below Vicksburg, is to be demolished, by order of Gen. Grant. It took two thousand men sixty days to erect the works.

☞ We are indebted to Ticknor & Fields, Boston, for a pamphlet copy of Mr. Parton's striking article on the Government of the City of New York, reprinted from the North American Review, for October, 1866. Its statements and figures have excited great interest in the public mind, so far as they have become known. The systematic malfeasance described by Mr. Parton as in full vogue in New York, is reported to exist in greater or less degree all the cities of the country. If so, the people should know the fact immediately.

☞ At Rochester, N. Y., Dec. 4, by the accidental explosion of fifteen pounds of nitro glycerine, used for blasting purposes in the tunnel near High Falls in that city, a man named McNorton was killed, and two other men were dreadfully injured.—The explosion shook buildings in the northern part of the city on both sides of the river.

☞ In Missouri, Governor Fletcher is organizing a force to arrest or drive out of the State the various bands of bushwhackers who are murdering, pillaging and burning in several counties. He says he will pursue them with the utmost energy until Missouri will be made as safe to life and property as Illinois or Iowa.

☞ In New York city, Captain Jordon, of the 6th precinct, reports that there is every reason to believe that four men, named Adam Marlberger, Henry Dean, George Robinson and John Birmingham, all employed at No. 100 Walker street, perished in the fire at that place Monday evening.

☞ At Poughkeepsie, N. Y., Dec. 4, the jury in the case of Richard Lewis, charged with killing Rev. J. C. Richmond, returned a verdict of murder in the first degree, whereupon Judge Gilbert sentenced him to be hung, Jan. 25.

— The J. Monroe Taylor Gold Medal Soap has acquired pre-eminence over all other soaps, in point of economy and utility, from the wash-tub to the printer's devil. It is without doubt the best soap made; it has many inferior imitations, but no rivals, and can be safely said to be ahead of all others. 24

LAME BACK.

New York, Nov. 23, 1859.

T. ALLCOCK & CO.—Gentlemen: I lately suffered severely from a weakness in my back.—Having heard your plasters much recommended for cases of this kind, I procured one, and the result was all I could desire. A single plaster cured me in a week. Yours respectfully,

J. G. BRIGGS, Proprietor of Brandreth House.

CURE OF CRICK IN THE BACK AND LUMBAGO.

LYONS, N. Y., July 4, 1862.

Messrs. ALLCOCK & Co: Please send me a dollar's worth of your plasters. They have cured me of a crick in my back, which has troubled me for some time, and now my father is going to try them for difficulty about his heart,

L. H. SHERWOOD.

Dr. Green, No. 868 Broadway, New York, informs us he sold, on Monday, June 22d, 1862, two plasters to a young woman suffering very severely from lumbago. On Thursday she called to get two more for a friend, and then stated that the two she had purchased on Monday had relieved her immediately after putting them on, and CURED HER IN TWO DAYS of a most distressing pain in her back and loins.

Sold by all Druggists. n29—dawlm

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the host of diseases, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and and extensive sale and diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it its healing influences more potent than those of the spices of "Arraby the blest." We are informed by our principal druggists, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.* dl—dnw lm

DR. P. MEREDITH, Dentist, office No. 132 West Sixth Street, states as follows:

CINCINNATI, October 1, 1862.

Messrs. J. N. HARRIS & CO.—Gents: About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of phlegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhœa set in. My friends thought I was in the last stage of Consumption, and could not possibly get well. I was recommended to try

ALLEN'S LUNG BALSAM

The formula was shown to me, which induced me to give it a trial, and I will only add that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully, P. MEREDITH.

AMERICAN LIFE DROPS!
FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

"BOSTON, MASS.

"ORRIN SKINNER & CO.—*Sirs*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of your American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I also suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever tried. A family man with children, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother-in-law, who have just left mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDEN."

Local.

☞ Died in this city, on Wednesday morning, Dec. 5, JOHN SMITH, Esq., aged 79 years. He was a faithful, industrious mechanic, a member of the N. H. Mechanic Association for over fifty years, and was President of the same in the years 1829—31. A worthy loyal citizen, and an excellent husband and father, his happy home was ever hospitably open to the ministers of his church, (the Universalist,) to which his attachment was intelligent and steady, and to whose house of worship his last earthly visit was paid. His calm and noble continenance, and his friendly greeting, will be greatly missed by our community.

☞ Orders were received at the Navy Yard on Wednesday to prepare the steamer Contoocook for sea. As the machinery has not yet been put into this vessel, it will probably be six months before she will be ready for sea, and the order for equipment may be transferred to the Piscataqua.

☞ On Tuesday afternoon, as Mr. Stephen Holt of Eliot, was driving near the Eastern Railroad bridge at the Plains, his horse took fright at the noise of the noon train from Boston, ran away, demolished the carriage, and considerably bruised Mr. Holt.

☞ U. S. Detective Kent and Mr. John Currier from the Naval Storekeeper's office were engaged in tracing out Navy Yard thieves on Wednesday. We learn that they recovered stolen property to a considerable amount in this city.

JUVENILE DELINQUENTS.—Our police record of Tuesday offers cogent reasons why parents should take heed of the pursuits of their children, even if they are out of the house. It is not a pleasant duty imposed upon our police, that of bringing truants before the municipal court, where they may be sent to the House of Reformation for a long term of years, and boys as well as parents may take warning by the recent example of this kind.

The throwing of stones and mud may be a very delightful recreation, but it is not seen in that light by those having glass in their houses. And while on this theme, it may be apropos to give the Southern cities the credit for which they are entitled by reason of the excellent "street manners" of their children, manners so worthy of imitation as to be a subject of general remark with all observant Northerners who have made visits of any length to our wayward sisters. There no old man is jeered for the cut of his coat nor insulted because his hat is not in style.

A Bostonian, writing to the New Orleans Picayune, says:

"It may be stated as an indisputable truth that there is no city in the Union where reverence for women is so intuitive and manifest as in New Orleans. A lady can walk unattended through the streets, with entire safety, at any hour of the evening, and her appearance in the cars after nine o'clock, alone, excites no other scrutiny than that arising from a desire to aid her in the transfer of a ticket, or in her ex it from the door.

Editors Chronicle, — At a Republican caucus held in Ward Three, Nov. 23, the following gentlemen were elected as delegates to the following conventions:

Congressional—Daniel Neal, Joseph H. Gardiner, Charles E. Lord, Alonzo F. Craigg.

Senatorial—George W. Butler, Mark A. Cate, William A. Vaughan, Moses R. Hall.

State—William H. Rollins, John H. Jackson, Joshua Stackpole, Samuel Adams.

County, &c.—Ezra A. Stevens, James H. Emery, William H. Rollins, William G. Nowell.

Delegation were authorized to fill vacancies.

POLICE COURT, Dec. 5.—Charles Ridge, laborer, may have labored under the mistake that the Eastern Railroad depot was a *bier halle*, as he was found there in a state of intoxication, contrary to the statute providing for public tranquility. As he was unable to settle a small matter of $6.86, (costs and fine,) he was forwarded to the House of Correction.

☞ The audience at the first of Mr. Barnabee's series of concerts, on Wednesday evening, was very large and of a class that proved the singer to be *not* "without honor in his own country." The audience frequently testified their appreciation of the entertainment afforded them.

BRIEF LOCALS.—The crossing from High street to the North church, was exhumed on Wednesday, and pedestrians can now safely cross there.——A load of hay was upset at the corner of State and Pleasant streets yesterday. The driver "pitched in," and soon had it reloaded.——The stores in Congress Block are being rapidly fitted up, and Messrs. Shores, Preston and Batchelder will doubtless wish their friends "a merry Christmas" in their new quarters.

☞ Auct. Wendell will sell the furniture of the City Hotel this morning, beginning at 10 o'clock.

☞ Mr. Foster advertises this morning, "Mugby Junction," Dickens's Christmas story for 1866, which is published complete in the 50th number of Every Saturday. As Mr. Dickens's contribution to the story this year occupies a larger portion of the volume than usual, it is safe to predict that "Mugby Junction" will prove even more popular than any of its predecessors. The first four tales in the collection are from the pen of the inimitable "Boz." This story appears in Every Saturday seven days previous to its appearance in England.

☞ Duprez & Benedict's Minstrels will give a good concert to-night. Charley Reynolds, Frank Kent, Lew Benedict, and other old favorites, will be on the stage to welcome their friends. This troupe has ever given good satisfaction here.

☞ Save your scraps of waste paper; don't throw them into the street. The waste paper of the British Government sells annually for seven thousand pounds sterling. The waste paper of the Treasury Department at Washington sells for enough to pay the wages of all the laboring men employed on the premises.

— A tipsy loafer who mistook a globe lamp with letters on it for the queen of night, exclaimed—"I'll be blessed if somebody hain't stuck an advertisement on the moon.

— An Irishman was asked what was his religious belief. "Is't me belafe ye'd be asking about?" said he. "It's the same as the widdy Brady. I owe her twelve shillings, and she belaves I'll never pay her; and faith, that's my belafe, too."

THE CONJUGAL BANQUET.

Twelve sorts of meats my wife provides,
Nor fishes me of a dish;
Four are of flesh, of fruit are four,
The other four are fish.

For the first course she stores my board
With birds that dainties are,
And first the quail* and next a rail,
A bittern and a jar.†

With these my appetite when cloy'd,
For fish she renders sharp,
And serves me up a lump, a pout,
A gudgeon and a carp.

Then the dessert with fruit abounds,
All fitting well the season—
A medlar and an artichoke,
A crab and a *small reason*.

Now can a man have such a wife,
And not upon her dote,
Who every day provides him fare
Which costs him not a groat?

*Quail, for quarrel.—See Johnson's Dic'y.
†Jar, an old word for quarreling.

Dr. Schenck on Dyspepsia.

SYMPTOMS, CAUSES AND REMEDY. Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belching of wind, water-brash and vomiting, and a great deal of what a person calls an all-gone feeling at the pit of the stomach; frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with a mucus or slime. The rough fibrous portions of the stomach, similar to what we see in tripe, is what throws out the gastric juice, and when the stomach gets a thick coat of slime on it, it prevents the gastric juice from flowing, and digestion ceases. Schenck's Seaweed Tonic dissolves this mucus or slime, and restors the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this morbid matter. Two thirds of the cases of Consumption are caused from this diseased state of the stomach; the liver becoming torpid, it ceases to throw out bile, and in a short time the whole system is deranged. The mucous membrane of the bronchial tubes sympathizes with the other organs, and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely through the blood when the system is in this locked up condition, without the aid of the Sea Weed Tonic and Mandrake Pills. The Liver has all the venous blood to strain, and when it gets in a morbid condition, blood and bile run through the system mixed, and the whole body becomes so low, and the blood so thick it can hardly run through the veins. In a majority of cases hemorrhages occur from this thick condition of the blood. The Mandrake Pills act on the Liver similar to calomel, or they do what that does—it unlocks the gall bladders, starts the bile, and the blood begins to circulate naturally through the veins, and the hemorrhages cease. If, when persons are attacked with hemorrhage, they would first take a good purgative, something that would act on the liver, they would soon be relieved from bleeding from the lungs, and it is the only way, for as a purgative is the only temporary, and irritate the bronchial tubes, and lay the groundwork for consumption.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is $5.

His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms.

Use of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents per box.

Ayer's Cathartic Pills

ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstruction of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children, being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agent below named is pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Bowel complaints require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER's, and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o23—2m

Morning Chronicle.

BEECHER'S THANKSGIVING SERVICE. Burleigh, in a letter to the Boston Journal, gives the following sketch of the Thanksgiving services at Plymouth Church, Brooklyn, N. Y.

Though it rained at the hour of service, Plymouth Church was full. The sermon was on the evidences of our national prosperity and the proofs that it will continue. The introduction glanced at the Old World. Russia was on the way to liberty, though the road was a long one. Great Britain would have her colonies independent soon with her consent. She lacked faith in man, without which she would not be prospered. Italy, the benefactress of the world, was once more a nation, with her King in Venice. Germany has now a Protestant King and would lead the army of Europe to political liberty. Austria would be the better for defeats, for even she must learn, while France was like a vessel having lost its wind on one side and not having found it on the other.

The sermon was designed to sustain the pacific views of Mr. Beecher in our treatment of the South. The inference he wished his hearers to draw from the argument was that it would be safe to trust the South and bring them back at once to the enjoyment of their political and civil rights. He contrasted their condition when in 1860 fifteen States dictated in insolent language terms to the General Government, with their impoverished and starving condition seeking food at the hands of the Government they had sought to destroy. He urged the speedy settlement of the question of Reconstruction; and, whatever the terms are to be, they should be stated at once so that the country may be at peace and prospered.

Br. Beecher does not seem to discern the signs of the times. He seems to have forgotten that Congress, in President Lincoln's lifetime, passed a Reconstruction Bill, which Pres. L. (probably by Mr. Seward's advice) put into his pocket, and took up the plan which he introduced into Louisiana. He forgets that Pres. Johnson has not adopted either of the above, but has pursued a Policy which prevents true peace, by exciting hopes and expectations among the ex rebel demagogues of the South, and their allies at the north, that will never be realized.

His desire that the terms of Reconstruction may be stated soon, and plainly, is likely to be gratined—but he, as well as Raymond, Doolittle, Seward and Johnson, will not be likely to dictate the terms. The People who put down the Rebellion, (and NOT the rebels who made it)—will have their say on the matter—and they demand some sort of legal security against future outbreaks.

— The statement that the stationery contract for the Internal Revenue Bureau has been awarded to Dempsey & O'Toole, is not true.

— Among the many applications for office now pending at Washington, is one from Springfield, Ill., of a patriot whose sole claim is that he held the umbrella over the President when he made a speech there in the rain.

NEW ADVERTISEMENTS.

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Books Published!

We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay more a more liberal commission than any other company.

Our Books do not pass through the hands of General Agents (as with all other subscription works do), therefore we are enabled to give our canvasser the extra per cent which is usually allowed to General Agents. New Works and volumes will see the advantages of dealing directly with the publishers.

Our series embraces the most popular works on all subjects of importance, and is selling rapidly, both North and South.

Old agents, and all others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our works with those of other publishers. Address, NATIONAL PUBLISHING CO., 118 Water St., Boston, Mass.

Book Agents Wanted.
Now ready for delivery, a great National work—not political or sectional, (no rebellion in it,)—is standard; will never lose its interest; has no competition, eight distinguished literary divines were employed in writing it, time from commencement to close, over four years; is endorsed, and highly commended by the most celebrated literary and scientific men in the country, including every President of Colleges; is equally interesting and valuable to the poor man's family as more than its weight in gold to every family or young man. We have sold books faster than any one subscription Publisher, and more subscribers are taken for this work, per Agents sent out, than any book we ever sold. In addition to the large per centage, we pay weights, freights, and all other but personal expenses, also a bonus to Agents of fifty dollars for every Canvasser they start who will one year canvass for them. Experienced successful Agents wanted, others need not apply. For full description and terms, address

L. STEBBINS, Hartford, Ct.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience, of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and brains, unditting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three cents inclosed a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 7 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of Stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The object and for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this stove, are subjoined, for convenient reference:

MONTGOMERY'S
MUSIC, PICTURE FRAME, AND VARIETY EMPORIUM.

10 1-2 Daniel Street,
(Over Miss Beall's Dry Goods Store.)

The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr. Cobb, that he has opened a store on a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Stools, Covers, Sheet Music, Flutinas, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.

PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.

PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.

Having made arrangements with Prof. W. K. BAXTER, of Boston, to spend a store one day in the city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M Guild & Co. The superior merits of former pianos have long been established to need any comments. Of the latter suffice it to say that the sale of over fifty of them in the last five years by Mr. Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.

Every instrument carefully selected and fully warranted, under the inspection and approval of Prof Baxter. Also, the selections of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman. D. H. MONTGOMERY.

NEW ADVERTISEMENTS.

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Books Published!

We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay more a more liberal commission than any other company.

Our Books do not pass through the hands of General Agents (as with all other subscription works do), therefore we are enabled to give our canvasser the extra per cent which is usually allowed to General Agents. New Works and volumes will see the advantages of dealing directly with the publishers.

Our series embraces the most popular works on all subjects of importance, and is selling rapidly, both North and South.

Old agents, and all others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our works with those of other publishers. Address, NATIONAL PUBLISHING CO., 118 Water St., Boston, Mass.

Book Agents Wanted.
Now ready for delivery, a great National work—not political or sectional, (no rebellion in it,)—is standard; will never lose its interest; has no competition, eight distinguished literary divines were employed in writing it, time from commencement to close, over four years; is endorsed, and highly commended by the most celebrated literary and scientific men in the country, including every Presidents of Colleges; is equally interesting and valuable to the poor man's family as more than its weight in gold to every family or young man. We have sold books faster than any one subscription Publisher, and more subscribers are taken for this work, per Agents sent out, than any book we ever sold. In addition to the large per centage, we pay weights, freights, and all other but personal expenses, also a bonus to Agents of fifty dollars for every Canvasser they start who will one year canvass for them. Experienced successful Agents wanted, others need not apply. For full description and terms, address

L. STEBBINS, Hartford, Ct.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience, of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and brains, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three cents inclosed a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

The Chronicle.

TELEGRAPHIC INCIDENT.—An English paper tells a story of a singular application of the telegraph, which may well go into the permanent annals on the electric wire. The special correspondent in London of a Glasgow paper was accustomed every evening at a late hour to bring his dispatch to a telegraph office in the upper story of a high building, the street door of which was closed at a certain hour, and attended after that by a porter. This functionary, on the occasion in question, went sound asleep, and the most energetic poundings of the correspondent on the door were unsuccessful in awakening him to his duty. After half an hour or so of increasing impatience, the correspondent hit upon a novel idea.—He went to an adjoining telegraph station, and sent a message to Glasgow, requesting the clerk there to telegraph to the clerk in the inaccessible upper story in London, to go down stairs and awaken the porter.—This was done with entire success in about twenty minutes, the message traversing a distance of over four hundred miles to arouse a man only separated from the visitor by a door.

AN OFFER DECLINED.—A French capitalist offered to pay $1,600,000 for the admission fees to the Exhibition in Paris next year; one-half at once, the other half on the eve of the opening. This would have exonerated the guarantors from risk, but the offer was declined.

THE EPISCOPAL CHURCH AND THE FREEDMEN.—Bishop Potter of New York has issued a letter that a collection in aid of the Freedmen's Commission be made on the third Sunday in Advent, unless it can be more conveniently made at some other earlier day.

LARGE LICENSES ON BEER.—Englishmen drink much beer, and also pay much money for it. A Manchester paper says that a hotel and restaurant keeper in that city asks £24,000 for the good will of his business; his profits are £4500 per annum, and the profit on the sale of beer is 180 per cent., and on stout 200 per cent.

— Value him in friendship who stands by you in the storm; swarms of insects will surround you in the sunshine.

— The Albany Argus says the survey ordered by the State of New York, with reference to a ship canal from the Hudson river to Lake Champlain, has shown the project to be practicable. It will open up communication for a large class of vessels between Hudson river, Lake Champlain, the river St. Lawrence and the great lakes.

AMERICAN AND FOREIGN PATENTS
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1837,
78 State Street, opposite Kilby Street
BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
There, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners, of good character; and the advantages are great, at a very small expense. E. M. PARKER, Secretary.
Portsmouth, Sept. 17, 1866.—tf"
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability, on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in counsel of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. D. EDDY.

Morning Chronicle.

Portsmouth N. H.

FRIDAY, DECEMBER 7, 1866.

IN THE U. S. SENATE, Dec. 5.—Mr. Sumner offered resolutions on reconstruction. They assert the right of Congress over the subject of reconstruction and deny the right of the lately rebellious States to pass upon the Constitutional Amendment. Read and ordered to be printed.

Mr. Henderson introduced a resolution calling for information in regard to the employment of officers and workmen in the Navy Yards, especially in that of Norfolk, Virginia. Agreed to.

Mr. Wade moved to take up the joint resolution rendering the President ineligible for re-election. He spoke of the growing danger of giving one man too long a lease of power, and hoped Congress would defend the country from that danger by adopting the resolutions, to do which there could never be a better opportunity than the present. Referred.

Mr. Sherman's bill to prevent the payment of appointees rejected by the Senate was referred to the Judiciary Committee.

Mr. Morrill moved that the bill for universal suffrage in District of Columbia be printed, and gave notice that he would call it up on Monday.

The Senate concurred in the House resolution for the continuance of the joint committee on Reconstruction.

IN THE HOUSE.—Mr. Williams called up the bill of the last session for the regulation of appointments to and removals from office, and addressed the House in advocacy of it.

Mr. Williams called up a motion to reconsider the vote by which the House bill for the regulation of appointments to and removals from office was on the 11th of June recommitted to the Judiciary Committee. Two or three members offered amendments, which, together with the bill, were finally ordered to be printed and made the special order for Thursday.

A bill was reported from the Judiciary Committee, and passed, to protect rights of action of all citizens; providing that where a citizen of the United States, who always remained loyal thereto and did not voluntarily give aid or encouragement to persons engaged in rebellion, shall bring an action to recover damages for injury to persons or property or the value thereof, no such action shall be defeated or any defense allowed by virtue of the authority of the late so-called Confederate States or any State declared in rebellion.

WASHINGTON ITEMS, Dec. 5.—Perley says: Senator Chandler was severe in his denunciation of the President, declaring that a woman of questionable character had hawked pardons through the city. Senator Dixon's explanation did not help Mr. Johnson, and it is well known hereabouts that Mr. Chandler's assertion can be substantiated.

There are indications that the Senate will postpone the consideration of the House Tariff bill from next Monday, when it will be the order of the day, to the middle of the month. Meanwhile Mr. Wells will have his Free-trade Tariff bill ready.

A high government official states that he is in receipt of letters from Mexico stating that only about fifteen thousand French troops remain in that country, over ten thousand having been recalled.

Among the works being constructed, for which appropriations are asked, are Fort Constitution, $150,000; Fort McClary, $100,000.

The Surgeon General has supplied to maimed soldiers, up to the 1st of July last, 5981 artificial legs, 2240 arms, 9 feet, 55 hands and 125 surgical apparatuses. He estimates that not one thousand more limbs remain to be supplied, at a probable cost of $70,000.

It is announced by the Copperhead organs that military courts have been abolished, and John H. Surratt is to be tried before Judge Carter of that city.

☞ At Nashville, Tenn., Dec. 5, at a public meeting of colored laborers, a strike for 40 cents per hour was agreed on, and 200 freedmen struck for that price at the levee.

Dr. Case, State Senator from Albion county, reports that the rebels in Albion and Henry counties are infuriated at the idea that their former chattels may be enfranchised while they are excluded from the polls, and are driving off numbers of freedmen under threats of violence. On Monday night at Union city a number of shots were fired in order to alarm the colored people.

Recently in the same vicinity some freedwomen were brutally attacked by six ruffians. Gen. Lewis goes to make an investigation of the case.

Great suffering and destitution exist at Chattanooga among the freedmen.

— Gov. Ward, Chairman of the National Republican Central Committee, has called that body to meet in Washington on the 17th of January.

NEW HAMPSHIRE ITEMS.

—— The same Council, which installed Rev. Mr. Barrows as Pastor of the First Congregational Church in Exeter, — dismissed Rev. Mr. Nason, who left there about a year ago.

—— Rev. Dr. Richards, late pastor of the Olive street Church in Nashua, has received a call from the Congregational Church in Francestown. It is deemed probable that he will accept. It is a singular fact that Dr. Richards was settled over this same church at Francestown about thirty years ago, when he received a call from the church at Nashua, with which he has labored until last November.

INSTALLATION.—Rev. I. O. Barrows, recently of North Hampton, was installed Pastor of the First Congregational Church, in Exeter, Wednesday, December 5, 1866. Invocation by Rev. E. Chapman, South Newmarket; Reading Scripture, Rev. L. Goodrich, Stratham; Prayer, Rev. E. D. Eldredge, Kensington; Sermon, Rev. G. M. Adams, Portsmouth; Installing Prayer, Rev. E. Robie, Greenland; Charge to the Pastor, Rev. J. C. White, Newmarket; Right Hand of Fellowship, Rev. J. W. Chickering, Exeter; Address to the people, Rev. S. Hayward, So. Berwick, Me.; Prayer, Rev. J. H. Stearns, Epping; Benediction, by the Pastor.

NEW ORLEANS ITEMS.—The Governor contrary to expectations, has issued warrants for elections to fill vacancies in the Legislature. It was thought that the establishment at an early day of a Provisional Governor would prevent action.

All the cotton is gathered and ginned. This has not occurred so early in the season for the past 20 years.

All the cotton may be expected in by the 1st of January, as the planters are not in circumstances to hold out.

Renewed efforts to secure the removal of Mr. Tabafiorro, postmaster of the city, are reported to have been successful. Signatures have been affixed to a petition for the appointment of a Provisional Governor mostly those of strangers or those of recent residence.

CONGRESSIONAL CAUCUS.—Wednesday evening, in Washington, at a large caucus of Republican Representatives at night, the following measures were agreed upon:

1st. A bill regulating the organization of the House, directing the Clerk to place no names on the roll from States not represented in the preceding Congress, or declared entitled to representation, and providing that no electoral votes be counted from any State not represented at the time in Congress.

2d. A bill remedying the defect in the law which may prevent any State canvassing the votes for Electors of President and Vice President.

3d. A law to change the time of the meeting of every Congress with a view to assembling on the 4th of March.

4th. To raise a special committee for the rigid investigation of the New Orleans riot.

5th. A select committee to investigate the collection of direct taxes in the rebel States, and the seizure and sale of abandoned and confiscated land, &c.

6th. The Committee on Pensions to inquire whether any pensioners in disloyal States who were were struck from the rolls have been restored in violation of law.

7th. A special committee to investigate the release of murderers of Union soldiers in South Carolina.

ARRESTS FOR INCENDIARISM.—A special dispatch from St. Louis, says police revelations declare that the fire at Kansas City, Nov. 25, was the work of incendiaries, and that three members of the firm of Scott, Cutler & Co., are the guilty parties. John L. Scott was arrested on Saturday, G. A. Cutler on Monday, and J. B. Webber is under arrest at Kansas City. Cutler, while being confronted by insurance agents at the office of the Chief of Police, yesterday, attempted to kill himself by jumping from the second story window, but was not seriously hurt. Excessive insurance is supposed to have been the beginning of the crime.

FROM MEXICO it appears that Matamoras was surrendered to Gen. Sedgwick on the 24th inst. Col. J. G. Perkins of the 19th U. S. colored infantry was placed in command. 118 men of the 4th cavalry crossed over and occupied that city on that day.

It is said Gen. Sheridan has removed or relieved Gen. Sedgwick.

☞ A special dispatch from Washington says: "It is the opinion of a prominent Senator, who has had unusual opportunities of observation, that at the present session of Congress an enabling act will be passed, rejecting the present governments of the rebellious States as nullities, and that the loyal people of those States, without respect to color, will be authorized to choose delegates to constitutional conventions, and that the conventions will be required to submit the constitutions thus formed to a vote of the people for approval or rejection. The Senator makes these statements with so much earnestness, that little doubt is entertained of his source of information. He predicts that the bill will very shortly be presented for action."

THANKSGIVING AT FIVE POINTS, NEW YORK CITY.—The following is an extract from a private letter received in this city.

After church we all started for the Five Points Mission School to see the children take their dinner. A charming sight it was, too. There are five hundred in the school between the ages of fourteen and four, some being even younger. All were dressed in a sort of coarse stuff with white aprons.

After they had been supplied with all they could eat, the outside poor were invited in to such a dinner as they do not often get. Such a sight! why, Portsmouth beggars are princes. The great square outside the house was one heaving, shrieking mass of humanity. Children literally half naked, an old skirt drawn over them—women with puny babes at their shrunken breasts,—such foul, God forsaken creatures they were, such desperate, cruel, hardened faces—such despair-filled eyes. Oh, it was horrible.

There was dinner provided for 2000 people—long tables in a huge basement hall, filled with turkeys, hams, chickens, all sorts of vegetables, fruits, puddings, pies, everything nice. One gentleman to my knowledge gave 100 mince pies.

Well, the doors were opened and the first 200 rushed in. I never shall forget that sight. Ugh! It makes me sick with horror when I think of that half famished drove of human beings—wild eyes looking through their shaggy hair, cursing, yelling, &c. There were neither knives nor forks given them, each had his great plate filled with food; and, with both hands, and all fingers, the turkey, &c., went down their throats.

Just as soon as one company had finished, the policemen hustled them out to make room for more. You should have been there to form any conception of the scene.

We afterwards went to the chapel, heard the mission children sing, &c. This was very fine, especially in contrast with the scene last witnessed.

BREAKS IN THE NEW YORK CANALS AND THE PRICE OF FLOUR.—The New York Herald notices as a remarkable coincidence that the navigation of the canals in that State is always interrupted by breaks about that period of the year occurring between the end of September and the natural time for the close of navigation by ice, the very time when the grain and flour is arriving from the West. The Erie canal always happens to get broken about that time every year for the last ten or a dozen years, and this year is no exception to the rule. For some weeks, a short time ago, navigation was interrupted by a crevasse which was repaired after considerable delay. Meantime the receipt of Western flour in New York was stopped, and that article went up to eighteen dollars a barrel. There are people who think that these periodical canal breaks just when the Western produce is coming to market is not altogether accidental; that in fact speculation has quite as much to do with them as freshets or any other alleged cause. It is singular that when there is a pretty fair stock of flour and grain stored away in the city to speculate on in the fall, the canals generally get out of order and prices go up in consequence. The Canal Commissioners should certainly explain this mystery.

BRUTAL PUNISHMENT OF A CHILD.—Two weeks since, a school teacher at Irvington, a suburb of Newark, N. J., named Colt, unmercifully whipped a lad but nine years of age, son of a gentleman named Voorhees. The lad was taken with fever a short time after, became delirious, and constantly in his hours of aberration, supplicated the teacher not to "whip him any more."—The child died last week and carried the marks of his teacher's flagellation to the grave. On Saturday last the father made complaint against the teacher before a Justice of the Peace, and he was arrested and held to bail for examination.

☞ The latest news by Cable, is from London, Dec. 5, noon. "The message of P[illegible] son has had no effect, either to lower or raise prices of Amer. securities; nor has it any appreciable influence upon the general money market." It has had the same effect in this country, that is, none at all; it is a mere chip, floating on the tide.

☞ We are indebted to Ald. Charles W. Slack of Boston, for a copy of the "Report on Free Bathing Facilities," afforded the citizens of that city the present year. The great utility of this experiment is seen in the fact that nearly half a million persons availed themselves of its benefits during the four months of its operation.

☞ The Youth's Temperance Visitor, published at Rockland, Maine, has completed its fourth year, and is to begin a fifth in January; it is well edited and printed,—and is probably doing much good.

— A Connecticut peddler asked an old lady to whom he was trying to sell some articles, if she could tell him of any road that no pedler had ever traveled. 'I know of but one, and that's the road to Heaven,' was the reply.

— Several large orders for breech loading rifles have recently been given to manufacturers on account of the "Emperor of China." The gentlemen who gave the orders had a stong and unmistakable Hibernian accent.

— More than one-half the diseases of the human system are caused from the use of impure breadstuffs; and as Saleratus and Soda are the essential properties for using, it becomes doubly necessary to be watchful.—Herrick Allen's Gold Medal Salearatus is the only perfectly healthy article to be relied upon. Try one paper, and you will be convinced what we say is true. Never use Soda if you can procure this article. Go to your Grocer and get a paper. Depot 112 Liberty Street, New York. 50.

Critical Notices of the Press.

It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the million a more enterprising friend, than Harper's Magazine.—*Methodist Protestant* (Baltimore)

The most popular Monthly in the world.—*New York Observer.*

We must refer in terms of eulogy to the high tone and varied excellence of HARPER'S MAGAZINE—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the culture of the American People; and the popularity it has acquired is merited. Each number contains fully 144 pages of reading-matter, appropriately illustrated with good woodcuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—DUDENEY'S *Guide to American Literature, London.*

The volumes bound constitute of themselves a library of miscellaneous reading, such as cannot be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

CURE OF CRICK IN THE BACK AND LUMBAGO.

Lyons, N. Y., July 4, 1862.

Messrs. ALLCOCK & Co: Please send me a dollar's worth of your plasters. They have cured me of a crick in my back, which has troubled me for some time, and now my father is going to try them for difficulty about his heart,

L. H. SHERWOOD.

Dr. Green, No. 863 Broadway, New York, informs us he sold, on Monday, June 23d, 1862, two plasters to a young woman suffering very severely from lumbago. On Thursday she called to get two more for a friend, and then stated that the two she had purchased on Monday had relieved her immediately after putting them on, and CURED HER IN TWO DAYS of a most distressing pain in her back and loins.

Sold by all Druggists. n29—dawlm

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the lost of diseases, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and and extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it its healing influences more potent than those of the spices of "Araby the blest." We are informed by our principal druggists, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.* d1—daw 1m

CINCINNATI, October 1, 1863.

Messrs. J. N. HARRIS & CO.—Gents: About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of phlegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhœa set in. My friends thought I was in the last stage of Consumption, and could not possibly get well. I was recommended to try

ALLEN'S LUNG BALSAM

The formula was shown to me, which induced me to give it a trial, and I will only add that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully,

AMERICAN LIFE DROPS!
FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

"BOSTON, Mass.

"ORRIN SKINNER & CO.—*Sirs:*—Notwithstanding my prejudices against patent proprietary (or patent) medicine, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Bronchial Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speaks in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, accompany each package, without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, enclosing stamp, concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

GOVERNMENT "PAP." — Heretofore, since the change in the Navy Agent system, the Government advertising has been done by order in the Daily paper (the Chronicle) and one Weekly paper (the Journal) in Portsmouth, and in the Boston Advertiser and one other Daily there to be selected by the Paymaster here, we believe.—Now an order has just come from head quarters (or headquarters) at Washington, to advertise only in the States & Union here and the Boston Post. We mention this, chiefly that business men interested, at home or abroad, may provide themselves with those papers, and thus see the advertisements; for so far as the Stars and Bars is concerned, at any rate, many business men probably never see it, and would be like ourselves, no wiser for what is contained therein.

As to this Chronicle, our advertising and editorial departments are not connected—the one is for sale in a measure, the other is not in any degree. If we "*do* not support the Government," neither did the Government ever support us, by a longshot. Nor do we ever desire it should—for when we can't run a paper without the aid of office or office-holders, we propose to go into some more honest and comfortable business than that sort of hging-on is apt to be. The only office we want from the President down, (if there can *be* any "down" to that now,) is a good printing office; and so long as our columns are crowded with regular business advertising, we shall try and survive it, if the "Government" does choose for its organs the papers which did all they could to destroy it. We shall try and keep on the even tenor of our way, as heretofore, let who will hear and who forbear.

We are just as ready and willing to do advertising for the Government as for "any *other* man,"—especially seeing that the U. S. has come to be considered by some, a one-man affair; but the Chronicle never having depended on spoon victuals in its early days, does not vitally need such feed now.

☞ To-night Duprez & Benedict's Troupe will give their second and last concert here. Their performance last night entitles them to the front rank in negro minstrelsy.

☞ Rev. Mr. Waterhouse will preach at the Universalist Church, on Sunday next, Dec. 9th.

☞ Read Dr. Stevens's card.

☞ The N. Y. Tribune says "Fortunately Congress has met in time to exercise proper supervision over the conduct of the Executive Department in relation to Mexico and France. We have a statement that the French Minister, M. de Montholon, accuses the President of not having stated fairly the intentions of France in regard to the evacuation of Mexico, and that an important dispatch is expected from the Emperor in reply to Mr. Seward's recent message over the cable. We can see but one reason for a foreign war—the desire of a few short-sighted politicians to settle in that way the question of reconstruction."

☞ The Washington correspondent of the New York Commercial Advertiser says Mr. Johnson has so changed his message that those who have heard him read it privately at different times scarcely recognize the document. The proposed three constitutional amendments, which I know were in, have been left out, and the allusions to France have been wonderfully toned down. It is said that Hon. Reverdy Johnson revised and partially re-wrote what he says about our domestic affairs.

☞ The Tribune says we may expect that Congress will, at least, consider the propriety of rejecting the present Governments of the rebel States, and submit their reorganization to the loyal people irrespective of color. A leading Senator believes that an act to this effect will be passed.

☞ A cat accidentally shut up in a close room at Somerville, lived without food or drink, eight days, but was prostrate. Being then fed with milk, she is now doing well.

☞ Late accounts from Mexico, speak of important Liberal successes, and keep up the usual chatter about Maximilian's leaving.

☞ At Alexandria, Egypt, Dec. 5, John H. Surratt was in custody of the American Consul, Mr. Hale.

IRELAND.—At Dublin, Dec. 5, the police and military were still active in searching for Fenians. Seven supposed Head Centres were seized and confined in prison under a strong guard.

GOLD, Thursday, 141 1-2.

— The Tennessee House of Representatives has killed a bill to establish free schools. We are sorry for the 78,000 white adults in that State who cannot read or write. A little learning is a dangerous thing to legislators, and these seem to have just enough education to want to keep the people in ignorance.

REMARKABLE RECOVERY OF MONEY. A rather singular incident is told in connection with a recent accident on one of the New York Railroads. There was on the train a gentleman and lady who had been to the oil regions. The lady had $5000 in gold secreted on her person. She was taken to the hotel nearly insensible, and appeared to have been injured by being trampled upon. Her husband stood by the bed and took every article of clothing as fast as removed from her person, but not a dollar of gold was to be found. In the morning at daybreak he repaired to the place of disaster, and there was the money. His wife had been trampled upon until the gold had become detached from her person and trod through the car window, where it safely lay on the ground.

— The speaker who was "drawn out" measured eighteen inches more than before.

— Two West Point cadets, who left that institution to engage in the rebellion, lately sent unpaid checks, which they held at the time of their secession, to the Treasury Department for payment. The matter was referred to Secretary Stanton, who very properly forbid the payment of the claims.

— It is reported by Mr. Sumner's friends that he intends to bring up a resolution looking to the withdrawal of the France Mexican question from the hands of the President and Mr. Seward, and placing it in of that Congress. Mr. Sumner is Chairman of the Senate Foreign Committee.

— General Lewis, Commissioner of the Freedmen's Bureau, has returned from a tour to East Tennessee. He reports the freedmen as generally prosperous and living on most amicable relations with their employers. The colored schools are increasing and a craving desire for education every where is manifested.

Business Notices.

☞ Dr. Stevens's Office, after being closed several weeks for alteration and improvements, is now open again for business. With the changes that have been made, he is confident he now has the most convenient and pleasant suit of rooms ever used for Dental purposes.

TROCHES ARE USED WITH ALWAYS GOOD SUCCESS.

Singers and Public Speakers

will find *Troches* useful in clearing the voice when taken before Singing or Speaking, and relieving the throat after an unusual exertion of the vocal organs. The *Troches* are recommended and prescribed by Physicians, and have had testimonials from eminent men throughout the country. Being an article of true merit, and having *proved* their efficacy by a test of many years, each year finds them in new localities in various parts of the world, and the *Troches* are universally pronounced better than other articles.

OBTAIN only "BROWN'S BRONCHIAL TROCHES," and do not take any of the *Worthless Imitations* that may be offered. SOLD EVERYWHERE.

Dr. Schenck on Dyspepsia.

SYMPTOMS, CAUSES AND REMEDY.

Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belching of wind, water brash and vomiting, and a great deal of what a person calls an ill-gone feeling at the pit of the stomach; frequently there is also a palpitation of the heart, which physicians mistake for heart disease; and when the stomach is the condition it is coated with a mucus or slime, the rough fibrous portions of the stomach, similar to what we see in tripe, is what throws out the gastric juice, and when the stomach gets a thick coat of slime on it it prevents the gastric juice from flowing, and digestion ceases. Schenck's seaweed tonic dissolves this mucus or slime, and restores the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this morbid matter. Two thirds of the cases of Consumption are caused from this diseased state of the stomach; the liver becoming torpid, it ceases to throw out bile, and in a short time the whole system is deranged. The mucous membrane of the bronchial tubes sympathizes with the other organs and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely through the blood when the system is in this locked up condition, without the aid of the Sea Weed Tonic and Mandrake Pills. The Liver has all the venous blood to strain, and when it gets in a morbid condition, blood and bile run through the system mixed, and the whole body becomes so low, and the blood so thick it can hardly run through the veins. In a majority of cases hemorrhages occur from this thick condition of the blood. The Mandrake Pills act on the Liver similar to calomel, or they do what that does—it unlocks the gall bladders, starts the bile, and the blood begins to circulate naturally through the veins, and the hemorrhages cease. If, when persons are attacked with hemorrhage, they would first take a good purgative, something that would act on the liver, they would soon be relieved from bleeding from the lungs, and it is the only way, for astringents are only temporary, and irritate the bronchial tubes, and lay the groundwork for consumption.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is $5.

His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents per box.

Ayer's Cathartic Pills

ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children, being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which admit of no belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute largely to the relief of our afflicted, suffering fellow men.

The Agent below named is pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o29—2m

☞ A novel law case has just been decided at Chicago. A British subject dying there intestate, the British Consul claimed the right to administer upon his property. The court which tried the case decided that a Consul has no authority in the matter, and dismissed the suit at his costs. The property, by this decision, goes into the hands of the public administrator.

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Books Published!

We are the most extensive publishers in the United States (selling six books), and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other company.

Our Books do not pass through the hands of General Agents (as nearly all other subscription works do), therefore we are enabled to give our canvassers the extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.

Our series embraces the most popular works on all subjects of importance, and is selling rapidly, both North and South.

Old agents, and all others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our works with those of other publishers. Address, NATIONAL PUBLISHING CO., 118 Water St., Boston, Mass.

Book Agents Wanted.
Now ready for delivery, a great National work—not political or sectional, (no rebellion in it,)—is standard; will never lose its interest; has no competition; eight distinguished literary men were employed in writing it; time from commencement to close, over four years; is endorsed and highly commended by the most celebrated literary and scientific men in the country, including every school President of Colleges; is equally interesting and useful to all classes, is worth more than its weight in gold to every family or young man, who have not a good book; is not one one subscription Publisher, yet more subscribers are taken for this work, per Agents sent out, than any four other works; in addition to the largest commission, we pay freights, leaving nothing but personal expenses; also a bonus to Agents of fifty dollars for every canvasser they start who sells one hundred copies. Experienced and successful Agents wanted; others need not apply. For full description and terms, address
L. STEBBINS, Hartford, Ct.

Choice Imported Books.

STOVES! STOVES!
ALL READY FOR THE FALL TRADE
The Best Cook Stove Out!
URIAH BLAISDELL,
No. 43 Market Street,
Offers to his friends and the public the celebrated
KEARSARGE
COOK STOVE,
Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.
In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.
A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

MONTGOMERY'S

MUSIC, PICTURE FRAME, AND VARIETY STORE,
10 1-2 Daniel Street,
(Over Miss Beal's Dry Goods Store.)
The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Stools, Covers, Sheet Music, Flutines, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.
PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.
PICTURE FRAMES on hand and made to order.
LAMPS altered and repaired.
Having made arrangements with Prof W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the former have too long been established to need any comments. Of the latter, suffice it to say that the sale of over fifty of them within the last five years by Mr Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.
Every instrument carefully selected and fully warranted, under the inspection and approval of Prof Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman. D. H. MONTGOMERY.

MADAME ZADOC PORTER'S
Curative Cough Balsam,
PRICE, 25 AND 50 CENTS PER BOTTLE.
The Best, Cheapest, and Most effectual Remedy for Coughs, Colds, &c. the World has ever produced. Purely Vegetable, contains no MINERALS, or other DELETERIOUS DRUGS.

The CURATIVE BALSAM is Warranted, if used according to Directions, to Cure in all cases, Coughs, Colds, Croup, Whooping Cough, Asthma, and all affections of the Throat and Lungs.
Madame Zadoc Porter's Balsam is a POWERFUL EXPECTORANT, prepared with great care and scientific skill, from a combination of the best remedies the vegetable kingdom affords.
Its remedial qualities are based on its power to assist the healthy and vigorous circulation of the Blood through the Lungs.
It relaxes the muscles and assists the skin to perform the duties of regulating the heat of the system, and in gently throwing off the waste substance from the surface of the body.
It loosens the phlegm, induces free spitting, and will be found very agreeable to the taste. It is not a violent remedy, but emollient, warming, searching and effective; can be taken by the oldest person or youngest child.
If you have a Cold, if ever so slight, do not fail to give the Balsam a trial, as the very low price at which it is sold places it within the reach of every one, that they may always keep it in readiness for use.
The time is now—a 25 cent bottle will often prove to be worth one hundred times its cost.
Sold by all Druggists.

The Chronicle.

☞ The Indianola (Texas) Times says: "If Northern and Western people are surprised to learn that there are instances of as many as 20,000 cattle owned by one man in Texas, they will no doubt be more surprised to hear that such men hardly ever have milk or butter on their tables. In an adjoining county, where the number of cattle given in for taxes exceeds 150,000, the merchants purchase Borden's condensed milk and Goshen butter to sell to their customers."

— The enduring odor of musk is astonishing. When Justinian, in 536, rebuilt what is now known as the mosque of St. Sophia, the mortar was charged with musk, and to this very day the atmosphere is filled with the odor.

— The herring fisheries of eastern Maine have proved highly profitable the present season, and the demand for labor in them is so great as to cause agriculture in the vicinity to be much neglected. The Kennebec Journal says: "Fish is good, but fish and potatoes are better."

— Major E. has a horse which he drives over the suburban roads, and which he has named "The Regulator." Being interrogated his reason for bestowing this cognomen upon the animal, the major responded that he called it the Regulator because all the other horses on the road went by him.

— A lad in Ireland recently found, under the flooring of a room in which he was working, a mass of honey weighing over 120 pounds, the fruit of many years' industry of the busy insects. The proper precautions having been taken, the monster honeycomb was made secure by the fortunate finder.

— The Meadville, (Penn.,) Republican denies the statement that there is but one soldier of the Revolution living; and says that there is in Sandusky, Cataraugus county, N. Y., an old Revolutionary soldier, Matthias Bakeman by name, who draws a pension from the Government. He was born in 1755, and is therefore now 111 years old.

— Among the good things of this world we are compelled to give the preference (in the soap line) to the J. Monroe Taylor Gold Medal Soap; after having thoroughly tested, we do not hesitate to pronounce it the greatest, the finest and the best of any and all soaps in the market; and we are more than anxious that the ladies should test it, and thereby get something that will prove a true and lasting friend for life. Call upon your grocer for it, and have no other. 25

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. With a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to any part of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotten, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

SATURDAY, DECEMBER 8, 1866.

WHERE'S THE NIGGER?—A Radical sheet, the Tamaqua Journal says:

"We have had the Republican victory—now where 's the 'Nigger?'"

Thereupon the Bellefonte Watchman "goes in" at the following rapid rate: Go to your store, and you get from eighteen to twenty-five cents worth of nigger in every yard of muslin you buy; from ten to fifteen cents worth of nigger in every yard of calico your wife and children use; from six to eight dollars worth of negro in each barrel of flour your family consumes; twenty-five cents worth of nigger in each pound of coffee you purchase: from eight to twelve cents worth of nigger in every pound of sugar you buy to sweeten it; you'll find a small bit of nigger in your box of matches, and considerable nigger in your plug of tobacco. You eat nothing, wear nothing, see nothing, taste nothing, or have nothing, that is not more or less affected by the miserable niggerism that has controlled the country since "Old Abe" left Springfield for Washington.

Indeed, says Uncle Toby, the whole system of negro slavery, that used to be regarded as so *profitable*, enriching, as was supposed, every part of the country, tended to poverty and ultimate ruin—as we preached in the Temple more than twenty years ago, from these words in Habbakkuk: "Woe to him that coveteth an evil covetousness to his house—for the stone shall cry out of the walls and the beam out of the timber shall answer it. Woe unto him that buildeth a town with blood, and stableth a city by iniquity."

— "We have no accounts of 'Southern outrages' on freedmen for a long time.—Wait until another election."—*Post.*

General Sheridan can supply the Post with the news they want. He says in his report just published:

"My own opinion is that the trial of a white man for the murder of a freedman, in Texas, would be a farce, and in making the statement I make it because truth compels me, and for no other reason."

And again:

"It is strange that over a white man killed by Indians on an extensive frontier the greatest excitement will take place, but over the killing of many freedmen in the settlements, nothing is done. I cannot help but see this, and I cannot help but tell it to my superiors, no matter how unpleasant it may be to the authorities of Texas."

DESTRUCTION.—The Washington special of the Boston Advertiser says:—

Some amusement was created in the House Thursday afternoon, during the debate on Mr. Schenck's bill changing the time of the meeting of Congress, by the remarks of Le Blond of Ohio, who declared that the democratic party never had taken up the President, and since the elections could see no reason for so doing. "We have no disposition to shoulder him," said he; "to do that would destroy any party in the country."

[But then, the President has shouldered the democratic party in this city,—and they hang their hopes on him and the Navy Yard crushing machine, which does the dirty work of the new confederacy. The whole concern, however, is rather shaky, here, as well as in Washington.]

PARDON.—S. J. Lowell, the Worcester policeman who shot Henry T. Wickel, during a riot in that city, who was tried for manslaughter and sentenced to imprisonment in the House of Correction for one year, has been pardoned by Governor Bullock.

☞ The wheat crop in Texas is said to be heavier than ever before.

☞ In Boston, Alexr. McGahey has been found guilty of Arson in the second degree, for setting fire to his own oyster saloon—to get insurance money.

— Ex-Sheriff Lanham of Harris county, Texas, who recently left his own white wife and ran off with the black spouse of a negro neighbor, has been arrested and sent back to Houston.

— A very modest young lady who was a passenger on board a packet ship, it is said, sprang out of her berth and jumped overboard on hearing the captain, during a storm, order the mate to haul down the sheets.

— A man named Flynn, a hostler in Hudson, N. Y., under the effects of delirium tremens, went into the country last week, divested himself of all clothing and remained in this exposed condition for two days. When found he was in a dying condition.

— Mr. Wentworth offered a resolution in the House, Tuesday, to the effect that the many recent acts of disloyalty in the Rebel States are additional reasons why they should pass the Constitutional Amendment before Congress can consider the propriety of admitting them. It was passed by 119 to 32.

—The last notion is that of Colorado Jewett, who memorializes Congress to declare Hannibal Hamlin President of the United States. He argues that the second election of Mr. Lincoln was not constitutional, as eleven of the States did not appoint electors, and that Mr. Hamlin holds over, as Mr. Lincoln would have done, in the absence of a legal successor.

NEW HAMPSHIRE ITEMS.

—— The State Teacher's Association have passed a resolution, requesting the Legislature to include Vocal Music in the branches required by law to be taught in schools.

—— General Natt Head of this State has extended to General Grant an invitation to be present at the annual re union at Concord on the 1st of January. Gen. Grant cordially accepted the invitation, and said that nothing but the most imperative business, which he did not think could arise, would prevent his attendance.

—— On Wednesday night at Keene there was an unsuccessful attempt to enter the Ashuelot National Bank. The burglars broke into the banking room and attempted to open the iron door of the vault by drilling through it two holes, but failed to even disturb the padlocks. After examining the drawers in the banking-room, and finding nothing of value, they left.

——The December law term of the Supreme Judicial Court for the 2d Judicial District of New Hampshire commenced in Concord on Tuesday, and after a session of two days adjourned to the twenty-first of March next. About forty divorces were granted, the parties concerned being distributed throughout the counties of Hillsborough, Merrimack and Belknap.

WASHINGTON MATTERS.—The special of the Boston Journal says: "While a decided majority of the Republican Congress regard it as injudicious to attempt to impeach Andrew Johnson on any of the charges which have been made, there are a few earnest Representatives who are determined not to relinquish the idea. They have secured the appointment of several *special committees of investigation*, one of which will visit New Orleans, and they confidently expect to secure such evidence as will form ground for impeachment, and will insure conviction and desposition from office."

[He richly deserves impeachment for abuse of the appointing power, and usurpation of removing power. If he escapes impeachment,—no president will ever be impeached.]

"The public guard at Richmond, Virginia, — an armed battalion originally raised and sustained for the suppression of negro insurrections, has been again uniformed in rebel gray, with the Virginia button, to the delight of the reconstructed rebels at the capital of the Old Dominion.

"Senator Morrill proposes to amend the bill granting impartial suffrage to the colored people of the District, by the addition of an educational proviso. It is certain that the amended bill will be enacted; and it is probable that the present city charters of Washington and Georgetown will be taken from them, to be replaced by a Territorial Government for the District of Columbia, with Commissioners and a Delegate in the House of Representatives.

"Correspondence in reference to the arrest of John H. Surratt, when sent in to Congress, will show that Government has known of his whereabouts and movements nearly all the time since he fled to Europe. There will be no trouble in procuring evidence to convict him, for his own confessions in Italy, to his fellow-soldiers, are ample, if every means are taken to bring them out."

GOV. PEIRPONT'S MESSAGE.—The Richmond Times is very severe on Gov Peirpont on account of his recommendation that the Contitutional amendments should be passed by Virginia, and says: "The only effect of the ill-timed fiasco of the 'Governor' will be to produce prompt action upon the part of the General assembly in rejecting the amendments. Their fate, indeed, has been long since decided, as they will be ratified neither by Maryland nor Delaware, and the unexpected and most un called for oration of Gov. Peirpont over their dead bodies will not give them even the most ghastly and galvanic appearance of vitality."

☞ In Mexico it appears that the late rebel Generals, Harris, Shelby and Price, who were living on lands given to them by Maximilian, have been compelled to abandon their farms and take shelter in Cordova.

Gen. Sedgwick has been removed from command on the Rio Grande. The order for his removal is said to have been forwarded to Gen. Sheridan from Washington by Gen. Grant. He will probably report at Washington.

☞ Ship Tonawanda, which arrived at Philadelphia Friday, reports that she rescued the passengers and crew from the abandoned brig Jaques, of and for Granville, from St. Pierre, N. F. One man was drowned and two killed by injuries. Sixty seven persons in all were saved.

☞ At Cleveland, Ohio, Dec. 6, an explosion occurred at the receiving house of Clarke, Payne & Co., oil refiners. One man was killed and four others badly burned, two of whom it is thought would die.

☞ We have at last the official result of the New York election, which makes Fenton's vote 366,316; Hoffman's, 352,526.—Fenton's majority, 13,789.

GOLD, Friday, 138 3-4.

THE GEORGIA LEGISLATURE AND JEFF DAVIS.—Mr. Henderson introduced the following resolution in the House, which has been unanimously adopted in both branches of the Legislature:

Whereas, the General Assembly would do injustice to the great heart of Georgia not to give some formal expression of their respect for the *character* and *services* of the *illustrious* prisoner of State, Jefferson Davis. All the generous pulses of that heart are in full unison and sympathy with his sufferings and misfortunes. Its warm affections cluster around the fallen chief of a once dear but now abandoned cause. There they will cluster and centre while men admire all that is chivalrous in nature, while they regard all that is noble in virtue.

Therefore, the General Assembly resolve that their sincerest condolence and warmest sympathy are tendered to Mr. Jefferson Davis in his confinement, and they look forward with anxious solicitude to the day when a magnanimous and patriotic President shall put an end to his confinement and by the interposition of Executive clemency restore him to a people for whom he so faithfully struggled and on account of whom he has endured with Christian fortitude the hardships of a long and rigorous imprisonment.

[Is not this a promising kind of reconstructed State? Did these people ever hear of Andersonville? If so, why prate of rigorous confinement?]

CHURCH MATTERS IN NEW YORK CITY. "Burleigh" says "The new Universalist church, built for Rev. Dr. Chapin, was dedicated on Monday afternoon with the usual solemnities. Besides the pastor and the city clergymen of the same faith, Rev. Dr. Bellows of the Unitarian church, took part in the ceremonies. The church is one of the finest in the city. Its location on Fifth avenue is unsurpassed. The house is free stone, built in what is called the perpendicular Gothic. The main tower is 200 feet high. The house will seat 1800 people, nearly a thousand more persons than any minister preaches to in New York except Chapin and Beecher. The church cost $160,000.

"While the so-called Evangelical denominations are seeking a closer union, the liberal sects are drawing their forces together. Conferences and union meetings are being held, and attempts are made to merge the name and the peculiarities of each of the sects into the organization of the Broad Church, the Universalists being less dogmatic, the Unitarians less negative, both going heartily for anti-slavery, temperance and other reforms, so that they have a common bond of union. Liberalism does not spread rapidly in these parts. It is sustained chiefly by the New England element in this region. The men who are religious here hold mainly to the tradition of their fathers. Those who are not, do not care enough about the controversy between the schools to give the subject a moment's consideration. There is no public sentiment in New York requiring a man to attend church unless he pleases. So there is no outside inducement to cause a man to choose between a strict and a liberal faith, one that is severe and one that is easy.—The union among the liberal churches seems to be mutually agreeable and successful."

COLLISION.—The New York correspondent of the Boston Journal says, on Saturday evening, a bright starlight night, the Cunard steamer Scotland, which left N. Y. port at noon for Liverpool, run into and sunk the barque Kate Dyer. Seventeen of the crew went down in her, so sudden was the collision and the sinking. The Kate Dyer was owned in Portland, was from the Chincha Islands and loaded with guano. She was in sight of Fire Island light, on the east side of Long Island. In a few hours she would have been in port. Among the lost were three young men from New England, who were on their first voyage. Nothing but sheer carelessness could have occassioned a collision, with a calm sea and in a bright starlight evening. The collision took place at the hour of changing the watch, and it is said the steamer had no lookout either forward or on the paddle boxes.

☞ A Washington letter to a Matmoras paper says: "I have seen the instructions of Minister Campbell. They contain the following points:

First, that the United States does not recognize, neither will it recognize any government in Mexico other than that of the constitutional President Juarez.

Second, that they do not propose, neither do they wish to acquire any part of Mexican territory; that they do not recognize in any manner the claims of France, and that they are willing to extend to Mexico any aid with the object to quell local disorders whenever required by the constitutional government of Mexico or her authorities, without proposing to interfere in any manner whatever in the domestic differences of the country.

NORTH CAROLINA LEGISLATURE.—The Committee on the Constitutional amendment, reported in the State Senate adversely to the ratification of the Howard amendment. Both houses of the Legislature resolved unanimously to accept the proffer of assistance made by the Freedmen's Bureau to destitute blacks and whites.

☞ The Second Universalist Society in Portland, Me., had their Meeting House destroyed by fire, and received $6,000 insurance. But the City prohibited erecting large wooden buildings,—and $40,000 for one of brick, was beyond their reach, as almost all the members had lost a house or store, and many had lost both. They therefore dismiss their pastor, Rev. Mr. Atwood, and dissolve their corporation, paying back to each subscriber a fair dividend of his subscription to the Church Fund.

-- Galveston is to have a theatre, at a cost of $100,000. A city railroad there is making good progress. Galveston is not half the size of this city, but it has no such city building as ours.

Penn's Salt M'fg Co.'s Renowned SAPONIFIER:

(Patents of 1st and 8th Feb., 1859,) on
CONCENTRATED LYE!

Two Cents only for every pound of Soap.

DIRECTIONS.—Dissolve one box of Lye in 2½ pounds (pints) of hot water, in an iron pot. Melt in another pot or pan 5 lbs. of clean fat or grease. Take off the fire, and into this stir slowly the dissolved lye, and keep stirring until the whole becomes well mixed and like molasses. Now cover up, and set in a warm place over night. Next day cut up into small pieces, add 6 lbs. (or pints) of water, and melt with a gentle heat until the soap is all dissolved, then pour into a tub to cool. When cold cut into bars, which will be fit to use in about ten days.

Messrs. ALLCOCK & CO.: Please send me a dollar's worth of your plasters. They have cured me of a crick in my back, which has troubled me for some time, and now my father is going to try them for difficulty about his heart.

L. H. SHERWOOD.

Dr. Green, No. 868 Broadway, New York, informs us he sold, on Monday, June 22d, 1862, two plasters to a young woman suffering very severely from lumbago. On Thursday she called to get two more for a friend, and then stated that the two she had purchased on Monday had relieved her immediately after putting them on, and CURED HER IN TWO DAYS of a most distressing pain in her back and loins.

Sold by all Druggists. n29—dawlm

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the host of diseases, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and and extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it its healing influences more potent than those of the spices of "Araby the blest." We are informed by our principal druggists, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.* dl—daw lm

DR. P. MEREDITH, Dentist, office No. 132 West Sixth Street, states as follows:

CINCINNATI, October 1, 1863.

MESSRS. J. N. HARRIS & CO.—Gents: About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of phlegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhœa set in. My friends thought I was in the last stage of Consumption, and could not possibly get well. I was recommended to try

ALLEN'S LUNG BALSAM.

The formula was shown to me, which induced me to give it a trial, and I will only add that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully,

AMERICAN LIFE DROPS!
FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

"BOSTON, Mass.

"ORRIN SKINNER & CO.—*Sirs:*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Croup, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved—and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave him great relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."

"FACTS AND FIGURES" ONCE MORE. A few days since, "Uncle Toby" of ours, in some notes on the late municipal election, made an item in a Boston paper, to the effect that "Personal popularity came near electing a democrat mayor of Portsmouth," the text for a few remarks on the subject, in which he clearly shew that personal popularity had very little to do with it—much less than several other things, Johnsonism, copperheadism and the run interest for instance.

Neither did personal unpopularity affect the result much, as suggested in the private note below, which we beg pardon of the writer for making thus public. A very few voters *were* scratched from personal feeling, and but few, as the facts and figures shew.

As to the merits of the Election, all this Chronicle asks is good government, and cares little by whom administered. It certainly never takes part in political party squabbles, but always goes in for retaining the old incumbents of offices which are well filled, no matter by what party or clique represented. Thus much for the publisher and responsible editor; for our correspondents and contributors, whether "Uncle Toby" or any other writer, are always allowed the largest liberty,—it making not the slightest difference whether or no we agree with their statements or views, as we often of course do not and cannot, since they take any and all sides of the questions under consideration.

We never expected or intended to refer to this matter of our city election again, but several little circumstances have led us to do so. On the evening of election day, before the polls closed, and when it was supposed the republican candidate was elected by a small majority, an old friend remarked to us, "What a disgrace it would have been to our city, to have elected the candidate of the run interest." We replied that it was our rule, never to despair of the republic, and that the democratic candidate was certainly one of our most energetic and capable young business men, and had large interests here—and that he had proved himself amply capable of managing his own affairs, and we should have no fears but, if he was elected, he would conduct the public matters creditably—although we wondered he would be troubled with it, for ten times the salary and all the honor. Also, that he was not a bitter partisan, but a man who always minded his own business,—though we did personally decidedly object to the platform on which he was run, and to the free rum (but not free men) candidates on the ticket with him.

And the day after the "facts and figures" and "meadow hay" article appeared in these columns, a mutual friend of ours and the said democratic candidate for mayor, asked us "why we didn't go in for him?" to which we replied that our paper neither went for or against anybody particularly; but that if a man allowed his name on an anti-temperance ticket, it must not be wondered at if temperance men opposed him.

Then the candidate referred to, himself asked us, on the street, if we had any meadow hay to sell, as he wanted some to cover his ice house; to which cool query we responded that he must go to "Uncle Toby" for it, as we did not deal in the article; upon which he said that "he ought not to abuse a civil man"—which we certainly do not see has been done in our columns.

Finally, we received per mail, the note above referred to, which we, after all that had been said and done, we decided to publish, with these remarks,—all which we hope will offend nobody. Our motto, as heretofore, will continue to be, "Independent always,—neutral never." F.

BOSTON, Dec. 4.

Bro. Miller:—What a great row you made about the innocent little squib in the Transcript about "personal popularity." am the guilty party. There are some of us here that are jealous of the good reputation of Portsmouth. It may be none of our business, but we think that there ought to be some *excuse* given for any New England community electing or nearly electing, in these times, a candidate run on the Copper-Johnson platform, and "personal popularity" was the intended means of accounting for it. It was by no means intended as an indorsement of Mr. Johnson, no, I mean Jones, whom I at least, do not known from a side of sole leather; and God knows my hand and voice are against every man who makes or sells intoxicating drinks, and my sympathy for those who are foolish enough to drink them.

I am inclined to think that if the squib had read "personal unpopularity" of the Republican candidate, it would have been more in accordance with the facts. At least I judge so from what I heard in P. on Thanksgiving, and from the knowledge I have, that at a caucus of the Republicans of one of our largest Boston Wards, held last evening, it was publicly stated that it would not do to imitate the example of Portsmouth, and hazard the chances of success, by running a certain man who was deemed unpopular.

I write this, seeing that you have apparently misconstrued the intention of the paragraph. You will of course regard this as a friendly note. The matter would have been too long and "personal" to have found a place in the columns of the Transcript, even if I had been permitted to have made the explanation.

☞ The Christmas Sale next week, will be a pleasant affair.

☞ On Friday afternoon Marshal Johnson went to arrest a man named Buckley, having a warrant for the same. Buckley resisted the process of law, and in consequence was rather more roughly used than would otherwise have been the case. For this course Marshal Johnson has been suspended, but desires that public opinion may be withheld until there shall be a hearing upon the case. We are a little curious as to what would have been said of the officer if he had *failed* to make the arrest. We regret to have any such difficulty occur in our local government, but it is not the first time, by any means, that we have been called upon to take cognizance of trouble of this nature; and we expect an investigation will show that our Chief of Police used no more force than was necessary to maintain the majesty of the law. We are not in possession of the particulars, but the investigation will furnish us with those.

☞ Those desiring a business education are referred to the advertisement of the "Portsmouth Commercial School."

☞ Auct. Wendell will sell furniture, &c., at 10 o'clock this morning.

Miscellaneous sale by Betton & Co.

☞ Rev. Mr. Waterhouse will preach at the Universalist Church, on Sunday next, Dec. 9th.

☞ We have received from Messrs. Taggard & Thompson, publishers, Boston, two very deserving educational works, "Philbrick's Primary Union Speaker" and "Questions in Geography." They are advertised in this morning's paper, and may be obtained at Mr. Foster's bookstore. The Speaker is beautifully got up, in a style to please as well as instruct the juveniles.

☞ The original letters lately published in the New York Herald, on which that paper founded the charge against Mr. Holt, that he had conspired to get up false evidence against Jeff. Davis, have come into possession of the Government, and they turn out to have been written by Sanford Canover, who is now lying in jail at Washington awaiting trial for perjury.

☞ Steamer Sawanee from New York for Mexico, with arms, foundered on Flying Pan Shoals, Dec. 4. A boat with 16 persons has not been heard from. Fifteen persons were saved.

Business Notices.

☞ Dr. Stevens's Office, after being closed several weeks for alteration and improvements, is now open again for business. With the changes that have been made, he is confident he now has the most convenient and pleasant suit of rooms ever used for Dental purposes.

Dr. Schenck on Dyspepsia.
SYMPTOMS, CAUSES AND REMEDY.

Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belching of wind, water-brash and vomiting, and a great deal of what a person calls an all-gone feeling at the pit of the stomach; frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with a mucus or slime. The rough fibrous portions of the stomach, similar to what we see in the tongue, is what throws out the gastric juice, and when the stomach gets a thick coat of slime on it, it prevents its gastric juice from flowing, and digestion ceases. Schenck's Seaweed Tonic dissolves this mucus or slime, and restores the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this morbid matter. Two thirds of the cases of Consumption are caused from this diseased state of the stomach; the liver becoming torpid, it ceases to throw out bile, and in a short time the whole system is deranged. The mucous membrane of the bronchial tubes sympathizes with the other organs, and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely through the blood when the system is in this looked up condition, without the aid of the Sea Weed Tonic and Mandrake Pills. The Liver has all the venous blood to strain, and when it gets in a morbid condition, blood and bile run through the system mixed, and the whole body becomes so low, and the blood so thick it can hardly run through the veins. In a majority of cases hemorrhages occur from this thick condition of the blood. The Mandrake Pills act on the Liver similar to calomel, or they do what that does—it unlocks the gall bladders, starts the bile, and the blood begins to circulate naturally through the veins, and the hemorrhages cease. If, when persons are attacked with hemorrhage, they would first take a good purgative, something that would act on the liver, they would soon be relieved from bleeding from the lungs, and it is the only way, for as astringents are only temporary, and irritate the bronchial tubes, and lay the groundwork for consumption.

DR. SCHENCK will be professionally at his rooms every week, 32 Hand street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is $5.

His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7 50 the half dozen. Mandrake Pills 25 cents per box.

Ayer's Cathartic Pills

ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, removing the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow disease, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk from their use. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to defend the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agent below named is pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they would reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other compositions which they make more profit on. Demand AYER's, and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o29—2m

Morning Chronicle.

EFFECTS OF STRIKES IN ENGLAND.—In consequence of trades strikes in England, cargoes of carpenter and joiners' work are coming to that country from Norway; large contracts of iron work are sent to France, Belgium, Germany and Switzerland; and locomotives are made in the latter country for India, instead of being manufactured in England. Coal and iron are so high on account of the strikes that the manufacturers of other countries can work much cheaper than those of England.

AN AFFECTIONATE NIECE.—Galignani tells that the wife of a merchant was walking in the Rue du Faubourg St. Antoine, when a young girl about thirteen threw herself on her neck, exclaiming, "Oh! my dear aunt!" The lady released herself from the embrace, telling the child she was mistaken. "Ah! "said the girl, in a sorrowful tone, looking attentively at the lady, "I see I have made a mistake!" and she went away, as if to hide her confusion.—Not long after, the lady missed her purse, and all at once the idea struck her that the child might have taken it.

LONGEVITY.—An old lady, named Mrs. Mary Arnold, has completed her 109th year, and is still living, in Brooklyn, N. Y., hale and apparently hearty in body, and with a mind little impaired by age. Her maiden name was Mary Ives, and it remained unchanged until she was 35 years of age, at which time she married, and bore her husband eight children. Five of them, all daughters, are still living, the youngest being 60 years of age. In the house with the venerable old lady her great great grand-children are living. Her immediate descendants number 157.

— Sam Slick tells us that if he were asked what death he preferred, as being most independent, he would answer freezing, because he would then go off with a "stiff upper lip."

— Miss Ida Jordan of Maine township, Marion county, Iowa, has just died of trichinoisis, having eaten diseased pork last spring. She never entirely recovered from the first attack, which was a very peculiar set of abnormal manifestations, and has, at this length of time from the eating of the trichinous meat, succumbed to the presence of the parasite in her system.

Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) as to obtain for patients as well as the latest remedies for these diseases, other inducements to the unfortunate of a quick and rapid cure, to be obtained at no other Office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blles, Ulcers, Abscesses, and all other Impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. Teller, and are now in good health, new vigor in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

NEW ADVERTISEMENTS.

Agents Wanted
FOR THE NEW AND POPULAR
And best selling Subscription Books Published!

We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other house. Our Books do not pass through the hands of General Agents (as nearly all other subscription works do), therefore we are enabled to give our canvassers the extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.

Our series embraces the most popular works on all subjects of importance, and is selling rapidly, both North and South.

Old agents, and all others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our works with those of other publishers. Address, NATIONAL PUBLISHING CO., 118 Water St., Boston, Mass.

Book Agents Wanted.

Now ready for delivery, a great National work—and political or sectional, (not rebellion in it,)—is standard; will never lose its interest; has no competition; eight distinguished literary men were employed in writing it; time from commencement to close, over four years; is endorsed and highly commended by the most celebrated literary and scientific men in the country, including over twenty Presidents of Colleges; is equally interesting and useful to all classes; is worth more than its weight in gold to every family and young man. We have sold books faster than any one Subscription Publisher, yet more subscribers are taken for this work than for any other work we ever sold. In addition to the large net commission, we pay freights, leaving nothing for agents to pay on books they receive; we certify dollars for every Canvasser they start who sells one hundred copies. Experienced and successful Agents wanted; others need not apply. For full description and terms, address

L. STEBBINS, Hartford, Ct.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,
No. 43 Market Street,
offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in cook and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make a stove that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this stove, are subjoined, for convenient reference:

VERDICT AGAINST A CITY SET ASIDE. In the case of Nathan Hutchins vs. the City of Boston, for damages for injuries received by falling on an icy sidewalk, the verdict which was rendered last spring for the plaintiff, has been set aside by the Supreme Judicial Court and a new trial ordered.

In setting aside the verdict the Court decided that the mere fact a highway is slippery from ice upon it, so that a person may be liable to slip and fall upon it while using ordinary care, if the way is properly and well constructed, and there is no such accumulation of ice or snow as to constitute an obstruction, and nothing in the construction or shape of the way which occasions any special liability to the formation or accumulation of ice upon it, is not a defect or want of repair which will authorize a jury to find that it is not safe or convenient for travelers within the meaning of the statute imposing the duty upon towns to keep their ways safe and convenient for travelers at all seasons of the year.

[This decision is very important, and eminently just.]

— Alonzo Wing, a wealthy resident of Jefferson, Wisconsin, formerly of Maine, has sent a donation of $75 to the widow of the late Dr Ezekiel Holmes of Winthrop, for "encouragements and instructions received from her late husband."

— "Be thou chaste as ice and as pure as snow, thou shalt not escape using unhealthy compounds in your food," was a true maxim, until Herrick Allen's Gold Medal Saleratus came to our relief. Since using it, we feel that there is one article in the way of Saleratus that all can use with healthy results. We have almost cured our dyspepsia, and thanks to the Gold Medal Saleratus for it. Try it, and you will say with us, that perfection has been obtained, and the inventor has immortalized his name forever. Most of the Merchants have it. 31

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1837,
78 State Street, opposite Kilby Street
BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on the shortest notice, with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions, and opinions given or rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing patents not possessing the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. Inventors should bear in mind, that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of Specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of competent skill and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on terms *rejected applications* SIXTEEN INTERFERENCES, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

The Mechanic Association's Reading Room and Exchange,
In Currier's Block, corner Pleasant and State sts., is now in its second year, and is regarded as permanently established in that favorable and convenient location; and the managers desire to invite the public notice to it and the Association, and to the advantages here offered to mechanics, and business men generally.
The Reading Room is well supplied with the Newspapers of the day, and is open from 7 o'clk A. M. to half-past 9 in the evening. Terms 33 per year. Free to all members of the Association and their apprentices—and strangers visiting the city are invited to visit it at any time.
The Association is open to membership of Mechanics and Manufacturers, of good character; and the advantages are great, at a very small expense.

MONDAY, DECEMBER 10, 1866.

SAD THINGS.—One of the saddest things about human nature is, that a man may guide others in the path of life without walking in it himself; that he may be a pilot, and yet a castaway.—*Exchange.*

Truly it is a sad thing; that is a, solemn and gloomy thought, that any man make himself a fit subject for punishment:—but divine justice is a glorious thing,—and the man who preaches "thou shalt not steal"—and then steals, deserves condign punishment and will surely receive it. We don't know or believe that it is a *sudder* thing for him to suffer, than for those who sin against less knowledge. Jesus taught that he who sinned ignorantly should be beaten with only few stripes, while he who knew his master's will and did it not, should be beaten with many stripes. This is exactly the reverse of that crying injustice which used to be called the "benefit of clergy," by which man who could read and write were less severely punished for crime than those who could not! and of that similar injustice in the slave law or black code,—by which the laboring class were kept *ignorant* and helpless, and then doubly punished because they were so.

Those who tried to perpetuate this injustice, or who now try to restore it to full activity, fight against Divine Justice and Human Rights,—and however they may succeed in corrupt spots and for a time, are destined to general and lasting defeat.

U. T.

FROM Europe, Dec. 7, by cable.—At Dublin, all the purposes and proceedings of the Fenians in the Island monopolize the attention of the Irish government. The Grand Lodge of Orangemen have held a meeting and issued an earnest call for all men of their order to support the government in their endeavors to keep the peace.

At Liverpool, all the depots of arms have been placed under armed guards. The excited state of feeling among the Irish population renders these precautions necessary.

At Rome, the officers of the French regiments which have not yet left took a formal leave of the Pope at the Vaetican.

The official journal of Rome denies that the Pope ever told the United States Minister here that it would be better for the Canadas to be annexed to the United States than fall into the hands of the Fenians.

At Paris, the large fleet of French war vessels and transports is now ready to sail for Mexico.

Cotton has declined 1-8 d. in Liverpool.

DUTY OF CONGRESS TO THE PEOPLE. The N. Y. Tribune says, "the country expects from Congress a resolute assertion of its authority, for in Congress alone, at this crisis, it puts its trust. It will watch without sleeping, it will weigh every measure with patriotic anxiety, and it will judge every man by that standard which the great responsibilities of the hour have created. The next Congress may never meet, if the present Congress prove faithless and incompetent. We have a trust in the soundness of the popular judgment which makes the future, to our view, full of hope and of national happiness; but we know how dangerous are mistakes, how destructive a false conservatism may prove; and in every contest which may arise, we would have members recollect that a great people are watching and weighing the slightest measure and the lightest work."

FROM WASHINGTON we get sundry speculations as to what Congress will and will not do. They are probably worth about as much as the statements that came along a short time ago, about the compromises in the *Presidents Message*.

— Mr. Seward and the President, it is said, differ in their foreign policies, and the Secretary disclaimed to M. de Montholon any responsibility for the language of the Message in regard to the action of France.

— The condition of the Rebel Counties in Missouri has been so long and notoriously bad that Gov. Fletcher has not surprised any one in declaring martial law. We hope he will carry out his promise to make Missouri as safe for loyal men to live in as Iowa or Illinois.

— Lieutenant General Sherman (says a Havana letter dated Nov. 23) returned the night before last from a two days' exploration of the Island of Cuba. Everywhere he was received with the utmost enthusiasm, and he came back down with the finest Havana cigars.

— A St. Louis saloon keeper named John McNamara, while partially intoxicated on Sunday night, threw a small single-barreled pistol across the room, feeling vexed at his wife for a small matter. The pistol struck a chair and was discharged, the ball striking his wife, killing her instantly. His family relations had always been of a pleasant nature.

Correspondence of Chronicle.

THE VALLEY OF SAN JOSE.

SAN FRANCISCO, Nov. 1866.

The stage is now ready at Santa Clara and we will ride over to San Jose, three miles distance. The entire route-line is through the beautiful willow-shaded road to the Mission of San Jose. En route we pass some pretty places, adorned with the fruit and vine. The pears of this locality are as luscious as the pine-apple, fragrant, sweet and mellow. The ranches are in a flourishing condition, to all appearance. As we came near the city the shrubbery is more abundant, and gardens girdle every household plot to the very heart of the city.

The city is low, built upon the level area of the vale, and the streets are at right angles, are wide and airy, showing great liberality in the disposition of this garden land. Many of the buildings are low structures, but there are some fine looking buildings, and among them we would name the Auzeral House. There are some handsome churches, and none look more attractive than the Methodist. This is a mart for a wide region, and promises a bright future for this inland city. Underlying this whole valley there is an abundance of water, and this is why ranchos flourish and make the gardens to bloom in an evergreen foliage, rendered more beautiful as the overlapping seasons bring round the water clouds, with their golden showers.

A ride of fourteen miles over a very pleasant road brings us to the Quicksilver Mine of the New Almaderi. It is situated in an eastern spur of the coast range of mountains. The ascent to the mine is over a mile and brings us to the Patioe, a small plateau in front of the mine, about 940 feet from the base of the mountain. A car runs into the mine to receive the ore from the Tenateros (carriers) who pack it up on their backs through the many intricate passages in its subterranean depths. Thence it passes to the furnaces for smelting the cinnabar, after which it is weighed and poured into iron flasks holding 75 pounds each, and is then ready for shipment. Just above on the hillside is a Mexican settlement where the families of the miners reside.

Nearer the head of the San Jose valley there is another mine called the *Henriquita* or San Antonio. As the Mexican senors are miners of Quicksilver, and as they are mostly catholics, the mines are all consecrated to some patron saint. Their shrines are placed within the mine, and lighted candles are kept burning night and day, and before these emblems they bow as they enter upon their labors. One of these shrine is consecrated to *"Nuesta Senora de Guadalupe."*

There are evidences of metallic deposits in many of these mountains. Copper mines have been discovered in the Santa Cruz Range on one of its slopes. Another at San Margarita, and on a high mountain called the "Loami Prieta Spur; companies are now prospecting these places, and in due time will develope their resources.

A company is now formed and is about to commence the manufacture of silk on a large scale, in the Santa Clara valley. It is well known here, that the silk worm thrives well in this climate, their reproduction is unusually prolific, and many savans aver that it will be a source of wealth to our state.

An enterprising grape-grower near San Jose has been raising a variety of Grape, which when dried for use, is no other than what is known as the *"Zante Currant"* of world wide notoriety. It is a small grape, and hence its name Zante currant. Grape growers are aware that those varieties of Grapes most suitable for raisins, and currants, are as easily grown as the wine grape, and hereafter, through the influence of temperance, it is hoped that wine and brandy vineyards will be converted into raisin vineyards, and then we can send you this fruit in a form more suited to your taste.

I have been noting these items from the patioa of the *Almeden* mine, and ere we quit this altitude we will take a farewell look of this beautiful valley. Beneath us is San Jose and Santa Clara, the Guadalupe windes its course through the vale and is lost in the distance. The valley is not unlike a piece of tapesty, woven by the hand of nature. The willows and poplars figure in the foreground, while the scrub oaks or the Redwood fill up the extreme border; the intervening space is dotted with towns, villages and hamlets, all enterwoven with autumn-colored fields, yellow-breasted plains, alternating like the rainbow, with tints of red and yellow, and deepening in a blue skirting the forest lines; over all a cloudless sky, all radiant with the effulgent rays of the God of day.

NEW HAMPSHIRE ITEMS.

—— Lebanon is having a temperace revival.

—— Gov. Smyth and Adjutant General Head of New Hampshire left Washington Friday evening, for home.

—— At a Republican Caucus in Exeter, Friday evening, delegates were elected in favor of Gen. Marston's nominaton for re-election to Congress.

—— A suspicious acting fellow, calling himself Wm. Henry, *alias* Wm. Hersey, has been caught in Manchester, concealed in the closet of a boarding house, ready to steal. On his person were found keys, hooks, and implements to open all varieties of trunk and door locks.

—— Ben. Hartford, an old and esteemed citizen of Enfield, was kicked in the abdomen by a colt on Friday, Nov. 30th, which gave him internal injuries such that he died on the following Monday. Mr. Hartford will be remembered as the inventor of friction matches, out of which so many have made large fortunes.

Correspondence of the Chronicle.

NEW YORK, Dec. 7th, 1866.

The correspondents need not longer proclaim London as the only city in the world where the horrible crime of infanticide is prevelant. Surgeons and doctors in New York who are well posted in such matters, and have the statistics to show, assert that of the 2,000 or 2,500 premature births which annually occur in this city not more than two-thirds are ever investigated by the coroner.—It is well known that half the professional income of surgeons who have an up-town practice is derived from cases of young and old which have fallen into the hands of quacks. The number who come into this city from the country to escape detection at home, falling into the hands of these irregular practitioners, brings to their coffers immense sums of money.

The ill-fated steamer Scotland, which is stranded fast upon the "Outer Middle" near Sandy Hook Beach, is fast breaking up and filling with sand. There wasn't the least necessity of its coming in contact with the Kate Dyer, and "somebody is to blame," although it is very likely it will never be known who. A large number of wreckers are constantly employed in removing the cargo.

The great fire which recently occurred upon Walker and Canal streets, just in the edge of the evening, presented a very beautiful, as well as terrible sight, and was witnessed by thousands of people. The wind drove a shower of sparks and flaming cinders down upon the heads of the vast crowd in Broadway and Canal streets, for over an hour, reminding one of the shower of flames Dante saw when he traveled in the lower regions!

A party of fifty American Indians—men, women and children,—with all their implements of war, housekeeping utensils, etc., will shortly embark from this city for the Paris Exposition.

Mrs. Cleveland, the sister of Horace Greeley, with her two daughters, sails on the 15th inst., for Paris. She will spend the next twelve months there.

The yacht Vesta, one of the three which is to join in the great ocean race on the 11th inst., recently undertook to sail down the bay upon her trial trip, and ran ashore upon the West Bank. The wind blew her off, and she soon returned to this city. Speaking of the yacht race, brings to mind a curious statement I heard made in a fashionable cafe the other day, in relation to young Bennett of the Herald. It is well known that he purposes to sail across the Atlantic in his own yacht. As the voyage is to be considered a perilous one, he is stated to be undergoing a severe preparatory training, taking gymnastic exercise, Turkish baths, living upon one meal a day, going to bed early, indulging in long walks in the Central Park, using the boxing gloves with Morissey, etc. He will soon be so stout that even the Italians will be afraid of him. While the young editor of the Herald is thus cultivating his muscle, two of the workmen employed in the new Herald building went in on their muscle, when one of them fell a distance of 30 feet into the cellar, and fracturing his skull, died. On the 4th inst., ten of the correspondents and sub-editors at the Herald office were furnished with "walking tickets" at a moment's notice. One of them was immediately employed at the World office. I cannot admire the dictatorial manner in which the Herald conducts its business, and if those who still find work at the office were of the same opinion as the outside public, they would leave in a body.

All the troubles of the newspaper world are not confined to the office on Sun street. The New York News has been struggling through a precarious existence for some months past. Ever since Ben Wood went to Saratoga, and lost the neat little sum of $300,000, at a faro bank, the prospects of the News have been blighted. To save it from utter annihilation it was sold to the proprietors of the Mercury, Messrs. Cauldwell & Whitney. It has of late grown so hungry for advertisements that it bids for them by attacking parties and associations which decline to patronize its lean and short columns. Among others the Crosby Art Association has had to come in for its share of abuse, but I can assure the reader it will be able to withstand the assaults. The sale of certificates of membership still continues, but the time is short, for the drawing takes place on the 21st of January, 1867, and then some now unknown individual will be the fortunate possessor of the magnificent Crosby Opera House, worth at least half a million of dollars, and pronounced the finest building in America.

While the public enjoys its great Opera houses, some of our wealthy citizens can afford to indulge privately in such luxuries. Mr. Leonard Jerome has a private theatre fitted up regardless of expense, with elegant appointments, good scenery and costly chandeliers. All this is for the choice entertainment of his guests, who are composed of the *elite* of New York. Many good pious puritans, sometimes clergymen among their number, who would not for the world be seen going to a public place of amusement, do not hesitate to accept of Mr. Jerome's invitations and witness his private performances. The last Opera given at this establishment was *Somnambula*, with Miss Hauck in the *role* of Armina. Sig. Barogli, Sig. Fossati, and others took part in the performance. The next opera will be *Elisire d'Amore*.

Almost equal to this is the establishment of Mr. Astor at Niblo's. He owns a private box, and has a parlor attached, where refreshments are served while the curtain is down between the acts. He sometimes places the whole concern at the disposal of his friends, which in these crowded "Black Crook" times is no small consideration for those who are anxious to see the play.

Wallack's theatre in this city is essentially an aristocratic, English affair. All the plays are English, the actors are English, and all the Englishmen in the city flock to it. Of course nothing is so well done as that which the English do—they are several hundred years in advance of all Americans, spite of our belief to the contrary, hence the best theatre in New York is Wallack's, and the actor whose appearance always produces an *ovation* is Mr. Lester Wallack, the handsome Englishman. Well, why objects? I am sure I do not. "She stoops to Conquer," "The Poor Gentleman," "Dreams of Delusion," etc., are the kind of plays brought out here.

Booth draws such a crowd to Winter Garden, that he taxes the capacity of that house to its utmost. "Richelieu" and "Hamlet" are always sure of filling a house. On Wednesday afternoon there was a "Booth matinee" when he appeared as "Don Cæsar de Bazan."

Mr. Kennedy, a celebrated singer of Scotch songs, who has been very successful in London, has just arrrived in this city, and will soon gives us a taste of his quality.

The morning concerts, the Sunday sacred concerts, and the Wednesday and popular concerts still continue to give satisfaction to all lovers of music

Yours, &c.,

TOUCHSTONE.

☞ On Thursday, at Brooklyn, N. Y., J. L. Sinton, the special agent from the Treasury Department, was investigating the alleged frauds upon the Government in the distillation of illicit spirits.—He caused the seizure of over fifty distilleries in various parts of the city, but neither the names of the owners nor location are published. It is understood that an additional number will be seized: intense excitement prevails among liquor dealers in consequence of this action.

OFFICE SEEKERS.—It was Cabinet day at the White house Friday, and the Secretaries were in attendance with their little budgets of removals and appointments.—But few rotations, however, were made (says Perley) as it was agreed upon that in the present temper of Congress it will be useless to expect from the Senate confirmation of parties in nomination, so some of the Democratic brethren must remain holding their little dishes a while longer.

— Cady, the New York Brokers' Clerk, who has got into jail for stealing $100,000 of Bonds, turns out to be a graduate of Brown University respectably connected, but a drunkard, gambler, and a fast man generally, with two fast women in his train. His policy of stealing bonds will probably prolong his life, if he gets into the State Prison, where he will be kept sober.

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the host of diseases, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and and extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it its healing influences more potent than those of the spices of "Araby the blest." We are informed by our principal druggists, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.* d1—daw 1m

AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF

Diphtheria,

Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people,and the verdict returned from every quarter, by the purchasers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

"BOSTON, Mass.

"ORRIN SKINNER & Co.—*Sirs*:—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops,through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours. A. B. ELDER."

ALLCOCK'S POROUS PLASTERS.

LAME BACK.

New York, Nov. 23, 1859.

T. ALLCOCK & CO.—Gentlemen: I lately suffered severely from a weakness in my back.—Having heard your plasters much recommended for cases of this kind, I procured one, and the result was all I could desire. A single plaster cured me in a week. Yours respectfully,
J. G. BRIGGS, Proprietor of Brandreth House.

CURE OF CRICK IN THE BACK AND LUMBAGO.

LYONS, N. Y., July 4, 1862.

Messrs. ALLCOCK & CO.: Please send me a dollar's worth of your plasters. They have cured me of a crick in my back, which has troubled me for some time, and now my father is going to try them for difficulty about his heart,
L. H. SHERWOOD.

Dr. Green, No. 868 Broadway, New York, informs us he sold, on Monday, June 23d, 1862, two plasters to a young woman suffering very severely from lumbago. On Thursday she called to get two more for a friend, and then stated that the two she had purchased on Monday had relieved her immediately after putting them on, and CURED HER IN TWO DAYS of a most distressing pain in her back and loins.

FREE TO EVERYBODY!

The Guide to Health and Beauty,

JUST PUBLISHED.

It teaches how to remove Tan, Freckles, Pimples, Blotches, Moth Patches, Sallowness, Eruptions, and all impurities of the skin; how to enamel the skin, leaving it white and clear as alabaster; how to produce the fullest development of the female form (as practised by the French,) causing the bust to grow round and full, and if the form has been lost by padding, lacing, or maternity, restoring it to more than its original fullness, firmness and beauty. It teaches how to reduce in size the hands and feet; produce corpulency or the reverse; remove superfluous hair; cure Corns, Bunions, Warts, and Moles; renew your age; cure Drunkenness, Catarrh, Dyspepsia, Nervous Debility, &c., how to fascinate and gain the love and affection of any person you may choose, together with other useful and valuable information. No young Lady or Gentleman should fail to send their address to the undersigned and receive by return mail a copy of this valuable work in sealed envelope free of charge. Address

Local.

☞ The case of the Stars and Bars newspaper in this city, did not come up for trial at the late Court—the parties preferring to delay it, we believe, and designing to first try to get damages from Mr. D. H. Spinney, whom they charge with participating in the clearing out of the office. Then their next recourse is on the city.—Won't the money do them good, when they get it?

Just such a case has recently been tried in Bangor, and the Judge ruled in effect, that the "Democrat" was (or might be) a nuisance, which the public had a right to abate without recourse to law,—but must use no more force than necessary; and the Jury returned a verdict of $900 or so we believe, as they deemed there *was* more violence used than was necessary.

LONGEVITY OF MECHANICS.—At the funeral of the late Mr. John Smith, on Saturday last, among the Brothers of the Mechanic Association who followed his remains to the tomb, were six members whose united ages were four hundred and eighty years. It has been remarked that the members of this Association generally have lived to old age, (though of course with exceptions) —showing that the forethought and fraternal feeling which induced membership, favor longevity.

RE-INSTATED.—We noticed in our issue of Saturday, the 8th, that City Marshal Johnson and Assistant Marshal Pickering had been suspended from their offices, for roughly using a man named Mike Buckley while arresting him; also that Mr. Johnson desired that public opinion should be withheld until there should be a hearing in the case. We further stated that we expected an investigation would show that the Chief of the Police used no more force than was necessary in the case.

The result of the investigation on Saturday afternoon before the City authorities proved that we were correct. Eight or ten who witnessed the transaction of the arrest, including the physician whom Mr. Johnson called to examine Buckley, testified before the Committee on Police, and upon their report being made the Mayor at once reinstated Mr. Johnson and Mr. Pickering.

These gentlemen have been arrested and ordered to appear before the Police Court, on a complaint made by the sister of Buckley, for assaulting her brother. We refrain from giving the particulars of the arrest until after the examination, in order that neither party may consider their case prejudiced. It is perhaps well, however, to say that Mr. Johnson had a warrant for the arrest of Buckley for an assault.

☞ Why is it, that so many people always take the side of a criminal, in any tussle between one and an officer? Is it because the American people are constitutionally opposed to the *enforcement* of any law? For our part, we think it far better that a dozen rowdies get a broken head, than that a single officer should be endangered even. What a way some folks who profess to be friends of law and order have of upholding the majesty of the law, and strengthening the arms of its officers!

SUICIDE.—On the steamer from New York, last Thursday evening, was a detachment of marines for this naval station. At 1 o'clock on Friday morning, when about twenty five miles from Newport, the engineer came on deck to get a little fresh air, and noticed one of the marines standing by the rail, trembling violently. He asked the man if he was unwell, but the marine made no reply, put his hands on the rail, leaped overboard, and was seen no more.

☞ We are desired to call attention to the Christmas Sale which is to take place at the Court House on Tuesday & Wednesday evenings. All kinds of fancy and useful articles will be offered for sale at moderate prices, without raffles or lotteries of any kind. Also refreshments such as tea, coffee, cold meats, ice cream, cakes, &c., &c.

☞ We understand that Com'r. Melancton B. Woolsey has been ordered to the command of the Pawnee.

☞ Carpenter Wm. F. Laighton of this city, has received orders to report to Rear Admiral Bailey on the 1st of January, for duty on board the Pawnee.

☞ Messrs. Somerby & Son wish to jog the memory of some folks who are faster to drive than they are to pay for it.

☞ Philharmonic Rehearsal, Tuesday evening, at half-past 7. Both books to be used.

☞ Yankee Notions is out, for January, with its usual variety of funny things. For sale by Batchelder.

☞ Messrs. Larrabee have some very nice Buffalo robes, and sleigh bells to match.

☞ J. W. Noyes of New Hampshire has recently been appointed as Police Officer at the Capitol in Washington.

☞ The Baptist State Convention of Texas has resolved to co-operate in the education of the freedmen of that State. It proposes to raise $100,000 for the endowment of a Colored Normal School at Independence—a village in Washington County, about eighty miles from Austin, and the seat of Baylor University.

☞ The reservoir connected with the hydraulic press used in the Treasury printing department at Washington, burst Thursday and fell from its position, shaking the building and involving a loss of $10,000.

☞ Chas. D. Cady, clerk to a New York Stock Brokers' firm, has been arrested for stealing $100,000 in stock certificates. Much of the property was found in his possession.

☞ A new theatre is to be built in Boston, on the east side of Washington street, in the rear of Nos. 360-368. Entrance by Newbury Place: also from Essex street; and a stage entrance from Brimmer Place.

☞ A clerk in the New York city Post Office, is in jail for embezzling registered letters. He confesses his guilt:—but we presume the President will pardon him.

☞ The Alabama Legislature has rejected the Constitutional Amendment by a vote of 27 to 2 in the Senate, and 68 to 8 in the House.

☞ The U. S. Supreme Court, by a vote of 5 to 4, declare the "iron clad" test oath to be unconstitutional. Ex-rebel lawyers are very glad of it.

☞ Steamer Britannia, which left Glasgow, Nov. 8, for New York, has not been heard of, and it is feared she may be lost.

☞ The late fine weather is said to have greatly increased the cotton crop in Alabama and elsewhere.

GOLD, Saturday, 137 1-2. Sent to Europe, $561,000.

— Mrs. Roberts, wife of Jacob Roberts of Pawtucket, died suddenly Wednesday. She was in comparative health on Sunday last and attended the funeral of her husband.

Dr. Schenck on Dyspepsia.

SYMPTOMS, CAUSES AND REMEDY.

Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belching of wind, water-brash and vomiting, and a great deal of what a person calls an all-gone feeling at the pit of the stomach; frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with a mucus or slime. The rough fibrous portions of the stomach, similar to what we see in tripe, is what throws out the gastric juice, and when the stomach gets a thick coat of slime on it, it prevents the gastric juices from flowing, and digestion ceases. Schenck's Seaweed Tonic dissolves this mucus or slime, and restores the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this morbid matter. Two-thirds of the cases of Consumption are caused from this diseased state of the stomach; the liver becoming torpid, it ceases to throw out bile, and in a short time the whole system is deranged. The mucous membrane of the bronchial tubes sympathizes with the other organs, and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely through the blood when the system is in this locked up condition, without the aid of the Sea Weed Tonic and Mandrake Pills. The Liver has all the venous blood to strain, and when it gets in a morbid condition, blood and bile run through the system mixed, and the whole body becomes so low, and the blood so thick it can hardly run through the veins. In a majority of cases hemorrhages occur from this thick condition of the blood. The Mandrake Pills act on the Liver similar to calomel, or they do what that does—it unlocks the gall bladders, starts the bile, and the blood begins to circulate naturally through the veins, and the hemorrhages cease. If, when persons are attacked with hemorrhage, they would drat take a good purgative, something that would act on the liver, they would soon be relieved from bleeding from the lungs, and it is the only way, for as astringents are only temporary, and irritate the bronchial tubes, and lay the groundwork for consumption.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is $5.

His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7 50 the half dozen. Mandrake Pills 25 cents per box.

From the Portsmouth Journal

SUPREME JUDICIAL COURT.—Trial term, before Doe J. The October term of this Court finally adjourned on Wednesday afternoon of last week. At this term, more than thirty cases were tried before the jury; and Judge Doe seems to be ready to give every man who had a case in court, a chance for trial. It is said that most of the verdicts of this term will be acquiesced in, and few cases go up to the Law term. Judge Doe has the faculty of promptly deciding questions on the law of evidence as they arose on a trial, and cases have gone to the jury with brief charges, especially where the matter for the jury to find was simply one of fact; and the consequence was that jurors being spared long recapitulation of evidence and legal essays, were in good condition when they left the panel to decide cases. The term, in point of the amount of business disposed of, was the most successful one that has been held in Rockingham County for many years.

MR. BARNABEE'S CONCERT.—It was pleasing to meet a full house at the opening Concert by Mr. Henry C. Barnabee on Wednesday evening last. The weather was favorable, giving an opportunity for a full expression of the just appreciation in which our esteemed former townsman is held by our citizens. As usual, Mr. B. sustained his part in the entertainment with that peculiar facility which has given him a high reputation in Boston. The singing of Miss Loring and Ryan met with marked favor. As the intention is to bring here some of the best talent of Boston, every promise is given in these concerts, of a series of the highest standard of musical entertainment, with a variety which cannot fail to please. The next of the series is announced for Dec. 26.

THE CITY MISSION.—The friends of the City Mission will regret to learn that Rev. Mr. Medbery is at present confined at home by severe illness. The efficient labors of our excellent City Missionary cannot be too highly estimated. Devoting himself entirely to his work, the wants of the poor have been well attended to, to the full extent of the means of the Society; and by persevering efforts he has done much towards keeping distress from the doors of those who have been unable to take care of themselves. The annual meeting of the Society, we understand, is to be held in another week. Lack of employment may make extra demands upon the charities of the public the coming winter. Let them who can give be liberal.

The friends of Republican candidates in the 3d District for Representative to Congress, are sanguine, and the contest for nomination will be severe. As the Northern portion has been served the last four years, the Southern expects to be complimented, presenting only two aspirants, viz: ex-Governor Hale and Mr. Ward. The latter joined the Republican ranks soon after the rebellion broke out. Sullivan and Cass claim precedence; but the test and most deserving, with a tried and faithful record, ought to succeed, irrespective of location. The *fight* in Convention, a correspondent now thinks, will be between ex-Gov. Hale of Cheshire, and Mr. Benton of Coos.

THE NAVY.—From the report of Secretary Welles it appears that the whole number of vessels in the navy at the date of the report was 278, armed with 2000 guns. Of these, 69 are in squadron service, 7 on special service; 21 at home stations and on coast duty, 37—the whole number of vessels in commission being 115. Of the iron clads, 54 are laid up and 7 are not completed. Of steam vessels, there are 19 unprovided, and of sailing vessels 2.

PORTSMOUTH NAVY YARD.

The improvements which have been completed at this yard during the fiscal year ending 30th June, 1866, are, derrick, mooring piers, extension of the ship house 8, extension of ship house 6, timber shed, No. 25, shop for steam chasing, condensers and iron foundry.

The amount expended upon these objects during the fiscal year is, for materials, $22,170 03, and for labor, $40,379 62—making an aggregate of $63,549 65.

The improvements which have been in progress during the year, but which are not yet completed, are, plumbers' compartments, and the shipping wall, machinery and tools, widening roads, reservoir, gutters, &c., calcium store, sliding mill, railway for floating dock, grading, gutters and drains, and repairs of all kinds. Upon these various objects there has been expended, during the fiscal year, for materials, $14,296, and for labor, $37,081 57—making an aggregate of $51,377 57. The work upon these objects has been completed during the present fiscal year.

There has been expended thus yard, during the fiscal year, for objects coming under the head of contingent, the sum of $4,149 24.

Estimates are submitted for the fiscal year ending 30th June, 1868, for the following objects, viz: for enlarging timber sheds Nos. 23 and 24, repairing wall, grading, gutters and drains, completing reservoir and gutters, ship-house and by 140 feet joiners' shop over timber shed No. 27, machine shop, iron foundry, boiler shop and shed, foundry, grading, and for repairs of all kinds, amounting in the aggregate to the sum of $572,972.

Several of these buildings are needed for the accomodation of the Bureau of Steam Engineering. The facilities for doing work rounding under the cognizance of the bureau are very limited at this yard, and the amount of work thrown into private establishments during the war in consequence of the want of proper means to execute it in the yard has been very large. Most of the area of the yard which can be conveniently appropriated as sites for buildings belongs to the government, which proposed to erect this establishment on Seavey's island, recently purchased, as it will, for the yard. It will be conveniently near to the other works. There is ample space, good foundations for buildings, and sufficient water front for the accommodation of vessels requiring new machinery, or undergoing repairs. These work are all important, and absolutely necessary to put the yard in a condition to meet promptly the demands of the service.

The appropriations for the fiscal year ending June 30, 1868, are estimated at $25,000,000 16.

In closing, the Secretary exhorts the government and the country to realize, patiently and practically that the maintenance of our navy in an amplitude of power adequate to any emergency, is intimately blended with our hopes of lasting peace, with the augmentation of our commerce, all enterprise and prosperity, and, above all, with that grand and imposing moral concern which has come in our age to be manifestly the surest and the cheapest defence of a great nation.

A flock of wild geese, steering Southwest, passed over this city on Tuesday. It is late for their passage, and indicates mild weather in the North.

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Book! Published!

We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other company. Our Books do not pass through the hands of General Agents, and thereby add from 100 per cent to the cost of books to subscribers, and yet more subscribers receive the advantages of dealing directly with the publishers.

Our series embraces the most popular works on all subjects of importance, and is selling rapidly, both North and South.

Old agents, and others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our books with those of other publishers. Address, NATIONAL PUBLISHING CO., 148 Water St., Boston, Mass.

Book Agents Wanted.
Now ready for delivery, a great National work—not political or sectional, (no rebellion in it,—it is strictly neutral) will never lose its interest nor be competition; eight distinguished literary men were employed in writing it; time from commencement to close, over four years; is endorsed and highly commended by the most celebrated literary and scientific men in the country, including ex-Governor Frémont; is the most popular, interesting and useful to all classes; is worth more than its weight in gold to every family or young man; will wear and bear better than any subscription Publisher, yet more canvassers are taken for this work, per Agents sent out, than any book we ever sold. In addition to the largest commissions we pay liberally, we pay our agents but personal expenses; also a bonus to Agents of fifty dollars for every Canvasser they start who wins one hundred copies. Number of canvassers and agents wanted, others need not apply. For full description and terms, address

L. STEBBINS, Hartford, Ct.

STOVES! STOVES!
ALL READY FOR THE FALL TRADE
The Best Cook Stove Out!
URIAH BLAISDELL,
No. 43 Market Street,
Offers to his friends and the public the celebrated
KEARSARGE
COOK STOVE,
Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made of the best of stock, and, what it *does*, works equally well with coal or wood.
In getting up this Stove, it was designed, as its name implies, to make it some that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with so much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, into last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.
A few names, in different localities, of the many purchasers of this Stove, are subjoined, for references:

LATE AUTUMN.

How slowly, through dallying hours,
Is Nature maturing her blight;
'Twere better to find the glad summer
Transformed in the space of a night;

On verdure and odorous blossoms
To shut drowsy eyes till the dawn,
And wake to the crystalline splendor
And hush of a mid-winter morn;

To find the birds flown from the heavens
And forests all shorn at a blow,
Ice chilling the bearer of the roses
And butterflies smothered in snow.

Ah! rather than bear this slow torture
Of watching brave visions depart,
I sigh for a frost that should curdle
The tides of my passionate heart.

—[A. G. W., in Boston Transcript.

☞ In England, Mr. Charles Buxton, M. P., having published two scandalous letters addressed to him by Lieut. Brand, who presided over the Jamaica Court Martial, denouncing Buxton for his strictures on the proceedings in Jamaica, the Admiralty had ordered copies of the letters to be sent to Commodore McClintock at Jamaica, with instructions that if Lieut. Brand is unable to deny the authenticity of the letters, he is to be suspended and sent to England, as having been guilty of conduct inconsistent with the character of an officer and gentleman.

— A Western paper says that the grasshoppers have destroyed every thing in the Deer Lodge Valley except "the grass-widows." But then, "the grass-widows" are not green.

— Seven thousand dollars in gold and silver were recently found by an old hunter, buried in a keg, near the Mississippi river, below Wolf Island. The treasure is supposed to have belonged to some rebel who was killed during the war.

— The Democratic Central Committee of Indiana are a cool and comfortable body; they affirm that that the recent elections show that the President's policy is sustained by an overwhelming majority. Unluckily, the people who are ignorant enough to believe their address are too ignorant to read it.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Morning Chronicle.

Portsmouth N. H.

TUESDAY, DECEMBER 11, 1866.

REV. WM. E. ARMITAGE, formerly of this city, was consecrated at Detroit, Dec. 6, as Assistant Bishop of the Protestant Episcopal Church in Wisconsin. In the services ten Rt. Rev. Bishops participated; also one Venerable Archdeacon, and seventy-four Rev. Clergy besides; a full list of whom is given in the Detroit Free Press.—The sermon was by Rt. Rev. Bishop Kertoot of Pennsylvania.

Bishop Armitage was born in the city of New York, September 6th, 1830, and received his instruction preparatory to his collegiate course at the private school of Daniel P. Bacon. In 1846, he entered Columbia College, where he graduated in 1849, being one of three who took second honors, all having precisely the same standing. After graduating he went to the Theological Seminary in New York, where he stayed three years. He was ordained in June, 1852, and spent a Diaconate of two years as assistant to the venerable Rev. Dr. Charles Burroughs, in this city. In 1854, he became Rector of St. Mark's Church, Augusta, Maine, and held the position until 1859, when he accepted the rectorship of St. John's Church in Detroit, which he now leaves to take the position of Assistant Bishop of Wisconsin.

ITEMS FROM EUROPE,—by Cable, Saturday Nov. 9.—A London item says the Fenian troubles in Ireland are assuming more alarming proportions, as it is reported in addition to troops already dispatched to that Island, two cavalry regiments have been ordered to leave immediately for the scene of disturbance.

At Paris, *La France* asserts that Maximilian has telegraphed to some of the physicians attending the Empress Carlotta, to meet him at Gibraltar by the middle of December.

On Sunday, another French regiment left Rome, to return to France.

At St. Petersburg, an Imperial ukase has been issued declaring all the relations of Russia with the Pope of Rome abrogated, and annulling all special laws of the empire which have heretofore been made in accordance with said relations.

THE TEST OATH DECISION. — The members of the Supreme Court who declare unconstitutional the iron-clad test oath prescribed for lawyers and justices, are Davis, Clifford, Nelson, Grier and Field. Dissenting opinions by Chief Justice Chase and Justices Swayne, Miller and Wayne. During the last session Mr. Thad Stevens moved to repeal the law containing this oath, but he was not sustained by the House.

☞ The Tribune's Washington correspondence denies the statement that Senator Sumner contemplates making a move in the Senate to take the France-Mexican question out of the hands of the President and Secretary of State, and represents him to have said that he is satisfied, from the information which he has on the subject, that the Mexican question is solving itself very rapidly, and that there is no need of taking any steps in the matter. He says that Napoleon is as anxious to get out of Mexico as we are to get him out, and that, if left alone, he will have all the French troops out of the country within two or three months.

☞ A fire at Columbia, Tenn., Sunday night, destroyed stores and goods, worth $175,000, with little insurance. A fire at Nashville, same time, lost $30,000, with no insurance.

☞ In Boston, Monday, Alexr. McGahey was sent to the State Prison to stay 8 years, for setting fire to his own groggery to get the insurance.

☞ Santa Anna protests against our movement toward Mexico, of which he fancies himself the guardian.

☞ The missing steamer Britannia has arrived at New York, in tow of steamer Java.

☞ Several of Maximilian's staff have arrived in New York from Mexico.

☞ The principal market in Santiago, Chili, was burnt Oct. 2.

— Men in women's clothes commit highway robberies at night in New Haven.—Somebody is robbed every night—generally knocked down—often stabbed, sometimes killed.

— A cotemporary takes the effects of the Chicago Times' new policy for the Democratic party, to that of castor oil on the boy, who made a wry face, and said to his mother, "I don't think I quite like castor oil, it is a little too rich."

— Admiral Pearson of the Powhatan, lately at Callao, has written a letter vindicating the American missionaries at the Sandwich Islands from the aspersions of a roving band of English high church men. Everything at the islands is progressing in the right direction.

NEW HAMPSHIRE ITEMS.

—— On Wednesday last Dea. Peter Stone, a well known citizen of Webster, had $120 stolen from a desk in his house by a boy fourteen years old, received four days before as a farm hand from a benevolent institution in Boston. The boy left for parts unknown.

—— On Friday evening at Colebrook, Horace Luther, a young man, shot another young man named Taylor, supposed mortally, and then shot himself dead. Luther had been dismissed by a young woman who engaged herself to Taylor,—and L. had threatened to kill him.

—— A smart copperhead paper in a rural district, considers Portsmouth election very encouraging in view of the State and Congressional vote next March. Very thankful for small favors. Our election here will have about as much effect on the State Government, as the New York city election has on the U. S. Congress.

—— J. B. B. Mooney, Esq., of Alton, one of the best and most enterprising and successful business men in Belknap County, has just returned from Canada with twenty six horses, which he purchased there to work the coming winter. Among these are many good ones, but one span of bays, of commanding height and noble make, is probably the best pair of horses in this section of the State. They are said to weigh not less than 1200 pounds each, while their *"tout ensemble"* is such as to make all lovers of the horse feel good.—*Rochester Courier.*

NEW HAMPSHIRE MILITARY CLAIMS. Gov. Smyth of New Hampshire, during his recent visit at Washington, informed the Government officials that having obtained for the towns in his State the bounties advanced by them to soldiers who died in the service, or who were discharged, he now claimed the bounties to men transferred to the navy and Veteran Reserve Corps, or discharged for disability caused by the service, and also those who were reported as missing but who were not proved to be deserters. Perley remarks, that the Governor is determined New Hampshire shall receive her just dues.

SUITS AGAINST U.S. OFFICERS.—A New Orleans dispatch of Dec. 6, to the N. Y. Tribune, is as follows:

Judge Heard of the Fourth District Court of New Orleans to-day overruled an application to transfer to the United States Circuit Court suits brought in his court against officers of the United States for acts done in their official capacity. The application was made under an act of Congress approved March 3, 1863, amended May 11, 1866, the provisions of which are as follows:

"The fifth section of the act of 1863 provides that if any suit or prosecution, civil or criminal, has been or shall be committed in any State Court against any officers, civil or military, or against other persons, for any arrest or imprisonment made on other trespasses or action done or committed, or any act omitted to be done at any time during the present Rebellion, by virtue or under color of authority, derived from or exercised by or under the President of the United States, or any act of Congress, and the defendant shall, at the time of his entering his appearance in such Court, file a petition stating the facts and verified by affidavit for the removal of the case for trial at the next Circuit Court, then it shall be the duty of the State Court to proceed no further in the case."

These suits were ordered dismissed by Gen. Canby in April last, and are now renewed, since General Orders No. 3, War Department, to prevent improper suits against officers of the Government in the insurrectionary States, was annulled.—Judge Campbell, late of the U. S. Supreme Bench, argued the unconstitutionality of the act. This is creating a profound sensation in the city, and the court-room was densely crowded during the discussion.

[Congress and the U. S. Courts—and the Army and Navy, if need be, will see to this! But what a commentary it is on the Johnson programme.]

THREE MEN RESCUED FROM PERIL BY A GIRL.—The *Providence Press* says: "On Tuesday last, while the wind was blowing a gale from the southeast, three men started off in a frail skiff from the shore at the lower end of the inner harbor of Newport, to rescue a sheep which had by some means got adrift, but owing to the gale they were neither able to reach the sheep or return to the shore, and were fast being swept off into rough water, where their skiff must inevitably have swamped. In this situation they were discovered by Miss Ida Lewis, daughter of Capt. Hosea Lewis, keeper of Lime Rock Light, who at once took the lighthouse boat and put off to their relief. She reached the men, took them from the skiff, which she took in tow, and afterward went in quest of and saved the sheep and landed the whole safely on terra firma.—This is not the first act of this description performed by this young lady."

☞ A fire at Winooski, Vermont, Sunday morning, 5 o'clock, destroyed the Dye House of the Woolen Factory, and its contents, of wool. Loss $60,000. 800 hands must be thrown out of work. Supposed accidental.

☞ The Broadway Orthodox Church in Jamesville, Mass., on the top of Winter Hill, was destroyed by an incendiary fire on Sunday night. Loss $15,000: insurance $8000.

THE POISONING CASE IN CONNECTICUT.—The poisoning of the family of Cornelius Peck of Kensington, Conn., last Friday, proves to have been a horrible affair. One of the victims, Mr. Peck's mother, aged eighty-four years, has died, and three others are not expected to live. The facts connected with the terrible tragedy are as follows:

Friday evening a man came to the house of Mr. Peck, bringing with him a bottle of cider. The whole of the family, six in number, were present, and all were invited and urged to partake of the contents of the bottle. All of them drank a small portion of the cider except Mr. Peck's daughter Eliza, who refused to partake of it; but she subsequently drank water from the same tumbler used by the others. The man who brought the bottle also drank some of its contents, but it was noticed that he immediately afterward went out doors, when he probably spit it out. On Saturday morning the whole family were taken suddenly and violently ill, purging and vomiting and giving every indication of being poisoned. A portion of the matter which came from stomach of one of the parties was sent to Hartford for chemical analysis, and was found to contain arsenic. Of course suspicion rests upon the man who brought the cider to the house, but no arrest has yet been made, and his name is not given.

A druggist in Meriden sold a man a quantity of arsenic a few days ago, and he thinks the person suspected is the one he sold it to. Report says this man was personally interested in wishing this family out of the way. Mr. Peck and wife had two important cases that were to come off before the courts in Hartford, in which a large amount of property is involved, and it is supposed the poisoning was done to silence them, so that the property could be retained by another party. There is great excitement and consternation in the town over the fearful tragedy.

☞ "The Galaxy" for December 15 completes the second volume, and has its usual choice table of contents. Commencing with the first number of the third volume, the Galaxy will be enlarged sixteen pages, and printed on new and larger type. During the month of January the Galaxy will commence the publication of a new novel, entitled "Waiting for the Verdict;" by the author of "Life in the Iron Mills," "Margret Howth," &c. This author will hereafter write in her own name, Rebecca Harding Davis. The new novel will be a story of characteristic American life, and will be by far the most complete, elaborate, thoughtful and ambitious effort of its author, and will be illustrated from designs by Mr. W. J. Hennessy, who will visit the scene of the novel to makes studies for the purpose.—Price $5 a year. W. C. & F. P. Church; publishers, New York.

A MODEL PAPER.—The Watchman & Reflector, of Boston, has an enviable reputation for ability and enterprise. It has not been surpassed in merit by any religious journal in the country. But it aspires to higher excellence, and proposes to become, with the opening of the New Year, one of the most comprehensive family papers in the world. It will be greatly enlarged, and published on a double sheet: one sheet devoted, as hitherto, to religious matter; the other to literary, social, monetary and agricultural articles. This latter department will be new and peculiar, with a rich variety of contents, embracing articles on current moral, social and political questions; on the leading men of the age in thought and action; reviews of important books; tales for the family circle; agricultural and gardening matters for farmers; and monetary articles and reports of the markets for business men.

No Journal in the world certainly has a more comprehensive plan to meet the wants of all families, and of all the members in a family; and as the editorial staff will consist of nine men, all able and experienced in the several departments, who will be assisted by thirty contributors, many of them having a national reputation, the Watchman & Reflector must become a model family paper, unequalled in merit and in circulation. Its enterprising conductors deserve the largest success. We refer our readers to advertisement in another column.

WASHINGTON MATTERS. — From the Washington correspondence of the New York Tribune, it is stated that Secretary Seward called on Mr. Thaddeus Stevens, at his rooms, and had a long private interview with him. The statement causes a good deal of comment there, and much speculation is rife to know what it all meant. The above gentlemen have not been on friendly relations with each other for several years. It is rumored that Seward is repentant, like Raymond, and wants to come back into the bosom of the Radical party. Others think that Seward was sent by President Johnson to make overtures of Compromise.

REBEL RAID ON AN ORPHAN ASYLUM. A returned rebel named Cox is endeavoring to obtain possession of his former residence in Georgetown, D. C., which was taken for the colored Orphan Asylum, originally established by Miss Peabody of Boston. He asserts that the President has pardoned him, and that Secretary Stanton has given him permission to occupy his property. On Saturday he went there with a deputy Marshal and took out all the windows. The lady friends of the asylum are indignant, and hope to obtain possession of the estate.

— John Shephiard, a professional pedestrian, attempted to walk 110 consecutive hours for a wager at Savannah. He walked 108 hours and fifty minutes, when he fell senseless and was taken out on a stretcher.

— The negroes about Bastrop, Texas, called a grand mass meeting for the 6th of December, for the purpose of establishing a regular system of labor and adopting measures for the general good of the race.

— Mr. Fox, Assistant Secretary of the United States Navy, is visiting the British Navy Yards. He is received everywhere with a great deal of courtesy, and afforded every reasonable facility to compare English Navy Yard arrangements with our own.

— The Freedmen's Savings and Trust Company, of Norfolk, has been reaping quite a harvest in the way of deposits made by soldiers of the colored regiments which have been paid off and mustered out in that vicinity. The 7th U. S. colored regiment deposited $33,000 in that institution, and the 30th regiment $30,000.

— The Paris *Moniteur* continues to keep silent on the abdication of Maximilian; but nearly all the semi-official papers of the French Government state either that Maximilian has abdicated or that he will soon do so. One of these papers, *La Patrie*, asserts that all the French troops will leave Mexico before the end of February, 1867.

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the host of illnesses, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and and extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it healing influences more potent than those of the spices of "Araby the blest." We are informed by our principal druggists, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.* d1—dawlm

AMERICAN LIFE DROPS!
FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

"BOSTON, MASS.

"ORRIN SKINNER & CO.—*Sirs*:—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I as a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used one of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."

ALLCOCK'S POROUS PLASTERS.
LAME BACK.
New York, Nov. 23, 1859.
T. ALLCOCK & CO.—Gentlemen: I lately suffered severely from a weakness in my back.—Having heard your plasters much recommended for cases of this kind, I procured one, and the result was all I could desire. A single plaster cured me in a week. Yours respectfully,

CURE OF CHICK IN THE BACK AND LUMBAGO.
LYONS, N. Y., July 4, 1862.
Messrs. ALLCOCK & CO.: Please send me a dollar's worth of your plasters. They have cured me of a crick in my back, which has troubled me for some time, and now my father is going to try them for difficulty about his heart.
L. H. SHERWOOD.
Dr. Green, No. 863 Broadway, New York, informs us he sold, on Monday, June 22d, 1862, two plasters to a young woman suffering very severely from lumbago. On Thursday she called to get two more for a friend, and then stated that the two she had purchased on Monday had relieved her immediately after putting them on, and CURED HER IN TWO DAYS of a most distressing pain in her back and loins.

FREE TO EVERYBODY!
The Guide to Health and Beauty,

It teaches how to remove Tan, Freckles, Pimples, Blotches, Moth Patches, Sallowness, Eruptions, and all impurities of the skin; how to cleanse the skin, leaving it white and clear as alabaster; how to produce the fullest development of the female form (as practised by the French,) causing the bust to grow round and full, and it the form has been lost by padding, lacing, or maternity, restoring it to more than its original fullness, firmness and beauty. HIGHWAY ROBBERY. — One day last week, Mr. Willey of Epping, returned a deserter named Witham to Fort Constitution, and received therefor $30. As he left the fort he was followed by six or eight soldiers, who threw stones at him while in Newcastle, and finally drove him to the house of a Mr. Green for refuge. This was rather a daring outrage for broad daylight; but the soldiers went even further, tearing down the door of the house and robbing Mr. Willey of all the money on his person—a little over $38. It so chanced that a sergeant from the fort was passing as the aggressors left Mr. Green's house, and through him the men were identified, and have since settled the affair with Mr. W. by the payment of $55. We understand, however, that Mr. Green is by no means satisfied with the outrage upon his house, made during his absence, and will bring the offenders to an additional punishment for their crime.

ANOTHER LOTTERY SWINDLE.—It appears as though our citizens would learn by experience if not from the frequent cautions we have given them in exposition of these "Lottery Swindlers," but still another firm have been operating in this vicinity, and through the efforts of one of our detectives they have been arrested. On the 22d of last month several persons of this city, received a circular from Cincinnati, O., purporting to come from the "United States Prize Concert," drawn at "Crosby's Opera House, Chicago, Ill.," and signed by "Williams & Co., actuaries," as follows:—

Mr. ——— "your ticket No. 169,829, has drawn a prize valued at $75. The charges and expenses on the same amount to $5.25. Please remit to us that amount, and state by what express you wish the prize sent."

One of the parties some months since had purchased a ticket, and upon examination found the number to correspond. He informs us that he asked Detective Kent his opinion about sending the $5.25, and he told him the thing was a humbug and not to send a dollar—and that if he would let him (Mr. Kent) have the circular and ticket he would in a few days so convince him. The gentlemen yesterday shew us the following letter which Mr. K. received, which explains itself, and we hope that unless lotteries are recommended by responsible parties as is the "Crosby Opera House Art Association," people will not be so foolish as to invest in them.

OFFICE CHIEF OF POLICE,
Cincinnati, Dec. 6, 1866.

Sir—In answer to yours of the 3d inst., I will state that I do not consider "Williams & Co." reliable, and have arrested the party sending out those circulars.
Respectfully,
R. MCGRAW, Chief of Police.

"PROTEST IT NOT PAID."—Thus do the Banks and the Expressmen—why not the rest of us? We have warned certain parties once or twice, and waited long enough for them—and if we are "*not* paid" pretty soon, we shall most certainly "protest" against such treatment, by telling the public whom it will not be safe to trust.

COUNTERFEITERS.—Two notorious counterfeiters were arrested last week by officers of the Secret Service Division, for having been engaged in passing a very dangerous counterfeit of the denomination of $100 upon the Central National Bank of New York. The bill is well calculated to deceive, and it is said a large amount of them have been put in circulation.

☞ The "Sale" or Tea Party at the Court House, this (Tuesday) evening, will no doubt be a most agreeable and attractive place for many. A great variety of useful and fancy articles will be offered for sale at prices which are promised to suit; also refreshments of all kinds—and gentlemen with or without ladies are invited to take tea at the *tete a tete* tables, which we are told will be prepared for a large number of guests.

NAVAL.—Lieut. Comd'r. Wm. H. Dana, has been ordered for duty on board the Pawnee, by the 1st prox.

Asst. Surgeon George S. Fife, has been ordered to duty at the Naval Hospital, Chelsea, Mass.

POLICE COURT, Dec. 10.—George Hadley, for assault on Henry P. Spinney, was fined $5, and costs $4.86.

☞ Besides cord wood, Messrs. Dearborn & Brownell advertise a desirable article for fuel or kindling. It is the waste from their spool lumber, and is kiln dried white birch.

☞ The Kearsarge Mills are importing operatives from Europe. A hundred of them came here on the cars from Boston last week.

RELIANCE.—We deem it our duty to say to our readers, that the most implicit reliance can be placed on Coe's Cough Balsam. It will cure your children of croup, and yourself of any cough, cold, sore throat or pulmonary affection. It is the cheapest and best preparation in the market.

Dyspepsia can be surely and permanently cured by Coe's Dyspepsia Cure. Thousands of dyspeptics are sending in their testimonials to the proprietors, saying it has cured them. We say to those who are suffering from dyspepsia, constipation, sour stomach, or any disorder of the stomach or bowels, give it a trial.

Dr. Schenck on Dyspepsia.
SYMPTOMS, CAUSES AND REMEDY.
Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belching of wind, water-brash and vomiting, and a great deal of what a person calls an ill-gone feeling at the pit of the stomach; frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with a mucus or slime. The rough fibrous portions of the stomach, similar to what we see in tripe, is what throws out the gastric juice, and when the stomach gets a thick coat of slime on it, it prevents the gastric juice from flowing, and digestion ceases. Schenck's Seaweed Tonic dissolves this mucus or slime, and restores the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this morbid matter. Two-thirds of the cases of Consumption are caused from this diseased state of the stomach; the liver becoming torpid, it ceases to throw out bile, and in a short time the whole system is deranged. The mucous membrane of the bronchial tubes sympathizes with the other organs and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely through the blood when the system is in this locked up condition, without the aid of the Sea Weed Tonic and Mandrake Pills. The Liver has all the venous blood to strain, and when it gets in a morbid condition, blood and bile run through the system mixed, and the whole body becomes so low, and the blood so thick it can hardly run through the veins. In a majority of cases hemorrhages occur from this thick condition of the blood. The Mandrake Pills act on the Liver similar to calomel, or they do what that does—it unlocks the gall bladders, starts the bile, and the blood begins to circulate naturally through the veins, and the hemorrhages cease. If, when persons are attacked with hemorrhage, they would first take a good purgative, something that would act on the liver, they would soon be relieved from bleeding from the lungs; and it is the only way, for astringents are only temporary, and irritate the bronchial tubes, and lay the groundwork for consumption.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is $5.

His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7 50 the half dozen. Mandrake Pills 25 cents per box.

Ayer's Cathartic Pills
ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper; stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the everyday complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immense y to the relief of our afflicted, suffering fellow men.

The Agent below named is pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by DR. J. C. AYER & Co., Lowell, Mass, and sold by all Druggists and Dealers in medicine everywhere. o29—2m

Morning Chronicle.

☞ The N. Y. Tribune says a very amusing scene occurred Tuesday in the office of Gen. Spinner, the United States Treasurer. Gen. Edward Johnson, who commanded a division of soldiers in the rebel army visited the office of General Spinner and presented a claim against the United States Government for some $400. It seems this amount was due him as Major of a regiment in the United States service which position he deserted and entered the rebel army at the breaking out of the war. Before leaving the service he presented his voucher to a United States paymaster for payment, and a draft for the amount was sent him; but ere it reached him he had fled and entered the service of the Confederacy. Having received a pardon from the President, he now lays claim to the old balance as due him. After Gen. Spinner had heard his case, he saluted Ex Gen. Johnson something in this style: "I don't see how you can make such a claim as this. You deserted your Government, and ever since have been stealing everything you could lay your hands on, and robbing her of her property. You now make a claim for back pay. If I understand the law, desertion makes a forfeiture of all pay and allowances due at the time, or may hereafter become due." To this, General Johnson replied that Mr. Spinner was mistaken, and that he did not consider what he did desertion or robbery; that he did what he considered was right, and demanded the payment of his claim. Gen. Spinner replied a second time that he considered that he (Johnson) had been stealing from the United States Government for four years, and did not deserve the amount claimed, and that he would not pay it. Mr. Johnson left silently, but evidently chagrined and crestfallen.

— The presiding mistress of a boarding house "hoped the tea was good." "Very good, indeed, madam," was the general reply; but Jones, between truth and politeness observed, "that the tea was excellent, but the water was smoky."

— The man in jail who looked out of the window of his cell, and exclaimed, "This is a grate country!" is now generally admitted to have spoken within bounds

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the old World,) of obtaining the latest and well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and speedy cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Epididymitis, Spermatorrhœa, Seminal Weakness, Buboes, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a Physician to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. Teller, and who now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Manhood, Strength, It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the care of these diseases upon which he now treats.

TO THE LADIES.

Dr. Teller still remains the only Agency in America, for the sale of Dr. Vincent's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

Caution.—Married females in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 a. M. to 8 P. M., and on Sundays from 9 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

NEW ADVERTISEMENTS.

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Books Published!

We are the most extensive publishers in the United States (having six houses,) and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other company.

Our books do not pass through the hands of General Agents (as nearly all other subscription works do), therefore we are enabled to give our canvassers the extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.

Our series embraces the most popular works on all subjects of importance, and is selling rapidly, both North and South.

Old agents, and all others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our works with those of other publishers. Address, NATIONAL PUBLISHING CO., 118 Water St., Boston, Mass.

Book Agents Wanted.

Now ready for delivery, a great National work—not political or sectional, (no rebellion in it,)—is standard; will never lose its interest; has no competition; eight distinguished literary men were employed in writing it; time from commencement to close, over four years; is endorsed and highly commended by the most celebrated literary and scientific men in the country, including over twenty Bishops; is popular; is equally interesting and useful to all classes; is worth more than its weight in gold to every family or young man; is a work of such intrinsic worth and low subscription Publisher, yet more subscribers are taken for this work, per Agents sent out, than any book we ever sold. In addition to the largest commission, we pay freights, leaving nothing but personal expenses; also a bonus to Agents of fifty dollars for every Canvasser they start who sells one hundred copies. Experienced and successful Agents wanted; others need not apply. For full description and terms, address,

L. STEBBINS, Hartford, Ct.

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,
No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE
COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined to show, for convenient reference:

10 1-2 Daniel Street,
(Over Miss Beal's Dry Goods Store.)

The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr Cobb, that he has opened a store of a similar kind, for the trade in Pianos, Organs, Melodeons, Stools, Covers, Sheet Music, Flutinas, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.

PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.

PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.

Having made arrangements with Prof W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Chas. H. Pond & Co. The superior merits of the former have too long been established to need any comments. Of the latter, suffice it to say that the sale of over fifty of them within the last five years by Mr. Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.

Every Instrument carefully selected and fully warranted, under the supervision and approval of Prof Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman. D. H. MONTGOMERY.

VOL. XXIX. PORTSMOUTH, N. H. WEDNESDAY, DECEMBER 12, 1866 No. 138.

The Chronicle.

THE ARKANSAS SENATORS.—The Little Rock Correspondent of the Memphis Post says J. T. Jones of Helena, elected United States Senator from Arkansas for the short term, is represented to be a moderate, rational man in his political ideas, but so compromised with the affairs of the late Confederacy that it will go hard with him to swallow the test oath. Andrew Hunter of Dallas, elected for the long term, is a presiding elder of the "Methodist Church South," who prayed fervently for the success of the Confederacy, it is said, and cannot, even with the painfulest wrestling with his conscience, expand it sufficiently to gulp down the Congressional dose.

WEST VIRGINIA IN THE WAR.—It appears from the report of the Adjutant General of West Virginia that that State sent to the field in all thirty-one thousand eight hundred and eighty four (31,884) men; of whom twenty thousand seven hundred and ninety (20,790) were white infantry and two hundred and thirteen (213) colored infantry, nine thousand five hundred and five (9505) cavalry and one thousand three hundred and seventy-six (1376) light artillery. When we consider that West Virginia has not quite 40,000 voters, and when we take into account its peculiar situation, we must admit that the contribution of men to the loyal armies was exceedingly creditable. Of itself it vindicates the wisdom of the division of the State, for had not that step been taken most of these loyal soldiers would have been conscripted into the rebel forces, and the new State, instead of launching out upon an honorable and successful career, as it is now doing, would have been but a wasted and dispirited section of the Old (obsoletely old) Dominion.

— For the past eight or ten years the composition for the Liberty (Miss.) Advocate has been done chiefly, by two young ladies, daughters of the publisher.

— The most astonishing sentence in the English language, at least for its great length, is probably the seventh section of the British Foreign Enlistment Act, which is composed of a single sentence containing very nearly 600 words.

— The J. Monroe Taylor Gold Medal Soap has acquired pre-eminence over all other soaps, in point of economy and utility, from the wash-tub to the printer's devil. It is without doubt the best soap made; it has many inferior imitations, but no rivals, and can be safely said to be ahead of all others. 24

AMERICAN AND FOREIGN PATENTS
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street
BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drafts for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.
R. H. EDDY.

Morning Chronicle.

Portsmouth N. H.

WEDNESDAY, DECEMBER 12, 1866.

☞ Gen. Sheridan's dispatches and letters indicate that Gen. Sedwick has been somehow under the influence of the English and French merchants at Matamoras and that he went over to that city and took breakfast with them, on the morning when he wrote a certain letter! General Sheridan says further, in his letter of Nov. 14 that Ortega "has no adherents in Mexico except the French and English merchants who have heretofore supported Maximilian. There is no trouble in all northern Mexico, except in Matamoras and Tampico, and these merchants are at the bottom of it."—He adds:

My letter and arrest of Ortega will settle everything on the Rio Grande line, and I think within a few days Ortega and Canales can go without violating the neutrality. I hope the government will support me in this simple and just method of restoring peace to our border, and trade and commerce to our people.

There will be trade through Brownsville and Brazos Santiago with Northern Mexico of $12,000,000 yearly, as soon as these Mexican troubles subside.

Congress, Dec. 10.—All attempts to interfere with the national banks or the currency were summarily voted down in the House.

The President sent a message to the House in reply to an inquiry whether any portion of Mexican territory has been occupied by United States troops. He transmits reports from Generals Grant and Sheridan on the subject with regard to recent events on the Rio Grande.

A message was received enclosing a report from the Secretary of State relative to the discovery and arrest of Surratt. The first letter giving information was dated April 21, from Minister King at Rome.

The House passed a general law, by a very strong vote, providing that hereafter each Congress shall meet on the 4th of March, immediately on the adjournment of its predecessor, in addition to the regular annual meeting in December. Nothing was incorporated in the bill in regard to the elections in those States that choose their Congressmen after March 4, it being deemed best to allow each State to act for its own self in the premises. The votes was 123 to 29, more than four-fifths, and the nays are all "democrats" so called, tho we think it would puzzle any one to show any objection to the bill, except that it is calculated to abridge the one man power!

The Senate, in discussing the bill to regulate the elective franchise in the District of Colombia, displayed determination to give every loyal man, no matter what may be his color, the right to vote, and to exclude from the polls all who gave aid and comfort to the rebels in the late rebellion. The friends of the educational qualification have about abandoned all hope of carrying it. The colored people are jubilant, and propose, when the bill shall have become a law, to have a grand demonstration.

☞ In Boston, at the late city election the Journal informs us that "in Ward 3, Mr. Brown, a colored man was nominated for the Common Council by the Democrats—a fact which we commend to the attention of the Democratic press which had been so horrified at the election of two intelligent colored men to the Legislature—but Mr. Brown, who professed to have ascertained "his true friends," failed of an election by a tie vote, and Wednesday next has been assigned for a new election, the meeting having adjourned to that day. While the better class of our colored voters remain true to the Republicans, there were some in Wards 2 and 6 who went over to to the party which not many years ago murdered colored men in the streets of New York with apparent relish for such butchery."

The Maine Colony in the Holy Land.—A late letter from the Maine Colony, dated Jaffa, Oct. 10, contradicts the published dolorous reports concerning it.—The affairs of the colony are in a flourishing condition, and the writer says there is nothing to prevent making money there, with a little American enterprise. The country is much better than was represented to Elder Adams, and although it is now the dryest and most barren season of the year, there is plenty of everything for food. The American, English and French Consuls have given the colonists all the assistance they required, and the Sultan of Turkey is in favor of their establishing themselves there. It is expected that another vessel will leave Maine next year for Jaffa.

☞ Samuel J. Lowell, the ex-Worcester policeman, recently pardoned from imprisonment for manslaughter, has received the appointment of Turnkey at the jail in Fitchburg, Mass.—a good position with a good salary. During his confinement he won the esteem and respect of the officers of the jail, and the appointment is the result.

NEW HAMPSHIRE ITEMS.

—— The Phenix Hotel, Concord, has been sold to James R. Hill and L. A. Smith.

—— Rev. G. T. Day has been appointed editor of the Morning Star, by the Corporators of the Freewill Baptist Printing establishment at Dover.

—— The legal voters of Exeter, in Town Meeting, have voted by a very small majority, to locate the Robinson High School for Girls, on the "Thyng Lot," in preference to "Prospect Hill."

—— At Lancaster, Sunday night, the barns, with hay, grain and farming utensils, and thirty-five cattle, belonging to A. J. Congdon, were burned. Loss $4000; no insurance. The fire is supposed to be the work of an incendiary.

—— The directors of the newly chartered Coos Railroad met at Littleton recently, and decided to make surveys and estimates for the contemplated railroad from Littleton via Lancaster to the Grand Trunk Railroad at Northumberland.

Murder at Franconia.—One of the most dreadful murders on record was committed at Franconia, in this State, on Saturday evening last. George Maxwell, who lived in a farm house by himself quite a distance from any other dwelling, was found dead in his house on Sunday morning last. The confused state of things in the room where he was murdered indicated that a very desperate resistance had been made by Mr. Maxwell in defending himself from the murderer. His head was badly mangled. The weapons used by the murderer were a knife, billets of wood, and finally an axe. The murderer's name is unknown, although a description of him has been obtained, as he was traced to the house by persons who passed him on the highway some hours previous to the murder. A reward of five hundred dollars is offered for his arrest. He is described by several persons as a man of medium height, dark whiskers and moustache, wore low black hat, short black sack coat, gray pants, and boots eleven inches long. He was apparently about thirty years of age. The terrible deed has caused great excitement among the citizens of Franconia and surrounding towns. Should the murderer be discovered it is feared that summary justice would at once be meted out to him.

A trunk in Maxwell's house, in which it is supposed there were $5000 or $6000, was broken open and the contents, whatever they amounted to, taken away. The murderer took Mr. Maxwell's mare and buggy and started in the direction of Canada, and was traced as far as Bethlehem, N. H. The animal is of a sorrel color, white stripe in the forehead, white nose and three white feet, and is four years old.

Scientific American.—This admirable Journal for mechanics and others, already doubtless the best of the kind in the world, we are informed by the enterprising publishers will be considerably enlarged and improved on the first of January next, without enhancing the price of subscription. Feeling that the Scientific American is a publication that deserves all the patronage it can receive, we take this early opportunity to announce the fact stated above, that those who desire the best scientific paper in the world may take due notice thereof, and govern themselves accordingly.

☞ In the case of Alex. McGahey who has just gone to the Massachusetts State Prison, for burning his own groggery, in Boston to get insurance,—the facts that McGahey has already been in jail nearly eight months, and that at a former trial the jury disagreed, were presented to the Court for its consideration in the passage of sentence. The counsel held that the prisoner was guilty of an attempt to commit the act rather than of the commission, and that the offence was one rather against property than person. The Court, however, imposed a sentence of eight years in the State prison. This is but two years less than the sentence imposed upon John Gallagher, last summer, for manslaughter, but it should be remembered that there were fifteen or more persons living in the tenement above McGahey's saloon. This made it an *offence against the person*, which the learned counsel knew, when he plead to the contrary for a paltry fee.

—Among the military appointments in the regular army, recently announced, is that of General E. W. Hinks, to be Lieutenant Colonel of the Fortieth Regiment of Infantry.

—The Hon. John Swett, Superintendent of Public Instruction of California, has forwarded to the National Lincoln Monument Association, Springfield, Ill., the sum of $2000, contributed by the public school children of that State.

—One night last week Mr. James Friend of Beverly drove to Boston with a load of cabbages, and on his arrival at the market there he happened to look under his wagon, when he espied one of his best biddies serenely roosting on the hind axle, with not a feather ruffled by her nocturnal trip.

A Temperance Meeting was held at Union Hall, Farmington, on the 25th ult.—Alonzo Nute, Esq., was chairman, and Geo. A. Titcomb, Esq., secretary. The old committee of ten, who have for some three years so successfully suppressed the liquor traffic, tended their resignation in a body, and received a very complimentary vote of thanks for their good deeds. A new committee of fifteen were selected from among our best citizens, to continue the work. The new committee insisted that Rev. Dearborn Wedgewood, the chairman of the old committee, should continue with them and be their chairman. The friends of temperance are under great obligations to Mr. Wedgewood for his persistent and christian efforts in the temperance cause.—Judge Edgerly of the Police Court, had a resolution of thanks voted, for manly and impartial discharge of official duties.

Farmington is noted for its temperance, industry and enterprise. Policeman L. D. Hussey and others are highly spoken of by the temperance people for their efforts in maintaining order and temperance. A committee of five were selected to represent the town in the State Convention to be held at Concord the 12th of December. *Farmington Advertiser.*

Maj. Gen. Chamberlain.—Few of our officers, perhaps no civilian, have achieved a more brilliant reputation than the Christian hero. Entering the army as Lieut. Col. he rapidly rose, not by form but by merit. At one time shot through both thighs, his surgeon told him there was not one chance in ten for his life, but in an astonishingly short time, he was again in the saddle.

Through the whole war he occupied a conspicuous place, and in the last days of the rebellion had the honor, conferred upon no other officer, of being promoted upon the field of battle, by Gen. Grant himself.

He was likewise in acknowledgement of his valor, commissioned to receive General Lee's final surrender. This is to form the subject of his lecture on Friday evening, at Exeter, where he will probably have a great audience.

Having been, in spite of the Johnsonian copper confederacy, elected Governor of Maine by nearly 30,000 majority, he soon enters upon that high position.

More Swindling.—The firm of Folger & Tibbs, No. 54 Leonard street, New York, have, it is alleged, been victimizing about fifty or sixty merchants of that city to an amount approximating $300,000. It is stated that the firm represented themselves to have a cash capital of $40,000, and obtained thereby large amounts of goods, which they immediately shipped South and West, and auctioned off at prices far below their value, never paying the original owners even to the smallest amount. Recently, it seems, a man named Klinck bought out the concern, or pretended to do; but one of the victims, suspecting matters were not all right, made affidavit, which placed the detectives upon their track, and three of the parties have been arrested. The rest are being closely pursued. One of the parties, W. C. Williams, is also charged with forging a check on the Central National Bank to the amount of $3000.

☞ Beadle's Dime Year Book and Almanac for 1867, is received. Full of valuable information. Beadle & Co., publishers, New York. For sale at Batchelder's news depot.

☞ The New York Weekly Magazine, published by Frederic S. Hill, New York, at 10 cents a number, may be obtained at Batchelder's news depot. Filled with original and selected matter.

What Congress will do.—The Washington correspondent of the New York Times writes: "The public does not need assistance to seize the salient points which will receive the attention of Congress at the present session. These are already plainly indicated. They may be classed in three features, viz: 1. Restriction of the President's power of appointment and removal, 2. Changing the sessions of Congress, to render them more frequent, and consequently cover a greater period of time in each term. 3. Official investigation into the conduct of the President since he took the oath of office as Vice President. So much has been positively determined on; and bills or resolutions to accomplish these results are already before Congress."

—John Moran, of Roxbury, who murdered his betrothed, Mary Ellen Kearney, on the 19th of last March, is to be executed on Friday, Jan. 25th.

Thirty Lines of Common Sense.

Reader, having glanced over the editorials and the news in this journal, you turn to the advertisements, saying to yourself: "These are published by the writers to serve their own interests."

Perhaps so. But it is no less true that *it concerns your interests to read these thirty lines.* If you are healthy it is presumed you wish to continue so. If sick, of course you desire to be relieved. In either case it is important to you to know that HOSTETTER'S BITTERS are the safest, surest and best tonic and alterative ever advertised in any country. This is a period of the year when the strongest need an invigorant, for the oppressive cold drains the system of strength faster than the most potent and vigorous organization can recruit it. Therefore, as a preservative of health, as a protection against the debilitating action of heat and the malaria it produces, you should sustain the good constitution and sound stamina with which Nature has blessed you with this Peerless Vegetable Tonic.

It can scarcely be necessary to urge upon the weak and ailing the importance of acquiring by safe means the strength which unassisted Nature denies them. All who are thus circumstanced are invited to give the Bitters a trial. Before they have taken the elixir three days, in conformity with the directions, they will acknowledge with gratitude its genial operation. They will find that it imparts mental as well as nervous energy, and regulates all the internal functions admirably. This is the experience of the debilitated and depressed, and in making these statements the proprietors only echo the language of innumerable testimonials. d14—1m

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used Perry Davis' Pain Killer, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the host of illnesses, external and internal, which it is adapted to cure or alleviate. An article of medicine ever attained to such unbounded popularity and and extensive diffusion. It has penetrated to every quarter of the habitable globe, the known world, bearing with it its healing influences more potent than those of the spices of "araby the blest." We are informed by our principal druggists, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.* d1—daw 1m

AMERICAN LIFE DROPS!
FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

BOSTON, MASS.

"ORRIN SKINNER & CO.—*Sirs:*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease completely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated sore throat, used some of his, and were cured in a short time. Since then I let my family physician have the part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. EDES."

The Life Drops are carefully prepared by

Smolander's Extract of
BUCHU!

Is sold by all Apothecaries, everywhere, for only ONE DOLLAR. It is a *certain cure* for *Diseases of the Kidneys, Gravel, Rheumatism, Gout, Dropsy, Female Disorders, and General Debility,* arising from excesses of any kind. Read the following TESTIMONY OF A CITY MISSIONARY:

CHARLESTOWN, MASS., Nov. 23, 1865.
Messrs. BURLEIGH & ROGERS, Boston, Mass:

I feel it a duty I owe to you, and to such of the community as are suffering as I have suffered, to make known through the medium of your advertisements the CURE that, through the blessing of God, you have wrought upon me by using SMOLANDER'S BUCHU. I had *suffered over one year* with *Kidney Disease* so bad *I could hardly walk* I took four bottles of *Smolander's Buchu*, and it *cured me.* WILLIAM M. MILLER,
City Missionary.

ALLCOCK'S POROUS PLASTERS.
LAME BACK.
New York, Nov. 23, 1859.

T. ALLCOCK & Co.—Gentlemen: I lately suffered severely from a weakness in my back.—Having heard your plasters much recommended for cases of this kind, I procured one, and the result was all I could desire. A single plaster cured me in a week. Yours respectfully,
J. G. BRIGGS, Proprietor of Brandreth House.

CURE OF CRICK IN THE BACK AND LUMBAGO.
Lyons, N. Y., July 4, 1862.

Messrs. ALLCOCK & Co.: Please send me a dollar's worth of your plasters. They have cured me of a crick in my back, which has troubled me for some time, and now my father is going to try them for difficulty about his heart,
L. H. SHERWOOD.

Dr. Green, No. 863 Broadway, New York, informs us he sold, on Monday, June 22d, 1862, two plasters to a young woman suffering very severely from lumbago. On Thursday she called to get two more for a friend, and then stated that the two she had purchased on Monday had relieved her immediately after putting them on, and CURED HER IN TWO DAYS of a most distressing pain in her back and loins.
Sold by all Druggists. n29—dawlm

Wonderful, but True!
MADAME REMINGTON, the world-renowned Astrologist and Somnambulistic Clairvoyant, while in a clairvoyant state, delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomotrope, guarantees to produce a perfect and life-like picture of the future husband or wife of the applicant, with date of marriage, occupation, leading traits of character, &c. This is no imposition, as testimonials without number can assert. By stating place of birth, age, disposition, color of eyes and hair, and enclosing fifty cents, and stamped envelope addressed to yourself, you will receive the picture by return mail, together with desired information.

FREE TO EVERYBODY!
The Guide to Health and Beauty,
JUST PUBLISHED.

It teaches how to remove Tan, Freckles, Pimples, Blotches, Moth Patches, Sallowness, Eruptions, and all impurities of the skin; how to enamel the skin, leaving it white and clear as alabaster; how to produce the fullest development of the female form (as practised by the French,) causing the bust to grow round and full, and if the form has been lost by padding, lacing, or maternity, restoring it to more than its original fullness, firmness and beauty. It teaches how to reduce in size the hands and feet; produce corpulency or the reverse; remove superfluous hair; cure Corns, Bunions, Warts, and Moles; renew your age; cure Drunkenness, Catarrh, Dyspepsia, Nervous Debility, &c., how to fascinate and gain the love and affection of any person you may choose, together with other useful and valuable information. CITY FARM.—Alfred M. Hoyt, Esq., has just completed a plan of the City Farm, in two sections, on a scale of four rods to an inch. These plans, suitably framed, now adorn the City Rooms, and show at a glance the large amount of valuable real estate owned by the city for the maintenance of its poor (about 170 acres).

BUTTER SLIPPING DOWN.—A correspondent in this city writes us, under date of Dec. 11:

Eds. Chronicle.—A brother in-law informs me that a provision dealer in his town (Montpelier, Vt.,) is taking in a dairy of butter at 25 cents a pound, for which the seller had refused 52 cents a pound only a short time since. H.

Just reversed the figures; that's all.

☞ We learn that Col. John Prescott, of Candia, committed suicide in that town on Monday morning, by taking strychnine. He was one of the wealthiest men in Candia, was highly esteemed, and had filled several public offices of trust to the satisfaction of his townsmen and with great credit to himself. He was about fifty years of age, and leaves a wife and child.

NOT QUITE.—The Manchester Mirror, urging the importance of of ONE VOTE, says,—"It elected a few days ago, Jones Democratic Mayor of Portsmouth." This did not happen, tho' it came so very near happening, that only a few scattering votes turned the scale the other way. If it *had* happened the Mirror would have heard the guns.

☞ A new steam fire engine, weighing about 4200 pounds, and called the "Cataract," arrived at the Navy Yard on Tuesday, from the Amoskeag Works, Manchester.

☞ The sale of Furniture at the City Hotel, by Auctioneer Wendell, will be continued to-day, commencing at the usual hour.

☞ The third lecture before the Citizens' Lyceum will be on Friday evening next by Rev. Dr. Henry W. Bellows of New York, a very fine orator.

☞ The Christmas sale and tea party will be continued this (Wednesday) evening at the Court House.

SINGULAR DEATHS OF TWO SISTERS. A week ago last Friday, the wife of Gen. John S. Meserve of Salmon Falls, N H., arrived in Lowell, on a visit to her sister, Mrs. John Putney, on Tyler Street. The next evening Mrs. Putney was taken severely ill, and on the following Wednesday evening Mrs. Meserve was also taken—both with the same disease, congestion of the lungs. Last Saturday evening, at 20 minutes past 7 o'clock, Mrs Putney died, and Mrs. Meserve died the following (Sunday) morning, at twenty minutes past 4 o'clock there having been but nine hours' difference in their deaths.—*Lowell Courier*

☞ The Washington correspondent of the New York Times says: "Within the past three days I learn from various points in the South, among which I may mention Charleston, Columbia, Augusta and Montgomery, of a rapidly increasing change of public sentiment in favor of the ratification of the Constitutional Amendment. The sudden change of front on this subject by Gov. Patton of Alabama, who recommended the rejection of the Amendment only three weeks ago, is the most significant intimation yet received."

☞ A report comes *via* the N. Y. World and a Mobile dispatch, from Mexico, that the clergy and merchants have induced Max. to remain, and have pledged $30,000,000 to sustain his Empire,—and that the French troops are to remain and help the Imperial cause.—Rather doubtful.

☞ Great excitement exists in England and Ireland, on account of the expected Fenian invasion and outbreak. The British government offer £5000, or $25,000, for the body of Stephens, dead or alive.

☞ The French soldiers were to leave Rome, on the 11th of December.—A large number of Irishmen, it is said, will enlist in the Pope's Zouaves, which are to be a guard of 2200 men.

☞ Miss Martha L. Ferguson has been appointed Post-MASTER of South Berwick, and Miss Lucy W. Grover of Yarmouth, Me.

☞ Nine persons were burnt to death in their dwellings in Division street, New York, on Monday night.

GOLD, Tuesday, 137 1-2.

— Officers have been sent to all the principal cities South to recruit for the regular infantry.

— It is stated, that in the Savannah Post Office, Union men are exclu ed from clerkships, which are given to former Rebels, and that in the Custom House the same policy is adopted though contrary to the understood orders of the Secretary of the Treasury.

— The increase in the Republican majority in Michigan over that of 1864 was a round twelve thousand. The Copperhead vote in the late election was almost seven thousand less than McClellan's, while the Republican vote was twelve hundred greater than Mr. Lincoln's.

☞ Some sensible person writes to the Statesman, advocating the re-nomination of Hon. E. H. Rollins, as Representative to Congress from the Second District. Mr. Rollins has ever proved an able Representative, because he is an able and indefatigable business man.

The citizens of Boston in the election of such men as Hooper and Twichell shew that they know the value of the services of a good business man in Congress. It is well enough to season a delegation in Congress with a lawyer or two, but as a general rule the business men rather than the lawyers prove the more acceptable Representatives and are permitted to retire from the halls of Congress with the keener regret of their constituents.

— Lieut. Governor Anderson of Ohio has bought a tract of ten thousand acres in Lyons county, Kentucky, which he will devote to raising sheep.

Business Notices.

☞ Dr. Stevens's Office, after being closed several weeks for alteration and improvements, is now open again for business. With the changes that have been made, he is confident he now has the most convenient and pleasant suit of rooms ever used for Dental purposes.

RELIANCE.—We deem it our duty to say to our readers, that the most implicit reliance can be placed on Coe's Cough Balsam. It will cure your children of croup, and yourself of any cough, cold, sore throat or pulmonary affection. It is the cheapest and best preparation in the market.

Dyspepsia can be surely and permanently cured by Coe's Dyspepsia Cure. Thousands of dyspeptics are sending in their testimonials to the proprietors, saying it has cured them. We would advise those who are suffering from dyspepsia, constipation, sour stomach, or any disorder of the stomach or bowels, give it a trial.

DR. SCHENCK'S
NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 33 Hanover Street**, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part; also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

Ayer's Cathartic Pills
ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease from the system, from the humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agent below named is pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S, and take no others. The sick want the best and there is for them, and they should have it.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o29—2m

Morning Chronicle.

NORTH CAROLINA.—Ex-Gov. Holden, in the Raleigh Standard, frankly and urgently says that the experiment of Provisional Governments in the South has been a failure. Mr. Holden, though but lately an appointee of Mr. Johnson, is impelled to declare that the President was deceived, and so were his Provisional Governors.—He even more emphatically says that "all hope that existing Southern organizations will concur in measures necessary to restore the Southern States to the Union, is at an end." If Governor and Editor Holden has reasoned from the character of Southern opinion as expressed in his exchanges, he has reached his conclusions logically. If he has read the messages of the handful of ready-made Governors who just now vie with each other in biliously rejecting the bread of the Constitutional Amendment as a very unsatisfactory kind of stone, he might come to the same conclusion. As one of the most intelligent public men of the South, though not by nature a Radical, Mr. Holden probably utters the opinions of the mass of Union men from the most compromising to the most inveterately loyal.—His judgment is theirs in respect to the permanent reconstruction of that section.—*Tribune.*

HOUSEKEEPING UNDER DIFFICULTIES. Last week we spoke of two newly married couples who had gone to housekeeping in the attic chambers of a small dwelling house. We learn of another case which further proves the great scarcity of tenements. A widow lady with seven children, being obliged to move, on account of the house where she resided having changed hands, as a last resort, has gone to housekeeping in one small attic chamber. There is not room enough for a cooking stove, so she is obliged to get along with a small spitfire.—*Gloucester Telegraph.*

☞ A New York Correspondent says: "The people who have journeyed to Philadelphia may recall a good-looking, well-dressed man, who comes aboard of every train a few miles this side of the city of brotherly love, with a basket of peculiar kind of candy which he hawks through the cars. He has followed this business for many years, and up to 1863 had amassed thirty thousand dollars. He then invested the whole of this sum in a petroleum well and "retired from the road." Like other oil speculators, however he soon lost every cent, and is now back at his old business.

☞ The Massachusetts Historical Society, it is stated, offered $3000 for an old fashioned watch, which formerly belonged to Benj. Franklin, and is now in the possession of a gentleman residing near Lancaster, Penn. The case is of heavy silver, and the movement is still in good running order.

— A Saxony crinoline manufacturer has made in one year 863,784,000 hoop skirt springs.

— It is thought a dangerous thing to board a man of war, but we have known, says an exchange, fifty soldiers, each a man of war, boarded by a single landlord—but he was a boat.

— A Mr. Bates of Kentucky, twenty years of age, is seven feet eleven inches high and still growing. He is the "baby" of eleven children.

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Books Published!

We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay more liberal commission than any other company.

Our Books do not pass through the hands of General Agents (as most do), all other subscription works do, therefore we are enabled to give our canvassers the extra per cent which is usually allowed to General Agents. Inexperienced canvassers will see the advantages of dealing directly with the publishers.

Our catalogue embraces the most popular works on all subjects of importance, and is selling rapidly, both North and South.

Old agents, and all others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our works with those of other publishers. Address, NATIONAL PUBLISHING CO., 118 Water St., Boston, Mass.

Book Agents Wanted.

Now ready for delivery, a great National work—not political or sectional, (no rebellion in it,)—its standard, with never-loss in interest, has no competition; eight distinguished literary men were employed in writing it; time from commencement to close, over four years; is endorsed and highly commended by the most celebrated literary and scientific men in the country, including twenty Presidents of Colleges; is equally interesting and valuable to all classes, is worth more than its weight in gold to every family or young man. We have sold books faster than any one Subscription Publisher, yet our agents complain we taken for this work, per Agents sent out, than any book we ever sold. In addition to the large commission, we pay freights, have no books to sell but personal expenses; also a bonus to Agents of fifty dollars for every Canvasser they start who sells one hundred copies. Agents wanted in successful Agents wanted; others need not apply. For full description and terms, address

L. STEBBINS, Hartford, Ct.

Choice Imported Books.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well finished, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

NOW OPEN!
MONTGOMERY'S
MUSIC, PICTURE FRAME, AND VARIETY STORE.
101-2 Daniel Street,
(Over Miss Beal's Dry Goods Store.)

The Subscriber, formerly with S. E. COB, would inform his friends and former patrons of Mr. Cobb, that he has opened a store of a similar kind for this trade in Piano Fortes, Organs, Melodeons, Stools, Covers, Sheet Music, Flutinas, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.

PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.

PICTURE FRAMES on hand and made to order.

LAMPS altered and repaired.

Having made arrangements with Prof. W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Gemt & Co. The superior merits of the former have long been established to meet any comments. Of the latter, suffice it to say that the sale of over fifty of them within the last five years by Mr. Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.

Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof. Day. Also, the sale of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman. D. H. MONTGOMERY.

Daily Morning Chronicle

VOL. XXIX. PORTSMOUTH, N. H. THURSDAY, DECEMBER 13, 1866 No. 139.

The Chronicle.

☞ A coppery Washington special says there is some reason to believe that Mr. Seward will retire from the Cabinet at an early day, on account of his extreme age, his feeble health, and the shattered state of his constitution. He has not been the same man, since the death of his favorite daughter. The loss which the country would sustain in his retirement from the Cabinet would be very great, if it were not for the fact that he will probably be succeeded by Hon. Reverdy Johnson of Maryland.

☞ A San Francisco paper says that Miss Alice Kingsbury, the actress, went to the Baptist Church in that city recently, and volunteered to teach a class in the Sunday School. The offer was accepted, and the superintendent complimented the lady on the manner in which she performed the duties. He, however, when lecturing to the children on their duties, warned them to shun the theatre, for it was a "lighthouse of hell, and all actors and actresses were emissaries of the devil." Miss Kingsbury got up and stated that she was an actress and a member of the Church, and in a short speech defended the profession.

— The New Orleans dailies are bitterly denouncing the Ben Butler Clubs which have been recently organized in all parts of the city.

— It is announced that the people of Switzerland are anxious for a navy. They will probably find some difficulty in getting a seaport for it; and even then can scarcely hope to complete with the expensive navies of their neighbors.

— No less than two thousand men are digging at the newly discovered mines near Pino Alto, in New Mexico, and are said to be well paid. A lucky fellow dug up one chunk valued at over two hundred dollars, and the rush to the mines from lower New Mexico was great.

— The J. Monroe Taylor Gold Medal Soap has acquired preeminence over all other soaps, in point of economy and utility, from the wash-tub to the printer's devil. It is without doubt the best soap made; it has many inferior imitations, but no rivals, and can be safely said to be ahead of all others. 24

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES
These Drops are a scientifically compounded fluid preparation, and better than any Pills, Bras, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles have been sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions attending them may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature. Each bottle will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. Price $1.50.
Prepared by DR. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. Price $1.50 per bottle.
Sold by Druggists everywhere.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with a remedy, which, in the twelve years first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by secret habits, a habit which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate. Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females.
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1835, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charge Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Morning Chronicle.

Portsmouth N. H.

THURSDAY, DECEMBER 13, 1866.

CONGRESS is moving steadily and strongly. On Tuesday, Dec. 11, by the strong vote of 132 to 31, the House passed a bill which will exclude representatives from the rebel States from having their names placed on the roll of members from which the House is originally organized; and a bill was introduced, preventing the counting of electoral votes from those States until they have been legally reconstructed.

In the SENATE, Female suffrage was introduced by Senator Cowan, who advocated it in two speeches, presenting in favor of it the various arguments used in favor of enfranchising the negroes of the District. His personal allusions to some of the Senators who have advocated universal suffrage were very amusing, and one who is a bridegroom was of course the subject of pleasantry, as he asserted that there should be no taxation without representation.

Several Republican Senators expressed themselves favorably toward female suffrage, but averse to having that question introduced to defeat the enfranchisement of the loyal colored men of the District.

Perley says, "this introduction of the gentle sex into the arena of politics has delayed the passage of the Suffrage bill one day—that's all."

In the HOUSE Mr. Stevens introduced a bill, from the Committee on Appropriations, making an appropriation of $250,000 to defray the expenses of following prosecuting claims against the rebel government in England and in France.

A visit by Mr. Seward to Mr. Stevens to explain the necessity for this appropriation gave rise to the rumor that the Premier desired to return into the Republican party.

INTERESTING ITEMS FROM ROME, Dec. 11.—This morning the French troops evacuated the Castle of St. Angelo. The French flag was run down and the Pontifical colors hoisted. The 29th regiment has left for France. The Pope will stay at Civita Vecchia ten days.

The man who gave the information which led to the arrest of Surratt, is a French Canadian, named St Marie. He was formerly a Union soldier, and afterward served in the Papal Zouaves. Both he and Surratt were in love with the same lady in Washington, and St. Marie betrayed Surratt through jealousy. He says Surratt told him that Mr. Lincoln's assassination was a preconcerted plot, that he (Surratt) carried direct from Jeff. Davis' Cabinet at Richmond the principal details of the plot to Washington, and that the assassination was not only in accordance with the desires of Davis' Cabinet, but was done by their directions and orders.

☞ The effect of the bill offered by Senator Edmunds, regulating the tenure of office, is to give the Senate a power in dismissals as well as appointments. The President may, in the recess of the Senate, suspend any officer guilty of official misconduct, or legally disqualified and incapable; but he is bound to report the fact to the Senate for its advice within twenty days after its first day of meeting thereafter.—If the Senate dissents, the suspended officer shall resume his duties. In much the same manner the President may fill vacancies by death or resignation. The bill, as Mr. Edmunds took the trouble to explain, was not conceived in hostility to the present Administration, but as a proper safeguard of republican liberty at this or any other time.

☞ A Washington dispatch says Judge Able, who holds an official position in Mississippi, met Dr. Sidney at the same State, in Capitol square and addressed the Doctor as follows: "You are a renegade Southerner. What are you doing here." The response was a knock down blow. A challenge from Judge Able followed. They were to fight with rifles, on the Virginia shore, but the matter was subsequently arranged. [*Query*—Had they been drinking?]

☞ It is said at Washington, that Surratt is coming there direct, to be tried; also that he is to be pardoned, if he will turn U. S. evidence, and testify against the other conspirators. Also, that there is some delay or hitch about declaring the iron clad oath unconstitutional. Somebody has stolen a good horse from Gen. Grant.

☞ "The bird of Minerva" seems to be catching lately. An owl was caught in Norway, Me., a few evenings since, while engaged in a fight with a gander, and encumbered by a steel trap attached to one foot. An owl was recently caught in Sunderland, Mass., whose wings measured four feet three inches from tip to tip.

☞ It is reported that the physicians of the Empress Carlotta not only fear the absolute loss of her reason, but have apprehensions of her life.

☞ The people of Buffalo, N. Y., have received the snow that seemed about to fall on us.

NEW HAMPSHIRE ITEMS.

—— There are 2,103 Odd Fellows in this State.

—— John C. Young of Concord, was seriously injured at Portland on Tuesday, of last week, while engaged in putting up the iron front of a store.

—— The Shakers of Canterbury, raised a potato the present year, which had a striking resemblance to the head and shoulders of a human being.

—— At Windham, on the 1st inst, a writer says, the dandelions were in full blossom, the hazel bushes were leaving out for the second time, and the flies were as troublesome as last summer, in that that town.—[The change in the weather on the 10th, made the flies "leave out" here.]

—— The Democratic State Central Committee have issued a call for a Convention, for nomination of State officers, at Eagle Hall, Concord, Wednesday, January 16, 1867. The Committee invite "all friends of the Constitution and the restoration of the Union of all the States under that sacred compact," to participate in the primary meetings held for the election of delegates to the Convention.

☞ At New York city, the testimony in the case of Devlin, Felton and Levan, charged with branding liquors on which, it is alleged, no taxes were paid, was of a very direct and positive character against the defendants. The coroner's jury in the case of the nine persons smothered in the Division street tenement house found that the fire was the work of an incendiary.

☞ Mr. Orlando Libby fell through the skylight of High Street Church in Portland on Monday, struck on a heavy arm chair, which was broken in pieces, and was found dead some time after. He was 35 years of age, and leaves a widow.

☞ Another big robbery of bonds in New York City, in open daylight and in a public office, shows skill in the robbers, and we think carelessness in the officers and clerks of the office that was robbed.

☞ Snow at Washington, Wednesday.

— New Zealand has 1000 miles of telegraph lines in operation.

— The last case of jealousy is that of a lady who discarded her lover, a sea captain, because he hugged the shore.

— The *Gazette de France* is the oldest newspaper extant. It is now in its two hundred and thirty-sixth year.

— The Beethoven Society of Yale College have been forbidden by the Faculty to give any more concerts.

— A girl at Mineral Point, Wisconsin, drank her coffee scalding hot, and it killed her.

— The Tribune has engaged Mr. Dickens to write a novel for its weekly edition—paying for it $25,000. Carlyle has also been engaged to contribute a single article, to cover a page of the daily edition, for which he received the sum of one hundred and fifty guineas.

— At a meeting of the New York Farmers' Club, last week, a gentleman whose name the reporters refrained from immortalizing, volunteered the exhilarating statement "that thousands of people die in the United States yearly from the use of fried salt pork and buckwheat cakes."

— A case of prolonged lethargy has occurred near Yvetot, in France. A young man aged twenty has now been sleeping for about three weeks. Gruel and a small quantity of wine are passed down his throat every day. His respiration and pulse are regular. He is said to have lain in a similar state for a fortnight three years back.

— Miss Glooma Jennings, only heiress to the Duke of Marlborough's estate of one hundred million pounds, ($500,000,000!) leaves Alabama next month for England to claim her property, Sam Jennings of Connecticut, and the other heirs, having transferred their claims to her. [If she gets it she should not be gloomy longer.]

— General Heningsen is now making a living by distilling whisky in Richmond. If there ever was a soldier of fortune born to bad luck, Heningsen is the man. He has been on the losing side in no less than four wars—the Carlist war in Spain, the Hungarian war, the Nicaraguan war, and the late war in this country—and now he has gone into the whisky business.

— While the Shenandoah was on the North Pacific in 1865 she burned the whale ship Harvest, belonging to the house of Pfluger Brothers of Honolulu, and sailing under the Hawaiian flag. A statement of the affair was sent to London, and the bill for the ship was promptly paid by the British Government. This would seem to be an indirect acknowledgement that the Shenandoah was an English pirate ship rather than rebel cruiser.

— Some years ago an old woman named Brown, the wife of a Deal boatman, had charge and kept the key of the Deal theatre. The manager, calling upon her preparatory to commencing his summer season, asked: "What sort of a winter have you passed, Mrs. Brown?" "Dreadful, sir," she replied. "If a kind providence had not sent us two or three wrecks, I don't know what would have become of us."

AN HONORABLE REPRIMAND.—General Whittlesey, Assistant Commissioner of the Freedmen's Bureau for North Carolina, has been found guilty of a technical offense against military discipline, and sentenced by the Court to be reprimanded by his superior officer. General Howard reprimands as follows:

"I have to say that the findings and sentence of the school specification of charge No. 1 are deemed sufficient censure. A life of integrity, devoted to the welfare of his fellow-man, an army record above reproach, and conduct that calls from the Court such an expression as to his fidelity to the Government and his honesty and justice to freedmen under his charge, make me join with the Court in the belief that some inadvertence to the gravity of the facts reported to him occasioned his neglect to order a prompt and thorough examination.—To the extent of the above implication I do hereby reprimand Brevet Brig. Gen. Eliphalet Whittlesey. On the receipt of this order, General E. Whittlesey will report by letter to the Commissioner for reassignment to duty.

"We need only add (says the Tribune) that the proceedings against Gen. Whittlesey were based on the partisan and long since discredited report of Messrs. Steedman and Fullerton, and that a Court "organized to convict" could find no charge nor render any verdict against Gen. Whittlesey which weighs against the emphatic indorsement of Gen. Howard or his own honorable reputation." S. and F. were only Johnson tools, and poor tools at that. Whittlesey is a good officer.

☞ In the U. S. House of Representatives, Monday, Dec. 10, Mr. Blaine made a speech in Committee of the Whole on the President's Message, in which he said: "The popular elections of 1866 have decided that the lately rebellious States shall not be re-admitted to the privilege of representation in Congress on any less stringent condition than the adoption of the pending Constitutional Amendment. But those elections have not determined that the privilege of representation shall be given to those States as an immediate consequence of adopting the Amendment. In that respect the decision of the loyal people has been rather negative than affirmative—expressive of the least that would be accepted, rather than indicative of the most that might be demanded. * * *

"The President set the example by exacting three highly important concessions from those States as *his* basis of reconstruction—Congress followed by imposing four other conditions as *its* basis of reconstruction, if you please, and now the people have spoken demanding one additional condition—*the absolute equality of American citizens in civil and political rights, without regard to caste, color or creed.*

"The objection in the popular mind of the loyal States to the Constitutional Amendment as a basis of final and lasting adjustment is, really, not so much as to what it *will effect*, but to what it *will not effect*. And among the objects of prime importance which it will not effect is the absolute protection of the two classes in the South to whom the government owes the most, viz: the loyal white men and the loyal black men. * * * * * * * *

"Among the most solemn duties of a government, is the protection of those citizens who, under great temptation, and amid great perils, maintain their faith and their loyalty. The obligation of the Federal government to protect the loyalists of the South is supreme, and we must take all needful means to assure their protection.—Among the most needful is the gift of free suffrage, and that must be guaranteed.—There is no protection you can extend to a man so effective and conclusive as the power to protect himself. And in assuring protection to the the loyal citizen, you assure permanency to the government, so that the bestowal of suffrage is not merely the discharge of a personal obligation towards those who are enfranchised, but it is the most far-sighted provision against social disorder, the surest guaranty for peace, prosperity and public justice."

☞ Bishop Hopkins, who has just made a tour of the South, says he did not hear a disloyal word from a white man during the whole trip, but the Bishop is not regarded a good judge of what is loyal and what the opposite,—inasmuch as his own copperhead talk during the war was offensive to the loyal men in his own church, and rendered him an object of ridicule for the outsiders.

☞ Senator Wade says in a letter to the American Equal Rights Association: "I am now, and ever have been, the advocate of equal and impartial suffrage to all citizens of the United States who have arrived at the age of twenty-one years, who are of sound mind, and who have not disqualified themselves by the commission of any offense, without any distinction of race, color or *sex*."

☞ The N. Y. Herald's Raleigh, N. C., correspondence says the Regulators in the State are at work robbing Yankees and negroes. They have burned a gin house belong to a Northerner. Another Northerner was shot and negroes are shot and hung nearly every day.

Business Notices.

☞ Dr. Stevens's Office, after being closed several weeks for alteration and improvements, is now open again for business. With the changes that have been made, he is confident he now has the most convenient and pleasant suit of rooms ever used for Dental purposes.

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhoea, dysentery, cholera, fever and ague, and the host of diseases, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and and extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it its healing influences more potent than those of the spices of "Araby the blest." We are informed by our principal druggists, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.* d1—daw 1m

AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF

Diphtheria,

Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

☞ For five years the life drops have been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is but one only a specimen of the many letters we are daily receiving:

"BOSTON, Mass.

"ORRIN SKINNER & Co.—*Sirs*:—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let my friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."

CHARLESTOWN, MASS., Nov. 23, 1865.

Messrs. BURKHOLDER & ROGERS, Boston, Mass.:

I feel it a duty I owe to you, and to such of the community as are suffering as I have suffered, to make known through the medium of your advertisements the cure that, through the blessing of God, you have wrought upon me by using SMOLANDER'S BUCHU. I had *suffered over one year with Kidney Disease, so that I could hardly walk.* I took four bottles of *Smolander's Buchu*, and it *cured me.* WILLIAM M. MELLEN,

ALLCOCK'S POROUS PLASTERS.

LAME BACK.

New York, Nov. 23, 1859.

T. ALLCOCK & Co.—Gentlemen: I lately suffered severely from a weakness in my back.—Having heard your plasters much recommended for cases of this kind, I procured one, and the result was all I could desire. A single plaster cured me in a week. Yours respectfully,
J. G. BRIGGS, Proprietor of Brandreth House.

CURE OF CRICK IN THE BACK AND LUMBAGO.

Lyons, N. Y., July 4, 1862.

Messrs. ALLCOCK & Co.: Please send me a dollar's worth of your plasters. They have cured me of a crick in my back, which has troubled me for some time, and now my father is going to try them for difficulty about his heart,
L. H. SHERWOOD.

Dr. Green, No. 868 Broadway, New York, informs us he sold, on Monday, June 22d, 1862, two plasters to a young woman suffering very severely from lumbago. On Thursday she called to get two more for a friend, and then stated that the two she had purchased on Monday had relieved her immediately after putting them on, and CURED HER IN TWO DAYS of a most distressing pain in her back and loins.

Sold by all Druggists. n29—dawlm

Local.

☞ The best, perhaps we might say the most, of our subscribers, have long ago paid up to Jan. 1st, 1867, or later; and several have already commenced to instruct us how to write 1868. We shall try and bear up under all inflictions of this sort which may come upon us—and while our liberal patronage would amply warrant us in making some long desired and designed improvements in our paper, we are like other folks, and when business drives, of course we are too busy to do it, and when "times are dull" (though we must say we never yet knew by experience what that means,) why nobody feels like making much outlay then. So under a continual press of business, we have delayed from year to year, but we hope to double the size of our Weekly paper, without increasing the price, and to make other changes in that and the Daily, during the coming year.

☞ There are, we believe, no set choirs at either the North or Methodist churches in this city, at the present time—both societies enjoying congregational singing. Well, in accordance with the prevailing fashion, many churches have long been preparing themselves to do without singing, by employing a quartet, which to our mind is "next to nothing" for *church* music, however good singing it may be for other purposes. Most of other churches employ quartets. Mr. Pearson is organist at the North, and at least three of his pupils officiate acceptably at other church organs in the city.

☞ We understand that Mr. Thos. P. Moses, of this city, the well known musician and artist, who has recently returned home here after an absence in the South of several years—is soon to return thither, to take charge of the musical department of a new seminary in Georgia. We hear that some of his friends propose to tender him a complimentary benefit concert, before he leaves. Well, no man ever labored more diligently than he in times past, for the dissemination of a taste for music and the beautiful, and no doubt hosts of his old friends would be glad to meet him in the concert and lecture room once more.

POLICE COURT, Dec. 12. — Stephen Conner was arraigned on a charge of stealing a coat and pistol, but was considered not guilty and was discharged.

The House of Correction received a recruit for three months, in the shape of a common drunkard, who was also ordered to pay $4.80 costs.

Michael Buckley, for assault on Owen Henword, was ordered to give $50 bonds for his appearance on the 24th inst, to which time the case was continued.

F. B. Johnson *et als.*, for an assault on Michael Buckley, were ordered to give $300 bonds for their appearance at the April term of the S. J. Court. Seven witnesses were ordered to recognize in $50 each for their appearance at same time.—The facts of this case are pretty generally known. City Marshal Johnson met Buckly on Water street, and undertook to arrest him on the warrant for assault on Henword. Buckly squared off at the Marshal and received a heavy blow in return. Assistant Marshal Pickering came to Mr. Johnson's assistance, and Buckley agreed to go with the officers if permitted to walk, but on being allowed to do so, made hardly better time than a snail. They finally reached Court street, where Buckley made another fight to avoid being put in a wagon or having irons put upon him. Eventually, Buckly was placed in the Station House, and the lovers of "law and order" made an outcry so great that the officers making the arrest were at once suspended. At the hearing before the Committee on Police, the next day, they were as promptly reinstated. At the examination before Judge Odell to-day the officers offered no defence, preferring to let the case go at once before a jury.

☞ The Christmas Sale at the Court House, the past two evenings, was a very agreeable affair, and no doubt netted a considerable sum for the object of the ladies concerned in it—which report says, is to procure funds to aid in the erection of a new Vestry for the North Parish, or to furnish one when the gentlemen of the Society get ready to build it, which may be after they talked of it for another ten years, or when the present old hulk falls down on their heads—or perhaps after we get our new City Hall. We don't know what such poor corporations would do, if the ladies,—bless 'em! were not more enterprising and devoted than most of the men.

☞ Mr. John C. Philbrick, widely and favorably known as landlord at Rye Beach, —formerly of the popular Atlantic House, and now of the new Philbrick's Hotel,—has leased the large and elegant double tenement in Col. Pierce's new block on Congress street, and we understand will accommodate a few boarders. The premises are centrally located, finished and furnished in the best manner, and supplied with all the modern improvements which make home comfortable—and parties desiring board, will be fortunate indeed to secure such quarters.

INFANTICIDE.—Rumors of a horrible crime at the south part of the city having reached the city authorities, on Wednesday afternoon City Marshal Johnson, assisted by Detective Kent, undertook to trace out the crime and the perpetrators thereof. Acting upon the vague rumors that were in their possession, they finally prevailed upon a man named, Charles Johnson to reveal to them the hiding place of the victim of the unnatural murder that it was supposed had been committed. This was the cellar of a house on Mount Vernon street, occupied by Johnson, where, at the depth of about two feet, the body of a female infant was found buried. Dr. Curtis has made examination of the corpse, finding finger marks upon the neck and bruises upon the head, and the officers have discovered that it was first choked, and then smothered in a feather bed, in a closet.

The mother of the child is a sister-in-law of the Charles Johnson mentioned above, named Susan Fisher, and unmarried. At present she lies in a critical state, and it is thought she cannot survive. Mayor Bailey used every endeavor to have this matter sifted to the bottom, and shew the greatest consideration to the unfortunate mother, providing her with a nurse and ministering to her wants.

Johnson has been arrested to await an examination. An inquest on the body of the child will be held to-day.

☞ It gives us pleasure to publish the card of the Mechanics' Association, thanking the family of the late Mr. John Smith, for a gift of thirty-five dollars—it being really their declination to receive the usual funeral benefit. This we understand is done in accordance with the request of the worthy brother now deceased, as well as the preference of his family, in the matter; and although not large in amount in each case, yet if the example be followed by other families who do not need the benefit, it would each year cause quite an addition to the funds of one of our most useful associations. The only other case like it we believe was that of the family of the late Mr. Langley Boardman; though there have been many others who might well have been expected to be *at least* equally as liberal.

☞ Mr. P. A. Butler, the well known artist in fresco, formerly resident in this city, is now here to ornament the new Congress Hall. Besides being a very nice painter, Mr. Butler is one of the purest tenor singers we ever had here, and many citizens would delight to hear him in concert.

☞ Mr. William Smith, who died in this city recently, was one of the twelve men from Portsmouth who belonged to the garrison of Fort McClary in the war of 1812. Mr. William Isley is the last survivor.

DR. SCHENCK'S
NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street**, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part; also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen: Mandrake Pills 25 cents.

Ayer's Cathartic Pills

ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous disease. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agent below named is pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating every system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER's, and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o29—2m

INTERESTING TO RAILROAD TRAVELLERS.—The following "rules of the road" are based upon legal decisions, and ought to be universally known. The Courts have decided that applicants for tickets on railroads can be ejected from the cars if they do not offer the exact amount of their fare. Conductors are not bound to make change. All railroad tickets are good until used, and conditions "good for this day only" are of no account. Passengers who lose their tickets can be ejected from the cars unless they purchase a second one. Passengers are bound to observe decorum in the cars, and are obliged to comply with all reasonable demands to show their tickets. Standing on the platform, or otherwise violating the rules of the company, renders a person liable to be put off the train. No person has a right to monopolize more seats than he has paid for; and any article left in the seat while the owner is temporarily absent, entitles him to his seat on his return.

IMPEACHMENT.—The Washington correspondent of the Cincinnati *Commercial*, who, a week ago, thought there was nothing in the impeachment project, now says: "Repeated conversations on the subject have changed my opinion, and led me to this conclusion, That Andrew Johnson would be turned out of his office before the first of January if it were not for the restraining influence that capitalists naturally exert over such a matter. Capital is timid and conservative always, and never more so than just now, when it is feared, and rightly, too, that to impeach Johnson would be to shake the confidence of money kings abroad in the stability of the Government, and to impair the value of American securities on both sides of the Atlantic. If there were no Five-twenties there would be no Andrew Johnson at the White House three months hence. That's certain: and if A. J. don't believe it, he is not posted."

☞ The stage conductor on the line north of San Antonio, Texas, informs the Herald that on his last trip he passed through the advancing host of grasshoppers, which extended for sixty miles. So numberless were they that the air was literally filled with them, and the ground covered as far as the eye could reach, in all directions. The vanguard of this vast army at Swanson Bad already reached the neighborhood of San Antonio.

The Old Established Hospital,
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually.

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private disease, at his 'Old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the old World,) of obtaining the system as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and sure cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles, Inflammation Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blies, Ulcers, Abscesses, and all other diseases of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases amongst Thousands of Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

☞ DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures: Dr. Teller's great work on the Married or those contemplating marriage—300 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which he treats.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichoff's Italian Female Monthly Pills. The sale of more than 50,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other pill before offered. Stopping irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid using Pills, as the enclosed directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) one box of Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.

N. B.—No students or boys employed. Notice his address all letters to

NEW ADVERTISEMENTS.

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Books Published!

We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other company. Our Books do not pass through the hands of General Agents (as nearly all other subscription works do), therefore we are enabled to give our canvassers the extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.

Our series embraces the most popular works on all subjects of importance, and is selling rapidly, both North and South.

Old agents, and others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our works with those of other publishers. Address, NATIONAL PUBLISHING CO., 116 Water St., Boston, Mass.

Book Agents Wanted.

Now ready for delivery, a great National work—not political or sectional, (no rebellion in it,)—is standing neither for nor in interest; has no competition; eight distinguished literary men were employed in writing it; time from commencement to close, occupied over twenty years; illustrated and highly commended by the most celebrated literary and scientific men in the country, including over twenty Presidents of Colleges; is equally interesting and useful to the educated; is worth more than its weight in gold to every family or young man. We have sold books faster than any one publishing house, yet more subscribers are taken for this work, per Agents sent out, than any book we ever sold. In addition to the largest commission, we pay freight, board, hotel bills, but personal expenses; also a bonus to Agents of fifty dollars for every Canvasser they start who sells one hundred copies. Experienced and successful Agents wanted; others need not apply. For full description and terms, address

L. STEBBINS, Hartford, Ct.

Choice Imported Books.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of the Stove, are subjoined, for convenient reference:

MUSIC, PICTURE FRAME, AND VARIETY STORE,

10 1-2 Daniel Street,
(Over Miss Bell's Dry Goods Store.)

The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Sole Covers, Sheet Music, Flutinas, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.

PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.

PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.

Having made arrangements with Prof. W. KEAY, I now have more ready to tune in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the latter Piano have been established to heed any comments. Of the latter suffice it to say that the sale of over fifty pianos in this city for five years by Mr Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.

Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof. Keay. Also, the latest sheet music and music adapted to the wants of the musical community, will receive a just consideration by the same gentleman. D. H. MONTGOMERY.

FRIDAY, DECEMBER 14, 1866.

CITY ELECTION IN MANCHESTER.—On Tuesday, Dec. 11, Capt. Joseph B. Clark was chosen Mayor of Manchester, having 1216 votes. Mr. Harrington, the candidate of the democratic party,—being a very popular man, and having distinguished himself by stopping the City Bell when some one tolled it for old John Brown,—received 782, leaving the republican party in a majority of over 500.

Mayor Hosley was elected last year, as a Republican, by the aid of Democratic votes—and became a Johnsonian by swinging round the circle, but did not happen to swing into the Post Office. It was understood he would have the democratic support for re-election,—but on Monday he saw the tide against him, and declined.—His party then took up Mr. Harrington, and did not elect him, whereat the Mirror is much pleased; but the Union says, "The city election won't bear talking about,' and refuses to be comforted; nevertheless it does talk about it, half a column—and attributes the defeat "to the anomalous relations which the Democratic party sustains to the national administration—so as to share all its odium, while the Radicals harvest all the advantages—so that full 500 of our men wouldn't vote at all,—and about as many of theirs voted, that didn't want to!" This latter statement however, is very strange; and indicates the perfection of party organization—*if true.*

The Union illustrates the case by referring to Portsmouth, and says, "There our friends, voting under the conviction that the administration was trying to help them, *almost* carried the city—while here, under gross insults from the administration—we like to have lost Ward Five." [Truly, the Navy Yard crushing machine is a great institution,—but alas, there's no Navy Yard at Manchester.]

The Union complains that Mayor Hosley "was fooled and trifled with," about the Post Office, and adds: "Mr. Johnson is a famous Moses. We read that he once promised to lead the niggers through the red sea, and then he left them to perish in the middle. Perhaps he would like to perform the same office for the democratic party. * * * Let us indulge in no reproaches among ourselves, but wait till the fever turns that is now consuming the nation's life."

Excellent advice—patience in adversity,—do nothing rashly.

☞ The N. Y. Times' Washington special says Gen. Sheridan telegraphs Gen. Grant that the act of Gen. Sedgwick had given rise to no complications. Escobedo had asked him (Sheridan) not to hold Gen. Sedgwick accountable for it. The Canales faction having been submerged, Gen. Sheridan says he was enabled to release Ortega upon Escobedo promising to look out for him. There is not a city or State in Mexico which takes issue with the Juarez Government.

NEW HAMPSHIRE ITEMS.

—— J. N. Clark, from Exeter, who has been for some time past the efficient Clerk of the Senate Committee on Claims, has resigned that position.

MAXIMILLIAN'S MOVEMENTS.—City of Mexico correspondence of the 29th ult. says Maximillian was last reported at Puebla and was expected at the capital every day.

☞ Mr. Chas. Minot, formerly Supt. of Boston & Maine Railroad, and more recently of a road in New York, died on Monday of paralysis of the brain, at Somerville, Mass.

☞ The police in Portland are diligently at work making seizures of liquors. A Boston police officer accompanied them the other day to learn how they proceeded.

CHOLERA.—The Bermuda Gazette says that from 8 to 12 persons die daily at St Thomas from cholera.

— Maj. Gen. Dix has been confirmed by the Senate as Minister to France.

— A butcher in England has become heir to a baronetcy and a fat estate, and it said he is now bothered to know whether to call himself Sir Lion or the Baron of Beef.

— In New York and Connecticut the woolen mills are adopting the eight hour system. Some of the operatives who have favored that "reform," don't like it when it reduces their pay.

— The Louisville Journal has been printed thirty-six years and the Boston Post thirty-four, and the editors who controled their columns at their commencement, occupy the same position to-day.

— A. & P. Coburn of Skowhegan, Me. own 400,000 acres of land on the Kennebec river, which is equal to four townships.—This firm will cut 25,000,000 feet of logs this winter — employing 228 oxen, 152 horses and 860 men.

A STATE TEMPERANCE CONVENTION met in Concord on Wednesday. The delegates and friends of this good cause came in response to a call issued under the directions of the New Hampshire Committee appointed for this purpose at the New England Temperance Convention held in Boston last autumn. The call was so earnest and liberal in its tone and language that it brought together a large number of our educated, active and influential men, who went irrespective of party or sect. The delegates from temperance societies, churches and sabbath schools, in this city were: Rev. James Pike and A. C. Manson; Hon. Marcellus Bufford; and Messrs. Joshua Brooks, F. W. Rogers, J. M. Davis, K. J. Stevens, Wm. R. Rice, John H. Lowd, Ezra A. Stevens, and Charles Robinson.

Prayer was offered by Rev. Asa D. Smith, D. D., President of Dartmouth College.

Rev. Nathaniel Bouton, D.D., of Concord, was chosen temporary chairman, and made a very appropriate address of welcome to the delegates.

The Convention was then permanently organized by choosing the following officers: President, Hon. Samuel Upton, Manchester. Vice Presidents, Hon. Jaams Pike, Portsmouth; Prof. Thomas Tash, Dover; Rev. L. D. Barrows, D. D., Sanbornton Bridge; Wm. H. Hurd, Esq., Sandwich; Hon. Mason W. Tappan, Bradford; Rev. C. W. Wallace, D. D., Manchester; S. W. Buffum, Esq., Winchester; Dr. Isaac A. Reed, Newport; President Smith of Hanover, and Rev. D. J. Smith of Lancaster. Secretaries, Dr. Gallinger of Concord, Rev. *J. S. Batchelder of Hinsdale* and Rev. R. S. Stubbs of Nashua.

The various Committees were then appointed. That on Resolutions consisted of Rev. Dr. Barrows, President Smith and Dr. Gallinger; that on the adoption of a Constitution of Rev. D. C. Babcock of Great Falls, Rev. Rowland Connor of Concord, and Rev. Dr. Barrows.

Judge Upton then read a very interesting paper entitled "The History of Temperance Legislation in New Hampshire, particularly the present Prohibitory Law and its operations." After speaking of former legislation in relation to the temperance cause, and of the License Law of 1849, he proceeded to discuss in a thorough manner the Prohibitory Law of 1855, which is now in operation in this State. After eleven years of trial he considered the law just ready for thorough operation.

A Constitution and Resolutions were adopted:—and proceedings are to be published over the State in pamphlet form.

WONDERFUL PRESENCE OF MIND OF A CHILD.—Sunday before last Mr. Philip Greeley of Chicago, son of the late Deacon Greeley of Boston, went with his wife to church, leaving at home his little boy, nine years of age, and two other children, severally five years and one year old, with their nurse. Shortly after his parents had left, the little boy discovered that the house was on fire, and instead of being overcome by terror, as most youngsters of his age would have been, he calmly directed the manner of escape of his little brother, sister and nurse, which having been effected, he started off on a run to the church, which he entered and marched straight up the broad aisle, where he caught the eye of the preacher. "Mr. Collier," said the little fellow, "is my father here? If he is, tell him that our house is all on fire and that he must come home as soon as he can." The father, and the congregation as well, started instantly for the fire and saved a considerable portion of the furniture, although the house was seriously damaged. Young Greeley is manifestly a youth of rare description.

INSTALLATION AT RAYMOND.—Rev. E. D. Chapman, late of Sinclairville, N. Y., was installed pastor of the Cong'l church in Raymond, 6th inst. Sermon by Rev. C. W. Wallace; Installing Prayer by J. H. Stearns; Charge to the Pastor by Rev. L. Armsby; Fellowship of the Churches by Rev. J. L. Tomlinson; Charge to the People by Rev. L. S. Parker.

INTERESTING FACT.— The Gold Hill (Cal.) News says the theory of an aged German physician that life is greatly prolonged by sleeping with the head to the North, finds confirmation in the fact that most American politicians who have for scores of years laid their heads to the South, are very dead.

MISSOURI.—The Tribune's St. Louis dispatch says there was great occasion for Governor Fletcher's proclamation calling for troops to suppress bushwackers and robbers. Matters were carried to such a pitch in certain localities that Union men were actually fleeing for their lives.

☞ In Boston, house No. 15 Temple place, owned by Thomas C. Amory, is to be torn down to make way for a carpet warehouse. The new building will cover the entire lot of 26 by 100 feet. Seventy-five thousand dollars has been offered by a business firm for the Rowe-street Baptist church.

IN THE U. S. SENATE, Dec. 12.—Mr. Wilson gave notice that he should introduce a bill to continue in force the Freedmen's Bureau, and to amend the act establishing it.

A resolution was adopted, asking the President to inform the Senate whether any person, appointed to any office required by law to be filled by the consent of the Senate, commissioned during the recess of the Senate previous to the assembling of the present Congress, had been continued in such office since the end of the session without the submission of the name to the Senate for confirmation, and particularly whether a surveyor or naval officer of the port of Philadelphia has been so continued in office without the consent of the Senate, and if so, whether he received compensation therefor. Adopted.

The bill to regulate suffrage in the District of Columbia was taken up. The question was on Mr. Cowan's amendment to extend the franchise to females,—which he offered merely to embarass the main question.

In the debate, Mr. Buckelew would vote for the amendment to show his sense of its justice to women, but said it would pour into the ballot box a large number of votes subject to influence, either social or pecuniary. He was equally opposed to the extension of suffrage to negroes and women. [What a keen sense of justice Mr. B. has.]

The amendment was rejected, 9 yeas to 37 nays.

Mr. Saulsbury said he never would vote for negro suffrage. [So we should *think*, but he goes strong for the drunken suffrage.]

The House debated the bill in relation to appointments in the civil service, and a disposition was manifested not to proceed to such extreme lengths in curtailing the power of the President as some members have proposed.

Mr. Blaine of Maine submitted a proposition for the general government to give up the right of taxing the National Banks, assigning the same to the several loyal States.

A NEWLY MARRIED COUPLE MEET WITH A VIOLENT DEATH.—A short time since Mr. Wm. B. Rugg, a young man thirty years of age, reached Milwaukie from New Hampshire, with the intention of settling down as a farmer in the interior of the State. On Thursday, the 29th ult., he was married to an estimable young lady living near that city. Having purchased a span of fine horses, the couple started on Saturday for Oshkosh, on a wedding tour, intending at the same time to select their future home. Full of bright expectations of the future, the young couple chatted and laughed as they sped over the road, never fearing danger of any sort. When about fifteen miles from Milwaukie, however, the horses took fright and ran furiously down the road, throwing both Mr. Rugg and his bride from the carriage, almost instantly killing Mr. Rugg and fatally injuring his bride.

THAD STEVENS said, in a late debate in Congress:

I am aware that the traitors in the South, if tried under our existing Constitution and laws, will—not one of them—be convicted. I should never attempt to try them for treason. I would try them as belligerents, under the law of nations and the laws of war. Now, although I would not discourage trials for treasons, I mention this to show that I am convinced that none of these traitors can ever be convicted of treason under our present Constitution and laws. And yet, I would rather let every man of them run unpunished forever, than to make a law now by which they could be punished. I think our Government would be endangered in its future existence, in its sense of justice, in its character before the world, by conduct of that kind, more than it would by enduring the evil

Yet the man who makes this calm, deliberate, lawyer-like and statesman-like speech has been denounced by President Johnson and his echoes; and many well-meaning but timid people have been afraid of his radicalism.

☞ Mr. Le Blond seems to have spoken the general Democratic sentiment when, in his speech in Congress, he refused to shoulder Andrew Johnson. The New York Leader, the organ of Tammany Hall, uses the following plain language on the same subject: "We are at length relieved of the dead weight of Andrew Johnson, whose weak device of a Philadelphia Convention—which, as our readers will remember, we always opposed—and whose purposeless swinging around the circle have done the Democratic party a frightful amount of injury. Mr. Johnson has been dangerous only to his friends: he has labored hard to manufacture capital for his enemies. Without any of his spurious assistance, the Democracy would have been stronger to-day. His tour cost us Hoffman's defeat. It is only in this city, where the Democracy practically repudiated Mr. Johnson, that we have been able to hold our own and to increase our vote."

☞ The great New York Canal is closed for the winter.

THE SANDWICH ISLANDS.—Chinamen with their families are emigrating to the Sandwich Islands, where they propose to become farmers, and the Honolulu Advertiser thinks it likely that in a few years the Chinese may outnumber the native population.——There was another eruption in the volcano of Kileanea, Oct. 15. It was a splendid sight, for the night was literally turned into day.

— Geo. H. Pendleton is said to have adopted the Chicago Times platform of impartial suffrage.

— The jail at Council Bluffs was destroyed by fire on Sunday morning, 2d inst., and one prisoner was burned to death in it. It was a cotton wood structure. The prisoner had been placed in jail at midnight, and the fact of his being there was not known to those who witnessed the fire.

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, sudden burns, cholera, dysentery, cholera, fever and ague, and the host of diseases, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and and extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it its healing influences more potent than those of the spices of "Araby the blest." We are informed by our principal druggists, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.* d1—daw 1m

AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the sale and cures of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

"BOSTON, Mass.

"ORRIN SKINNER & Co.—*Sirs:*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. To my great surprise and satisfaction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Coughs, had used a bottle of each of them, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is astonished to acknowledge that they are valuable. Truly yours, A. B. ELDER."

Smolander's Extract of BUCHU!

is sold by all Apothecaries, everywhere, for only ONE DOLLAR. It is a certain cure for *Disease of the Kidneys, Gravel, Rheumatism, Gout, Dropsy, Female Disorders, and General Debility,* arising from excesses of any kind. Read the following Testimonial, from a City Business Man:

CHARLESTOWN, Mass., Nov. 23, 1865.

Messrs. BURLEIGH & ROGERS, Boston, Mass:

I feel it a duty I owe to myself, and to such of the community as are suffering as I have suffered, to make known through the medium of your advertisements of the virtues, through the blessing of God, you have wrought upon me by using SMOLANDER'S BUCHU. I had *suffered over one year with Kidney Disease* and was induced to look four bottles of *Smolander's Buchu*, and it *cured me.* WILLIAM M. MELLEN,
City Missionary.

All Apothecaries sell this valuable Preparation, and ask only One Dollar for it. Try it.

ALLCOCK'S POROUS PLASTERS.

LAME BACK.

New York, Nov. 23, 1859.

T. ALLCOCK & Co.—Gentlemen: I lately suffered severely from a weakness in my back.—Having heard your plasters much recommended for cases of this kind, I procured one, and the result was all I could desire. A single plaster cured me in a week. Yours respectfully,
J. G. BRIGGS, Proprietor of Brandreth House.

CURE OF CHICK IN THE BACK AND LUMBAGO.

Lyons, N. Y., July 4, 1862.

Messrs. ALLCOCK & Co.: Please send me a dollar's worth of your plasters. They have cured me of a crick in my back, which has troubled me for some time, and now my father is going to try them for difficulty about his heart.
L. H. SHERWOOD.

Dr. Green, No. 863 Broadway, New York, informs us he sold, on Monday, June 22d, 1862, two plasters to a young woman suffering very severely from lumbago. On Thursday she called to get two more for a friend, and then stated that the two she had purchased on Monday had relieved her immediately after putting them on, and CURED HER IN TWO DAYS of a most distressing pain in her back and loins.

Sold by all Druggists. n29—dawlm

Local.

☞ Rev. Dr. Bellows of New York, is to lecture before the Lyceum this (Friday) evening; and it is needless to say, that he will deeply interest any audience. He is one of our most earnest, eloquent and truly patriotic statesmen and orators.

It was designed to have piano music for introduction to the lecture, but the committee at last accounts had not succeeded in finding anybody who could and would play—a lack which is often felt here on such public occasions, but which ought not to be.

☞ A marine belonging on the Navy Yard, and who had been out on leave last Saturday, found himself behind time in the evening, with the gate shut at the bridge as usual,—and, as is supposed in his efforts to get upon the Yard, fell overboard and was drowned. His name was Robert Edgar, age 22 years, place of residence, Philadelphia; had been in the Marine Corps ten months.

☞ The City Hotel having just been closed out of furniture, that house and the Stone Stable connected, are now closed to the public. Our only hotels now, are, the Rockingham and Franklin Houses, though we think Mr. Philbrick's new boarding house will in a great measure fill the place of a good hotel.

☞ At the inquest held upon the body of the child found buried in the cellar of Charles E. Johnson, on Mt. Vernon street, held on Thursday, the jury (composed of John Bennett, Coroner; Sam'l W. Moses, William H. Hackett and Charles A. Shannon) returned a verdict to the effect that on the 19th of November last the said Charles E. Johnson did kill and murder the said child, and that his wife, Mary Johnson, was accessory to said murder.

Editors Chronicle:—At a Caucus of the Republicans of Rye, Dec. 12, the following gentlemen were elected delegates to the several Conventions.

J. T. WALKER, Sec.

State—Emmon B. Philbrick, Jedidiah Rand.

Congressional—G. H. Jenness, Edward H. Balch.

Councillor—Ruel G. Shapley, Lewis E. Walker.

County—Levi W. Marden, John T. Marden.

Senatorial—Jonathan T. Walker, James W. Marden.

☞ If we were going to drink anything of the liquor sort, we should prefer cider before any wine we ever tasted. And we don't know anybody who knows how to keep it sweet and unfermented, better than Mr. Avery, of the Union Billiard Saloon; but unfortunately he dont know how, well enough to tell anybody else!

'PERLY' telegraphs to the Boston Journal from Washington, Thursday, as follows: "President Johnson gave a flat refusal this morning, to two New England Democrats who waited on him with a "slate" of appointments, and gave them to understand that he had already done more in that line than was now agreeable. The disinterested politicians of course now denounce him as false to the Democratic party."

☞ By the Atlantic cable, from London Thursday noon, Dec. 13, we learn that a most appalling explosion occurred in the colliery at Barnsley, in the county of York. The loss of life was frightful. The bodies of over three hundred have already been taken from the mine and many others are still unaccounted for.

— The abandoned infants in New York number seven a day.

— Trains will probably be running from Maine to California in three years.

— Every man who is not a monster, a mathematician, or a mad philosopher, is the slave of some woman.

— The President's party, true and reliable, is said to consist now of three members in the Senate and three in the House.

"What a fall was there!" &c.

— The treasurer of a building association in Philadelphia, composed of poor Germans, is reported to have absconded with all its funds, about $14,000.

— The oil wells in Southeastern Kentucky, which promised so fairly last fall, have disappointed the owners. The drills have been almost universally abandoned, and many persons have been ruined.

— The Merrimac, Brandywine, and other wrecks at Hampton Roads, are likely to be brought to the surface by the wreckers at work on them. Lots of anchors, chains, &c., have been recovered.

— Baltimore is maintaining its unenviable reputation for rowdyism. That city at present is terribly afflicted with gangs of thieves and pickpockets, who are committing their depredations day and night, to an extent never before known. In some instances they have attacked ladies in broad daylight, and robbed them of their pocket-monnaies.

SEEDY.—The latest "female invention" is the wearing of little bags of bird seed where cotton and curled hair have previously been used to give development to the figure. It is said to look more "natural."

GOLD, Thursday, 1.37 1-2.

— A number of Senators and Representatives have indicated their intention to spend Christmas in the Southern cities.

— The Charlotte (N. C.) Democrat favors the amendment, as the last thing the South can do, and preferable to a reconstruction of their government.

— Private letters written from the Gulf States on Thanksgiving day say that "the South is waiting for the release of Jeff. Davis before she celebrates her Thanksgiving."

— Miss Alice Gilmore, a young lady of Bath, Me., was so severely burned by the breaking of a fluid lamp, and the ignition of her clothing, last Sunday night, that her recovery is doubtful.

— A colored man and his five children were burned to death in their cabin, on the plantation of W. C. Hays, near Cuthbert, Ga., one night recently. No effort appears to have been made to save them, and the circumstances are calculated to excite suspicion of foul play.

— The proud man walks among daggers pointed against him; whereas the humble and the affable have the people for their guard, in danger. To be humble to our superiors, is duty; to our equals, courtesy; to our inferiors, generosity; and these, notwithstanding their lowliness, convey such a sway as to command men's hearts.

DR. SCHENCK'S NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 33 Hanover Street**, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part; also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.
